RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in *"Italics."* State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, May 14, 1870.

Stock Exchange and Money Market.

There has been an unusually full offering of Money reported in the call loan line since our last, and to the prominent Government and Stock Exchange firms advances have been freely made at 4@5 per cent., with exceptional negotiations at the extreme figure of 6 per cent., in a controllable form. The city banks as well as private lenders have been eager to place their accumulating balances advantageously, but have found the demand far behind the available supply from day to day, though in consequence of the rapidly growing business at the Stock and Gold Boards, as well as of the enlarged dealings in the Public Funds, the inquiry for accommodation has been more active than through the preceding week. There has been a livelier demand for strictly prime to good mercantile paper, which has been in comparatively moderate supply and rated at from 6@7 per cent. per annum as extremes. The city banks, in their last weekly statement, showed a further important addition to their reserves, including $8,572,868 of deposits, $2,681,403 of specie and $1,164,057 of legal tender notes. Their loan averages were augmented $5,742,186. The U. S. Sub-Treasury closed the week with a coin balance of $76,689,647, and a currency balance of $1,643,908. The aggregate coin reserve of the Treasury Department on Monday was $110,724,000; currency, $10,000,000. Of the coin reserve, $34,019,000 were represented by outstanding coin certificates.

The specie reserve of the city banks according to the latest return is $31,498,999, against $16,081,489 same time last year. The city bank deposits are now $217,362,218, against $193,893,137 week ending May 8, 1869. The legal tender reserve amounts to $56,108,922, against $55,109,573 same time last year. The circulation now stands at $23,444,641, against $23,986,160 same time last year. The loans are now $275,246,471, against $268,486,372 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged about $116,843,490 a day, against a daily average of $108,919,186 the preceding week, and $74,076,755 the week ending with April 23, 1870. The current week's exchanges average about 108 millions a day. The city banks, last week, reported a gain of $2,681,403 of specie, $8,572,862 of deposits, and $1,164,057 of legal tender notes. They increased their loans, $5,742,186; and reduced their circulation, $61,752.

The city bank exchanges on Wednesday were about 102 millions.

National Bank notes to the amount of $291,170 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $323,611,756, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $24,067,133, leaving, with the existing 1,614 banks, (having an aggregate capital of $427,004,247,) an actual circulation at this date, of $299,543,623. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,278,550; and for the public deposits, $16,510,000—making a total of $358,783,550. The Treasury Department last week redeemed and destroyed $621,100 of worn and mutilated fractional currency, and issued $1,810,059 of new.

The U. S. Sub-Treasury receipts, week ending with May 7, were $5,177,256 in coin, (including $3,086,000 from customs duties,) and $4,429,079 in currency; payments, $13,611,034 in coin, (including $10,619,563 of coin interest,) and $4,698,512 in currency; balance at the close of the week, $86,642,575 (including $76,689,647, of coin, and $1,643,908 of currency,) against $88,231,250 at the close of the preceding week, showing a decrease of $1,588,675. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $594,019 in coin, (including $393,062 from customs,) and $464,499 in currency; payments, $520,576 in coin, (including $491,000 of coin interest,) and $42,0826 in currency. On Tuesday, receipts, $432,003 in coin (including $401,384 from customs), and $787,674 in currency; payments, $516,196 in coin (including $404,000 of coin interest) and $400,419 of currency. The balance at the close of business on Tuesday stood at $81,879,042, (including $2,185,832 of currency, and $76,878,898 of coin,)

against $89,412,673 a week previous; and $88,453,470 on April 23, 1870. The aggregate receipts of the office in April were $38,914,767, including $13,193,882 from customs; aggregate payments, $33,538,278 including $836,564 of coin interest; balance at the close of the month, $88,231,250, against $82,854,761 at the close of March.

The U. S. Sub-Treasurer issued in April $1,317,500 of coin certificates.

The U. S. Sub Treasurer retired, last week, $2,788,376 of coin certificates, received for customs.

The U. S. Sub-Treasury general balance on Thursday morning was $82,225,739.

Government revenues were on a more liberal scale. The excises, during the week yielded $4,301,649; customs at the port of New York, $2,971,377, and at the outports about a million (in coin) more, making the grand total income for the week equal to about $8,868,731 in currency. The receipts from excises, thus far in the current fiscal year, commencing with July 1, 1869, have been $141,498,048.

Gold has been more active, and the price has shown decidedly more firmness, the range having been from 114¼@115¼, and the closing quotation on Wednesday was 115⅛. The speculative inquiry has been more confident. The export demand has been quite moderate, having absorbed only about three-quarters of a million, since our last. On Wednesday Government marketed a million of Gold at from 114 93@115 03. The aggregate of the bids was $5,305,000, and the range from 114⅞@115¼.

The coin balance of the Treasury Department on Monday was $110,724,000, including $34,019,000 on private deposit; currency balance, $10,000,000.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $76,820,094.

The customs revenue of the port on Wednesday was $452,000.

The actual coin interest payments of the Sub-Treasury on Wednesday were $511,850.

The customs demand for Gold last week, averaged $514,334 a day; thus far, this week, it has averaged $397,223 a day, or equal to a weekly aggregate of $2,383,338. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $31,626; and since Jan. 1, 1870, $6,340,509, against $8,463,145 same time in 1869. The total customs revenue of the Government, in coin, at this port, thus far in the current fiscal year, commencing with July 1, 1869, has been $115,320,343, against $108,790,376 in 1868–'69.

The customs revenue at the port of San Francisco, from Jan. 1 to April 29, was $2,526,084, against $2,449,365 same time last year.

The exports of specie, from this port, last week, were $591,434 against $425,890 same week last year; total, since July 1, 1869, $25,369,731, against $33,117,744 same time preceding fiscal year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $10,619,563, and since July 1, 1869, $78,314,681, against $79,607,551 in 1868–'69.

The specie exports from San Francisco, from Jan. 1 to April 22d, were $12,995,698, against $12,264,558 same time last year.

Foreign Exchange has been in fair demand and a trifle firmer in price. Bankers' prime sixty day bills on London closed buoyantly on Wednesday at 109¼@109½, and on Paris to 5.21¼@5.16¼; sight bills on London to 109¾@110, and on Paris to 5.15⅝@5.13¾. The offerings of produce bills have been up to a fair average our since last. The week's exports of domestic produce have been to the currency value of $3,419,985, making the total since July 1, 1869, $170,528,178, against $140,308,006 same time preceding fiscal year.

Government securities have been quite freely purchased, chiefly for home investment, and, with very moderate offerings of all issues of the coin bearing bonds, prices advanced rather sharply, closing with an upward tendency. On Thursday, Government bought in a million of Five-Twenties at about the open market rates.

U. S. sixes of 1881 closed here at 117@117¼; U. S. Five-twenties of 1862, 112⅜@112½; U. S. Five twenties of 1864 at 111¾@111⅞; U. S. Five-twenties of 1865 at 112@112⅛; U. S. Five-twenties of 1865 consolidated, 114¼@114⅜; U. S. Five-twenties of 1867, 114⅝@114¾; U. S. Five-twenties of 1868, 114⅝@114¾; U. S. Ten-forties at 108⅜@108⅝; U. S. Six per cent. currency bonds, 112⅝@112¾.

The latest quotations at the London Stock Exchange compare as follows with former returns;

	April 27.	May 4.	May 11.

At. and Gt. West	27	27½	28⅛

State bonds have been in fair demand at fairly supported prices.

Railway bonds have been more sought after, on investment account, at buoyant prices. Central Pacific Sixes closed at 93¼@93½. Union Pacific Sixes at 85⅞@86; and the new Chesapeake and Ohio First Mortgage Thirty year Bonds at 90 per cent. and accrued interest in currency.

Railway and miscellaneous share property has been in brisk speculative request at higher and rising prices.

A fairly active business has been reported, since our last, in the leading kinds of domestic produce, at rather stronger prices, as a rule. Middling upland cotton closed on Wednesday at 23½ cts. per lb. The stock of cotton now here is given at about 46,500 bales. The receipts at the port this week, have averaged about 4,700 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,593,700 bales, against 1,925,000 bales in 1868–'9; exports, same time 1,815,850 bales, against 1,243,800 bales same time in 1868–'9; stock on hand at latest dates, 334,150 bales, against 284,000 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 4,919 pkgs., against 8,818 pkgs., same time in 1869. From Boston, 1,326 pkgs. in 1870, against 8,574 pkgs. same time in 1869.

Foreign goods have been in moderate demand at generally steady prices. The week's imports of foreign dry goods were to the specie value of $1,433,476; and of foreign merchandise, $4,768,817, making a total of $6,202,293, against $7,672,849 same week last year.

At the Live Stock markets, this week, Beeves have been in moderate demand at from 12@17¼c. per lb.; week's receipts, 5,932. Milch cows have been in fair request, at $40@$100 each, receipts, 104. Veal calves have been quiet, at from 5@10c. per lb.; receipts, 4,951. Sheep salable at from 6@9¼c.; lambs at 12@18c. per lb.; receipts, 18,235. Swine quiet at 9½@10⅛c. per lb., all live weight; receipts, 17,457.

Ocean freights have been comparatively quiet, but generally steady. For Liverpool we quote flour at 1s. 3d. by sail, and 1s. 6d. by steamer, per bbl.; grain at 3½d.@4 by sail, and 4½d. by steamer, per bushel; cotton at ⅛d.@$\frac{3}{16}$d. by sail, and ¼d. by steamer per lb.; and heavy goods 10s. @25s. by sail, and 15s.@35s. by steamer, per ton. Total number of vessels in port on Wednesday, 509.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending May 10, and since the beginning of the year:

	1869.	1870.
For the week	$4,622,424	$3,419,985
Previously reported	55,570,842	57,763,096
Since Jan. 1	$60,193,266	$61,183,081

The imports for the week ending May 7, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$1,485,736	$1,433,476
Gen. merchandise	6,187,113	4,768,817
Total for the week	$7,672,849	$6,202,293
Previously reported	108,497,526	101,662,487
Since January 1	$116,170,375	$107,864,780

The balance in the Sub-Treasury on Wednesday was $82,225,738 69.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Oswego and Rome Railroad.

At the annual meeting of this company held on the 3d inst., the following named gentlemen were unanimously elected officers for the ensuing year:

Marcellus Massey, President. S. D. Hungerford, Vice-President. J. A Lawyer, Treasurer. C. M. Moore, Secretary.

The road of this company, hitherto operated by the Rome, Watertown and Ogdensburgh Company, under perpetual lease, has recently become virtually the property of the latter company.

☞ One-third of the capital of the Rensselaer and Saratoga railroad has been purchased by the Delaware and Hudson Canal Company, and one-sixth by Commodore Vanderbilt. Great improvements are contemplated in the rolling stock, the road-bed, and in the erection of new depots and docks on Green Island. The present capital stock of $3,000,000 will be increased by calls on stockholders until a sufficient sum is raised to make all the desired changes.

☞ Mr. Ashbel Welsh, General President of the United Companies of New Jersey, states in his annual report that he is using this year almost altogether steel rails, having already procured upwards of thirty miles of steel and steel-headed rails, and that the intention was to substitute them altogether for iron on all the main lines of their several roads.

☞ The certificate of incorporation of the Lake Branch of the Baltimore, Pittsburgh and Connellsville Railroad was filed at the Secretary of State's office at Columbus, Ohio, a few days ago. The proposed road is to extend from Elyria, Lorain county, through the counties of Medina, Wayne, Stark, Tuscarawas, Harrison and Belmont Station, on the Central Ohio Railroad.

☞ THE CHESAPEAKE AND OHIO RAILROAD, (now in operation from the port of Richmond to the famous White Sulphur Springs of West Virginia, 227 miles,) is being rapidly extended to the Ohio River, at the Kentucky line, where it will connect with lines in progress to the chief railroad centers of the West. An immense through business awaits its completion, besides a profitable traffic from the agricultural and mineral products so abundant along the route.

The Company offer through us their SIX PER CENT. GOLD BONDS, secured by mortgage on the entire Trunk Line (427 miles) and the large equipment therefor, at 90 and accrued interest from May I. The net earnings of the road are already more than sufficient to meet the interest on its outstanding Bonds. Government and other securities received at full market rates in exchange.

Descriptive pamphlets furnished.

FISK & HATCH, Bankers, &c.,
No. 5 Nassau st.

Lehigh Coal and Navigation Co.

The report of this company, which we publish in full in our present issue, will repay careful perusal, and will be found to be a most gratifying exhibit of the skilful management of the Company. We do not propose to recapitulate either the figures or the argument of the report, as the detail is of sufficient interest to obviate the necessity for an abstract. Twice during the year the Lehigh river was swollen by severe freshets, and these naturally interfered with the complete fulfilment of the anticipations of profit; but work has been constant in repairing the disastrous effects of these storms, and providing against like contingencies in the future. The railroad, rather than the canal, is looked to as the source of the great wealth in traffic and recompense which the future must bring. There was a net increase in the tonnage over that of 1868 of 45,488 tons, and the production from the company's mines stands 563,914 tons for 1869, against 467,126 for the previous year.

☞ William Toothe, Esq., has taken charge of the sales department of "The William Butcher Steel Works," and has established an office at No. 59 John street New York. The officers of the company are: Samuel Huston, President; H. P. Rutter, Secretary and Treasurer; Wm. Butcher, General Superintendent; Wm. Toothe, General Agent.

☞ The $400,000 First Mortgage seven per cent. bonds of the "Chicago, Cincinnati and Louisville Railroad Company" offered for sale by Messrs. J. A. Underwood & Son, and Caldwell & Co., are only a part of the first and only issue of the company for $1,000,000—$600,000 having been already placed. These bonds are secured by a mortgage upon the entire property, and are at the rate of only $13,700 per mile.

☞ The following gentlemen have been elected directors of the Cincinnati, Hamilton and Dayton Railroad Company: S. S. L'Hommedieu, John Young, John W. Ellis, Wm. Goodman, George T. Stedman, Lowell Fletcher, H. D. Huntington, Samuel Fosdick, and Daniel McLaren. The officers are: S. S. L'Hommedieu, President, D. McLaren, Vice-President and General Superintendent, and F. H. Short Secretary and Treasurer.

Movements of Produce.

The Receipts of certain articles of domestic produce at the port of New York for the four months from January 1st, were:

	1869.	1870.
Ashes, bbls.	3,049	3,153
Breadstuffs—

Journal of Railroad Law.

COMMON CARRIERS—WHEN WAY BILL IS TO BE EXCLUDED AS EVIDENCE—DISCREPANCY BETWEEN BILL OF LADING AND RECEIPT.

The facts in the late case of Erb *vs.* The Keokuk Packet Company (43 Mo., 53,) are fully and clearly stated in the following opinion by

Fagg, J.—This action was brought to recover the value of three boxes of goods shipped at the City of St. Louis, on one of the defendant's boats, to be delivered at the City of Leavenworth. The loss of the goods in question being established to the satisfaction of the jury at the trial, the respondents had judgment for the amount claimed, and an appeal has been duly prosecuted to this court.

At the instance of the plaintiff below, the jury was directed, upon satisfactory proof of the fact that there was a failure to deliver the packages at the place designated in the contract of affreightment, to find for the plaintiff and assess his damages at the value of the goods. The propriety of such an instruction cannot be questioned. It presented really the only issue that the jury was called to pass upon, and its form was unobjectionable. The chief ground of objection, however, to the action of the court below, as presented by the argument of appellant's counsel, is the exclusion of testimony: There seems to be no controversy about the fact that the goods in question were included in the bill of lading and shipped as alleged in the petition. These three boxes, however, were not included in the receipt given at the point of destination. The appellant, as it is shown by the bill of exceptions, offered in evidence a certain way-bill on the Hannibal and St. Joseph Railroad, as well as the manifest of a steamboat plying between Weston and Leavenworth—these being portions of the line over which the goods had to pass—to explain the discrepancy between the receipt and bill of lading.

The court committed no error in excluding such evidence. These papers constituted no part of the contract for the delivery of the goods. However useful they may have been to the parties operating these different means of transportation, they ought not to effect the rights of the respondents. To permit carriers thus to manufacture evidence for themselves would establish a practice contrary to the well-known principles of law, and one that might be extensively used to the injury of shippers.

The whole case depended upon a question of fact, and we see nothing in the record that can authorize this court to interfere with the finding of the jury. The judgment is therefore affirmed.

☞ The Toledo *Blade* says that work will immediately begin on the Lake Erie branch of the Baltimore and Ohio Railroad. The survey will begin at Crestline, and the work will be prosecuted in the direction of Toledo. The right of way will be secured as the work advances.

☞ At a meeting of the stockholders of the Cairo and Fulton Railroad on the 2d inst., M. L. Rice, A. McDonald, L. H. Roots, Joseph Brooks, R. F. Catterson, M. W. Benjamin, W. W. Leverett, Henry Page, J. L. Hodges, James Coates, F. M. Chrisman, J. M. Lewis, P. H. Young, were elected directors for the ensuing year. Subsequently, M. L. Rice was elected President.

Milwaukee and Northern Railroad.

Our Northern railroad interests have a good look. President O. H. Waldo, of the Northern Company, by notice elsewhere, calls for proposals for grading and bridging the first division of the road. The line leaves the St. Paul road near Schwartzburg, and follows the route of the old Superior road to Cedarburg and Grafton, a distance of twenty miles, the work to be ready for the iron by the first of July.

For years the people of Milwaukee have looked anxiously for railroad communication with the North, as they of the North have as anxiously looked for an outlet by rail to this city. The time has come for the great work to be commenced, and now that it may be said to be under way, we do not believe there will be any delay until Milwaukee, the lake shore cities, the interior towns and the Fox River Valley are united. The Northern Company in engaging in the work have consulted the interests of all sections, and we have every confidence that in pushing their work to the north, these interests, in the future as in the past, will be considered. The company enter their work under the most flattering auspices. Milwaukee wants the road to reach the people of the State and she is willing to assist in building it. The people of the north want the road, to be in direct communication with Milwaukee, and they have expressed a willingness to assist in the work, and when all join hands, as they now are doing, we see no reason for the work to stop a single hour at the end of the first section. We do not believe it will.

The gentlemen of the Northern Company have certainly pushed their work with commendable zeal. In their consultations they have been earnest but frank, have held out no inducements that they have not now shown their ability to fulfil, and before the "ides of November" we expect to ride over their line to Cedarburgh and Grafton, while miles beyond, towards the lake shore and the Fox River towns, the spade and the pick will be busy in preparing for miles of track. Milwaukee doing her share and the people along the way lending their aid—all of which will be done willingly—it may well be said, all goes well along the Northern line.

We have waited years—patiently and never without hope of a road up the North tapping the rich and prosperous sections there. Now that the time has come for it and now that the work is inaugurated under auspices so flattering, who shall wonder that Milwaukee in common with her Northern friends, is very well pleased.—*Milwaukee Wisconsin.*

☞ The State of Maryland has begun suit in the Superior Court at Baltimore, against the Baltimore and Ohio Railroad, to recover the value in gold over currency in dividends paid the State on preferred stock owned by it, amounting to nearly $2,000,000. The claim is based on the recent legal tender decision of the Supreme Court of the United States.

☞ The shipments of ore and pig iron from the Lake Superior Mining District, for the season, up to May 4th *via* Peninsula Railroad, was as follows: Ore, 12,328 tons; pig iron, 1,230 tons. The movement by the Marquette and Ontonagon Railroad during the same time was: iron ore, 16,645 tons; pig iron, 5,388 tons—total, 22,033.

☞ The directors of the Delaware and Raritan Canal Company are: Robert F. Stockton, John M. Read, Moses Taylor, John G. Stevens, Richard S. Conover, William W. Shippen, Albert W. Markley, John Jacob Astor, George M. Dorrance.

☞ William H. Gatzmer, Benjamin Fish, Cambridge Livingston, Ashbel Welch, Charles Mac Alister, William G. Cook, have been elected directors of the Camden and Amboy Railroad Company.

Rutland Railroad.

In order to settle the outstanding claims under the first mortgage of the Rutland and Burlington Railroad, to relieve the Company from all incumbrances and place it under corporate management, the Directors are authorized to issue a preferred 7 per cent. stock, free of Government tax, which is offered to the holders of both the preferred and common stock on terms which render it equal to a 10 per cent. investment. We understand the holders of the preferred stock have almost unanimously subscribed for their proportion, and a similar subscription on the part of the holders of the common will enable the Directors to settle all claims under mortgages and give the corporation the entire and absolute control of the property. A circular has been issued to the holders of common stock which sets forth the conditions on which the subscriptions will be received, and by which they can secure one of the most desirable investments in the market for the money advanced, and also protect and secure the ultimate value of their stock. When all outstanding claims are settled the preferred stock will not exceed $4,300,000 on 120 miles of road, with its equipment, machine shops, wharfs, &c. The Company has hitherto been embarrassed by expensive litigations, but the property once under a corporate management, cannot fail to show largely increased earnings.—*Boston Journal.*

Bedford and Bridgeport Railroad.

The survey of the railroad from Mount Dallas to Bedford, which will connect with the Cumberland (Maryland) coal region, was made last week by Mr. Fulton, Chief Engineer of the Huntingdon and Broadtop Railroad. The estimate will be made in a short time and will be laid before our readers at the earliest moment. It is believed the grading and bridging of the road can be done for $75,000, and perhaps less. If the estimates verify these figures there will be but little difficulty in raising the money and putting the road under contract in a short time. The distance as surveyed is seven miles and a-half, following the crossing at Mt. Dallas and keeping the south side until west of the gap below Bedford. There will be two bridges, one at Mount Dallas and one over the Raystown branch above the junction with Dunning's creek. We hope to be able to report the survey of the Bridgeport section in a short time, as that portion of the road is of the highest importance to our iron interests, and, in case of any difficulty on the eastern section, may be built first.—*Bedford Inquirer.*

☞ The Upper Marlboro *Prince Georgian* says that the grading of the entire line of the Baltimore and Potomac Railroad from the District line to Baltimore, with the exception of three sections, which will be finished during the present month, has been completed. The grading from Collington (the junction) to Marlboro' has also been finished. The cross-ties have been mostly delivered, and the rails have been contracted for. It is not improbable but the rails will be down this summer, and that several months before the 1st of April next trains will be running.

☞ The Easton *Gazette* says that work has been resumed on the Maryland and Delaware Railroad below Easton. The grading will be continued until the point is reached where the course will have to be changed in the direction of Oxford or Chancellor's Point—whichever may be settled upon as the terminus. When this is definitely ascertained the work will be pushed on to speedy completion.

☞ The Buffalo *Advertiser* expresses a belief that the proposed international bridge across the Niagara river near that city will shortly be built by the Grand Trunk Railway Company of Canada.

A SAFE INVESTMENT.

First Mortgage Bonds of the Chicago, Cincinnati and Louisville Railroad Company.

These bonds are part of the first and only issue of the Company for $1,000,000, covering its entire property, and are at the rate of $13,700 per mile. Of the whole amount $600,000 have been already placed, leaving but $400,000 to be sold. They are 7 per cent. coupon bonds due in 1887, interest payable 1st January and July in New York. The Road is in operation. It is 73 miles long, extending from La Porte on the Lake Shore and Michigan Southern to Peru, where it connects with the Toledo, Wabash and Western and the Peru and Indianapolis Roads. It runs through one of the finest sections of Indiana, and makes a connecting link in the best through line from Chicago to Indianapolis, and thence to Cincinnati and Louisville.

We confidently offer these bonds as a desirable security to investors, AS THE NET EARNINGS OF THE ROAD FROM THE OPENING HAVE BEEN IN EXCESS OF THE INTEREST ON ITS BONDED DEBT, AND ARE CONSTANTLY INCREASING. Besides it is designed to extend the Road to Lake Michigan at New Buffalo or Michigan City the coming season, which will also greatly increase its earnings.

J. A. UNDERWOOD & SON,
No. 18 Exchange place.
CALDWELL & CO.,
No. 27 Wall st.

Illinois Central Railroad.

The statement of this Company for the month of April, 1870, is as follows:

LAND DEPARTMENT.

Acres Construction Lands Sold	5,271.85 for	$47,755 67
Acres Int. Fund Lands sold	159.33 for	1,656 17
Acres Free Lands sold	40.00 for	568 00
Total sales during month of April, 1870	5,471.18 for	$49,979 84
To which add Town Lot Sales		
Total of all	5,471.18 for	$49,970 84
Cash collected in April, 1870		$155,856 70

ESTIMATED EARNINGS—TRAFFIC DEPARTMENT.

	In Illinois 707 Miles.	In Iowa 258¼ Miles.	Total. 965¼ Miles.
Freight	$289,247 00	$53,138 00	$342,385 00
Passengers	133,362 70	38,448 40	171,811 10
Mails	6,375 00	1,029 08	7,404 08
Other sources	74,000 00	1,970 92	75,970 92
Tot'l Apr.,'70	$502,984 70	$94,586 40	$597,571 10
Total actual earn'gs, Apr. 1869	$477,582 05	$90,700 27	$568,282 32

☞ The extension of the Cedar Falls and Minnesota Branch of the Iowa Division of the Illinois Central Railroad from St. Ansagar to the Minnesota line will probably be accepted from the hands of the contractors soon. At present trains run as far as Mona, four miles south of the line and fifteen miles south of Austin.

☞ The new railroad from Atsion to Vineland, N. J., is nearly graded, and the work of laying the rails will be commenced in about two weeks.

Little Rock and Fort Smith R. R.

The first twenty miles of this road were completed on the 23d of April, and on the 28th an excursion party, on invitation of the Chief Engineer, A. P. Robinson, Esq., passed over it. The *Arkansas Gazette*, of May 3d, in announcing the fact, says:

The first twenty miles were completed just in time to save the congressional land grant, the time expiring on the day of the excursion. We were informed by the officers of the road that if necessary the grading of the whole of the first eighty miles could be finished in one month from to-day. It is the intention to have the road finished to Lewisburg by the 4th day of July. By the 15th or 20th of May 10 miles more will be completed. The ties are all out for the road to Lewisburg, and the greater portion of the grading done. At present the company is waiting for iron, having only enough to lay about three miles. A thousand tons is expected within two or three weeks. Another locomotive, "Pope," and several passenger and other cars are in *transit*. No regular trains will be run till the road reaches Lewisburg.

The contractors for the building of the road are Messrs. Pierce, Steacy and Jorston. Mr. Steacy is here in person, superintending the work. About 1,000 men are now employed on the road. Mr. B. McKenna, general purchasing agent, leaves for New Orleans to-day for 200 more laborers.

Norfolk and Great Western Railroad.

We obtain the following facts from Colonel Flournoy, the President, and of course they are reliable:

A contract has been entered into with responsible parties in New York to construct the Norfolk and Great Western Railroad, upon terms most favorable to our people. This is what we have to do, namely: raise five million in county and corporate subscriptions, secure the right of way and the cross ties. The New York company take the interest of the railroad in the Land and Immigration Company, based upon a subscription of five hundred thousand acres of land.

The party contracting to build, take the remainder, eleven millions, in stock of the Company. The securities are to be paid over to them as the work progresses.

Already nearly the whole right of way has been given. The counties have already voted two millions of corporate subscriptions, and the land owners have subscribed a hundred thousand acres.

If the above subscription is completed, the building of the road Col. Flournoy regards as a certainty, and the work will begin simultaneously at Danville and Norfolk, by the first of August, providing the subscription be completed by that time.—*Danville (Va.) Times.*

☞ The Canadian *News* says: "The Woodstock and Riviere du Loup Railway may now be looked upon as a *fait accompli*. The New Brunswick Legislature has given it a magnificent land grant, fully sufficient, with the stock already subscribed, to insure its speedy construction. It will follow the valley of the St. John, and will undoubtedly prove a powerful competitor to the Intercolonial. The respective distances by both routes from Montreal to St. John are—Intercolonial, 757 miles; Woodstock, 625."

☞ The Baltimore *American* says that Mr. McElroy, one of the engineers, with his assistants, will commence to resurvey and permanently locate the Shenandoah Valley Railroad on Monday next from Charlestown to Shepherdstown, and from thence to Hagerstown. There are three corps of engineers now in the field, surveying and locating the road extending from Hagerstown to Salem, Va.

☞ The shipments of coal from the Cumberland (Md.) region for the year 1870, up to April 30th have been 300,760 tons—of which 231,060 were by the Baltimore and Ohio Railroad, and 69,700 by the Chesapeake and Ohio Canal. The shipments from the Hampshire and Baltimore Company Virginia mines for the year were 23,665 tons. The shipments from the mines of the Virginia Coal and Iron Co. for the month of April were 1,501.17 tons.

☞ The Ironton (Ohio) *Journal* learns that a portion of the Eastern Kentucky Railroad, between Hunnewell Furnace and Grayson, has been let, and is to be completed ready for ties and rails by the first of January next. Also that the contracts will soon be let for a branch road to the famous Lambert ore banks, and another down Tygart to the Ohio river, near Portsmouth.

☞ A. J. Hodder, Esq., has been elected President of the Dayton and Cincinnati Short line R. R. Co., vice James Goodin, resigned.

THE WILLIAM BUTCHER

STEEL WORKS,

59 John Street, New York.

SAMUEL HUSTON, Pres., WM. BUTCHER, Gen'l Supt.,
H. P. RUTTER, Sec. & Treas., WM. TOOTHE, Gen'l Agent.

NEW YORK, 2d May, 1870.

The undersigned desires to inform his friends that he has this day taken charge of the sales department of the above works.

Yours very respectfully,

WILLIAM TOOTHE.

Northern Pacific Railroad.

To Railroad Contractors.

SEALED PROPOSALS will be received at the office of the Northern Pacific Railroad Company, 120 Broadway, corner of Cedar street, New York, until Wednesday, the 1st day of June, 1870, at 12 o'clock noon, for the grading, masonry, bridging and ballasting of that portion of the Northern Pacific Railroad in the State of Minnesota extending from the Dallas of the St. Louis river to the Red river, the western boundary of Minnesota (a distance of about 230 miles), including everything requisite to complete the road bed for a single track and necessary side tracks, ready to receive the rail superstructure. Proposals may be for the work in detail or by the mile.

The said company will also receive proposals, at the same time and place, for the timber cross-ties, and for the iron rails, spikes and fixtures for the road as above. The iron rails to be delivered on the dock at Duluth, Minnesota, or at the crossing of the Mississippi River, and the ties to be received according to blank forms which will be ready for distribution on Wednesday, May, 4, 1870, at the office of the company, as above, where plans of the structures and maps and profiles of the road, with full specifications, can then be seen, and the time allowed for completion of the contracts made known.

The company reserve the right to reject any or all bids not deemed to be for the interest of the company.

Printed circulars, containing full information, will be furnished on application, by mail or otherwise, to Edwin F. Johnson, Chief Engineer, or to the President of the company, at the office, 120 Broadway, as above.

J. GREGORY SMITH,
President Northern Pacific Railroad Co.

NEW YORK, April 26, 1870.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO.,
NEW YORK, May 2d, 1870.

The Annual Meeting of the Shareholders of the Illinois Central Railroad Company, for the election of directors and the transaction of other business, will be held at the office of the Company, in the city of Chicago, on WEDNESDAY, the twenty-fifth day of May instant, at 12 o'clock noon.

The transfer books of the Company will be closed after the fourteenth instant, and until the first day of June proximo.

L. A. CATLIN,
Secretary.

CHIEF ENGINEER AND GENERAL SUPT'S OFFICE,
MOBILE AND MONTGOMERY RAILROAD,
MONTGOMERY, ALA., April 22, 1870.

Notice to Bridge Builders and Railroad Contractors.

On the first day of June next, the Mobile and Montgomery Railroad Company will be prepared to let to contract all the work embraced in extension of their Road from the East side of Mobile Bay into the city of Mobile, a distance of about twenty miles.

There will be embraced in this work about—
3,500 feet First Class Bridging on Iron Piers;
2 Large Draw Bridges;
25,000 feet Pile Trestle Work;
150,000 cubic yards Earth Work;
20 miles Clearing, Cross Ties, and Track-laying.

After the fifteenth day of May, the Plans and Specifications will be ready for the inspection of parties desiring to offer proposals for this work. Address—

G. JORDAN,
CHIEF ENGINEER,
Montgomery, Ala.

The San Antonio and Mexican Gulf Railroad.

FOR SALE AT PUBLIC AUCTION.

HEAD QUARTERS FIFTH MILITARY DISTRICT,
State of Texas.
CHIEF QUARTER MASTERS OFFICE,
Austin, Texas, April 11th, 1870.

IN COMPLIANCE WITH THE ORDER OF THE Secretary of War, dated March 26th, 1870, there will be sold at Public Auction at Indianola, Texas, between the hours of 12 M. and 3 P. M., on Wednesday, the 25th day of May, 1870, all the right, title and interest of the United States of America in and to the

San Antonio and Mexican Gulf Railroad from Lavaca to Victoria, Texas.

The Sale will include the Road Beds, Tracks and Sidings, Buildings, Water Stations, Turn Tables, &c.

The Railroad Materials and Supplies pertaining to the road, together with the Rolling Stock, Cars, Machinery and other Equipments, as follows:

28 Miles of Track, (more or less).
1 Passenger Car.
1 Baggage Car.
6 Box Cars.
6 Platform Cars.
1 Engine and Tender.
1 Engine.
1 Engine House at Lavaca.
1 Depot Building at Victoria.
1 Depot Building at Lavaca.
1 Machine Shop at Victoria.
20 prs. trucks loose at Depot in Victoria.
4 prs. trucks under 2 Platform Cars.
1 Miscellaneous lot of Railroad Material, Boxing Straps, &c.
1 Worthless lot of Blacksmiths Tools.
1 Mixed lot of Machinery being odd pieces, &c., in shops at Victoria.
8 prs. trucks lying loose along the Road between Lavaca and Victoria.
2 prs. driving Wheels at Victoria.
1 Tank at Victoria.
1 Pistern at Victoria.
1 Iron Safe.
2 Stoves.
2 pr. Scales.
3 Hand trucks.
1 Cross Cut Saw.

The property may be inspected on Application to the agent of the Road and any information desired may be obtained from the Chief Quarter Master Fifth Military District, at Austin, Texas.

Full particulars given on day of sale.

Terms of payment cash in United States Funds.

By order of

Bvt. Major General J. J. Reynolds,
GEO. E. ALDEN,
Brvt. Major and A. Q. M. U. S. Army,

RAILROAD CROSS TIES.

Locked Safety Valves.

TO

MASTER MECHANICS

AND

LOCOMOTIVE BUILDERS.

THE UNDERSIGNED OFFERS FOR SALE, SAFETY VALVES, effectually guarded against tampering, invented and patented by himself; patent bearing date Sept. 14th, 1869.

Said Valves are sold with Spring, Guard, Studs, and Nuts, complete, and all ready to put on to boiler domes. Price for size suitable for Locomotives, $27 50.

The Valve and Seat are made of hard composition. Spring of best cast steel.

The above Valve is sensitive, and is not liable to stick from corrosion; and is particularly well suited for large stationary and marine boilers, giving large area for escape of steam, and requiring a short lever, and light weight or spring, for holding Valve against pressure.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,
IRON AND STEEL MANUFACTURERS,
No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

BRADY'S RAILROAD LANTERNS.

The strongest and best in use; are made principally of Malleable Iron. Here lies the secret of their strength, the frame being capable of supporting a weight of Four or Five Hundred Pounds; and yet they are little heavier than ordinary Lanterns. The guards are rivited through the top and bottom flanges, the rings wound with wire where they cross the guards, and the whole frame tinned, uniting each piece with the other, making it the *strongest* Lantern ever offered to the public. RAILROAD MEN *especially* cannot fail to see that it will be economy to purchase these Lanterns, as there is no part that can be broken with ordinary use, except the Globe, which being adjustable, is easily and cheaply replaced with any color and at a small cost; the greater weight being at the bottom, it cannot readily upset. Now used on the following Railroads: New York and New Haven; Hartford and New Haven; Shore Line, Conn.; Providence and Worcester; Boston and Maine; Conn. and Passumpsic Rivers; Fitchburg; Rensselaer and Saratoga; Troy and Boston; Boston and Providence; Boston, Clinton and Fitchburg; Charlotte, Columbia and Augusta; Connecticut River; European and North American; Hartford, Providence and Fishkill; Mobile and Ohio; Portland and Kennebec; Boston, Hartford and Erie; Worcester and Nashua; Lake Superior and Miss.; Hudson River, and many others.

The trade supplied from our Store, or from the Factory, New Britain, Conn,

Exclusive Manufacturers, 73 Beekman St., N. Y.

PACIFIC MAIL
Steamship Company's
THROUGH LINE TO
California and China.
FREIGHT AND PASSAGE GREATLY REDUCED.

Through rates, New York to San Francisco:

First Class.	Steerage.
$125 to $170.	**$60.**

according to location of berth.

These rates include berths, board and all necessaries for the trip.

Steamers of the above line leave Pier No. 42 North River, foot of Canal street, at 12 o'clock noon,

ON 5TH AND 21ST OF EACH MONTH,

except when those days fall on Sunday, then the day previous.

One hundred pounds baggage free to each adult. Medicine and attendance free.

May 21, ARIZONA, CAPT. MAURY, connecting with the MONTANA CAPT. ——.

Steamer AMERICA, will leave San Francisco June 1, 1870, for China and Japan.

All freight for San Francisco will go as fast, and be received until 4 P. M. FRIDAY, May 20. Freight for Central American and South Pacific ports will be received until 4 P. M. THURSDAY, May 19, only.

All the usual facilities afforded shippers in collecting inland charges, &c.

For freight or passage tickets and all further information apply at the Company's ticket office on the wharf, foot of Canal street. F. R. BABY, Agent.

ENVELOPES.
SAMUEL RAYNOR & CO.,
115 & 117 William street,
New York.

Manufacture every style of envelope, from the smallest drug size to the largest official; and any size, pattern, shape, or quality wanted for railroad companies, express and insurance companies, banks, bankers and brokers. All well made and gummed. Samples given when requested.

STAINED GLASS.
HENRY E. SHARP,
GLASS STAINER, EMBOSSER AND ENAMELER FOR
Car Builders and Railroad Companies,
147 & 149 E. 23d St., N. Y.

EDWARD W. SERRELL,
CIVIL ENGINEER,
64 & 66 BROADWAY,
NEW YORK CITY.
Railroads, Bridges, Explorations.

Particular attention given to the Examination of Public Works for Capitalists seeking Investments.

$18 IMPROVED WALTHAM WATCHES.

GET THE BEST, AND BUY WHERE YOU CAN BUY THE CHEAPEST.

Engineers, Railroad Men, Master Mechanics and Machinists, if you wish to obtain a genuine Waltham Watch, with all the late improvements, and run no risk whatever of not obtaining a reliable timekeeper, send for Descriptive **PRICE LIST**, giving full particulars of Watches, style and quality of cases, or call and examine. In Coin Silver Cases, **$18.** In 18k Gold Cases, **$80.** Ladies' Size, **$70.** Every Watch thoroughly examined and regulated, and if any one should prove imperfect, return it at once and we will correct or exchange it for one that is perfect, FREE OF CHARGE. H. O. FORD & CO.

Eight years with American Watch Company, 84 Tremont street, opposite Tremont House.

Watches sent to any address, and by selecting from Price List you can get as good a Watch as if selecting in person.

American Railroad Journal.

New York Saturday, May 21, 1870.

Greenville and Columbia R. R.

At a meeting of the stockholders of this company in Columbia, S. C., on the 28th ult., President Hammett was called upon, and read the annual report of the President and Directors; which, with the General Superintendent's report, and the usual tables, were received and adopted. An amendment to the by-laws was agreed upon, creating the office of Vice President. A resolution was passed, accepting and adopting as a part of the charter, Section 1, of an Act to regulate the rights and powers of railroad companies, passed February 14, 1870. The following gentlemen were then elected directors for the ensuing year: John J. Patterson, J. W. Harrison, Niles G. Parker, James L. Orr, Timothy Hurley, D. M. Porter, Joseph Crews, H. H. Kimpton, James M. Allen, A. J. Ransier (colored), George W. Waterman, F. L. Cardozo (colored). The officers are: President, Frederick Bush; Vice President, John J. Patterson; Secretary, C. V. Carrington; Superintendent, James O. Meredith; Treasurer, J. G. Edwards. A complimentary resolution of thanks to President Hammett, the Board of Directors, and Superintendent Meredith, was passed. The Columbia *Phœnix*, from which we obtained the above, says:

Mr. Bush is, as we are informed, a gentleman of means—a New York banker; and it is his intention to go to work as rapidly as possible, and put the road in complete order, so as to rank it as first class. He is thoroughly *au fait* in railroad matters, and will be ably assisted by Vice President Patterson.

Lake Shore and Michigan Southern R. R.

Within the year 1869 the Lake Shore and Michigan Southern Railroad as it now exists was formed by no less than four consolidations. In the first place the Cleveland and Toledo and the Cleveland and Erie roads were consolidated. Then these were consolidated with the Michigan Southern and Northern Indiana, after which the line was completed to Buffalo by a consolidation with the Buffalo and Erie. Some time later what is now known as the Kalamazoo Division—the road from White Pigeon northward through Kalamazoo and Allegan to Grand Rapids—was added. Thus the road has varied greatly in length during the year, and there has been a similar variation in the earnings. Accounts on the different roads of the combination were kept in various ways, and it has been found very difficult to present regular and uniform statements of the business of the road for the whole year. Under these circumstances it has been determined not to publish an annual report for the year 1869.

At the annual meeting last week, the following statement of earnings and expenses were given:

Gross receipts from all sources		$12,945,598 40
Operating expenses	$7,419,165 81	
Taxes, State and National	492,361 84	
		$7,911,527 65
Net earnings		$5,034,070 75
The disbursements have been, for interest on funded debt and dividends of June and December, each four per cent. respectively, and taxes		$4,317,698 06
Leaving a surplus of		$716,372 69

This statement gives the earnings of the line between Buffalo and Chicago for the whole year, and of the Kalamazoo Division for the last quarter.

From this statement it appears that the operating expenses (including taxes), amount to 61 per cent. of the earnings, which is perhaps the average on good roads in this country.—*Railroad Gazette.*

Savannah Valley Railroad.

The Abbeville (S. C.) *Press* says that this projected road, but for the war, would now be an accomplished fact; that the scheme is feasible; that the right of way can be easily procured, and a liberal subscription obtained along the entire line of the route; and then adds:

The Savannah Valley Railroad was chartered in 1852, which was to extend for thirty-six years. It would require but little trouble to galvanize it into new life. There ought to be a few alterations. The road ought to cross the Savannah River at or near Fury's Ferry, and run into Augusta instead of Hamburg. From Dorn's Mine it ought to run the most direct route to Anderson, which would carry it by Abbeville C. H., which is very nearly on "an air line" from Dorn's to Anderson. This route would save ten miles of road, and make the line from Knoxville to Savannah or Charleston much shorter than any other line.

Union Patent Stop Washer.

The fish joints of railways, now extensively adopted, are only useful so long as they are kept perfectly tight; and by the jarring of passing trains, unless the nuts are secured, are constantly getting loose. The object of the "Union Patent Stop Washer," manufactured by A. GIBBONS, at Coatesville, Penna., is to prevent the unscrewing or receding of the nuts. Washers are required on every joint to keep them tight. The Stop Washer is simple, inexpensive, combining the essentials of all improvements. It appears to be just the right thing in the right place, dispensing with the common washers and with jam nuts, and saves the trouble and expense of watching and tightening. The alleged saving over jam nuts is thus stated: 4 bolts to each joint (25 feet rail)= 1088 bolts per mile=844 lbs. × 7½c.=$68.30. Whereas the "Patent Washers" cost from $21.10 to $50.64 (saving from $42.20 to $12.66 per mile), according to the size and kinds. It is with pleasure we are able to say that the increased business of the manufacturer shows the improvement to be appreciated by those for whom it was intended.

☞ Work has been commenced on the new Hudson River Bridge. A large gang of workmen are employed at East Albany in excavating, &c., for the structure, and there is every indication that the work is to be pushed forward to rapid completion.

Juniata and Potomac Railroad.

A public-spirited citizen of Bedford county, Pa., who is thoroughly familiar with and largely interested in iron manufacture, and is energetically endeavoring to aid in the development of the resources of Southern Pennsylvania and the lower section of Allegany county, encloses a bill passed by the Legislature of Pennsylvania at the last session incorporating the Juniata and Potomac Railroad Company. A number of practical miners have recently been at work for the purpose of developing the iron ore seam between Bloody Run and the Potomac, and the result has been most satisfactory. The vein proves to be from five to ten feet in thickness, is found to be regularly stratified, and extends some five to six miles south of Flintstone, in Allegany county. Mention is also made of the fact that a number of miners will be put to work in the neighborhood of Flintstone within a few days. This, says a correspondent of the *Cumberland Alleganian* "should be good news for coal operators, as it is destined to draw heavily on your Cumberland coal as a fuel to smelt these inexhaustible quantities of iron ore, and all that is now wanting to make Southern Pennsylvania and Allegany county, Md., the very centre of the manufacture of iron, in all its varied branches, is railroad facilities, which we think would be fully accomplished by the building of the Western Maryland Railroad, in connection with the Juniata and Potomac, as contemplated in this bill.—*Balt. Am.*

Wilmington, Columbia and Augusta R. R.

From Hon. R. R. Bridgers, who has just returned from Baltimore, we learn that at a meeting of the stockholders, held in that city on the 27th ultimo, the Wilmington and Manchester Railroad Company reorganized, under the name of the Wilmington, Columbia and Augusta railroad. Mr. Bridgers was elected president, and Messrs. W. T. Walters, B. F. Newcomer, S. M. Shoemaker, William Graham and Thomas Kensett, of Baltimore, J. D. Cameron, of Harrisburg, Pa., and D. Willis James, of New York, were chosen directors. Three others are yet to be elected from among resident stockholders residing on the line of the road. Mr. Bridgers, as president is also ex officio a member of the board of directors. All of the old officers are to be retained.

Cash means were raised for the entire renovation of the road, the machinery and workshops to be overhauled and repaired, and the road bed to be put in first-rate condition.—*Wilmington Journal.*

Toronto Car Wheel Company.

A company has been formed, under a Royal Charter, for the manufacture of car wheels and railway machinery, in Toronto. The organization was completed at a meeting of the shareholders a few days since. Mr. G. D. Ferguson, of Fergus, was elected President; and Mr. J. B Cook, of Toronto, Vice-President. We understand that arrangements have been completed for the immediate commencement of business. Mr. Gartshore, well-known in connection with his Dundas foundry, has taken the management of the Company's works. The Directors have purchased the works of J. & N. C. Scoville, on the Esplanade, and are prepared to execute orders. We believe that arrangements have already been made with the Grand Trunk, the Northern, and Great Western Railways, to supply car wheels to these companies. We hope this enterprise will receive due encouragement and prove a complete success.—*Monetary Times.*

☞ The Washington *Star* says that some ten miles of the Baltimore and Potomac Railroad below Marlboro' have been placed under contract; also that the portion of the road inside the District of Columbia will be placed under contract this week. It is understood, also, that the point at which the road shall enter Washington will be determined within a few days, and that the work of grading at that end of the line will be entered upon at once.

New Haven and Derby R. R.

At the annual meeting of the stockholders of this company at New Haven, Ct., on the 9th inst., the following gentlemen were elected directors: Morris Tyler, H. S. Dawson, Edwin Marble, Charles L. English, H. P. Frost, Lucien W. Sperry, William Fitch, J. H. Bartholomew, G. W. Shelton, N. D. Sperry, Charles Atwater, James M. Townsend, John B. Hotchkiss, and Patrick Ward. The directors' report recounts the misfortunes of the company during the year, but looks forward to the completion of the road by the present contractor by November, 1870. The company has a capital stock of $416,994, a first mortgage of $158,000, and other liabilities amounting to $679,097. It has paid for construction and material about $645,000. It owes Mr. Phelps $41,000 for work previous to January 1, 1870, and $75,000 for work done since.

Cleveland, Columbus, Cincinnati and Indianapolis Railway.

The earnings of this road for the years ending December 31, 1868 and 1869, compare as follows:

	1868.	1869.
From passengers....	$849,283 58	$840,773 54
" freight.....	1,843,129 82	2,090,542 76

Add surplus as per Ledger		225,024 50
		$298,547 40
Loss discount on bonds sold.....		146,200 00
Total surplus January 1, 1870.....		$152,347 40

Compared with the previous year the gross earnings of 1869 show an increase of $180,276 29; with an increase in working expenses of $38,852 48—making the net increase, $141,423 81. Deducting interest and taxes, the net income shows an increase of $65,932 50. The working expenses are 64.17 per cent. of earnings, against 66.7 in 1868. The total tonnage moved in 1869 was 825,464; and in 1868, 628,256—increase, 197,108, or 31½ per cent. The increase of earnings from freight transportation during the same period was $247,412 94, or 13.4 per cent. The report says:

This great difference in per centage of tonnage and earnings, is largely owing to the severe competition of Eastern Trunk Lines, in their efforts to control the Westward bound traffic of the country, resulting in a reduction of rates of transportation, for a large part of the year, below the *minimum* necessary to produce sufficient revenue to meet the proper cost of moving such tonnage.

It is hoped that the great East and West lines may hereafter so far agree as to prevent improper rivalries, and maintain an effective co-operation for the benefit of all the great interests involved.

In the movement of loaded cars, the following embraces some of the larger items:

Total number of loaded cars delivered at Cleveland in 1869, 50,525; average, 161½ per day. Delivered direct to the Lake Shore Railway, destined to Eastern markets, 34,489 loaded cars; average, 110½ per day.

Total number of loaded cars forwarded Southwest from Cleveland, in 1869, 32,433; average, 103⅔ per day; of which 10,815 cars, or about 31 per cent., were received from the Lake Shore Railway. The greater part of the remainder originated at Cleveland, showing the value of the local business from the large mercantile and manufacturing interests of this city.

The expenditures in the Engineer's department have been judiciously made, and your roadway and bridges have been much improved during the year.

The requisitions for new rails will be increased during the coming year, as compared with the past two years, for the purpose of relaying about 40 miles of the Indianapolis Division, where the iron originally placed in the track will need renewing.

It is gratifying to note the great improvement in the quality of iron rails; still, it is believed that the policy of making all renewals with steel rails, especially on that portion of your railway having the heaviest traffic, will prove highly beneficial in future results, experience having shown them to be far superior to iron, both as regards wear and breakage.

The Indianapolis and St. Louis Railroad Company, (of which this company owns one-half the share capital,) is progressing very satisfactorily with the work of construction of their road between Indianapolis and Terre Haute. At the latter point it connects with the St. Louis, Alton and Terre Haute Railroad, of which it is the Lessee. Thirty miles of the track is already laid, and the grading so far advanced on the remainder of the line, as to permit the resumption of track laying in March. The whole road will be completed and opened for business by the 1st of July next, giving this road a permanent and satisfactory through line to St. Louis.

In pursuance of authority given by the stockholders, your Board have caused to be executed three million dollars of first mortgage sinking fund coupon bonds, eight hundred thousand dollars to be used in aiding the Indianapolis and St. Louis Railroad Company in building their road, the remainder to be used in retiring the bonds of different dates issued by the Cleveland, Columbus and Cincinnati Railroad Co., the Bellefontaine and Indiana Railroad Company, and the Indianapolis, Pittsburgh and Cleveland Railroad Company, which companies, by consolidation, form the present company.

This mortgage will represent the entire debt of the company, after retiring the bonds referred to.

The company have 86 locomotives, 48 first-class and 4 second-class passenger cars, 9 baggage, 4 baggage and express, 7 mail, 933 box, 248 stock, 837 flat and 22 caboose cars. Three locomotives

were added during the year. Eight were rebuilt, with new boilers, etc. Twelve sets steel tyres were substituted for worn out iron—the success and economy of the same confirming the real value of such tyres as a substitute.

The total number of passengers carried was 570,594, of which 494,210 were way and 76,384 through. Number of passengers carried one mile, 27,294,924. Tons of freight carried 825,464; total tons carried one mile, 116,325,486. Average rate per ton per mile, 1.797 cents.

Number of miles run by passenger trains, 771,178; by freight trains (including switching), 1,496,396; repairs and gravelling, 57,030; fuel, 78,113—total, 2,402,717. Cost per mile run for repairs, 7.48 cents.

The roadway has been generally improved during the year; 22 miles have been thoroughly ballasted, about 40 miles of rail, including 2½ miles of Bessemer steel, and Booth's steel capped rail, and 99,124 cross ties were put in the track.

There was put in the track in Cleveland yard, south of Cuyahoga River, in August, 1865, thirty tons of Bessemer steel. This rail is now apparently perfect, having worn out nearly three sets of iron rail in the opposite track in the same time. Two miles of steel and steel capped rail were laid in the track between Cleveland and Berea, the latter part of the year, on a part of the track where the speed is greatest, and the tonnage heaviest. The Chief Engineer thinks the uniform success of this rail will warrant its general use as a matter of economy.

There will be needed for the coming year about 120,000 cross-ties, and 6,000 tons of rail, to put the track in first rate repair, and keep up the annual depreciation.

The Assets and Liabilities of the company, as shown on its books, are as follows:

ASSETS.

Cost of road, depots and equipm't.		$12,160,636 77
Materials on hand—		
For repairs of track and fences	$134,551 37

President.—L. M. HUBBY.

Vice President.—OSCAR TOWNSEND.

Directors.—L. M. Hubby, S. Witt, A. Stone, Jr., J. H. Wade, Geo. Worthington, Selah Chamberlain, Oscar Townsend, H. B. Hurlbut, S. Williamson, T. P. Handy, Wm. Collins, John W. Burson, John Miller.

Secretary and Treasurer.—GEO. H. RUSSELL.

Superintendent.—E. S. FLINT.

Chief Engineer.—FRANK FORD.

West Wisconsin Railroad.

Few railroad projects in the Northwest have been pushed forward with more earnestness than the West Wisconsin road running from Tomah on the line of the St. Paul road to St. Paul, and there connecting with the great railroad system of Minnesota. President Baldwin of this road seems to be an indefatigable worker, sparing no honorable effort to keep his road before the people and to build it thoroughly and well without sacrifice. Mr. Humbird, who has charge of the construction is a thorough and practical railroad man, and his line has the reputation of being one of the best constructed in the West. The road is nearly up to Eau Claire, which important point it will reach in July, and then we in Milwaukee will begin to see more plainly than now the great importance of the road. It opens to us a section of country heretofore almost sealed to Milwaukee and it brings to our doors a business of great importance.—*Mil. Wis.*

☞ The Connecticut Valley Railroad Company have decided to locate their line along the river from Wethersfield to Hartford, which crosses the land of the Colt estate near the pistol factory, and comes through the city on the river front. Connections will be made in the north part of the city with all the other railroads.

☞ A meeting was held at Gilmanton Iron Works, N. H., on the 9th inst., in favor of extending the Suncook Valley Railroad from Pittsfield to Gilmanton Iron Works. The engineer estimated the cost of the road from Pittsfield at about $200,000.

☞ Sylvester Marsh has been elected President, John E. Lyon Treasurer, and Charles Lane clerk of the Mt. Washington R. R. Co.

☞ A. D. Lockwood, Esq., of Lewiston, Me., has been elected President of the Maine Central railroad company.

Milwaukee and Rockford Railroad.

In pursuance of an act passed at the recent session of the Wisconsin Legislature, incorporating the above company, the incorporators met in the village of Elkhorn, Wis., on the 4th inst., and organized by the election of the following named gentlemen as directors: for one year—Charles W. Smith, Henry Dennis, Cyrus Church; for two years—T. Mower, Martin Field, Otis Preston; for three years—John Nazro, Angus Smith, P. S. Harrington. The officers are: President, John Nazro; Vice President, Martin Field; Secretary, T. Mower; Treasurer, P. G. Harrington.

Hastings and Dakota R. R.

The St. Paul *Press* gives the following account of this road, which the Milwaukee and St. Paul Railway Company have recently purchased:

Of this railroad, thirty miles are constructed from Hastings to a point ten miles west of Farmington. Its projected line, as fixed by legislation, runs, via Shakopee, through the counties of Carver, McLeod and Renville. It is endowed with about 300,000 acres of land, to obtain which the construction of 200 miles of railroad is required. Sixty miles more are required to be completed before any further lands enure to the company which had it in hand, but the Milwaukee and St. Paul Railway Co., with their large resources, will find it easy to prosecute the work. It will form a valuable feeder to their line.

Rockford, Rock Island and St. Louis R. R.

This road is now running from St. Louis to Beardstown, 110 miles, and in September next will be completed to Rock Island, a distance of 225 miles. About 100 miles remain to be built. The road runs almost in a bee line between the cities of St. Louis and Rock Island, thence to Rockford, where it unites with the Milwaukee and Rockford railroad, of which company Hon. John Nazro, of this city, is President. Of the main line, George Greeq is President, and J. K. Young is Vice President. The new road is well supplied with elegant coaches, sleeping cars, and an abundance of freight cars and locomotives. It is well constructed and ballasted, and is one of the best roads in the Southwest. It will be an important road for Milwaukee and the country along its line.—*Mil. Wis.*

☞ The subject of building a railroad from the Mast Yard station on the Concord and Claremont Railroad to Andover Plain on the Northern railroad, is now engaging the attention of the citizens of Concord. The Mast Yard is seven miles northwest of Concord, and the length of the proposed route is about sixteen miles. It is what was formerly called the "Blackwater Valley Route," and passes through a rich agricultural and wooded section.

☞ The railroad from Bradford to Claremont, which has just been put under contract, was chartered as the "Sugar River Railroad," and is designed to connect the Concord and Claremont railroad with the Sullivan railroad at Claremont. An earnest effort is being made to secure a connection between this road and the Rutland railroad, and a survey has been made of the proposed link.

☞ Willis Phelps & Company have contracted to build the new railroad chartered from Lowell to Framingham, Mass., and will begin operations about June 1st.

☞ Capt. A. W. Eichelberger has been re-elected President of the Hanover Branch (Pa.) railroad company.

Gold Fields of Australia.

From a Report made to the Government of Victoria, Australia, upon the Gold Fields and Mineral Districts of that Colony, we learn that the gross product of the gold mines of Australia for the eighteen years from their discovery up to 1868 were £147,342,767 sterling. The report estimates the amount obtained for each person employed in mining at $476 82 in American gold coin per annum. The most profitable year for laborers was 1852, when the average yield for each man was $1,270 86; the worst year was 1862, when the average yield was only $327 77. Machinery has since been largely introduced, and the average product for each man in 1868 was $507 88. The total value of the machinery employed in mining is a trifle more than ten millions of dollars.

The quartz mines of Australia are worked by 2,500 corporations, and, according to the statistics of the report, are less productive than most of those worked on this continent, inasmuch as the average amount of gold obtained from a ton of quartz is set down at 1 pwt. 12.37 grains; *i. e.*, it takes almost 160 tons of crushed quartz to yield one pound of gold. Our California mines are believed to yield much better returns.

Charlotte, Columbia and Augusta Railroad.

The annual meeting of the stockholders of this company was held at Augusta, Ga., on the 26th of April, at which the reports of of the President and Superintendent were read and ordered to be printed. From the report of the latter officer we learn that the earnings of the road during the year ending December 31, 1869, were:

From passengers	$199,516 94
" freight	188,765 39
" mails	14,467 48
" minor sources	1,035 68
	$403,785 49

And the expenditures were:

Maintenance of way	$58,639 94	
Conducting transp.	56,698 95	
Motive power	16,524 62	
Maintenance of cars	6,471 85	
Machine shops	39,656 66	
Loss, damage and deductions	2,159 77	
Over charges	284 23	
Through passenger line	1,540 37	
Tax paid—State and United States	44,560 20	
		226,586 59
Leaving		$177,248 90

for payment of interest and taxes, and account of Augusta Division. The President in his report says:

The stockholders of the Charlotte and South Carolina and Columbia and Augusta Railroad Companies met in separate and general conventions, in Columbia, on the 7th and 8th of July, 1869, and upon terms and conditions mutually satisfactory, and with singular unanimity, agreed to consolidate their respective interests into one corporation—"The Charlotte, Columbia and Augusta Railroad Company." An amended charter, with all necessary legislation for this purpose, was obtained from the States of North Carolina, South Carolina and Georgia. According to the terms of consolidation, the stock of the Charlotte and South Carolina Railroad was valued at par, while 112½ of the Columbia and Augusta Railroad made 100 in the new company, or one share of the former of 100 was merged with 4½ shares of the latter at $25 each. These estimates were on account of the different values of the currency according to which the two roads had been built. The respective liabilities of each—the unfinished condition of the one, with a business undeveloped—with its entire want of equipment, although having generally a superior rail, and the finished condition of the other, with a full equipment of shops, depots, engines, coaches and cars.

After full and mature discussion of these different subjects before joint committees, and in separate and joint conventions of stockholders of the two companies, this principle of consolidation of stock was agreed upon. Each of these corporations then transferred to the Charlotte, Columbia and Augusta Railroad Company all their respective rights and property, upon condition that it should assume all their respective liabilities.

Upon the organization of the Charlotte, Columbia and Augusta Railroad Company, it was unanimously resolved by the stockholders, "that in consideration of the transfer to said company, by the Charlotte and South Carolina Railroad Company, and by the Columbia and Augusta Railroad Company, of all the property of the said two companies, respectively, the said Charlotte, Columbia and Augusta Railroad Company do hereby assume the payment of all the debts and liabilities of the said two companies, respectively, and the performance of all contracts by either of said companies undertaken and yet remaining to be performed; and the faith and credit, resources and property of the said Charlotte, Columbia and Augusta Railroad Company are hereby pledged for the payment of all such debts and liabilities, and the performance of all such contracts."

This completed the terms of consolidation, and the stockholders immediately thereafter, with the view of fulfilling the conditions, authorized the President and Directors to issue bonds of this company "to an amount not exceeding $2,100,000, to be used for the purpose of funding the floating debt, and retiring the bonds heretofore issued by the said two companies, respectively, and now outstanding, and for the purpose of completing the construction and outfit of the road to Augusta, and for other purposes; and to secure the payment of said bonds hereby authorized to be issued, the said President and Directors are further authorized and empowered to execute a mortgage of the railroad, and of the property and franchises of this company, or of any part thereof—the said bonds and mortgage to be signed, attested and otherwise executed in such manner as the President and Directors shall direct.

For the purpose of avoiding, in any reasonable contingency, the necessity in future of a second mortgage, the authority was made more ample as to the amount of bonds than the then existing liabilities of the company required.

In conformity, however, with the foregoing resolution, your Directors have caused a mortgage to be executed, with an authority to issue not exceeding $2,000,000 of first mortgage bonds. These bonds bear seven per centum interest, payable semi-annually at the agency of the company, in the City of New York, and mature on the 1st of January, 1895. They are handsomely engraved and well executed, and are very freely received in exchange for the two classes of bonds heretofore issued by the former respective companies, for the reasons that they are more amply secured than either of these bonds, by the value of the property mortgaged and the increased business of the road. In like manner, the exchange and consolidation of the stock of the late corporations is being cheerfully and freely made by the holders for the stock of this company.

This brief outline, of the formation of this company and its subsequent acts in carrying out the directions of the stockholders, will enable you the better to understand the following statement of receipts and expenditures to which your attention is invited.

As consolidation did not take place until the 8th of July, 1869, the accounts of the former companies were necessarily kept separate and distinct, and were so continued until the end of that month, for obvious reasons.

The gross earnings are	$403,785 49
The operating expenses are	225,996 59
Leaving the net earnings	$177,788 90

Or about 44 per centum of the gross earnings.

You will, however, readily perceive, from the foregoing synopsis, that for only five months of the fiscal year which terminated on the 31st of December last, the receipts of this company were $218,798 03, or $33,810 57 more than the aggregate receipts for seven months of the two former companies; while the expenses of this company for the five months were only $105,113 05, or about 48 per centum of expenditure to 52 of net earnings. If from the $105,113 05 you deduct the taxes paid and embraced of $23,000, it reduces the expense account to $82,113 05; or about 38½ per centum to 61½ of net earnings. As appears from the above statement, the receipts on the Augusta division are very small. This was owing to the fact that only a portion of the road was finished at the beginning of the year, and the country along its line was not developed and made tributary to its transportation. The results, however, on this portion of the road for the last six months are most gratifying; new life and energy appear to be imparted to the country, and its business relations with the road are rapidly increasing.

The net earnings of the company during the year have been applied to the payment of debts, interest, equipment and the completion of the bridge across the Savannah river.

Considering the condition of the property for seven months of the year, the tonnage of the road, its cheap through rates of freights and tickets, it is believed its administration for economy will compare favorably with that of any other road in the country. It is the amount of business as well as the rate of charge that yields profit. Much of the tonnage now transported is of the cheaper classes, and is a source of less profit than that of former times. While the resources of the cotton regions of the South have been materially diminished by the results of the late war, the transportation necessary for the country has essentially increased in the cheap and heavy articles of freights. This is owing to the higher price of cotton, inviting the capital and labor more exclusively to its cultivation than at any former period. Hence the production of corn, wheat and other cereals, domestic cloths of many kinds, and raising hogs, sheep, cattle and other animals of domestic economy, have been partially abandoned. These deficiencies of food and raiment, as well as implements of husbandry, have therefore to be supplied from the North and West. The inhabitants of the cotton States export nearly all they produce and import nearly all they consume, and hence the increase in the tonnage of transportation. In no one year of our history have so much corn, bacon, flour, guano and so many agricultural implements been imported into the Southern States, as during the last twelve months. And this great expenditure for necessaries will probably continue in defiance of all theories, while the cultivation of cotton promises greater rewards than other industrial pursuits.

The property of the company has been well maintained, and large additions made to it. Four locomotives have been purchased since your last meeting, and extensive repairs made on those heretofore in use. Forty freight cars have been constructed in the shops, and seven passenger and mail coaches, besides other improvements, making an addition of about one hundred thousand dollars in value added to equipment.

Three other new locomotives have been contracted for, one to be delivered in May and the other in October next.

It is contemplated to construct about forty cars additional, and several more passenger coaches, when it is believed the equipment will be ample for the demands of transportation.

Owing to the excessive drought of last summer, the difficulty of procuring lumber, limited number of cars, and heavy transportation of materials

for the construction of the Savannah bridge, the road was not able fully to meet the expectations of its patrons on the Augusta division. The greatest inconveniences on this account were experienced at Augusta and Pine House. It is contemplated during the summer to enlarge the freight and passenger accommodations at both of these places, as well as at other points, to insure greater facilities to all patrons.

The litigation between the South Carolina Railroad Company and the Columbia and Augusta Railroad Company has been amicably and satisfactorily settled. Your trains now enter Augusta on the bridge of the South Carolina Railroad, by arrangements with that company. Your Bridge across the Savannah River is making reasonable progress, considering the difficulties of getting proper foundations for its piers in the bed of the river, and the excessive freshets encountered during the winter. It is expected to be finished in August next. Captain H. F. Bardwell, Chief Engineer in charge, is a gentleman of great industry and long experience in his profession.

The subject of taxation is becoming one of vital importance to the railroad interests of the country. It is now oppressive in the highest degree. The Federal Government levies a tax, first, of 5 per centum on the net income; second, a tax of two and one-half per centum on the gross receipts from passengers; and, third, a tax of 5 per centum on the cost of all engines, cars, and tools manufactured; with a tariff varying from thirty to sixty per centum on all rails, steel, iron and other materials imported. In addition to this, come the State and County taxes of North and South Carolina, amounting to more than one per centum on the entire property of the company, on which is placed a valuation in some instances amounting to double the price it would bring in open market. These various taxes, amounting to the sum of $44,560 20, have been paid by your company during the current year, equal to more than one-fourth of your net income. It is dificult to conceive of a free government, intended to be administered solely for the benefit of the people, becoming so oppressive in its exactions upon the material interests of the country. No species of property contributes so much to develop resources and create wealth as railroads. No railroad constructed fifty miles in length, and properly maintained for five years, fails to impart more value to the sections through which it passes than its first cost—thus creating new and additional revenues to the State. Hence, under former administrations, this species of property received the fostering care and protection of the State—taxes being often levied to construct them, while they were wholly exempt from burdens of this kind. It is some relief, however, to see that the recent Legislature of North Carolina has reduced the taxes of the current year about one-half of what they were the past twelve months. It is hoped that a like spirit of justice and economy may inspire the Legislature of South Carolina to similar action. If the whole amount of taxes paid during the year had gone into net revenue instead of expense, the result would have been, for ordinary expenses, $181,976 39, and net income $221,908 10, or about 45 of expense to 55 of net income.

The company owns twenty thousand dollars of stock in the Atlantic, Tennessee and Ohio railroads, familiarly known as the Charlotte and Statesville road, of forty-six and one-half miles in length. In the year 1863, the Confederate authorities dismantled the road by removing the rails, chairs and spikes to the Piedmont and other railroads deemed to be of greater military importance. This was about thirteen months after its trains had successfully and profitably run from Charlotte to Statesville. The road bed, bridges, depots and other property have remained as left in 1863, except the ordinary waste and decay, which have been comparatively slight. The entire country along its fertile and populous line is very desirous to rebuild the road, and it has been proposed by many prominent stockholders, that it be submitted to this company to rebuild the road on terms to be agreed upon between the two companies, either by consolidation or otherwise. Although the company has probably one hundred thousand dollars over all its liabilities, it is unable to rebuild and equip the road without co-operation. It is respectfully submitted, that you appoint a committee, or invest your Directors with power to negotiate with a similar committee, or with the Directors of the company, on the subject. And notwithstanding the pecuniary necessities of your own road, it is believed, with the cordial co-operation of Iredell and Mecklinburg counties, and the City of Charlotte, it can be rebuilt and made profitable to its stockholders, and useful to your road and the entire country through which it passes.

Although many obstacles had to be surmounted in reconstructing and equipping the Charlotte division, so utterly destroyed by war, and in building the Augusta division, since 1865, under greater difficulties, yet your Directors think there is cause of congratulation that you have 195 miles of road occupying so commanding a position, connecting the grain and tobacco regions with the cotton States. A road whose business is not likely to be seriously affected by the construction of any other road now contemplated, and whose connections both north of Charlotte and south of Augusta are rapidly progressing, and destined greatly to augment its already increasing tide of trade and travel. With a fertile and populous country extending from Raleigh to Asherville, a distance of more than 200 miles, at its northern terminus, and from Atlanta to Savannah, a distance of nearly 300 miles, at its southern terminus, in a great degree tributary to it, with its through connections North to New York and South to Vicksburg and New Orleans; its annual income under proper management must soon amount to six or eight hundred thousand dollars.

The company have 18 locomotives, 6 first class and 5 second class passenger, 5 mail, 79 box, 8 stock and 49 platform cars.

The following gentlemen were elected directors for the ensuing year: W. E. Jackson, S. D. Heard, J. J. Cohen, Josiah Sibley, J. H. Wilson, A. B. Springs, G. J. Patterson, A. B. Davidson, Wm. Johnston, P. Quattlebaum, C. D. Melton, John Fisher, Ed. Hope, F. W. McMaster, J. H. Rion, W. R. Robertson, J. J. McLure and Rufus Barringer.

At a subsequent meeting of the Directors, William Johnston was unanimously re-elected President of the company.

☞ The lease of the Erie and Pittsburg Railroad having been formally transferred to the Pennsylvania Railroad Co., President Thomson of the latter company has issued an order assuming control of the road, and designating J. N. McCullough as General Manager. Mr. McCullough has appointed the following officers to take charge of the several departments designated, viz: J. D. Layng, Superintendent; Wm. P. Shinn, General Freight Agent; F. R. Myres, General Passenger and Ticket Agent. The general office will be at Pittsburg, Pa.

☞ The Winona *Republican* says that the work on the river road between Minneiska and Minnesota City, will commence at once. There are five hundred men now at work between St. Paul and Red Wing, and it is the intention of the Construction Company to crowd the work on the entire route to an early completion.

☞ The Winona *Republican* says that work on the cut-off is being rapidly pushed, and will be in running order at an early day. It connects the St. Paul with the road from Winona west.

Henderson and Nashville R. R.

☞ The Henderson (Ky.) *News* says that the road between Henderson and Nashville, Tenn., will be completed about the first or during the month of October. The iron has already been purchased and paid for to complete it to the coal fields. There are now four hundred laborers, or more, employed, and the force being increased. Additional new rolling stock has been placed on the other end of the line, and a passenger coach and baggage car for this end have arrived at Evansville and will be placed upon the track in a few days.

Illinois and St. Louis Bridge Co.

The following gentlemen have been elected directors of this company: Chas. K. Dickson, G. B. Allen, Barton Bates, James H. Britton, John G. Copelin, John R. Lineberger, William McPherson, William Taussig, all of St. Louis; Amos Cotting, S. S. Humphreys, M. K. Jesup, Robert L. Kennedy, New York. Subsequently the board elected the following officers: President, Charles K. Dickson; Vice President, R. L. Kennedy; Secretary, J. A. Dillon; Treasurer, J. H. Britton; Auditor, D. C. Tobin; Executive Committee, Wm. Taussig, W. McPherson, J. H. Britton.

Lake Shore & Michigan Southern Railroad.

At a meeting of the stockholders of this company at Cleveland on the 4th inst., the following gentlemen were elected directors: Horace F. Clark, Alanson Robinson, James H. Banker, Augustus Schell, William Williams, H. B. Payne, Amasa Stone, Stillman Witt, William D. Scott, Milton Courtright, John A. Tracy, Azariah Boody and Albert Keep. The officers are: Horace F. Clark, President; Augustus Schell, Vice President; James H. Banker, Treasurer; George B. Ely, Secretary and Assistant Treasurer; C. P. Leland, Auditor.

☞ The Wason Manufacturing Company, at Springfield, Mass., are now filling orders for eighty passenger cars, besides freight and other railway work. Their most costly and elegant work of late are the twelve cars now making for the New York and Boston express line. Among their customers at present are two railways in Peru, one in Mexico, the Central Pacific, the Oregon Central, and the Grand Trunk of Canada, and the three roads meeting in Springfield.

☞ At a recent meeting, held at Bangor, to discuss the prospects of the Bangor and Piscataquis Railroad, Mr. Merrill, the owner of the Brownville slate quarries, said that if the representations made in regard to the new slate quarry of Leavitt & Weston were correct it would eventually furnish an amount of transportation to the Bangor and Piscataquis Railroad that would pay the interest on a million of dollars.

☞ The Abingdon *Virginian* states that the capital stock of the "Saltville and Coal Mine Railroad Company" has been subscribed, and that the company will be organized in a few weeks. A survey of the road will be commenced by the first of June. It is to run from Tazewell county to Saltville, where it will unite with the branch of the Virginia and Tennessee Road.

☞ Charles A. Stevens has been elected President, and Otis Lane Secretary and Treasurer, of the Ware River R. R. Co.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, May 21, 1870.

Stock Exchange and Money Market.

Money has been offered with unusual freedom through the week at the prevailing rates of 4@6, generally 5 per cent. on call and 6@9 per cent. per annum, in the discount line. The demand for accommodation has been less urgent from nearly all classes of borrowers. The speculative inquiry has shown less animation. The city banks have made a further addition of over five millions to their deposit line, 1⅞ millions to their legal tender reserve, and nearly a million to their specie average. Their loan and discount line has been enlarged 3⅛ millions. Their circulation has been slightly reduced. The U. S. Sub Treasury has had its currency balances increased about two millions, largely through receipts from internal revenue, while its coin reserve has been augmented from $76,878,898 on Wednesday of last week to $77,023,049 on Wednesday of the current week. On Wednesday morning, the coin balance of the Treasury Department was 107⅛ millions, and the currency reserve, 9¾ millions.

The specie reserve of the city banks according to the latest return is $82,453,906, against $15,374,769 same time last year. The city bank deposits are now $222,442,319, against $199,332,449 week ending May 15, 1869. The legal tender reserve amounts to $57,947,005, against $56,501,356 same time last year. The circulation now stands at $33,293,980, against $33,977,794 same time last year. The loans are now $278,383,314, against $269,498,897 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged about $109,877,000 a day, against a daily average of $116,843,490 the preceding week, and $108,919,186 the week ending with April 30, 1870. The current week's exchanges average about 115½ millions a day. The city banks, last week, reported a gain of $954,907 of specie, $5,080,101 of deposits, and $1,838,083 of legal tender notes. They increased their loans, $3.186,843; and reduced their circulation, $150,661.

The city bank exchanges on Wednesday were about 105 millions.

National Bank notes to the amount of $251,520 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $323,863,276, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $24,350,724, leaving, with the existing 1 614 banks, (having an aggregate capital of $427.004,247,) an actual circulation at this date, of $299,512,552. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,269,550; and for the public deposits, $16 410 000—making a total of $358,679,550. The Treasury Department last week redeemed and destroyed $531,200 of worn and mutilated fractional currency, and issued $706,539 of new.

The U. S. Sub-Treasury receipts, week ending with May 14, were $4,871,574 in coin, (including $2,585,000 from customs duties,) and $4,770,022 in currency; payments, $5,113,169 in coin, (including $2,253,221 of coin interest,) and $3,129,258 in currency; balance at the close of the week, $82,084,407 (including $76,448,053, of coin, and $3,284,672 of currency,) against $86,642,575 at the close of the preceding week, showing a decrease of $4,558,168. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $1,140,105 in coin, (including $378,448 from customs,) and $981,904 in currency; payments, $250,967 in coin, (including $237,124 of coin interest,) and $204,500 in currency. On Tuesday, receipts, $562,503 in coin (including $469,071 from customs), and $272,150 in currency; payments, $876,645 in coin (including $344,609 of coin interest) and $210,718 of currency. The balance at the close of business on Tuesday stood at $82,369,463, (including $4,123 508 of currency, and $77,023,049 of coin,) against $81,379,042 a week previous; and $89,412,673 on April 30, 1870. The aggregate receipts of the office in April were $38,914,767, including $13,193.882 from customs; aggregate payments, $33,538,278 including $836,564 of coin interest; balance at the close of the month, $88,231,250, against $82,854,761 at the close of March.

The U. S. Sub-Treasurer issued in April $1,317,500 of coin certificates.

The U. S. Sub Treasurer retired, last week, $2,300,792 of coin certificates, received for customs.

The U. S. Sub-Treasury general balance on Thursday morning was $81,448,128.

Government revenues have been yielding quite liberally, since our last. The excises, during the week yielded $4,722,196; customs at the port of New York, $2,484,791 and at the outports about $830,000 (in coin) more, making the grand total income for the week equal to about $8,534,200 in currency. The receipts from excises, thus far in the current fiscal year, commencing with July 1, 1869, have been $146,220,244.

Gold has been fairly active, most of the week, and the price has been steadily suppported, the range having been from 114⅜@115⅛, and the closing quotation on Wednesday 114⅞. The fluctuations of the week were more or less directly the result of the variable tenor of the telegraphic advices from Washington relative to the prospects of the funding, banking and tax bills. Toward the close, the speculative demand was more confident, and the tendency seemed toward higher figures. The Gold Exchange Bank clearances were as high as 57¾ millions on Saturday, but down to about 25½ on Monday, and up again to nearly 34 millions on Tuesday of the current week. The export drain has been quite limited, having been less than a million last week, and under a quarter of a million thus far in the current week. Government controlled a coin balance of nearly 106 millions at the beginning of the present week, including 35½ millions represented by outstanding coin certificates. On Wednesday, Government sold a million of Gold at 114 70@ 114 79.

The coin balance of the Treasury Department on Monday was $105,783,000, including $35,436,500 on private deposit; currency balance, $11,555,000.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $77,188,954.

The customs revenue of the port on Wednesday was $428,000.

The customs demand for Gold last week, averaged $430,834 a day; thus far, this week, it has averaged $423,759 a day, or equal to a weekly aggregate of $2,542,554. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $547,818; and since Jan. 1, 1870, $6,888,327, against $8,610,341 same time in 1869. The total customs revenue of the Government, in coin, at this port, thus far in the current fiscal year, commencing with July 1, 1869, has been $117,906,734 against $111,879,973, in 1868–'69.

The customs revenue at the port of San Francisco, from Jan. 1 to May 2, was $2,526,084, against $2,449,365 same time last year.

The exports of specie, from this port, last week, were $801,127 against $622,236 same week last year; total, since July 1, 1869, $26,170,858, against $33,789,980 same time preceding fiscal year. Government disbursed last week through the U. S. Sub Treasury here, on account of the coin interest on the public debt $2,253,221, and since July 1, 1869, $80,567,902, against $82,226,227 in 1868–'69.

The specie exports from San Francisco, from Jan. 1 to May 2d, were $14,232,729, against $14,594,380 same time last year.

The actual coin interest payments of the Sub-Treasury on Wednesday were $266,817.

Foreign Exchange has been in fair demand and held with more firmness, closing with an upward tendency. Bankers' prime sixty day bills on London closed firmly on Wednesday at 109⅛ @109¾, and on Paris to 5.20.@5.15; sight bills on London to 110@110¼, and on Paris to 5.13¾ @5.13. The offerings of produce bills have been fair, since our last. The week's exports of domestic produce have been to the currency value of $3,667,044, making the total since July 1, 1869, $174,195,222, against $144,179,334 same time preceding fiscal year.

Government securities have been offered quite sparingly at the going rates, while the demand has been fairly active, mainly from investment buyers. The principal holders have not been eager to sell at the prevailing figures, as they confidently look for an early improvement in values, now that it is believed that the funding bill is practically dead for this session of Congress. On Thursday, Government bought in two millions of Five Twenties at about the open market quotations.

U. S. sixes of 1881 closed here at 117¼@117⅜; U. S. Five-twenties of 1862, 112½@112⅜; U. S. Five twenties of 1864 at 111¼@112⅞; U. S. Five-twenties of 1865 at 111⅞@112; U. S. Five-twenties of 1865 consolidated, 114@114⅛; U. S. Five-twenties of 1867, 114⅛@114⅝; U. S. Five-twenties of 1868, 114⅛@114⅝; U. S. Ten-forties at 108⅜@108⅛; U. S. Six per cent. currency bonds, 112⅝@112¾.

At Frankfort on Wednesday U. S. Five Twenties closed at 95½, and Central Pacific Sixes, at 77¾ @77⅞.

The latest quotations at the London Stock Exchange compare as follows with former returns;

	May 4.	May 11.	May 18.
Consols	94⅛	94¼	94⅛
U. S. 5-20's of 1862	88⅝	88⅝	89⅛
U. S. 5-20s, 1865	88⅛	88	88⅛
" 1867	90⅛	90	90⅝
" 10-40s	86	85½	86
Erie	18¾	18	18½
Ill. Central	112	112½	112½
At. and Gt. West	27½	28½	28½

State bonds have been in moderate demand at less buoyant prices.

Railway bonds have been in fair request on investment account, at about steady prices. Central Pacific Sixes closed at 93¼@93⅛. Union Pacific Sixes at 86@86¼; and the new Chesapeake and Ohio First Mortgage Thirty year Bonds at 90 per cent. and accrued interest in currency.

Railway and miscellaneous share property has been less confidently dealt in at easier and irregular prices. The later dealings showed a much stronger market, with a reviving speculative inquiry.

General business has been on a moderate scale, since our last. Prices of most kinds of domestic produce closed in favor of purchasers. Middling upland cotton closed heavily on Wednesday at 23 cts. per lb. The stock of cotton now here is given at about 47,500 bales. The receipts at the port this week, have averaged about 4,000 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,636,650 bales, against 1,947,700 bales in 1868–'9; exports, same time 1,866,100 bales, against 1,275,150 bales same time in 1868–'9; stock on hand at latest dates, 312,850 bales, against 214,800 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 5,145 pkgs., against 9,375 pkgs., same time in 1869. From Boston, 1,443 pkgs. in 1870, against 3,624 pkgs. same time in 1869.

Foreign merchandise has been moderately dealt in at rather less firm prices, as a rule. The week's imports of foreign dry goods were to the specie value of $1,581,174; and of foreign merchandise, $3,670,952, making a total of $5,252,126, against $5,588,324, same week last year.

At the Live Stock markets, this week, Beeves continue in moderate demand at from 13@17½c. per lb.; week's receipts, 7,412. Milch cows have been in request, at $40@$100 each, receipts, 72. Veal calves have been more sought after at from 6@10c. per lb.; receipts, 4,064. Sheep in demand at from 6@9¼c.; lambs at 12@18c. per lb.; receipts, 14,550. Swine rule quiet at 9¼@9¾c. per lb., all live weight; receipts, 21,158.

Ocean freights have been quite dull, in most lines, and rates have been depressed. For Liverpool we quote flour at 1s. 3d.@1s. 6d. by sail, and 1s. 6d. by steamer, per bbl.; grain at 3½d.@4 by sail, and 4d. by steamer, per bushel; cotton at ⅛d.@$\frac{3}{16}$d. by sail and ¼d. by steamer per lb.; and heavy goods 10s.@25s. by sail, and 15s. @35s. by steamer, per ton. Total number of vessels in port on Wednesday, 453.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending May 17, and since the beginning of the year:

	1869.	1870.
For the week	$3 871,328	$3,667,044
Previously reported	60,193,266	61,183,081
Since Jan. 1	$64,064,594	$64,850,125

The imports for the week ending May 14, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$1,402,998	$1,581,174
Gen. merchandise	4,18[illegible]26	3,670,952
Total for the week	$5,588,324	$5.252,126
Previously reported	116,170,375	107,864,780
Since January 1	$121,758,699	$113,116,906

The balance in the Sub-Treasury on Wednesday was $81,448,127 76.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Northern Pacific Railroad.

Proposals will be received at the office of the company, 120 Broadway, N. Y., until the 1st of June, for the grading, bridging, masonry, and ballasting of the road from the Dalles of the St. Louis River (a few miles west of Duluth) across Minnesota to the Red River of the North. The Minneapolis *Tribune* says:

The survey work on the Northern Pacific Railroad line across the State is now said to be done, and the full details will be made public soon. It is positively ascertained, however, that the line will strike the Red River of the North above Georgetown. It is intended that this line shall be finished as far as Red River—230 miles—by January 1, 1871. The German capitalists who have taken the burden of this construction on their hands, are in New York, and are there to advance all the money necessary to do all the work that is to be done under this proposal. Preparations are making to push the surveys and locate the permanent line beyond the Red River.

☞ THE SHORTEST AND EASIEST RAILROAD line between tide-water and the 15,000 miles of inland river navigation, and 25,000 miles of Western railways, is now building by the CHESAPEAKE AND OHIO RAILROAD COMPANY. More than half the work on the line is done, and upward of 5,000 men are employed on the unfinished portion. The advantages of grades, fuel, distance, first cost, (together with concessions from the State of Virginia,) are so important as to entitle it to rank as one of the great trunk lines of the continent. The earnings from local business alone will be sufficient to justify the whole expenditure of construction, and it will be enabled to share, to a large extent, the vast through business between East and West.

THE SIX PER CENT. GOLD THIRTY-YEAR BONDS OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, issued for the purpose of extending the line to the Ohio River, and secured by a mortgage upon the whole line, are for sale by the undersigned. Price, 90 and accrued interest from May 1. Full particulars of guarantee, and advantages accruing to investors, can be had on application.

FISK & HATCH,
Bankers, &c., No. 5 Nassau st.

Mobile and Montgomery Railroad.

By reference to the Advertisement of G. JORDAN, Esq., Engineer and Superintendent of this road, it will be seen that the company are about to extend their road from its present terminus at Blakely across the delta of Mobile Bay into the City of Mobile, a distance of twenty miles, embracing a large amount of heavy work—3,500 feet of bridging on iron piers, two large draw bridges, 25,000 feet of pile trestle-work, and 150,000 cubic yards of earth work. The bridge over the Tensas will be 2,000 feet long, and that over the Mobile River 1,000, resting either on screw or pneumatic piles. Plans and complete specifications are now ready, and proposals to build all these different parts of the work, and also for clearing, cross-ties, and tracklaying, will be received until the 15th of June, to which day the time for receiving proposals has been extended. Bidders may offer estimates on either screw or pneumatic piles for the bridges. This is one of the most important and extensive works offered to bridge builders.

Southern Pennsylvania Iron and R. R. Co.

The attention of investors is invited to the new bonds of the Southern Pennsylvania Iron and Railroad Company just brought out in this market by Messrs. Glendinning, Davis & Amory, bankers, 17 Wall street. These bonds run thirty years, bear seven per cent. interest, and are payable principal and interest in gold. The road is intended to reach and develop the iron ore beds belonging to the company in Franklin county, Pennsylvania, connecting the mining at Cowan's Gap, with the Cumberland Valley Railroad at a point about four miles below Chambersburg, a distance of twenty-five miles. The company own about five thousand acres of mineral land, which will be greatly enhanced in value when the road is completed. The trustees are Mr. J. Edgar Thomson, President of the Pennsylvania Railroad Co., and Mr. Frederick Watt. The subscription price of the bonds is 92, and $300,000 of them were taken by the Pennsylvania Railroad Co., for the purpose of encouraging the enterprise, at par.

Kansas Pacific Railway.

In the United States Supreme Court, on the 30th ult., Chief Justice CHASE delivered the following opinion in the case of John Edgar Thomson, *et al.*, *vs.* the Union Pacific Railroad Company, Eastern Divison:

The Union Pacific Railroad Company, Eastern Division, was originally incorporated in 1855, by the Legislature of the Territory of Kansas, as the Leavenworth, Pawnee and Western Railroad Company, with authority to construct a road from the west bank of the Missouri to the western boundary of the Territory. Subseqently, in 1862, under an act of the State of Kansas, it assumed its present name, with authority to unite or consolidate with any other company or companies organized, or to be organized, under the laws of the United States or of any State or Territory. Some months later the Union Pacific Railroad Company was incorporated by Congress with power (conferred by the original act of 1862, and various amendatory acts) to construct a railroad and telegraph westward through the territory of the United States, from the hundredth meridian west of Greenwich to connect with the Central Pacific Railway Company, incorporated by the State of California, and so to form, in connection with Eastern roads, a continuous line from ocean to ocean. Several other railroad companies, already incorporated by Missouri and Ohio, as well as the company just mentioned, chartered by Kansas, were authorized to construct roads through the national territory, so as to join the Union Pacific Road on the hundreth meridian; and to all these roads large grants of land were made and large subsidies engaged on the security of a second mortgage, upon the condition of paying at maturity the bonds advanced by the subsidies and of rendering certain services to the Government in the transmission of messages, and in the transportation of mails, troops, munitions and other property at reasonable rates of compensation. But neither by original act nor by any amendment did Congress undertake to incorporate any railroad company or authorize the construction of any railroad within the limits of any State without the consent of the State concerned. And this is as true of the Union Pacific Railway Company, Eastern Division, as of any other of the roads aided by Congress. Indeed, it may be truly said that whatever was done by Congress in reference to this last-named road was done not merely with the consent, but upon the urgent solicitation of the State of Kansas. The corporation, however, remained a State corporation, though entitled to certain benefits and subject to certain duties under the legislation of Congress. In this case we have no concern with any of the connected roads which form or are destined to form links in this great chain of trans-continental railway. We have only to consider the liabilities and right of the particular corporation in respect to taxation under State legislation. Argument has been heard in behalf of some of the connected corporations only because of their interest in the question, by reason of their similar situation and circumstances in reference to like legislation.

The complainants in the bill before us, which was filed in the Circuit Court of the United States for the District of Kansas, state that they are stockholders of the Union Pacific Railway Company, Eastern Division, one of the defendants; that three of the defendants, James Blood, John M. Funk, and William Coy, are Treasurers respectively of Douglass, Wyandotte, and Jefferson Counties, in the State of Kansas; that under an act of the Legislature of that State certain taxes have been imposed on the railroad and telegraph property of the company, which the Treasurers of the counties named are proceeding to collect; that the property of the company is mortgaged to the United States; that the company is bound to perform certain duties and ultimately to pay five per cent. of its net earnings to the United States; that the company will be greatly hindered and embarrassed in the performance of its obligations and duties to the United States if the taxes imposed shall be collected; and that, to some extent, taxes of the same description have been already paid by the company, to the prejudice of the just rights of the complainants and of the securities of the United States. Upon this case the complainants prayed an injunction to restrain the company from paying and the other defendants from collecting the taxes assessed, and a company injunction was allowed by the District Judge.

The answer of the company admits the allegations of the bill. The answers of the three County Treasurers admit the assessment of taxes under the laws of Kansas, but deny that such taxes have been imposed with any view to impede or embarrass the Railway Company, and that the property of the company only bears its due proportion of the taxes levied upon all the property in the State of Kansas, and that no discrimination is made against the company in the matter of taxation. To these answers no replication was put in, but an agreed statement of facts was filed, reciting sundry resolutions of the Kansas Legislature, and urging Congressional legislation in aid of the Railway Company; admitting that the property of the company is liable under the laws of Kansas to be taxed for State, county and municipal purposes; that the taxes complained of have been assessed in conformity with the statutes of the State; that the company has executed a first mortgage prior in lien to the debt to the United States, and that a table of earnings and expenditures for 1867 and 1868, appended to the agreed statement, is correct.

Upon the pleadings and this agreed statement, the question arose whether the property of the Railway Company described in the bill was subject to the tax which the statutes of Kansas authorized to be levied on all other property not specially exempted for State, county and municipal purposes. Upon this question the Judges of the Circuit Court were divided in opinion, and it has been certified here for decision.

The counsel for the complainants have very justly said that the question is one of very grave importance. It was suggested rather than argued by one of them that the property of the State is exempt by the State Constitution from taxation, and that the State having reserved to itself in the charter the right to purchase the road at the end of fifty years at a valuation then to be made upon two years' notice to the company, has, therefore, a property in the road which cannot be taxed. But it is too plain for argument that the interest thus reserved is too remote and too contingent to be regarded as within the meaning of the exemption.

The main argument for the complainants, however, is that the road, being constructed under the direction and authority of Congress, for the uses and purposes of the United States, and being a part of the system of roads thus constructed, is, therefore, exempt from taxation under State authority. It is to be observed that this exemption is not claimed under any act of Congress. It is not asserted that any act declaring such exemption has ever received the sanction of the national legislature. But it is earnestly insisted that the right of exemption arises from the relations of the road to the General Government. It is urged that the aids granted by Congress to the road were granted in the exercise of its constitutional powers to regulate commerce, to establish post-offices and post roads, to raise and support armies and suppress insurrection and invasion, and that, by the legislation, which supplied aid, required security, imposed duties, and, finally, exacted upon a certain contingency a per centage of income, the road was adopted as an instrument of the Government and as such was not subject to taxation by the State. The case of McCullough *vs.* Maryland is much relied on in support of this position. But we apprehend that the reasoning of that case will hardly warrant the conclusion which counsel deduce from it in this. In that case the main questions were whether the incorporation of the Bank of the United States, with power to establish branches, was an act of legislation within the constitutional powers of Congress, and whether the bank and the branches as actually established were exempt from taxation by State legislation. Both question were resolved in the affirmative. In deciding the first, the court did not hold, as counsel suppose, that Congress, under the Constitution, has absolute and exclusive power to determine whether an act of legislation is or is not necessary and proper for carrying into effect one or more of iis enumerated powers. It defined the words "necessary and proper" as equivalent in meaning to the words "appropriate, plainly adopted, not prohibited, but consistent with the letter and spirit of the Constitution," and held that the incorporation of a bank with branches was a necessary and proper means to the effectual exercise of granted power within the definition thus given. It held further that Congress was, within this limit, the exclusive judge as to the means best adapted to the end proposed, and that its choice of any means of the defined character was restricted only by its own discretion. But the question whether the particular means adopted were within the general grant of incidental powers was determined by the court. A great part of the argument was directed to the proposition that the incorporation of a bank was an exercise of incidental power, within the true meaning of the terms necessary and proper, as explained by the court, an argument which would have been quite superfluous if that question was to be determined by the legislative and not by the judicial department of the Government. We do not doubt, however, that upon the principles settled by that judgment, Congress may, in the exercise of powers incidental to the powers mentioned by counsel, make or authorise contracts with individuals or corporations for services to the Government; may grant aid by money or land in preparation for and in the performance of such services; may make any stipulation and conditions in relation to such aids not contrary to the Constitution, and may exempt, in its discretion, the agencies employed in such services from any State taxation which will prevent or impede the performance of them.

But can the right of the road to exemption from such taxation be maintained in the absence of any legislation by Congress to that effect? It is unquestionably true that the court in determining the second general question already stated did hold that the Bank of the United States, with its branches, was exempt from taxation by the State of Maryland, although no express exemption was found in the charter. But it must be remembered that the Bank of the United States was a corporation created by the United States, and as an agent in the constitutional powers of the Government, was endowed by the act of creation with all its faculties, powers, and functions. It did not owe its existence or any of its qualities to State legislation, and its exemption from taxation was mainly put upon this ground. Nor was the exemption itself without important limitations. It was declared not to extend to the real property of the bank within the State, nor to interests held by citizens of the State in the institutions. In like manner other means and operations of the Government have been held to be exempt from State taxation, as bonds issued for money borrowed. Weston *vs.* City of Charleston, 2 Pet., 467; certificates of indebtedness issued for money or supplies. The Banks *vs.* The Mayor, 7 Wall, 24; bills of credit issued for circulation, Bank *vs.* Supervisors, 7 Wall, 28. There were other instances in which exemption to the extent it is established in McCullough *vs.* Maryland, might have been held to arise from the simple creation and organization of corporations under acts of Congress, as in the case of the national banking associations, but in which Congress thought fit to prescribe the extent to which State taxation may be applied. (Van Allen *vs.* Assessors, 3 Wall, 578. Bradley *vs.* The People, 4 Wall, 459. People *vs.* Commissioners, 4 Wall, 244.) In all these cases, as in the case of the Bank of the United States, exemption from liability to taxation was maintained upon the same ground. The State tax, held to

be repugnant to the Constitution, was imposed directly upon an operation or an instrument of the Government. That such taxes cannot be imposed on the operations of the Government is a proposition which needs no argument to support it. And the same reasoning will apply to instruments of the Government created by itself for public and constitutional ends.

But we are not aware of any case in which the real estate or other property of a corporation not organized under an act of Congress has been held to be exempt in the absence of expressed legislation to that effect from just contribution in common with other property to the general expenditure for the common benefit, because of the employment of the corporation in the service of the Government. It is true that some of the reasoning in the case of McCullough *vs.* Maryland, seems to favor the broader doctrine. But the decision isself is limited to the case of the bank as a corporation created by a law of the United States and responsible in the use of its franchises to the Government of the United States, and even in respect to corporations organized under the legislation of Congress. We already held at this term that the implied limitation upon State taxation, derived from the express permission to tax the shares in the national banking associations is to be so construed as not to embarrass the imposition or collection of State taxes to the extent of the permission fairly and liberally interpreted. Bank of Louisville *vs.* Kentucky, Wall. Lionberger *vs.* Rowse, Wall.)

We do not think ourselves warranted, therefore, in extending the exemption established by the case of McCullough *vs.* Maryland beyond its terms. We cannot apply it to the case of a corporation deriving its experience from State law, exercising its franchise under State law, and holding its property with State jurisdiction and under the State protection. We do not doubt the propriety or necessity, under the Constitution of maintaining the supremacy of the General Government within its constitutional sphere. We fully recognize the soundness of the doctrine, that no State has a "right to tax the means employed by the Government of the Union for the execution of its powers." But we think there is a clear distinction between the means employed by the Government and the property of agents employed by the Government. Taxation of the agency is taxation of the means—taxation of the property of the agent is not taxation of the means. No one questions that the power to tax all property, business and persons within their respective limits is original in the States, and has never been surrendered. It cannot be so used, indeed, as to defeat or hinder the operations of the National Government, but it will be safe to conclude, in general, in reference to the persons and State, corporations employed in Government service, that when Congress has not interposed to protect their property from State taxation, such taxation is not obnoxious to that objection. (Lane County *vs.* Oregon, 7 Wall, 77; National Bank *vs.* Kentucky, Wall.)

We perceive no limits to the principle of exemption which the complainants seek to establish. It would remove from the reach of State taxation all the property of every agent of the Government. Every corporation engaged in the transportation of the mails or Government property of any description, by land or water, or in supplying materials for the use of the Government, or in performing any service, of whatever kind, might claim the benefit of the exemption. The amount of property now held by such corporations and having relations more or less direct to the National Government and its service, is very great. And this amount is constantly increasing, so that it may admit of question whether the whole income of the property which will remain liable to State taxation if the principle contended for or admitted and applied in its fullest extent, may not ultimately be found inadequate to the support of the State Governments. The nature of the claims to exemption which would be set up is well illustrated by that which is advanced in behalf of the complainants in the case before us. The very grounds of claim is in the bounties of the General Government. The allegations is that the Government has advanced large sums to aid in construction of the road; has contented itself with the security of a second mortgage; has made large grants of land upon no condition of benefit to itself, except that the company will perform certain services for full compensation, independently of those grants, and will admit the Government to a very limited and wholly contingent interest in remote net incomes. And because of these grants, and this fully compensated employment, it is claimed that this State Corporation, owing its being to State law, and indebted for these benefits to the consent and active interposition of the State Legislature, has a constitutional right to hold its property exempt from State taxation, and this without any legislation on the part of Congress, which indicates that such exemption is deemed essential to the full performance of its obligations to the Government.

We are unable to find in the Constitution any warrant for exemption from State taxation claimed in behalf of the complainants, and must therefore answer the question certified to us in the affirmative.

Journal of Railroad Law.

RAILROAD COMPANIES—ACTION FOR NEGLIGENCE—RULE OF DAMAGES.

The facts of the late case of The Chicago and North Western Railway Company *vs.* Dement (44 Ill. 74) are fully and clearly stated in the following opinion by

LAWRENCE, J.—This was an action brought by the appellee against the appellant, to recover the value of a cow alleged to have been killed by a railway train. The only question in the case is, whether the cow was in fact killed by the train. When found, she was lying on her back in the railway ditch, between two and three feet from the track, bloated, and the blood oozing from her nose. She bore, however, no external marks of injury. The jury found she came to her death from a passing train.

We do not consider this a case in which we can set aside the verdict as unsupported by the evidence. It is certainly singular that the cow, if killed by the train, bore no external marks of violence. But, on the other hand, the place where she was found dead raises a strong presumption, that she had been killed by one of the several trains proved to have passed over the road the night before. Here was a mode by which the death could be explained, and no other cause is shown to have existed which would explain it. The jury probably thought an animal might be so struck by a train that death would ensue from an internal injury, without external marks of violence and that the bloated condition of the cow, and the blood oozing from the nose, indicated such injury, and we cannot say they were in error. The question is purely one of fact the determination of which belonged to the jury, and though doubtful of the correctness of their finding, our convictions are not sufficiently clear to justify us in setting aside the verdict. We cannot say it was clearly against the evidence or unsupported by it, and the case is not therefore of that class in which this court awards a new trial upon that ground.

It is urged that the first and second instructions for the plaintiff are defective in not requiring it to be proved, that the road had been operated for six months prior to the accident. No harm, however, can have resulted to the defendant from this omission, as it clearly appears from the evidence, the road had been in use for a much longer period of time. The judgment must be affirmed.

Judgment affirmed.

Cheshire Railroad.

The annual meeting of this corporation was held at Keene, N. H., on the 11th inst. The report of the Directors showed the earnings the past year to have been $713,526; expenses, $562,188; interest paid, $39,414; making the net earnings, $111,923, most of which was required to pay the five per cent. dividend. The loss to the Company by the flood in October last is estimated at $30,000. During the year no passenger was injured on the road. The equipments in all the departments have been increased. The old Board of Directors were re-elected, to wit: E. Murdock, Jr., Thomas M. Edwards, Charles W. Cartwright, Wm. A. Brigham, Geo. Huntington, Samuel Gould, J. H. Elliot.

Rockford, Rock Island and St. Louis R. R.

A correspondent of the Milwaukee *Wisconsin*, referring to this road and the opening of a section of it, says:

The 110 miles alluded to, is the section reaching north from St. Louis to Beardstown, while from Rock Island northeast to Sterling, it is also in operation, and also across Rock River bridge to Calona and the coal mines at Briar Bluff. The cars are running upon the route from Keethsburg, on the river route to Sagetown. The strip north from Beardstown to Bushnell is also being pushed forwad rapidly from Bushnell north to Sterling. Rockford haveing recently voted its bonds in aid of the road, work will be commenced at once to that point, and in a short time it will be running to within 85 miles of this city.

☞ The Colony of Victoria, Australia, is about the same area as England, and has a population of 696,161, of which 391,146 are males, and 305,015 females. On December 31st, 1868, there were 630 post-offices open in Victoria, of which 59 were also telegraph offices. The population of Australia, including Tasmania and New Zealand, is estimated at 1,600,000.

☞ The Eau Claire *Free Press* says the engineers for the West Wisconsin Railroad just in from a tour of inspection, have declared the impracticability of the route via River Falls to Hudson or Prescott, hence the road will cross just above Menomonie village and continue on direct to Hudson.

☞ The extension of the Connecticut and Passumpsic Rivers Railroad from Newport, Vt., to the connection with the Grand Trunk, will be opened July 1, and will make a direct route from New York to Quebec, seventy miles nearer than by any other line.

☞ The preliminary survey of the Denver Central and Georgetown Railway, in Colorado, has been completed, and the work will now be pushed forward rapidly. The highest grade will not exceed eighty feet.

☞ James Weir, President of the Owensboro and Russellville railroad, informs the stockholders that the prospects are flattering for the early completion of the road. He expects trains to run as far as Green river in August.

☞ Work was commenced on the Central Division of the Iowa Central railroad, at Grinnell, on the 11th of May.

Pittsburg, and Connellsville Railroad.

Mr. B. H. Latrobe, the Chief Engineer of the Pittsburg and Connellsville Railroad, arrived in this city on Saturday from a tour of inspection along the unfinished portion of the road between Connellsville and Cumberland. He found the work in a very forward state, most of the grading between Connellsville and Confluence is finished, except the heavy cut at Ohio Pile Falls, and no doubt track laying for that distance will be commenced before July first. As we stated the other day, the workmen of the contract between Indian Creek and the falls of the Youghiogheny, have opened a splended vein of coal seven feet thick. Great activity is displayed at Confluence, where the shops of the railroad will be located; it will be a second Altoona in a few years.—*Pittsburg Chronicle.*

Kent County Railroad.

At a meeting of the stockholders of this company in Chestertown, Md., on the 16th inst., the following gentlemen were chosen directors: George Vickers, Richard C. Johnson, William Welch, William B. Wilmer, Charles Beasten, Jesse K. Hines, John Gale, George W. T. Perkins. At a subsequent meeting of the directors, Geo. Vickers was re-elected president, R. Hynson, treasurer, and H. W. Vickers, secretary. A committee was appointed to contract for iron for the track from Kennedyville to Duyer's, to which latter point it is expected to have the road finished by the first of August if the committee are successful in their negotiations.

Darien Ship Canal.

The engineering expedition sent out by the U. S. Government to survey a route for a ship canal across the Isthmus of Darien have reported unfavorably. Capt. Selfridge writes—

"We have finished surveying the Darien and found it impracticable for a ship canal. I am now at work on the line from the Gulf of San Blas, about eighty miles east of Aspinwall, with better prospects of success. I expect to get through so that the expedition can return to the United States about the middle of June."

☞ Governor Hoffman has vetoed the bill allowing a company to tunnel Broadway and Fourteenth and other streets for the building of an underground railroad. He names thirteen objections to the bill, and while conceding the necessity of some improved railroad communication for the city, insists that the bill is unjust to property holders, especially on Broadway, where the vaults are of so much importance to business.

☞ The annual election of the Harlem Bridge, Morrisania and Fordham Railway resulted in the choice of the following officers: H. B. Kirk, President; M. B. Whitney, Vice-President; William Cauldwell, Treasurer: John B. Haskin, Secretary; James Murphy, Superintendent; Harry Spratley, Receiver.

☞ The contract for a joint management of the Concord and Northern (N. H.) railroads, and their several branches, has been signed. The agreement runs for five years, and is to be construed as a business contract solely, and not in any sense as a lease of one road to the other.

☞ The management of the Arequapa Railroad (Peru), has been granted to Mr. Henry Meiggs, an American, during the five years which are to be employed in the construction of the new line. Mr. Meiggs has agreed to pay three per cent. on the cost of the line.

☞ Another great Ocean route for passenger ships, and another great channel of general intelligence, has been opened across the Pacific by mail steamers, which will run periodically between San Francisco and Honolulu, connecting at the latter place with another line from Sydney, in New South Wales, and touching at Auckland, in New Zealand, on the way.

☞ The Baltimore "Citizens' Passenger Railway Association," incorporated at the recent session of the General Assembly, met on the 12th inst., and organized by electing James S. Hagerty, President; S. M. Snowden, Secretary, and A. P. Burt, Treasurer.

☞ Stephen C. Millett, Esq., President of the Port Royal Railroad, in a letter to Mr. W. B. Dorn, of Liberty Hill, Edgefield county, states that the road will be in operation to Augusta by the 1st of September next.

☞ The Sag Harbor Branch of the Long Island Railroad has been completed. This road taps the Long Island road at Manor, and is about thirty five miles in length.

7 PER CENT. GOLD LOAN,

FREE FROM ALL TAXES.

We offer for Sale at 92, and accrued interest from March 1st, 1870.

$300,000

FIRST MORTGAGE COUPON BONDS OF THE

Southern Pennsylvania Iron and Railroad Company.

The Bonds are in denominations of $1,000 and $160; dated March 1st, 1870, and maturing in 30 years from date, payable in Gold. The interest is payable March and September at FIRST NATIONAL BANK, Philadelphia.

J. Edgar Thomson, Esq.,
Frederick Watt, Esq., } TRUSTEES.

The capital stock of the Company is $1,000,000 nearly all of which has been subscribed and paid for, and the entire bonded debt is $625,000 of these first mortgage bonds, half of which have already been taken by one corporation. Persons desiring to make a safe and well-paying investment, are invited to examine the merits of these securities. Pamphlets furnished and full information given at the Banking House of

The San Antonio and Mexican Gulf Railroad.

FOR SALE AT PUBLIC AUCTION.

HEAD QUARTERS FIFTH MILITARY DISTRICT,
State of Texas.
CHIEF QUARTER MASTERS OFFICE,
Austin, Texas, April 11th, 1870.

IN COMPLIANCE WITH THE ORDER OF THE Secretary of War, dated March 26th, 1870, there will be sold at Public Auction at Indianola, Texas, between the hours of 12 M. and 3 P. M., on Wednesday, the 25th day of May, 1870, all the right, title and interest of the United States of America in and to the

San Antonio and Mexican Gulf Railroad from Lavaca to Victoria, Texas.

The Sale will include the Road Beds, Tracks and Sidings, Buildings, Water Stations, Turn Tables, &c.

The Railroad Materials and Supplies pertaining to the road, together with the Rolling Stock, Cars, Machinery and other Equipments, as follows:

28 Miles of Track, (more or less).
1 Passenger Car.
1 Baggage Car.
6 Box Cars.
6 Platform Cars.
1 Engine and Tender.
1 Engine.
1 Engine House at Lavaca.
1 Depot Building at Victoria.
1 Depot Building at Lavaca.
1 Machine Shop at Victoria.
20 prs. trucks loose at Depot in Victoria.
4 prs. trucks under 2 Platform Cars.
1 Miscellaneous lot of Railroad Material, Boxing Straps, &c.
1 Worthless lot of Blacksmiths Tools.
1 Mixed lot of Machinery being odd pieces, &c., in shops at Victoria.
8 prs. trucks lying loose along the Road between Lavaca and Victoria.
2 prs. driving Wheels at Victoria.
1 Tank at Victoria.
1 Pistern at Victoria.
1 Iron Safe.
2 Stoves.
2 pr. Scales.
8 Hand trucks.
1 Cross Cut Saw.

The property may be inspected on Application to the agent of the Road and any information desired may be obtained from the Chief Quarter Master Fifth Military District, at Austin, Texas.

Full particulars given on day of sale.

Terms of payment cash in United States Funds.

RAILROAD CROSS TIES.

CHIEF ENGINEER AND GENERAL SUPT'S OFFICE,
MOBILE AND MONTGOMERY RAILROAD,
MONTGOMERY, ALA., April 22, 1870.

Notice to Bridge Builders and Railroad Contractors.

On the first day of June next, the Mobile and Montgomery Railroad Company will be prepared to let to contract all the work embraced in extension of their Road from the East side of Mobile Bay into the city of Mobile, a distance of about twenty miles.

There will be embraced in this work about—
3,500 feet First Class Bridging on Iron Piers;
2 Large Draw Bridges;
25,000 feet Pile Trestle Work;
150,000 cubic yards Earth Work;
20 miles Clearing, Cross Ties, and Track-laying.

After the fifteenth day of May, the Plans and Specifications will be ready for the inspection of parties desiring to offer proposals for this work. Address—

G. JORDAN,
CHIEF ENGINEER,
Montgomery, Ala.

☞ The above letting has been postponed, from Wednesday, June the 1st, to Wednesday June the 15th. Proposals will be received up to 10 A. M. on that day. Complete specifications will be ready by the 15th inst.

G. JORDAN,
Chief Engineer.

Montgomery, Ala., May 10, 1870.

Northern Pacific Railroad.

To Railroad Contractors.

SEALED PROPOSALS will be received at the office of the Northern Pacific Railroad Company, 120 Broadway, corner of Cedar street, New York, until Wednesday, the 1st day of June, 1870, at 12 o clock noon, for the grading, masonry, bridging and ballasting of that portion of the Northern Pacific Railroad in the State of Minnesota extending from the Dallas of the St. Louis river to the Red river, the western boundary of Minnesota (a distance of about 230 miles), including everything requisite to complete the road bed for a single track and necessary side tracks, ready to receive the rail superstructure. Proposals may be for the work in detail or by the mile.

The said company will also receive proposals, at the same time and place, for the timber cross-ties, and for the iron rails, spikes and fixtures for the road as above. The iron rails to be delivered on the dock at Duluth, Minnesota, or at the crossing of the Mississippi River, and the ties to be received according to blank forms which will be ready for distribution on Wednesday, May, 4, 1870, at the office of the company, as above, where plans of the structures and maps and profiles of the road, with full specifications, can then be seen, and the time allowed for completion of the contracts made known.

The company reserve the right to reject any or all bids not deemed to be for the interest of the company.

Printed circulars containing full information, will be furnished on application, by mail or otherwise, to Edwin F. Johnson, Chief Engineer, or to the President of the company, at the office, 120 Broadway, as above.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,
IRON AND STEEL MANUFACTURERS,
No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

BRADY'S RAILROAD LANTERNS.

The strongest and best in use; are made principally of Malleable Iron. Here lies the secret of their strength, the frame being capable of supporting a weight of Four or Five Hundred Pounds; and yet they are little heavier than ordinary Lanterns. The guards are rivited through the top and bottom flanges, the rings wound with wire where they cross the guards, and the whole frame tinned, uniting each piece with the other, making it the *strongest* Lantern ever offered to the public. RAILROAD MEN *especially* cannot fail to see that it will be economy to purchase these Lanterns, as there is no part that can be broken with ordinary use, except the Globe, which being adjustable, is easily and cheaply replaced with any color and at a small cost; the greater weight being at the bottom, it cannot readily upset. Now used on the following Railroads: New York and New Haven; Hartford and New Haven; Shore Line, Conn.; Providence and Worcester; Boston and Maine; Conn. and Passumpsic Rivers; Fitchburg; Rensselaer and Saratoga; Troy and Boston; Boston and Providence; Boston, Clinton and Fitchburg; Charlotte, Columbia and Augusta; Connecticut River; European and North American; Hartford, Providence and Fishkill; Mobile and Ohio; Portland and Kennebec; Boston, Hartford and Erie; Worcester and Nashua; Lake Superior and Miss.; Hudson River, and many others.

The trade supplied from our Store, or from the Factory, New Britain, Conn,

Wilmington and Manchester R. R.

The following notice is of interest to the holders of the bonds of this company:

M. K. Jesup, *et al.*, *vs.* The Wilmington and Manchester Railroad Company, *et als.*—Pursuant to an order of the Superior Court of New Hanover county, made in the above entitled cause at the spring term, 1870, at presentation at the office of Cronly & Morris, in this city, I will pay to the holders of the first preferred bonds, secured by the mortgage made by the defendant, the said Wilmington and Manchester Railroad Company, to the plaintiff, M. K. Jesup, who have not already received the same, a per centage of $30 72 on said bonds and accrued interest on the same, being dividend for distribution, as aforesaid, from net sales of that portion of the railroad and other property covered by said mortgage, which was in the State of North Carolina. In further obedience to the order made as aforesaid, I hereby notify all holders of the bonds above referred to that unless the same are presented to me as above for payment of the dividend above stated on or before the first day of September, 1870, they will be forever debarred from any participation in the said fund in my hands for distribution as aforesaid.

M. CRONLY,
Commissioner and Referee.

Wilmington, N. C., May 16, 1870.

Atlantic and Pacific Railroad.

The annual meeting of the stockholders of this company was held in Boston on the 19th inst., the President, Mr. Francis B. Hays, in the chair. About a dozen gentlemen were present, representing nearly 30,000 shares of stock. A resolution was adopted on motion of Mr. Seligman, giving the Directors full power to make such contracts with the South Pacific Railroad Company under their charter as they should deem advisable. The road begins at Springfield, Missouri, and is now graded 50 miles west of that city, tracks are laid, and the road completed for 30 miles. The President states that the work is now progressing at the rate of one and one half miles a day. The South Pacific and this road are owned and managed by the same person, although with separate charters. The South Pacific extends from St. Louis to Springfield, Mo., a distance of 242 miles, and has been finished. At the meeting the following Directors were elected, after which the meeting adjourned: Francis B. Hays, Uriel Crocker, Isaac Rich, Jacob Sleeper, Boston Mass; Andrew V. Stout, New York; Frederick Billings, Woodstock, Vt.; Andrew Pierce, Jr., St. Louis, Mo.; William H. Coffin, Clyde, N. Y.; Charles J. Morrill, Boston, Mass.; Oliver Ames, N. Easton, Mass.; Joseph Seligman, New York; George S. Curtis, Boston, Mass.; Charles E. Harwood, Springfield, Mo.

Marquette and Ontonagan Railroad.

The Marquette and Ontonagan Railroad extends from here west to the Champion mine, a distance of 33 miles. During the shipping season this road does a very heavy business bringing down ore from the mines. They are now running thirty-eight trains per day. They have an ore dock here of a capacity of 9,000 tons, from which 12 to 14 vessels can be loaded per day. They have beside a stone dock or pier where merchandise is received from the steamboats for shipment over the road; it is also used for the shipment of pig iron. Their car and machine shops, foundry, etc., are located here. At their shops are built all the rolling stock of the road except locomotives. Their two elegant passenger coaches and baggage car were built here. They employ in the various departments about 200 mechanics. The resident officers of the road are:

Samuel P. Ely, Vice President and agent; C. Donkersley, Superintendent; A. C. Thiel, master of transportation; J. F. Sohier, General freight agent; E. B. Gay, auditor and cashier; Fred. M. Steele, pay master; Walter Finney, General passenger agent.—*Marquette Mining Journal.*

Cairo and Fulton Railroad.

The following is a copy of the resolution passed by Congress extending the time for the completion of the first section of twenty miles of this road:

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That in case the Cairo and Fulton Railroad Company shall complete the first section of twenty miles of said road by the twentieth day of December, eighteen hundred and seventy, and the Secretary of the Interior shall be satisfied of such completion, then the said company shall be entitled to its land in all respects and to the same extent as it would have been had said twenty miles been completed by the twenty-eighth of April, eighteen hundred and seventy, as provided by law relating to said railroad company.

Approved May 6, 1870.

Railroads in New Jersey.

Frequenters of summer resorts in New Jersey will soon have new fields open for enjoyment, through increased railroad facilities. The New Jersey Southern Railroad Company, lately the Raritan and Delaware Bay Railroad Company, purpose connecting directly with Camden by the 1st of July, and are grading a track from Whitney's Mills, four miles below Manchester, and seventy-one miles from this city, to that point, by way of Pemberton.

The injunction of the Camden and Amboy Railroad upon the New Jersey Southern, between Atsion and Jackson, on the Camden and Atlantic road, has been removed, and some time during this year measures will be taken to construct a direct road from thence to Vineland, from which point a road will run direct to Cape May. A railroad is now surveying between Barnegat and Watertown, passing Mannahawkin, West Creek, and Tuckerton. It will open many fertile tracts, and afford quick access to the rich fisheries of Little Egg Harbor Bay. It is to be finished, probably, by next summer.

Another road from Tom's River to Barnegat will afford a complete connection with both the New Jersey Southern and Seashore roads. A new railroad is likewise in contemplation between Hightstown, on the Camden and Amboy road,

and Port Mommouth, which will give travellers more speedy access to New York than by the way of South Amboy, and open up a large tract of country.

Eastern Kentucky Railroad.

The Ironton (Ohio) *Journal* learns that a portion of this road, between Hunnewell Furnace and Grayson, has been let, and is to be completed for ties and rails by the first of January next. Also that the contracts will soon be let for a branch road to the famous Lambert ore banks, and another down Tygart to the Ohio river, near Portsmouth. This road forms a link in the line which will connect Louisville with the western terminus of the Chesapeake and Ohio railroad, but it will be necessary to extend it fifteen or twenty miles eastward in order to complete the connection.

Toledo, Wabash and Western Railway.

The revenue and expenditures of the operating department of this road for the fiscal years ending December 31, 1868 and 1869, were as follows:

Revenue:	1868.	1869.
From passengers	$1,224,681 51	$1,274,539 54
" freight	2,542,742 91	2,681,235 93
" mail	70,412 49	72,049 98
" express	89,163 97	79,105 85
" miscellaneous	86,207 10	145,411 51
	$4,013,207 98	$4,252,342 81
Expenditures, viz:		
Renewal of iron and superstructure	$287,064 04	$538,617 31
Maintenance of roadway and structures	624,579 41	513,666 39
Maintenance of cars, engines, etc	489,389 66	449,733 93
General transportat'n expenses	1,488,586 68	1,549,386 95
	$2,889,619 79	$3,051,404 58
Leaving a net revenue of	$1,123,588 19	$1,200,938 23

Compared with the previous year, the gross revenue of 1869 shows an increase of $239,134 83; with an increase in expenditures of $161,784 79—making the increase of net revenue, $77,350 04.

The receipts from all sources during the year were:

Receipts.	
Gross revenue, as above	$4,252,342 81
Capital stock issued	878,803 41
I. H. Knox and others, Trustees (stock)	304,054 36
Materials and supplies, less than 1868	23,393 86
Fuel, less than 1868	49,162 02
Cash, balance of 1868	108,077 43
From connecting roads (balance of 1868)	51,704 95
Total	$5,667,538 81
Expenditures, &c.	
Operating expenses, as above	$3,051,404 58
Equipment	330,070 54
Construction	700,425 78
Interest—less unpaid coupons	1,134,990 53
Quincy and Palmyra railroad	22,223 95
Meredosia Bridge	6,348 29
Sinking fund	75,000 00
Bills payable	1,308 00
Coupons of previous years paid	72,929 50
Profit and loss	92,920 06
Cash on deposit	55,320 59
Decatur and East St. Louis R. R. Co.	91,434 47
Due from connecting roads and individuals	33,162 55
Total, as above	$5,667,538 84

As already stated, the earnings of the road for the current year show an increase of $239,134 83 over those of the preceding year, being the largest annual increase ever before realized. The gross earnings are $4,252,342 81, and the operating expenses have been $3,051,404 58, leaving a net balance of $1,200,938 23. This balance was sufficient to pay the interest upon the entire bonded debt of the Company, as well as that of the preferred stock, but the overplus, after making such payments, was too small to justify the payment of any dividend upon the common stock.

From the annexed exhibits, it will be seen that we close our fiscal year with cash assets amounting to $179,917 61, in addition to which we have materials and supplies amounting to $164,806 78, making a total of $344,724 39. The company, having no floating or other form of indebtedness, is therefore enabled to commence the incoming year with this large and available capital on hand.

The statistics of the traffic of the road indicate a movement of freight from all stations largely in excess of any previous year, and which, at remunerative rates, would have produced earnings far in advance of those actually realized. The growth or increase of the tonnage from year to year has been large and of the most gratifying and encouraging character. Unfortunately, however, the extreme competition and low rates which have prevailed, have not enabled us to show an increase in our revenues proportionate to the increase of tonnage. It is to be hoped that this evil may be remedied by the re-establishment of harmony and consequent restoration of remunerative rates between the various competing lines. When this is accomplished, our earnings will be made commensurate with the volume of our business, and then we may be confident of making satisfactory returns to our stockholders.

The rivalry and competition which has deprived the through traffic of much of its profitableness, has furnished the officers of the Company an incentive to supply the loss by a further and more complete development of our local traffic.

Accordingly, especial care and attention has been bestowed upon this, in all its various branches, embracing not only the cereals and other staples of the country, but more particularly those valuable productions, such as coal, lumber, staves, lime, &c. The success attending our efforts in this direction assure us of the wisdom of concentrating a more faithful and earnest labor in cultivating the local and internal resources of our road, which, after all, constitute the real and most reliable basis of prosperity in all railway operations.

By an advantageous exchange of the common stock of this Company for that of the Wabash Elevator Company, we have acquired the control and ownership of the extensive elevators of that Company at Toledo. The possession of these elevators is of the greatest importance to us, and especially so on account of the large through business, which, by the terms of our contract, was subject to tribute in the form of elevator charges. The amount of this through traffic during the current year was 2,000,000 bushels, and is destined to increase rapidly with each recurring year. To subject this large business to such an onerous tax, would inevitably result in its diversion to competing lines and in depriving us of one of our most important sources of revenue. The benefits arising from the possession of this property (since the first of April last) show an actual saving to the Company of nearly $50,000.

As regards our prospect for business for the incoming year, they cannot, all things being considered, be esteemed otherwise than encouraging. The country traversed by our line, is with each returning year becoming more densely populated and brought into a higher state of cultivation, and shows a marked progress in all the elements of material prosperity, thus affording us the unmistakable guarantee of a constant increase in the business of our road. However, our prospects at the present juncture are rendered more especially flattering by reason of the proposed extension of our line into new territory, and to points of greater commercial importance than hitherto reached.

Our Decatur and East St. Louis extension is rapidly advancing towards completion, the grading being nearly finished and the laying of the track being pushed forward with such dispatch, that we expect the road will be opened for business in the course of a few months. This new line passes through a country thickly settled, thoroughly cultivated, and regarded as the richest and most productive in the State of Illinois. St. Louis, its terminal point, is already well known as being one of the most important railway centres in the country. Its completion places us in possession of the shortest possible route for the transportation of the large amount of freight passing between the waters of Lake Erie and those of the Mississippi, and also in a position for the rapid transmission of all rail business between St. Louis and the great commercial cities of the East, not excelled by that of any other line. At East St. Louis, ample depot grounds, advantageously located as regards the business of the city, have already been procured, together with all other privileges necessary for the accommodation of our passenger and freight traffic. Arrangements have been made to put the line in thorough running condition and to supply it with an equipment that shall render it attractive and popular to both the travelling and business public. Its efficiency, however, will be further promoted by the completion of the railway bridge, now in the process of construction at St. Louis.

Mention was made in our last annual report of contracts concluded between this Company and the Hannibal and Naples R. R. Co., the Hannibal and Central Missouri R. R. Co., and the North Missouri R. R. Co., for the establishment of a direct and continuous through railway line from Toledo to Kansas City. That part of this proposed line, between Naples and Hannibal has already been finished, thus extending our road to the Mississippi River at the City of Hannibal. The only remaining unfinished division is that of the Hannibal and Central Missouri R. R. Co. lying between Hannibal and Moberly, being a little more than sixty miles in length. The construction work on this division is rapidly advancing towards completion, and it is expected to be ready for the passage of trains before the close of another year. Arrangements have already been made for the immediate construction of an iron bridge over the Mississippi River at Hannibal, and when built the continuity of the general line will be perfected. The completion of this great work insures to our road the local traffic from a rich and extensive country between the Illinois, Mississippi and Missouri rivers, besides furnishing us the shortest and most eligible route to Kansas City, a place already of great business importance and by reason of its railway connections, destined to become the distributing point of the traffic of the Southwest.

St. Louis and Kansas City, at the period of the inception of our Company, were regarded as the great natural objective points of our railway, and ever since that event we have looked forward to the extension of our line to those great railway centres as the accomplishment of a design of the greatest importance to us. We therefore look to the early completion of these undertakings with the highest degree of satisfaction and in the full conviction that we shall realize from them an accession to our traffic, both through and local, far beyond that which has hitherto been anticipated or realized.

The new line of railroad extending from Danville to Bloomington is now nearly finished. This road passes through a rich grain producing country, and we have therefore ample reason to expect from it a large amount of grain, which will naturally seek an eastern outlet through Toledo.

We likewise look forward with much interest to the opening of the new line of railroad from Fort Wayne to the Ohio River, which promises us very favorable connections and a large business.

It is expected that the bridge crossing the Mississippi River at Keokuk will be completed and ready for the passage of trains during the coming autumn, which will greatly facilitate all our busi-

ness relations with that city, and secure prompt and advantageous connections with the Des Moines Valley R. R.

The length of road operated is as follows: in Ohio, 75.5 miles; in Indiana, 166.9 miles; Main road in Illinois, 212.4 miles; Keokuk branch, 41.2 miles; Naples branch, 4 miles; Camp Point to Quincy, (leased), 22 miles—total length of road operated, 522 miles. Five passenger coaches, 200 box freight, 125 platform, 100 stock, 25 coal and 16 other cars have been built at the shops of the company during the year. There have been entirely rebuilt, or received general repairs, 1 sleeping coach, 7 passenger coaches, 3 baggage and mail, 232 box freight, 30 stock, 19 platform, 3 coal, and 52 other cars. Ten first class locomotives have been added during the year—five of which were manufactured at the Schenectady Locomotive Works, and five at the Pittsburg Works. The equipment now comprises 115 locomotives, 50 passenger, 4 smoking, 29 mail and baggage, 1,300 box freight, 391 stock, 280 platform, 206 coal, 48 caboose and 30 dumping cars. A large number of engines have been converted from wood-burners to coal burners, so that of the present equipment of 115 engines, 81 are now consuming coal. During the year 90 miles of new iron have been laid with the Fish Joint, and 64 miles of old rails taken out, repaired and replaced; 4½ miles of new steel rails have been put in the track; 34 miles of fences built; 7 miles of new side tracks; 139,074 new cross-ties; 3 new passenger buildings; 5 new freight buildings; and 1 new machine shop. Fully 50 miles of the track have received a substantial coating of ballast.

Smith, Springfield, Ills.; C. A. Savage, Quincy, Ills.. Amasa Stone, Jr., Cleveland; James Spears, Lafayette, Ind.; J. N. Drummond, Toledo; E. B. Phillips, Chicago.

Secretary and Treasurer.—Wm. B. Corneau.

Gen'l Superintendent.—GEORGE H. BURROWS.

Northern (N. H.) Railroad.

The report of this company for the year ending March 31, 1870, shows the earnings to be $689,628 03, and the expenses $433,356 11; balance, $256,271 92: add to this the balance of interest account, $1,119 66, and the amount is $257,391 58. This added to the balance of income, as per last report, $253,474 79, makes a net income of $510,866 37. Out of this has been paid on two dividends, and United States tax on earnings of previous years, $251,894 35; leaving a balance of income account of $258,972 02, which has been put into fuel, rails, etc., etc., for the road. Bonds of the road to the amount of $5,600 have been purchased and cancelled, leaving $115,000 outstanding. The contingent fund reaches the sum of $83,091 61. The receipts have increased $74,011 44 during the year past, and expenses $7,403. The number of passengers has increased 10 per cent., and tonnage 17. All damages from freshets and otherwise have been made good, and 685 tons of new rails have been laid, 2,993 tons taken up, repaired and relaid, and over 18,000 new sleepers put down. One passenger car, forty-nine freight cars and one locomotive have been built. Of the extension from Bradford to Claremont the report says: "It has been decided to build it, and the grading and masonry of the road have been let, and the work will be commenced as soon as the land damages are settled." In regard to the contract with the Concord road, which is appended to the report, the Directors say:

"A contract has been made with the Concord Railroad Corporation, which, it is believed, will be advantageous to the roads and the public. Under this arrangement a considerable annual saving can be made by working the two roads together, while better and cheaper facilities can be afforded to the public."

The bridge across the Connecticut at White River Junction is to be rebuilt this year.

St. Croix and Superior Railroad.

At a meeting of the corporators of the St. Croix and Superior Land Grant R. R. Co., in Prescott, Wis., on the 12th inst., a resolution was adopted accepting the charter, and directing the acceptance to be filed with the Secretary of State of Wisconsin. Philip W. Holmes, of New York, Nathan K. Elmore and Joseph Colamer, of Philadelphia, were appointed commissioners to open books for subscriptions of stock. James Smith, Jr., of St. Paul, attorney for Jay Cooke & Co., subscribed for five hundred shares, amounting to $500,000, the amount required in the charter to be subscribed preliminary to the organization of the company. A further meeting was ordered to be held at Milwaukee, July 14th, for the election of directors and the officers of the company.

☞ The officers of the Lake Pepin and Omaha R. R. Co., recently re-elected, are: Dr. N. S. Tefft, of Wabashaw (Minn.), President; Geo. Bryant, of Elgin, Vice President; H. P. Willson, of Plainview, Secretary; O. P. Whitcomb, of Rochester, Treasurer. The company intend securing the construction of a road from Austin to Wabashaw, to connect either with the Green Bay road or with one to Lake Superior, by way of the Chippewa Valley. A preliminary survey of the entire line is to be made this season.

☞ The quantity of Iron Ore transported over the St. Louis and Iron Mountain railroad during the first four months of the present year was as follows:

January	23,165,586 pounds.
February	31,426,981 "
March	37,383,928 "
April	47,430,765 "
Total for four months	139,357,260 "

The total amount of pig iron transported during the same time was 16,506,235 pounds.

The Adams' Express Company have declared a quarterly dividend of two per cent., the transfer books closing the 20th inst. and reopening June 2.

The American Merchants' Union Express Company have declared a semi-annual dividend of three per cent., payable July 15. The transfer books will close on June 25 and reopen July 16.

☞ The following gentlemen have been elected directors of the New York and Harlem R. R. Co. for the ensuing year: Cornelius Vanderbilt, C. Vanderbilt, Jr., W. H. Vanderbilt, Augustus Schell, Horace F. Clark, A. B. Bayliss, J. H. Banker, Joseph Hasker, W. C. Wetmore, Oliver Charlick, J. B. Dutcher, W. A. Kissam, C. M. Merserole.

☞ Upwards of 100 miles of the Lake Superior and Mississippi Railroad are completed, and 2,500 men are at work upon the remainder. The road will be opened by a grand excursion from St. Paul to Duluth, on the 4th of July.

☞ The Kansas City and Fort Scott railroad has been completed to Baxter Springs, on the line of the Indian Territory.

Railroads of the State of Pennsylvania.

American Railroad Journal.

Saturday, May 28, 1870.

Stock Exchange and Money Market.

Another very favorable exhibit was made by the city banks in their last weekly statement, which showed an addition of about 4⅛ millions to the deposit average, 1⅝ millions to the specie hoard, and over a million to the legal tender reserve. The banks increased their loan and discount line 1⅞ millions, and cut down their circulation $102,332. The deposits now amount to over 226½ millions, against 201¾ millions on the 9th of April. The specie average is up to 34⅛ millions against 25⅜ millions four weeks earlier. The legal tender reserve has been augmented to over 59 millions against 47½ millions in the second week in April. The loan and discount item stands at 280¼ millions against 269 millions at the close of April. The offerings of money have been unusually liberal all through the week to responsible borrowers on the basis of 4@6 per cent. in a controllable form, and 6@9 per cent. per annum, in the discount line. The demand for aid has been less urgent, from both speculative and mercantile borrowers. The U. S. Sub-Treasury cash balances on Wednesday morning stood at $76,836,422 of coin, and $3,809,209 of currency, showing a slight gain for the week, in both items.

The specie reserve of the city banks according to the latest return is $34,116,935, against $15,429,404 same time last year. The city bank deposits are now $226,552,926, against $199,414,869 week ending May 22 1869. The legal tender reserve amounts to $59,023,806, against $57,838,298 same time last year. The circulation now stands at $33,191,648, against $23,927,385 same time last year. The loans are now $280,261,077, against $270,275,952 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged about $104,279,720 a day, against a daily average of $109,877,490 the preceding week, and $116,848,490 the week ending with May 7, 1870. The current week's exchanges average about 95 millions a day. The city banks, last week, reported a further gain of $1,663,029 of specie, $4,110,607 of deposits, and $1,076,301 of legal tender notes. They increased their loans, $1,877,763; and reduced their circulation, $102,332.

The city bank exchanges on Wednesday were about 100 millions.

National Bank notes to the amount of $255,500 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $324,218,776, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $24,771,064, leaving, with the existing 1,614 banks, (having an aggregate capital of $427,004,247,) an actual circulation at this date, of $299,447,712. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,362,550; and for the public deposits, $16,340 000—making a total of $358,702,550. The Treasury Department last week redeemed and destroyed $412,700 of worn and mutilated fractional currency, and issued $861,803 of new.

The U. S. Sub-Treasury receipts, week ending with May 21, were $4,074,058 in coin, (including $2,842,000 from customs duties,) and $3,686,392 in currency; payments, $3,878,379 in coin, (including $1,459,959 of coin interest,) and $3,590 606 in currency; balance at the close of the week $82,937,839 (including $76,643,732, of coin, and $3,380,458 of currency,) against $82,084,407 at the close of the preceding week, showing an increase of $843,432. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $454,674 in coin, (including $413,040 from customs,) and $613,201 in currency; payments, $516,854 in coin, (including $464,434 of coin interest,) and $296,002 in currency. On Tuesday, receipts, $512,310 in coin (including $416,484 from customs), and $349,585 in currency; payments, $257,440 in coin (including $335,287 of coin interest) and $238,088 of currency. The balance at the close of business on Tuesday stood at $82,990,329, (including $3,809,209 of currency, and $76,836,422 of coin,) against $82,369,463 a week previous; and $81,379,042 on May 7, 1870. The aggregate receipts of the office in April were $38,914,767, including $13,193,882 from customs; aggregate

payments, $33,538,278 including $836,564 of coin interest; balance at the close of the month, $88,231,250, against $82,854,761 at the close of March.

The U. S. Sub-Treasurer issued in April $1,317,500 of coin certificates.

The U. S. Sub Treasurer retired, last week, $2,549,403 of coin certificates, received for customs.

The U. S. Sub-Treasury general balance on Thursday morning was $82,097,331.

Government revenues were rather more prolific last week. The excises, during the week yielded $4,636,629; customs at the port of New York, $2,727,401 and at the outports about $900,000 (in coin) more, making the grand total income for the week equal to about $8,808,150 in currency. The receipts from excises, thus far in the current fiscal year, commencing with July 1, 1869, have been $150,856,873.

The Gold speculation was less confident most of the week, and the price declined to 113¾@113⅞, or a fraction over one per cent. from the highest figures made since our last, which were 114⅞@115. The export call was moderate. Toward the close there was rather more animation apparent, and the price rallied to 114⅝, the latest quotation on Wednesday having been 114⅜@114½. Last week's exports were only $716,496. The shipments thus far this week have been moderate, including $340,678 by the *Allemania* on Tuesday, and $334,664 by the *Cuba* and *Idaho* on Wednesday. On Wednesday, Government disposed of a million of Gold at from 114 38@114 45. The aggregate of the bids was $5,745,000, and the range from 113 70@114 45. On Wednesday morning, the Treasury Department held a currency balance of $11,144,000; and a coin balance $107,668,000, of which $36,000,000 were in coin certificates.

The coin balance of the Treasury Department on Monday was $107,285,000, including $36,755,500 on private deposit; currency balance, $9,357,000.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $77,188,954.

The customs revenue of the port on Wednesday was $398,000.

The customs demand for Gold last week, averaged $473,666 a day; thus far, this week, it has averaged $414,762 a day, or equal to a weekly aggregate of $2,488,572. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $28,305; and since Jan. 1, 1870, $6,916,632, against $8,644,624 same time in 1869. The total customs revenue of the Government, in coin, at this port, thus far in the current fiscal year, commencing with July 1, 1869, has been $120,794,128 against $113,298,867, in 1868–'69.

The customs revenue at the port of San Francisco, from Jan. 1 to May 13th, was $2,811,175, against $2,713,946 same time last year.

The exports of specie, from this port, last week, were $716,496 against $232,258 same week last year; total, since July 1, 1869, $26,887,354, against $34,022,238 same time preceding fiscal year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $1,459,959, and since July 1, 1869, $82,027,861, against $83,662,575 in 1868–'69.

The specie exports from San Francisco, from Jan. 1 to May 13, were $14,232,729, against $14,594,380 same time last year.

The actual coin interest payments of the Sub-Treasury on Wednesday were $379,742.

There has been a rather better inquiry noted for foreign exchange, rates for which have been tending upward, on restricted offering of prime bankers' drafts. Bankers' prime sixty day bills on London closed steadily on Wednesday at 109⅛@109¾, and on Paris to 5.20.@5.15; sight bills on London to 110⅛@110⅜, and on Paris to 5.13¾@5.13. The offerings of produce bills have been up to a pretty full average, since our last. The week's exports of domestic produce have been to the currency value of $3,610,420, making the total since July 1, 1869, $177,805,642, against $148,032,480 same time preceding fiscal year.

Government securities have been offered rather more freely at easier prices, but have been readily taken at the ruling figures; and toward the close, the market showed sympathy of reviving firmness and buoyancy, on an improved investment call, particularly for the later issues of the coin bearing bonds. Washington telegrams have been of an unusually conflicting tenor, relative to the funding and banking bills before Congress, and did much to disturb the course of the dealings, in the forepart of the week. On Wednesday, it was reported from Washington that the Committee of Ways and Means occupied the morning of that day on the revenue bill; that the funding bill was not considered by them; and that Gen. Garfield, chairman of the Banking and Currency Committee obtained consent to report the ninety-five million bill back to the House next Wednesday June 1. These reports had a tendency to strengthen confidence.

U. S. sixes of 1881 closed here at 117@117¼; U. S. Five-twenties of 1862, 112⅞@112½; U. S. Five twenties of 1864 at 111⅛@112⅜; U. S. Five-twenties of 1865 at 111¼@112½; U.S. Five-twenties of 1865 consolidated, 113⅛@113⅝; U. S. Five-twenties of 1867, 113⅞@114; U. S. Five-twenties of 1868, 113⅞@114; U. S. Ten-forties at 108¼@108½; U. S. Six per cent. currency bonds, 112⅞@113.

At Frankfort on Wednesday U. S. Five Twenties closed at —, and Central Pacific Sixes, at 77¾@77⅞.

The latest quotations at the London Stock Exchange compare as follows with former returns;

	May 11.	May 18.	May 25.
Consols	94¼	94½	94⅜
U.S. 5-20's of 1862	88⅝	89⅛	89
U. S. 5-20s, 1865	88	88½	88½
" 1867	90	90⅜	90¾
" 10-40s	85½	86	86
Erie	18	18½	18½
Ill. Central	112½	112½	110¼
At. and Gt. West	28½	28½	28

There has been rather more movement in State bonds at the going rates.

In railway bonds, the dealings have been to a fair extent. Central Pacific Sixes closed at 93¼@93½. Union Pacific Sixes at 86@86¼; and the new Chesapeake and Ohio First Mortgage Thirty year Bonds at 90 per cent. and accrued interest in currency.

Railway and miscellaneous share property has been depressed and decidedly lower, under a pressure to realize. The speculative demand has been much less confident. Toward the close, the market showed rather more animation, with an inclination to renewed strength in values.

The movements in domestic produce have been on a moderate scale at generally fairly supported prices. Middling upland cotton however closed heavily on Wednesday at 22¾ cts. per lb. The stock of cotton now here is given at about 47,500 bales. The receipts at the port this week, have averaged about 5,400 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,681,350 bales, against 1,964,675 bales in 1868–'9; exports, same time 1,912,975 bales, against 1,318,575 bales same time in 1868–'9; stock on hand at latest dates, 298,460 bales, against 174,200 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 5,362 pkgs., against 9,705 pkgs., same time in 1869. From Boston, 1,448 pkgs. in 1870, against 3,676 pkgs. same time in 1869.

At the auction sale of Scranton Coal on Wednesday, 80,000 tons were disposed of at slightly reduced prices, ranging form 4.05@5.10, against 4.20@5.30 in April, for the 2,240 lb. ton deliverable at Elizabethport, N. J.

Foreign goods have been in pretty fair request and generally steady in value. The week's imports of foreign dry goods were to the specie value of $1,665,580; and of foreign merchandise, $4,980,593, making a total of $6,646,173, against $7,074,090, same week last year.

At the Live Stock markets, this week, Beeves have been in less demand at from 13@17½c. per lb.; week's receipts, 6,700. Milch cows continue in request, at $40@$100 each, receipts, 75. Veal calves have been quiet and depressed at from 5½@10c. per lb.; receipts, 4,258. Sheep in less demand at from 5½@9c.; lambs at 11@17c. per lb.; receipts, 21,224. Swine are dull and heavy at 9c. @9½c. per lb., all live weight; receipts, 23,080.

Ocean freights have been less active, but pretty firm. For Liverpool we quote flour at 1s. 3d.@1s. 6d. by sail, and 1s. 6d. by steamer, per bbl.; grain at 8⅛d.@4 by sail, and 4½d. by steamer, per bushel; cotton at ⅛d.@$\frac{3}{16}$d. by sail and ¼d. by steamer per lb.; and heavy goods 10s.@25s. by sail, and 12s. 6d.@30s. by steamer, per ton. Total number of vessels in port on Wednesday, 480.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending May 24, and since the beginning of the year:

	1869.	1870.
For the week	$3,853,146	$3,610,420
Previously reported	64,064,594	64,850,125
Since Jan. 1	$67,917,740	$68,460,545

The imports for the week ending May 21, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$1,612,207	$1,665,580
Gen. merchandise	5,461,883	4,980,593
Total for the week	$7,074,090	$6,646,173
Previously reported	121,758,699	113,116,906
Since January 1	$128,832,789	$119,763,079

The balance in the Sub-Treasury on Wednesday was $82,097,331 48.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Georgia 6s, 90; do. 7s, 96; South Carolina 6s, 96; do. new, Jan. and July, 88; Connecticut 6s, 101½; N. Y. State Bounty Loan reg., 111⅛; Arkansas 8s, issued to Little Rock and Fort Smith R. ☞ A new route from New York to Newport, R. I., opens June 1st via New Haven, Shore line, and Newport and Wickford railroads and steamboat, and also by the Stonington steamboats. By this route the passage round Point Judith is avoided, and Newport reached in eight hours.

Dunkirk, Warren and Pittsburg R. R.

At a recent meeting of the directors of this road, held in Fredonia, N. Y., it was unanimously voted to consolidate with the Pennsylvania portion of the road, and to make the capital in Chautauqua county $1,000,000. The length of the road in that county is 42 miles, and in Pennsylvania 12 miles. The consolidated capital stock of $1,300,000 represents $24,000 per mile, which will be about the cost of the road, with buildings, switches and rolling stock. On the 6th inst. the stockholders of the Pennsylvania end of the road met at Warren, and resolved to consolidate with the New York portion. They fixed their capital stock at $300,000.

Buffalo Railway Bridge Co.

At a meeting of the stockholders of the American and Colonial International Bridge Companies in Buffalo on the 1st inst., the stock of the two companies was merged into one, to be called the "Buffalo Railway Bridge Company." Mr. C. J. Brydges, of Montreal, was elected President, and Mr. E. G. Spaulding, of Buffalo, Vice President. The location of the Bridge was decided upon, and a contract concluded with Messrs. Gzowski & Co., of Toronto, for its construction. The bridge will connect all the roads both sides of the Niagara.

☞ By reference to the Advertisement of the Novelty Iron Works, in another column, it will be seen that they have for sale a complete assortment of Lathes, Planers, tools, etc., for working both wood and iron; and smiths' and boiler-makers' tools, suitable for the manufacture of steam engines, boilers, cranes, foundery fixtures, shafting, pulleys, and hangers, the valuable lot of gear patterns and the tools, fixtures, and patterns for the construction and erection of architectural work. Also a Marine Beam Engine, cylinder 60 inches by 10 feet stroke, suitable for a coasting or heavy towing steamer.

☞ The Chicago and Alton Railroad Co. have executed a perpetual lease of the Louisiana and Missouri River Railroad, which will give Chicago a direct line to Fort Scott. The Company will immediately commence the construction of a road from Jacksonville or White Hall, Illinois, to the Mississippi River, where the trains will connect, by transfer boats, with the Louisiana and Missouri River road for Kansas City and St. Joseph. Branches will also be built through Glasgow or Boonville to Sedalia.

☞ Ground was broken on the Syracuse Northern railroad on the 20th inst. The Syracuse *Standard* says the work is to proceed immediately on the east and west side of the river, and at various other points on the road, and the contractors will prosecute it with the utmost vigor. It is understood that at least one hundred men will be at work on the road at various points before the week is ended.

☞ The town of Lancaster, Mass., will receive proposals until the 30th of May for plans and specifications for two Iron Bridges to be built in said town, to be completed on or before the 1st of October, 1870—one of one hundred and fifteen feet span, twenty feet wide, with side-walk of four feet wide; and one of seventy-five feet span, without side-walk, and eighteen feet wide.

Commerce of New York.

The foreign imports at New York for the month of April, 1869 and 1870, are officially stated as follows:

	1869.	1870.
Entered for consumpt'n.	$13,886,593	$14,423,458
Do. for warehousing	16,497,691	13,137,232
Free goods	1,292.080	1,006.584
Specie and bullion	4,818,287	805,025
Total entered at port	$36,354,651	$29,372,299
Withdrawn fr. wareh'use	8,954,512	12,822,634

The foreign imports at New York for the four months from January 1, were:

	1869.	1870.
Entered for consumpt'n.	$57,630,879	$54,581,355
Do. for warehousing	47,854,038	44,421,267
Free goods	5,338,845	3,851,681
Specie and bullion	8,693,988	6,307,002
Total entered at port	$119,517,750	$109,161,305
Withdrawn fr. wareh'use	37,002,977	41,144,468

The foreign imports at New York for ten months of the fiscal year were:

	1869.	1870.
Six months ending Jan 1	$123,552,971	$134,708,154
January	22,542 529	24,725,375
February	25,827,280	25,367,998
March	34,793,290	29,695,633
April	36,354,651	29,372,299
Total for 10 months	$243,070,721	$243,869,459
Deduct specie	11,740,477	12,084,204
Total mdse	$231,330,244	$231,785,255

The duties received at New York for ten months ending with April, were:

	1869.	1870.
Six months ending Jan. 1	$57.845,963 97	$61,552,308 75
January	9,615,894 43	9,840,502 99
February	11,996,628 46	11,750,424 06
March	13,027,672 02	11,977,323 42
April	10,727,099 86	12,799,598 49
10 months	$103,213,258 74	$107,920,157 71

The exports from New York to foreign ports in the month of April, were:

	1869.	1870.
Domestic produce	$14,671,026	$13,741,650
Foreign mdse. free	4,600	45,157
Do. dutiable	733,461	911,018
Specie and bullion	1,767,601	1,698,616
Total exports	$17,176,688	$16,396,441
Do. exclusive of specie.	15,409,087	14,697,825

The exports from New York to foreign ports for four months from January 1, were:

	1869.	1870.
Domestic produce	$49,793,563	$51,720,709
Foreign free goods	48,608	205,532
Do. dutiable	2,133 640	3,547,991
Specie and bullion	10,604,032	8,097,865
Total exports	$62 579,843	$63,572,097
Do. exclusive of specie .	51,975,811	55,474,282

The exports (exclusive of specie) from New York to foreign ports for ten months of the fiscal year were:

	1869.	1870.
Six months ending Jan. 1	$80,651,068	$109,954,573
January	18,153,017	12,893,166
February	10,824,812	11,940,146
March	12,588,895	15,943,095
April	15,409,087	14,697,825
Total produce	$132,626,879	$165,428,805
Add specie	32,342,031	24,754,420
otal exports	$164,968,910	$190,183,225

Journal of Railroad Law.

COMMON CARRIERS—INJURY TO PASSENGER—CONTRIBUTORY NEGLIGENCE.

The facts in the late case of Morrissey *vs.* The Wiggins Ferry Company (43 Mo. 380) are fully and clearly stated in the following opinion by

WAGNER, J.—This action was brought under the second section of chapter 147 of the General Statutes, and damages claimed to the amount of $5,000, by the plaintiff, as the only surviving parent of Annie Morrissey, who it is alleged, was a minor, and unmarried, and was drowned while crossing the Mississippi river on one of defendant's ferry-boats, in consequence of the negligence, unskilfulness or criminal intent of defendant's agents and employees in managing said boat.

On the trial in the court below, under certain instructions, the jury found a verdict for the defendant. There was much evidence given, and it was conflicting in its character, but I shall neither detail nor comment on it, as it belongs exclusively to the jury to attach to it whatever weight and consideration they may deem it deserves.

The whole defence was based on the ground of contributory negligence: that the deceased, through her imprudence and want of care, produced or contributed to the accident in such a manner as ought to preclude a recovery. That there is a difference in the adjudications upon this subject, and that some courts have held that no recovery can be had where the injured party is in the least in fault, cannot be disputed. But such is not the ruling of this Court; and it is to be observed that the courts which have heretofore laid down the above doctrine are rapidly retracing their steps and declaring a rule more reasonable and in consonance with justice.

The question has been discussed in several recent cases in this Court, and the law must be considered as established—no longer in doubt or open to question. The settled principle now is that it ought to be left to the jury to say whether, notwithstanding the imprudence of the injured person, the defendant could, in the exercise of reasonable diligence, have prevented the catastrophe.

The degree of responsibility to which carriers of passengers are subjected is not ordinary care merely, which will make them liable only for ordinary neglect, but extraordinary care, which renders them liable for slight neglect.

In a recent case in this Court, in discussing the liability of passenger carriers, we declared the rule to be "that the carrier shall be guilty of some negligence which mediately or immediately produced or enhanced the injury, and that passenger should not have been guilty of any carelessness and imprudence which directly contributed to the injury, since no one can recover for any injury of which his own negligence was, in whole or in part, the proximate cause; and that, although the plaintiff's misconduct may have contributed remotely to the injury, if the defendant's misconduct was the immediate cause of it, and with the exercise of prudence he might have prevented it, he is not excused." (Huelsenkamp *vs.* Citizens' Railway Co., 37 Mo. 537: Kennedy *vs.* N. M. R. R. Co., 36 Mo. 351.)

The concluding paragraph of defendant's second instruction is objectionable. It tells the jury that unless the jury believe that the accident and death resulted without any negligence or want of care on the part of Annie, which produced or contributed to produce such accident or death, then they should find for the defendant.

This was in direct conflict with the law as above declared. It destroyed the plaintiff's right of action for the least fault on the part of deceased, and exonerated the defendant, although the unskilfulness, negligence, and criminal intent of its agents and employees may have directly caused the injury. Such is not the law and we hope it never will be.

The plaintiff asked two instructions which were refused. They are as follows:

"That if the jury find from the evidence that the employees of defendant or either of them were guilty of negligence in not keeping the entrance to defendant's boat properly guarded and protected, or in not keeping sufficient lights on said boat or on the wharf-boat, by reason of which deceased came to her death, and that deceased was not guilty of any want of any ordinary care and prudence which directly contributed to the injury, then the defendant is liable in this suit."

"That although the deceased may have been guilty of misconduct or failed to exercise ordinary care and prudence while passenger on defendant's boat, which may have contributed remotely to the death of the deceased, yet if the employees or either of them of defendant were guilty of negligence which was the immediate cause of the death, and with the exercise of prudence by said employees or either of them said injury and death might have been prevented, the defendant is liable in this suit."

The instructions asserted correct propositions of Law, and should have been given. They tell the jury that if the deceased only remotely contributed to the accident, and if the agents and employees of the defendant were the direct and immediate cause, and might have prevented it by the exercise of prudence and care, the defendant is liable. Nothing can be clearer.

There was some question made about the action of the Court in admitting and rejecting testimony, but I have seen nothing objectionable in the ruling of the Court in that regard, except in portions of the deposition of Barron.

And although his statements were so absurd and so flatly contradictory to the whole mass of the testimony given on each side, that I have no idea that either the jury or anybody else believed them, still they were incompetent, and should have been excluded.

With the concurrence of the other judges, the judgment will be reversed and the case remanded.

Littlestown Railroad.

The commencement of the work in constructing the extension of the Littlestown Railroad to the Maryland State line, to connect with the Frederick and Pennsylvania Line Railroad, was inaugurated with becoming ceremonies on Monday last. Ground was broken on the "Winterode farm," a half mile from Littlestown. Appropriate addresses were delivered by Mr. Myers, President of the Littlestown Railroad Company, and Wm. McSherry, Esq.

Major Diller, the contractor, was on hand with horses, cars, and a force of men, and immediately after the ceremonies were over commenced grad-

ing the track. As the Major "pushes things," we may look for an early completion of the work to the State line.—*Hanover (Pa.) Spectator.*

Business Contract of the Concord & Northern (N. H.) Roads.

The contract of business which was entered into between the Concord and Northern Railroads on the 29th of April has been published. The preamble states that the contract was made for the purpose of providing for a more efficient, convenient and economical management of the business of said parties, for the benefit of the public in better accommodations and with less rates of fare and freights, as well as for the interests of the parties themselves.

During the continuance of this agreement the two railroads and their respective branches shall be operated and managed in connection with each other under a joint management as hereinafter provided, according to the terms and conditions hereinafter mentioned.

Included in this management are all the lands, depots and other buildings of the two lines, their furniture, machinery, engines and cars, tools and stocks and supplies of all kinds.

All the legal rights, interests, benefits, obligations and liabilities of said first party under the two contracts of April 3, 1861, between it and the Concord and Portsmouth Railroad; and under the contract of January 21, 1865, between said first party and the Boston and Lowell and Nashua and Lowell Railroads; and under the indenture of lease of March 11, 1870, between said first party, together with the Manchester and Lawrence Railroad and the Suncook Valley Railroad, and also under the written contract of the same date between the same parties, so far as said contract relates to the completion of the last mentioned railroad, and payments of unsettled land damages as mentioned in said contract; and of said first and second parties respectively under the contract lately made between them and the Vermont Central and other Railroads relative to the business of said Vermont Central Railroad, shall, during the continuance of this agreement be enjoyed and discharged in and by the joint management aforesaid, and all the expenses and costs thereby incurred shall be included in the accounts of said management and be paid by it, the same as if said rights and liabilities were those of the parties hereto. And all the rights and benefits of said first party under the contract of December 27, 1860, between it and the Manchester and Lawrence Railroad, and all its liabilities and duties to said Manchester and Lawrence Railroad under the same contract, which may arise during the continuance of this agreement, in case said contract shall be held to be legally valid and binding, shall so far as it may be lawful, be enjoyed and discharged in and by the joint management as aforesaid, and all the costs and expenses thereby incurred shall be included in the accounts of said management and be paid by it. Provided, however, that the first party shall contribute and pay toward the rent to be paid to the aforesaid Suncook Valley Railroad in July next the sum of $4,650, on account of the earnings of said road to the date hereof, now in the hands of said first party.

Each of said parties, separately, shall be liable for all claims now outstanding against it, and for any action brought on account of anything previous to the date hereof. But all claims and liabilities arising out of anything included and provided for in this agreement, shall be met and discharged by the management herein provided.

The care, management and operation of all the roads aforesaid, and of the business thereon, and of the joint management as herein contemplated, shall be under the charge and direction of one agent, acting for and as the agent of both parties. Said agent shall be appointed by said second party, and may be removed at any time by it. But the parties hereto may, by concurrent votes of their respective Boards of Directors, each Board acting by itself, exercise the same control over said management as is usual with Boards of Railroad Directors in ordinary cases.

All the property of every kind included in this agreement, except articles of property intended for consumption in use, shall, so long as it may remain in the management aforesaid, be kept by it as nearly as may be in a like relative and in as good repair as it now is or may be when the improvements herein especially provided for shall be made; and in case of any damage or destruction of any part thereof, the same shall be repaired and restored at the expense and charge of said management. And for that purpose all insurances now existing or at any time hereafter made on any of said property shall enure to the benefit of said management; and all the sums at any time during the continuance of this agreement becoming due on said insurances shall be allowed and paid to said management. And all risks on the shop stock and other articles of property now placed in or which may at any time hereafter belong to said management, shall be borne by it.

It is provided that suitable depots and station buildings shall be constructed at various places, certain repairs on bridges and masonry are to be effected, and provisions are made for the applying of certain surplus earnings for the completion of the Suncook Valley Railroad and for repairs and improvements on the Manchester and North Weare roads.

The salaries and expenses of the President and other officers of each of the parties, and of other agents and servants not employed in the joint management, shall be paid by each party for itself. For this purpose the joint management shall pay to each party yearly the sum of $2,500. All costs and expenses of the management and operation of the roads, and all national and State taxes against the roads, except as hereinafter specially otherwise provided for, shall be paid by the joint management.

All the income and receipts in any way from the roads, property and business included in this agreement, during the continuance of the joint management, and so far as either of the parties hereto may be concerned in said income and receipts, shall come into and belong to the joint management herein provided for; and the agent of the parties appointed shall have charge of the same, subject to the control of the Board of Directors of said parties by concurrent votes, as hereinbefore provided. And in order to avoid any controversies or questions with regard to the proper division of the balance of said income and receipts, after the payment of costs, expenses and charges to the management, between said parties, it is hereby mutually agreed that from said balance there shall, on or before the fifteenth days of October and April in each year during the continuance of this agreement, be paid to the Treasurer of the first party the sum of $75,000, together with such further sums as may be required to pay any national tax due on the dividend of that sum to its stockholders. Provided, however, that there shall be allowed on account of earnings received by said first party for the month of April in the present year the sum of $12,500 toward the amount to be paid to the first party in October next. And all the remainder of said balance at the expiration of each six months during the continuance of this agreement shall be paid over to the Treasurer of the second party for its sole use and benefit. And said division of balance of income and receipts shall be a full adjustment and settlement between the parties of their respective interests in the net proceeds of the business and operation of the management aforesaid. And in consideration of said remainder being allowed and paid to it as aforesaid, the second party is, from its own funds, on or before said fifteenth days of October and April in each year aforesaid to make up and pay to the first party any deficiency which may then happen and be in the balance of income and receipts to make the payments in this agreement provided to be made to said first party, so that said first party shall receive the full amount of said payments as intended.

The passenger and freight tariffs now established by the first party shall regulate and govern the rates of charges of the joint management unless otherwise required by law. No change shall be made in said rates without the mutual consent of the parties unless required by law. And in case any change therein shall be made or permitted by the first party, except as aforesaid, without the consent of the second party, the full amount of any reductions of income and receipts to the joint management arising from such change shall be allowed by the first party toward the payments hereinbefore provided to be made to said first party from income and receipts, and said payments shall be reduced accordingly. And all the provisions hereinbefore made relative to said payments are subject to this provision and condition.

It is also provided that accurate inventories and appraisals of all the property placed by the parties in the joint management shall be made as soon as practicable after the execution of this agreement, and a like inventory is to be taken after the termination of this agreement, when an equitable division of the property shall be made between the two roads. If the first party shall neglect to pay the joint management the several payments hereinbefore provided to be made on account of depots, &c., the amount so remaining unpaid by it at the termination of the joint management, shall be deducted from the portion belonging to the first party in the division of the property as above provided, and its said portion shall be reduced accordingly.

The business of the joint management as herein provided, shall be carried on under the name and style of the Concord and Northern Railroads.

Both parties mutually covenant and agree to observe and perform all the provisions of the agreement according to the true intent and meaning thereof. Neither party, so far as it can control the same, shall permit any act or thing to be done to hinder the full operation of the said joint management.

This agreement shall be construed as a business contract solely, and not in any respect as a lease of one road to another; and each party retains to itself its own corporate capacities in the same manner and to the same extent as heretofore, excepting that as between themselves their rights and liabilities with reference to anything contained and provided for in this agreement shall be governed and determined by it.

The agreement shall be in force for five years from April 15, 1870.

Signed:

The Northern Railroad, by their Committee duly authorized— URIEL CROCKER,
GEORGE W. NESMITH.

The Concord Railroad Corporation, by—
J. MINOT, President,
J. STEPHENS ABBOTT.

The foregoing contract is hereby sanctioned by us— JESSE GAULT,
SAMUEL D. QUARLES,
Railroad Commissioners for the State of New Hampshire.

This is approved by us—
MOSES HUMPHREY,
CHARLES JONES,
M. A. HODGDON,
} Councilors.

☞ They are making puddled steel at Allentown which stood a tensile strain of 127,320 pounds to the square inch. A piece of the steel-capped rail made by this process was lately tested, and stood five thousand and five hundred blows, and the weld still remained perfect.

☞ The stockholders of the Utica, Chenango and Susquehanna Railroad Company have ratified the lease of their road to the Delaware, Lackawana and Western Railroad, and voted to increase the stock to $8,000,000.

Railroads in Nebraska.

The St. Louis *Journal of Commerce* says that the following railroads are in course of construction to Lincoln, the new State Capital: The Burlington and Mo. River, to be completed by the 9th of June; the Midland Pacific, 12 miles finished; Elkhorn Valley, 10 miles completed; Burlington and Southwestern, 10 miles running, 80 miles paid for; Omaha and Southwestern, 10 miles running. All these roads are being rapidly built.

☞ Upwards of $600,000 have been subscribed by the common stockholders for the preferred stock and bonds of this company, under the terms offered in the Directors' circular of April 25. This sum is in addition to the subscription of $450,000 by the preferred stockholders, and makes an amount exceeding $1,050,000 already pledged to the company for the removal of the old incumbrances upon the property.

☞ The Milwaukee *Wisconsin* says that a party of surveyors in the interest of the Milwaukee and St. Paul Railroad have passed over the route between Ripon and Oshkosh, and are now examining the proposed Omro and Winneconne route. They have been in Oshkosh and are making a thorough examination of the entire route, the approaches to the city, &c.

☞ The Muskegon and Big Rapids Railroad Company has been organized with a subscribed capital of about $50,000. The following officers were chosen: President, Alex. Rogers, Muskegon; Vice President, J. S. Stearns, Big Rapids; Secretary, Stewart Ives, Big Rapids; Treasurer, C. Davis, Muskegon; Attorney, Francis Smith, Muskegon.

☞ The officers of the Sioux City and Columbus R. R. Co., are: President, S. T. Davis; Vice President, Wm. Adair; Treasurer, John Cleghorn; Secretary, Jas. Scott. At a meeting to be held on the 14th of June it is expected some action will be taken towards the commencement of the work.

☞ A writer in the Dubuque *Times* says that the Western Union road has already concluded, under certain contingencies, to construct a bridge across the Mississippi at Savannah to Sabula so that trains can go from Dubuque to Milwaukee without change of cars.

☞ Since the 1st of September last, the Illinois Central Railroad Company have shipped northward 50,692 bales of cotton, and during the month of April, 338 hhds. of tobacco were forwarded from Cairo.

☞ A new railroad, 73 miles in length, is in contemplation in Mississippi, between Okolona and the Tennessee river at Eastport.

☞ At the Lake Superior copper mines last year, 30,909,549 pounds of mineral were smelted. They yielded 23,483,079 pounds of fine copper.

☞ The North Missouri railroad will be completed to Ottumwa, Iowa, by the 4th of July.

RAILROAD CROSS TIES.

CHIEF ENGINEER AND GENERAL SUPT'S OFFICE,
MOBILE AND MONTGOMERY RAILROAD,
MONTGOMERY, ALA., April 22, 1870.

Notice to Bridge Builders and Railroad Contractors.

On the first day of June next, the Mobile and Montgomery Railroad Company will be prepared to let to contract all the work embraced in extension of their Road from the East side of Mobile Bay into the city of Mobile, a distance of about twenty miles.

There will be embraced in this work about—
3,500 feet First Class Bridging on Iron Piers;
2 Large Draw Bridges;
25,000 feet Pile Trestle Work;
150,000 cubic yards Earth Work;
20 miles Clearing, Cross Ties, and Track-laying.

After the fifteenth day of May, the Plans and Specifications will be ready for the inspection of parties desiring to offer proposals for this work. Address—

G. JORDAN,
CHIEF ENGINEER,
Montgomery, Ala.

☞ The above letting has been postponed, from Wednesday, June the 1st, to Wednesday June the 15th. Proposals will be received up to 10 A. M. on that day. Complete specifications will be ready by the 15th inst.

G. JORDAN,
Chief Engineer.

Montgomery, Ala., May 10, 1870.

Northern Pacific Railroad.

To Railroad Contractors.

SEALED PROPOSALS will be received at the office of the Northern Pacific Railroad Company, 120 Broadway, corner of Cedar street, New York, until Wednesday, the 1st day of June, 1870, at 12 o clock noon, for the grading, masonry, bridging and ballasting of that portion of the Northern Pacific Railroad in the State of Minnesota extending from the Dallas of the St. Louis river to the Red river, the western boundary of Minnesota (a distance of about 230 miles), including everything requisite to complete the road bed for a single track and necessary side tracks, ready to receive the rail superstructure. Proposals may be for the work in detail or by the mile.

The said company will also receive proposals, at the same time and place, for the timber cross-ties, and for the iron rails, spikes and fixtures for the road as above. The iron rails to be delivered on the dock at Duluth, Minnesota, or at the crossing of the Mississippi River, and the ties to be received according to blank forms which will be ready for distribution on Wednesday, May, 4, 1870, at the office of the company, as above, where plans of the structures and maps and profiles of the road, with full specifications, can then be seen, and the time allowed for completion of the contracts made known.

The company reserve the right to reject any or all bids not deemed to be for the interest of the company.

Printed circulars containing full information, will be furnished on application, by mail or otherwise, to Edwin F. Johnson, Chief Engineer, or to the President of the company, at the office, 120 Broadway, as above.

J. GREGORY SMITH,
President Northern Pacific Railroad Co.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

BRADY'S RAILROAD LANTERNS.

The strongest and best in use; are made principally of Malleable Iron. Here lies the secret of their strength, the frame being capable of supporting a weight of Four or Five Hundred Pounds; and yet they are little heavier than ordinary Lanterns. The guards are rivited through the top and bottom flanges, the rings wound with wire where they cross the guards, and the whole frame tinned, uniting each piece with the other, making it the *strongest* Lantern ever offered to the public. RAILROAD MEN *especially* cannot fail to see that it will be economy to purchase these Lanterns, as there is no part that can be broken with ordinary use, except the Globe, which being adjustable, is easily and cheaply replaced with any color and at a small cost; the greater weight being at the bottom, it cannot readily upset. Now used on the following Railroads: New York and New Haven; Hartford and New Haven; Shore Line, Conn.; Providence and Worcester; Boston and Maine; Conn. and Passumpsic Rivers; Fitchburg; Rensselaer and Saratoga; Troy and Boston; Boston and Providence; Boston, Clinton and Fitchburg; Charlotte, Columbia and Augusta; Connecticut River; European and North American; Hartford, Providence and Fishkill; Mobile and Ohio; Portland and Kennebec; Boston, Hartford and Erie; Worcester and Nashua; Lake Superior and Miss.; Hudson River, and many others.

The trade supplied from our Store, or from the Factory, New Britain, Conn,

Indianapolis, Bloomington and Western Railway.

SEVEN PER CENT. GOLD LOAN.

The bonds are in denominations of $1,000 each, secured by a first mortgage on 205 miles of road, from Indianapolis, the largest city and most important railroad centre in the State of Indiana, to the city of Pekin in Illinois.

One hundred and seventy miles of the line are now in full operation, equipped with new first-class rolling stock, and already earning much more than the interest on the whole issue of bonds. The balance, thirty-five miles, is being rapidly constructed, is nearly all graded, and under contract to be finished during the present month.

There are thirty-six depots on the line, located in cities and towns that contain, in the aggregate, a population of 190,000 averaging over 920 to each sqaare mile within a radius of half a mile of the track; and within twenty miles of the track there is a population of about 600,000.

It passes through the counties of Marion, Hendricks, Montgomery, Fountain, Warren, and Vermillion, in the State of Indiana, and Vermillion, Champaign, De Witt, Platt, McLean, and Tazewell Counties, in Illinois, on the line of the old emigrant State road, which was laid out in the best portion of those States before the time of railroads, was then the main line of Western travel, and consequently became more thickly settled than other sections of the West, as the numerous cities, large villages, and products of these counties demonstrate.

Besides the large agricultural productions of this section, the manufacturing interest is very extensive in the large towns, and rapidly increasing.

The coal mines at Danville on this line are extensively and profitably worked, and furnish business for over three hundred coal cars at present, and more than twice that number will be required to carry coal on completion of the remaining link.

From the present earnings on 170 miles, it is safe to assume that the local business alone will be ample not only to pay the bonded debt, but large dividends on the stock.

In addition to the population and wealth of the country, and all that is necessary to support a first-class road and make it a profitable investment through local traffic, it forms a grand central trunk line for through business not surpassed by any road of equal length in the West.

At Indianapolis it connects by main lines with the Cities of Columbus, Cleveland, Pittsburg and Cincinnati, and with the Pennsylvania Central, Baltimore and Ohio, Chesapeake and Ohio, and other important railroad lines. At Pekin, the western terminus, connections are made with Peoria, Quincy, Keokuk, Burlington and Omaha. At Bloomington with the Illinois Central Road, which runs northwest 600 miles to Fort Dodge, Iowa. A very large business will be done with this line. At Danville it connects by rail with Toledo, on Lake Erie. A map will show all these to be very import connections in making through lines over this route.

The Loan is placed beyond any contingency by the present earnings from local traffic on 170 miles, which must necessarily be doubled when the trains run through.

The Bonds are convertible, at the option of the holder, into stock at par at any time, which adds greatly to their value. They may be registered at the Farmers's Loan and Trust Company, if desired.

Coupons payable April and October, free of tax.

Total issue $5,000,000—$2,000,000 of which are placed in trust with the Farmers' Loan and Trust Company to redeem and cancel $2,000,000 bonds issued to the Danville, Urbana, Bloomington and Pekin Railroad, now merged into this road making the loan only $3,000,000, over half of which has been sold in Europe and this market. The balance we offer at 92½ and accrued interest. At this low price the Bonds being so amply secured, will be quickly marketed.

We have been thoroughly posted in regard to the road from the start, have closely inspected it from time to time during construction, and being familiar with the wealth and resources of the country, the responsibility and integrity of the officers and directors of the Company, and the present earnings of the road, it is with pleasure that we recommend the bonds as one of the cheapest and safest investments in the market, sure of a high standard among the best railroad securities in the country.

All marketable securities received in exchange at market rates. Bonds delivered to all points free of express charges.

TURNER BROTHERS,
Bankers, No. 14 Nassau St.

Railroads in the Indian Territory.

The Southern Branch Union Pacific, Kansas and Neosho Valley, Lawrence and Fort Gibson, and Atlantic and Pacific railroad companies recently appeared before Secretary Cox, by Caleb Cushing and other counsel, to argue that they had the right to extend their lines through the Indian Territory. The Secretary has made a careful examination of the argument and of the law and treaties bearing on the subject, and submitted his conclusions to the President, by whom they have been fully and formally approved. It is decided that neither of these four roads has yet gained the right to enter the territory with its track, and the Secretary recommends the appointment of the Superintendents of the Southern and Central Indian Superintendencies as a commission to determine which of said four railroad companies shall first fully comply with the laws bearing on the matter, and report to the Interior

Department when this fulfilment shall have taken place. The President adopted this recommendation and will at once issue an order declaring that no railroad company shall be permitted to enter the Indian Territory for the purpose of grading or constructing a railroad until this report has been made to the Secretary and by him approved. Gen. Cox also declares himself in favor of keeping the territory as free as possible from the intrusion of white settlers under any form, and earnestly advises against allowing the building of a trunk road through it from north to south with a branch from Fort Gibson to Fort Smith and a double line from East to West, meeting in the valley of the Canadian river.

Milwaukee and St. Paul Railway Co.

This company owns the following lines of railroad: Milwaukee to St. Paul, *via* Prairie du Chien, 405 miles; Milwaukee to La Crosse, *via* Watertown, 196 miles; Milwaukee to Portage, *via* Horicon, 95 miles; Horicon to Berlin and Winneconne, 58 miles; Watertown to Madison, 37 miles; Milton to Monroe, 42 miles; Calmar to Nora Springs, 65 miles; Conover to Decorah, 10 miles; Mendota to Minneapolis, 9 miles—total, 917 miles. On the 1st of January, 1869, the company had 825 miles, showing an increase during the year of 92 miles, viz.: June 1st, 11 miles; August 1st 27 miles; September 1st, 29 miles; and October 1st, 25 miles. The average for the year of the number of miles owned by the company is 858 miles. The following is a comparative statement of earnings and expenses during the years ending December 31, 1868 and 1869:

Earnings:	1868.	1869.
From freight	$4,266,283 89	$4,909,525 02
" passengers	1,695,295 72	1,781,134 77
" mails, express etc	556,066 10	560,008 89
	$6,517,645 71	$7,250,668 68
Expenses:		
Repairs of track	$591,804 31	$615,595 95
" bridges	51,796 89	34,189 19
" fences	4,848 37	3,902 72
" buildings	81,718 04	88,901 90
" locomotiv's	253,946 66	252,931 62
" cars	365,390 94	407,323 45
" tools, etc.	41,085 38	36,738 19
Management and general office	111,743 06	111,718 70
Foreign agency and advertising	26,952 62	24,662 98
Station service	381,901 48	446,553 81
Conductors, etc.	173,100 80	212,772 04
Engineers, etc.	222,263 55	273,171 03
Train and station supplies	92,530 31	102,810 25
Fuel consumed	432,380 75	566,520 99
Oil and waste	53,274 04	65,328 72
Personal injuries	6,689 48	30,277 02
Damage to property	17,914 72	26,588 66
Loss and damage of freight and baggage	16,123 91	6,558 68
Legal expenses	44,686 86	18,053 47
N. Y. office expenses	14,297 94	12,118 57
Taxes, State and local	75,467 19	174,300 56
Insurance	26,839 39	25,851 73
Miscellaneous exp.	18,282 89	8,150 71
Car service	8,272 91	230 53
Extraordinary exp.	919,728 50	684,638 64
	$4,033,040 99	$4,229,882 11
Net earnings	$2,484,604 72	$3,020,786 57

The gross earnings show an increase of $733,022 97, the expenses an increase of $196,841 12, and the net earnings an increase of $536,181 85, over those of the previous year. The per centage of operating expenses for 1868 was 62 per cent., and for 1869, 58 per cent. The extraordinary expenses included in operating expenses in 1869 were as follows:

Renewal of track	$270,538 10
New bridges	34,104 36
New fences	25,354 28
New cars	148,809 56
New tools and machinery	10,546 72
United States Government taxes	50,191 29
Rebuilding locomotives	17,513 33
Mississippi River Ferry	126,195 68
Stock yard expenses	1,340 37
Total, as above	$684,638 64

During the year 1869, the directors made large expenditures in effecting improvements and in acquiring additional property, not charged in operating expenses, to the amount of $1,631,533 18, the details of which are as follows:

Construction of Sun Prairie extens'n	$176,628 45
" St. Paul branch	187,879 02
" Decorah "	116,999 56
" line around Milw'kee	163,891 05
" engine house & turn tables and surfacing track, (on new road)	109,319 42
Purchase of elevators, (balance paid)	100,000 00
Right of way, (all divisions)	45,757 81
Milwaukee depot grounds	20,320 94
Minneapolis "	1,125 00
Milwaukee stock yards	28,197 71
Minneapolis connection	7,871 37
Winter Bridge, Prairie du Chien	16,872 56
Equipment (12 new engines)	163,813 42
Legal expenses (paid in New York)	7,569 80
Swamp Lands, Howard Co., Iowa	3,226 20
Sinking fund, second mortgage bonds, (cancelled this year)	74,000 00
Renewal of track	120,000 00
New bridges	34,104 35
" fences	25,354 28
" buildings	60,426 10
" locomotives	8,819 92
" cars	148,809 56
" tools and machinery	10,546 71
Total	$1,631,533 18

These large expenditures were deemed necessary by the directors to give increased permanent value to the road.

The earnings and expenses by divisions for the year 1869 were as follows:

	Earnings.	Expenses.
La Crosse division	$2,331,694 64	$1,357,103 70
Northern division	718,424 39	388,589 33
Prairie du Chien div.	2,513,690 70	1,415,915 07
Iowa and Minnesota division	1,686,858 95	1,068,274 01
Total	$7,250,668 68	$4,229,882 11

The stockholders having authorized the same, the directors declared a dividend from the earnings of 1869, payable February 15th, 1870, on the preferred stock of $7 per share in cash, and $3 per share in common stock, and on the common stock $3 per share in cash and $7 per share in common stock. The dividend so declared increased the capital stock $828,900 from February 15th, 1870, and, of course, adds to that extent to the present cost of the railroad and property owned by the company, making the present cost $35,370,772, or say $37,800 per mile.

Having completed the improvements referred to above, and paid therefor from the earnings of the road for 1869, the policy of the directors in future will be to divide the net earnings in cash to the shareholders.

The Milwaukee and St. Paul Railway Company are not now engaged in the construction of any railroad, and they have no floating debt.

In the month of May last, the extension of the line from Sun Prairie to Madison was completed and opened for traffic, and during the season, a branch line from Conover, on the Iowa and Minnesota Division to Decorah, 10 miles was built. Much of the grading had been done, previous to our acquiring possession of the road, and the building of this branch was deemed necessary to prevent the diversion of business to points on the Mississippi river.

We also, during the year, built a branch from Mendota to St. Paul, a distance of five and one-half miles, and erected a bridge across the Mississippi at the latter place, one-half the cost of which is borne by the St. Paul and Sioux City Railroad Company.

We also caused to be built a single track from Schwartzburg, on the Northern Division, to Wauwatosa, on the line of the Prairie du Chien Division, a distance of about 6 miles. This work was rendered necessary to connect the Northern Division with the Union Depot, and to avoid the delay and expense of transferring freight and passengers through Milwaukee.

We also, during the year, on grounds previously purchased for that purpose, erected the necessary structures for the receiving and caring for of live stock received and shipped over the road.

At the time we took possession of the Prairie du Chien Railroad, we found a contract in existence with John Lawler, by which, for the period of fifteen years, from August, 1863, he had the exclusive right of transferring all freight across the Mississippi River, between Prairie du Chien and McGregor. By a satisfactory arrangement with Mr. Lawler, this contract was terminated on the 31st of December last, and since that time this service has been performed by the company.

NEW CONNECTIONS.

We have received from the McGregor and Missouri River Railway Company, previously known as the McGregor and Sioux City Railway, under our contract with them during the past year, about 65 miles of railroad, viz: from Calmar to Nora Springs, and expect to receive from them during the year 1870, the road from the latter place to Algona, about 63 miles.

It is not the intention of this company to accept or receive from the McGregor Company, any further portion of their line, beyond that already mentioned, unless it shall appear that the business of the adjacent country will fully justify its extension.

The West Wisconsin Railway Company have extended their road from Tomah to Augusta, about 66 miles. We continue to operate the road under a lease, determinable at the will of either party. The road, it is believed, will be extended to Eau Claire, 25 miles, during the present year.

The Cedar Falls and Minnesota Railroad has been built from a point on the Dubuque and Sioux City Railroad, to the Minnesota State line, about 75 miles, where it connects, by the Minnesota Central Railroad at Austin, 12 miles, with the line of this company, thus opening to us the interior of Iowa, to which we will carry large amounts of lumber and receive by the return cars, coal and the products of the country.

The Southern Minnesota Railroad Company have built, during the past year, about 40 miles of road, commencing near Austin, on our line of road, and running westerly. They propose to continue the construction in the same direction and complete about 70 miles during the coming year.

The Hastings and Dakota Railroad now extends westerly from Hastings, about 30 miles, crossing our line at Farmington. During the past year, 12 miles were built, and the company expects to reach the Minnesota River, about 20 miles further, during the year 1870.

The St. Paul and Sioux City Railroad Company, formerly known as the Minnesota Valley Railroad, is understood to have been leased to the Lake Superior and Mississippi River Railroad Company. The latter company constructed about 95 miles of their line during the past year, and expect to complete the remaining portion, about 55 miles, within the coming season.

The St. Paul and Pacific Railroad was extended northwesterly from Minneapolis, during the year 1869, to Litchfield, about 90 miles. It is

being rapidly extended to Breckenridge, on the Red River of the North, a distance of about 180 miles from Minneapolis. The company are also extending their branch line from Sauk Rapids to Crow Wing, about 50 miles, which they expect to complete within the year 1870. From the latter point they propose to extend the line to the Winnepeg District, about 300 miles.

The Northern Pacific Northern will extend, when completed, from Lake Superior to the Pacific Ocean. It is understood that this company has secured the means, and propose, during the coming year, to build about 200 miles, which will carry them to the west boundary of Minnesota. It is also reported that the company have reasonable prospects for securing the entire sum necessary to complete the road to the Pacific Ocean. It is unnecessary to speak of the additional value which the completion of this great line will have upon your property.

The St. Paul and Chicago Railroad Company are engaged in building their road from St. Paul southerly along the west bank of the Mississippi River. They built, in 1869, from St. Paul to Hastings, 20 miles, and expect during the present year, to extend the line from Hastings to Red Wing, about 20 miles, and from Winona to Minnieska, about 12 miles.

The Western Union Railroad extends from Racine to Port Byron, on the Mississippi River, 182 miles, and by connecting lines, is in connection with the cities of Rock Island and Davenport, and at Fulton intersects the Chicago and North Western Railroad. In the month of September next, it will be connected with this road by a branch from Elkhorn to Eagle, a distance of about 16 miles. This connection will open for the traffic of this company, the business of many thriving cities and villages in Wisconsin and Illinois, and the richest coal and grain growing districts in the latter State. In connection with our road it furnishes the shortest and most direct route to Fulton and Rock Island for the western and northern parts of Wisconsin. It will bring to us the transportation of corn, coal and other products of that section of the country, but little of which has ever passed over the line of our road.

It will be seen that about 1,000 additional miles of road will probably be brought into use, or connected with our lines, during the year 1870, from all of which we may reasonably expect a large and profitable business.

The stockholders pursuant to a Law of the State of Wisconsin, at their annual meeting in June, 1869, divided their Directors into three classes, to hold their offices respectively for one, two and three years.

The company own 145 locomotives, 71 first-class and 10 second-class passenger cars, 9 sleeping, 54 baggage, mail and express, 2,273 box freight, and 480 flat and stock cars.

The number of miles run by passenger trains was 946,786; by freight trains, 2,063,899; by wood and gravel trains, 377,874—total miles run, 3,388,559; of which 1,374,406 were run on the La Crosse and Northern divisions; 1,195,779, on the Prairie du Chien division; and 818,374 on the Iowa and Minnesota division.

Number of tons of freight carried eastward, 941,354; do., westward, 403,004—total, 1,344,358; of which 539,500 tons were carried on the La Crosse and Northern divisions; 500,757 on the Prairie du Chien division; and 304,101 on the Iowa and Minnesota division. Number of tons carried one mile eastward, 117,012,497; do., westward, 40,737,357—total, 157,749,854. Rate per ton per mile, 3.10 cents. Earnings per mile run, $2.38.

Number of passengers carried eastward, 374,532; do., westward, 436,371—total, 810,903; of which 348,951 were carried on the La Crosse and Northern divisions; 292,990, on the Prairie du Chien division; and 168,962 on the Iowa and Minnesota division. Number of passengers carried one mile eastward, 19,048,090; do., westward, 26,360,310—total, 45,408,400. Rate per passenger per mile, 3.89 cents. Earnings per mile run, $2.27.

The expenses per mile run, including all expenditures, were $1.40. Per centage of expenses to earnings, 58 per cent. Gross earnings per mile of road, $8,450.66; Net, do., $3,520 73.

Auditor.—J. P. WHALING.

Homogeneous Steel Fire-Box Plates.

The use of American-made Homogeneous Cast Steel Plates for Fire-Boxes is fast becoming universal. The Baldwin Locomotive Works commenced the use of these plates, manufactured by Messrs. HUSSEY, WELLS & Co., of Pittsburg, in 1861, and after four years' trial in competition with English steel plates, adopted the American article as the best known material for fire-boxes, and to this time have continued its use. They find the metal perfectly homogeneous, flanging with less trouble or risk of fracture than the best iron. Every sheet of this metal made by this firm is guaranteed to stand the "water test," i. e., first heated to cherry red, then cooled by water, and then turned or doubled over short and hammered down without breaking. The metal is very tough and wears well, no matter what fuel is used, anthracite or bituminous coal or wood. All the more prominent locomotive manufacturers are now using homogeneous plates for fire boxes, and the great majority of railway companies, making their own rolling stock, use them in preference to any other material. Messrs. HUSSEY, WELLS & Co. are now filling large orders for the Hinkley & Williams Works, the Rhode Island Works, the Baldwin Works, the William Mason Works, besides others for many prominent railways throughout the country. This has grown up to a very large business, and the manufacturers, by a conscientious determination to keep up the standard of production so as to withstand the hardest tests, have secured the entire confidence of consumers in the value of these plates. While speaking of the productions of Messrs. HUSSEY, WELLS & Co., it is proper to call attention to another branch which they make a specialty of, the making of steel for chisels and flatters. This steel is made of different sizes to suit, and is labelled and marked, "Railroad Track Steel." Tools made of this steel stand the hardest of tests without failure. On many roads and in many shops where the higher qualities of foreign steel were formerly used for this purpose, nothing is now used but Messrs. HUSSEY, WELLS & Co.'s steel, and their production of this article has grown to an immense magnitude, as their orders from the New England States alone will show.—*Am. Railway Times.*

Glynn's Anti-Incrustator for Steam Boilers.

We invite attention to the Advertisement of C. D. FREDRICKS, one of the proprietors, and agent for the sale of "Glynn's Preparation for Cleaning and Preserving Steam Boilers," 587 Broadway, N. Y. Many preparations have been invented during the past few years, and used, for the purpose of removing incrustations in steam boilers; but, up to this day, nothing has been obtained to produce the desired effect. Many of the preparations hitherto offered to the public in the shape of liquids and powders, although they clean the boilers by causing the precipitation of carbonates and other substances contained in the water, contain ingredients which generally attack the iron and other metals, and consequently hasten the destruction of the boilers; and the harm and expense occasioned by their use are greater than the benefit derived from them. It is claimed for this preparation that it is free from all acids, and that its use in boilers, run with fresh as well as salt water, will not only remove, but prevent incrustations, without the least injury to iron or other metals. We have before us a circular in which is clearly stated the *cause* and *effects* of incrustations in steam boilers, and the great benefits to be derived from the use of this preparation in the *removal* and *prevention* of the same—the latter being substantiated by a number of testimonials from reliable parties who have it in use. Address C. D. FREDRICKS, 587 Broadway, N. Y.

☞ The following gentlemen have been elected directors of the Baltimore, Carrolton and Powhatan Passenger R. R. Co.: Jesse Lazear, Wm. P. Webb, Louis Turner, Joshua Zimmerman, E. G. Alery, Carey McClellan and John D. Hammond. The officers are: President, James A. Garey; Secretary, E. D. Freeman; Treasurer, Chas. Shipley. There has been a sufficient amount of funds raised to insure the building of the road, and the work upon it will be begun at an early date.

☞ A corps of engineers is now engaged in surveying and locating a route for the extension of the Shenandoah Valley railroad from Charlestown to Shepherdstown, a distance of ten miles. The survey is to be extended to Hagerstown, at which place the road will connect with the Cumberland Valley or the Reading railroad, as circumstances may determine.

Pacific Mail Steamship Company.

OFFICE OF PACIFIC MAIL STEAMSHIP CO.,
NEW YORK, May 26, 1870.

A special meeting of the Board of Directors was held at the Company's office Thursday, May 26, 1870, at 1 o'clock P. M.

The Special Committee of the Board of Directors, appointed for the purpose, submitted the following:

To the Board of Directors:

The undersigned Committee appointed by the Board of Directors, to prepare a statement upon the affairs of the company, beg leave respectfully to submit the following, showing the company's assets and liabilities, viz:

ASSETS.

Cash on hand and call loans		$313,420 92
Time loans		262,599 06
Investments:		
$200,000 U. S. 5-20s cost	$223,237 50	
$250,000 U. S. 10-40s cost	274,750 00

America	1,017,942 22	
Great Republic	1,058,234 72	
Japan	1,049,434 72	
China	1,006,282 42	
Alaska	964,138 39	
Oregonian	500,000 00	
Ancon	167,502 13	
		11,983,534 60
Lighters		101,799 83
Steamers:		
Ocean Queen and Rising Star voyages not yet completed	26,618 93	
Unsettled accounts with connecting steamship companies, &c.	39,652 22	
Balance to debit of profit and loss	212,288 55	
Total		$20,096,245 26

LIABILITIES.

Capital stock	$20,000,000 00
Unsettled accounts with agents and pursers	84,711 69
Freights on coal in transitu	10,782 80
Freight insurance account	750 77
Total	$20,096,245 26

The steamers have been well kept up by repairs as needed, the same being charged to current expenses; they are valued below their original cost and the same as at the date of the last statement presented to you, May, 1869, when they were all, either in actual service or reserve, profitably employed.

The steamers are now employed as follows:

The *Alaska*, *Henry Chauncey* and *Arizona* are running twice a month between New York and Aspinwall, two being in commission and one in reserve.

The *Constitution*, *Colorado*, *Sacramento* and *Montana*, three in commission and one in reserve, twice a month, between Panama and San Francisco.

The *Great Republic*, *China*, *Japan* and *America*, three in commission and one in reserve, once a month, between San Francisco and Hong Kong.

The *Costa Rica*, *New York*, *Oregonian*, *Golden Age* and *Ariel*, four in commission and one in reserve, four times a month, between Yokohama and Shanghai.

The *St. Louis*, as for several years past, is stationed at Panama as a spare ship.

The *Ocean Queen* and *Rising Star*, thrown out of employment by the reduction of the Aspinwall line, have been placed temporarily in the European trade.

The *Northern Light* is worth to the company only what she will break up for.

The *Ancon* and *Taboga* are used as tugs in the Bay of Panama.

The *Golden City* was totally lost Feb. 22. She has been written off the books. The amount at which she was valued, $650,000 has been carried to the debit of profit and loss.

INVESTMENTS.

The 3,063 shares of Panama Railroad Company's stock is valued on the books at $459,450, being at the rate of $150 per share.

The 27,159 shares of its own stock, owned by the company, stand on the books at par, being also a liability for the same amount.

The loans and securities are perfectly good.

All our other property (such as real estate, warehouses, wharves, &c.,) is in good condition.

The property in Japan and China is admirably adapted to our business, present and prospective, and fully worth the valuation given; so likewise that at San Francisco, which includes a commodious wharf of 700 feet in length, with a valuable exclusive State franchise for about twenty-four years; three large bonded warehouses, from which income is derived; also 1,668 shares of the San Francisco Dry Dock, from which dividends are received.

The coal on hand, 63,050 tons, stands at less than cost.

The Committee find that at this time last year, the date of the last published statement, the company was employing four steamers per month on the route between New York and San Francisco, *via* the Panama Isthmus, and earning and paying to the stockholders therefrom a reasonable return on the capital invested. This service has been reduced to two steamers per month, and has ceased, for the time being, to be profitable.

The falling off in the Panama business has been mainly caused by general commercial depression, and by the construction of the Pacific Railroads; on the other hand, it is a reasonable expectation, to indulge that the China branch of the service will be greatly benefited by the operations of the same railway route, in encouraging immigration supplying markets, developing and stimulating production, and providing by rail the means of transit. The business of the China line, including the Shanghai branch, has continued to improve, meeting every reasonable expectation, and is now earning a return over and above a moderate allowance for depreciation and insurance.

Under a Government mail contract for ten years, with a subsidy of $500,000 a year, the first steamer was dispatched from San Francisco for Hong Kong on the 1st January, 1867. From that date till September, departures were made once in three months, thence twice in three months, or six-weekly, till June, 1868, when we began the full monthly service, which has since been regularly maintained.

Each increase of the service, though that of the main line has been trebled, and that of the Shanghai branch augmented six-fold, has resulted, after a short time, in an increase of the average business done, and in improved rates, while the average expenses have been reduced. We think the time has arrived when the trade demands a semi-monthly line across tha Pacific, and the company is now seeking the assistance of the Government to enable it to provide such increased facilities. Should our efforts prove successful we shall be able to utilize on that route some of our steamers not otherwise employed; future events will have to determine how many steamers can be thus provided for, as well as to the disposition of any others which may become unemployed.

All of which is respectfully submitted by your Committee.

A. A. LOW, Chairman,
WILLIAM DENNISTOUN,
ALLAN McLANE, President,
Committee.

Whereupon, on motion—The statement of the Committee was unanimously received and adopted by the Board, and ordered to be published for the benefit of the stockholders. Attest,

THEODORE T. JOHNSON, Secretary.

Strength of Iron and Steel.

The paper read at the Institution of Civil Engineers, London, on 3d May, was "On the Strength of Iron and Steel, and on the Design of parts of Structures which consist of those Materials," by Mr. George Berkley, M. Inst. C.E.

The author stated that the strength of wrought-iron varied with the quantities of work involved in the production of the form of the material tested. This was proved by the fact that a bar of iron 1in. square which would break with a strain of 26 tons, would, if drawn down to the form of wire 1-32d of an inch in diameter, bear a strain of 40 tons per square inch. The strength to be relied on in practice would probably be best represented by the minimum strain that one square inch would bear without rupture, and by the amount of stretch which would take place in a given length before it broke. Iron could be obtained, at the market rates, which would bear the following strains:—For plates, an average breaking strain of 20 tons per square inch, and a minimum breaking strain of 19 tons per square inch, and an average stretch of 1 inch in 12 inches lineal. For L and T irons an average breaking strain of 22 tons per square inch, and a minimum breaking strain of 21 tons per square inch, and an average stretch of 1¼in. in 12in. lineal. For rivet iron an average breaking strain of 18 tons per circular inch. For bars intended for chains, couplings, &c., an average breaking strain of 22 tons per square inch, and an average stretch of 1¼in. in 12in. lineal. For ordinary classes of work, let at competitive prices, stronger iron could only be obtained with difficulty.

In the consideration of the practical limit of strain to which one square inch of wrought-iron could with safety be subjected, and the principle on which such a limitation rested, the erroneous

impression as to the degree of strain being 10 tons or 12 tons per square inch which first produced "permanent set," was pointed out; as well as the apparent discrepancy between the results of ordinary observation and of minutely manipulated experiments, such as those of Sir Wm. Fairbairn and Mr. E. Clark, was noticed, wherein permanent set had been observed after 3 tons per square inch had been imposed on the iron, and was explained by the difficulty of registering such small amounts of set as 0·1,250th part of an inch in 5ft., which resulted from a strain of 10 tons per square inch.

Attention was drawn to the fact that, upon the application to 1 square inch of wrought-iron of strains exceeding about 12 tons, the measure of stretch per unit of strain, which had previously increased in a certain proportion to the units of strain applied, increased with a greater and progressive rapidity. It was also noted that the amount of stretch actually produced by the imposition of a strain of about 12 tons per square inch would be sufficient frequently to preclude the use of wrought-iron so strained.

In illustration of the effect of the repetition of strains on iron and steel, it was stated that with blows powerful enough to bend bars of cast-iron through one-half of their ultimate deflection (that was to say, the deflection which corresponded to their fracture by dead pressure) no bar was able to stand 4,000 of such blows in succession. And also, that when the bar was thrown into a violent tremor, then "when the depressions were equal to one half of the ultimate deflection, the bars were broken by less than 900 depressions." A piece of rail, weighing 68lbs. per yard, made of Bessemer metal, which when placed in firm bearings 3ft. apart, bore one blow from a weight of one ton falling through 30 ft. without breaking, though bending about 7in., broke with a weight of 3¼cwt. falling 15,400 times through heights increasing from 1ft. to 10ft. by increments of 6in. each time. With wrought-iron, it appeared from an experiment of Sir Wm. Fairbain, that when it was desired to repeat the application of strains from two to three million times it would not be prudent that such strains should exceed 7 tons per square inch of section.

It appeared from these considerations, that the practical strength of wrought-iron, in structures of a permanent character, could not be estimated at more than 12 tons per square inch, when such an amount of strain was repeated more than a small number of times; and that it should not be calculated as exceeding 7 tons per square inch when strains of this amount would be applied to it many times daily. In some of the principal suspension road bridges it was said that a maximum of about 9 tons per square inch of section in tension was imposed on extraordinary occasions, while railway bridges were frequently subjected to the maximum calculated strain, a limit of 5 tons being in this country generally adopted. From this practice it was assumed that a margin, for errors of design and for other practical defects, of only 25 per cent. was allowed in permanent structures. The importance of sound principles of design was therefore manifest. The parts most difficult to design were the connections of portions of the structure with rivetted joints. It was desirable that the area of the section of the rivets to be sheared, as well as of the plates forming these connections, should be somewhat in excess of the sectional area of the plates or bars which they connected; and that as the process of punching the rivet-holes in the plates, &c., had a tendency to weaken them in a greater proportion than that in which the area was decreased, it was advantageous to drill all rivet-holes in parts exposed to tension. It was represented that the general principles of design were well illustrated by a joint made of a single pin, such as that used in suspension bridges, Warren girders, &c. Examples of various forms of links were presented for consideration, and a form of link of equal thickness, but with an enlarged head, was said to have been proved by experiment to be of about equal strength in all its parts. The proportions of these links were as follows:

The bar	A	being	100
The diameter of pin	B	=	75
The depth of head beyond pin	C	=	100
The two sides of the pinhole	DD	=	125
And the radius of the curve of neck	R	=	150

Lines of these proportions, with larger pins and narrower sides—Nos. 7 and 7a—and larger pins and sides of the same width—Nos. 8 and 8a—made of iron of exactly the same strength, and links of proportions precisely similar to those adopted for the Menai, Nos. 9 and 9a, the Pesth, Nos. 10 and 10a; the Chelsea, Nos. 11 and 11a; and the Hungerford, Nos. 12 and 12a, were compared. Taking the strength of the standard form, 22.125 tons per square inch of bar area, as=100, the per centage of gain or loss in power of resistance to ultimate strain by the use of the other forms of links as follows:

6 and 6_A = 100		
7 " 7_A = 79.9;	loss = 21.1	per cent.
8 " 8_A = 104.7;	gain = 4.7	"
9 " 9_A = 92.0;	loss = 8.	"
10 " 10_A = 79.8;	" = 21.2	"
11 " 11_A = 89.2;	" = 10.8	"
12 " 12_A = 85.4;	" = 14.6	"

The necessity for strengthening the heads of links, and for testing all of them with a strain equal to at least 10 tons per square inch of bar, was proved, it was believed, by the experiments quoted, and by the evidence of Mr. Provis in his work on the Menai Bridge. It was urged that an examination of the diagrams would show that some links failed with a less degree of stress, on account of the junction of the mass of the head with a comparatively smaller section of bar, by means of a curve of too short radius. This imperfect principle of construction also operated in causing fracture across the centre of the heads on both sides of the pinhole; and in such designs the question of the direction of the strain being truly along the axis of the link or bar, and of the strength of the material on both sides of the head being equal, should be considered.

The author next directed attention to the unsatisfactory state of the knowledge of the profession respecting the power of struts of various proportions and forms to resist compression, and stated his belief that the formulæ which had been proposed to facilitate calculations for determining the strain which such columns would bear, produced results which neither agreed one with the other, nor with any series of such experiments as had been tried. It seemed probable that for the present, error might be best avoided by referring to the results of experiments made upon columns, &c., the condition of which were analogous to the case under consideration.

With respect to cast-iron, it was stated that a mixture of irons for sleepers had produced bars 2in. by 1in. in section, which, when placed on bearings 3 ft. apart, had on the average of 1,151 experiments during the last three years borne 33.4 cwt. placed on the centre, and castings, 1¼in. in length and exactly 1in. square, which on the average of 1,002 experiments had borne 13.07 tons of tensile strain. An attention to the amount of deflection of the test-bars had been beneficial, the average strain required to break the sleepers having been raised since the amount of deflection of the bars with a given weight had been increased. For the purpose of ascertaining the comparative strength of precisely similar girders cast with iron of varying degrees of strength, as represented by the ordinary test-bars, and when subjected to a direct tensile strain, the experiments detailed in the Appendix (Table No. 7), were tried, the girders being cast of the exact form and dimensions of three of those described in Sir Wm. Fairbairn's "Researches on the Application of Iron to Buildings." The results were as follows:

The strength per square inch of section was represented in girder No. 1 by—

	lbs.
Mr. Fairbairn's experiments	as=3,214
The first series of special experiments	as=4,977
The second series of " "	as=4,977
In girder No. 2 by—	
Mr. Fairbairn's experiments	as=3,346
The first series of special experiments	as=5,264
The second series of " "	as=5,308
In girder No. 3 by—	
Mr. Fairbairn's experiments	as=4,075
The first series of special experiments	as=4,988
The second series of " "	as=6,300

The strength of the test bars and the tensile strength of the iron used by Sir Wm. Fairbairn were not stated; but it might be assumed to be equal to about 25 cwt. placed on the centre of the bars, between bearings 3ft. apart, and to a tensile strength of about 7 or 8 tons per square inch. The strength of the iron employed in the special experiment was represented by a weight supported by the test-bars varying from 30 cwt. to 38 cwt., and by a tensile strength varying from 10.25 tons to 13.94 tons.

In order to secure these results, the following conditions were represented as important, and should be considered in the design and execution of cast-iron work;—1st, The strong iron referred to was obtained by the mixture in the furnace of four or five brands, some being harder than others. In order to amalgamate, as far as possible, these different qualities of iron, the furnace should be charged with them mixed in proper proportions in every basketful of metal which was emptied into it. 2d, There would be a difference of about 16 per cent. between the weight that a 2in. by 1in. test-bar would support when cast on edge and proved as cast, and that which it would support when proved with the under-side as cast placed at the top as proved; and a difference of about 8 per cent. between the weight the same test-bar would support if cast on its side or end, and proved on edge. This difference it would be necessary to take into consideration in estimating the strength of a large casting made from the metal as that used in the test-bars. Another, and probably the most important practical consideration, in respect of the strength of castings, was the proportions of their several parts being such as would free them as much as possible from unequal contraction in cooling. It was not often practicable to effect that which would avoid this—viz., to adopt an equal thickness of metal in all parts of the casting; and it was therefore important that some means should be taken to prevent the castings from cooling too quickly.

The author drew attention to the experiments which had lately been tried with steel—more especially Bessemer steel—which experiments he considered justified the adoption of the following conclusions:—1st, That Bessemer steel would bear before rupture a minimum tensile strain of 33 tons per square inch of section and stretch about 1in. in 12in. of its length. 2d, That the same material would bear either in tension or in compression a minimum stress of 17 tons before the extensions or reductions of length per unit of strain became irregular or excessive, as compared with those which had preceded them,—in other words, before the yielding point of the material was reached. 3d, That this material would probably contain about 45 per cent. of carbon chemically combined with the iron. And 4th, That this description of steel, if properly made and annealed, was as uniform in quality as wrought-iron, and therefore might be employed (precautions being taken to test its quality as a substitute for wrought-iron), while allowing an increase of strain of 50 per cent. to be imposed upon it.

☞ The Winchester and Strasburg railroad has been completed to a junction with the Manassas railroad. The distance from Baltimore to Harrisonburg by this route is 180 miles.

☞ The Decatur and East St. Louis railroad is finished from Decatur to Palmer, 37 miles.

American Railroad Journal.

Saturday, June 4, 1870.

Stock Exchange and Money Market.

The ease in Money has been even more manifest through the past week, under very liberal offerings on both bank and private account to the leading borrowers, whose wants have been much less urgent, particularly in the speculative line. Call loans have been quoted at from 3@5; and choice to good mercantile credits at from 5½@8 per cent. per annum. The city banks, while reporting a loss of 1⅜ millions of specie, show a further gain of over 2½ millions of legal tender notes, and nearly 1½ millions of deposits. They have added a little to their circulation, but their loan and discount average has fallen off nearly three-fourths of a million. The deposits now amount to over 228 millions, against 201¾ millions on the 9th of April. The specie average is now 32¾ millions against 25⅜ millions four weeks earlier. The legal tender reserve has been augmented to 61⅝ millions against 47½ millions in the second week in April. The loan and discount item stands 279¼ millions against 269 millions at the close of April. The U. S. Sub Treasury, last week, added over 2½ millions to its currency reserve, while reporting a loss of about ⅞ of a million of its coin balances. The office closed the month of May with a coin reserve of $76,100,120, and a currency balance of $6,741,516.

The specie reserve of the city banks according to the latest return is $32,728,035, against $17,871,230 same time last year. The city bank deposits are now $228,039,345, against $203,055,660 week ending May 29, 1869. The legal tender reserve amounts to $61,618,676, against $57,810,373 same time last year. The circulation now stands at $33,249,818, against $28,920,865 same time last year. The loans are now $279,550,743, against $274,935,461 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged about $96,104,000 a day, against a daily average of $104,279,720 the preceding week, and $109,843,490 the week ending with May 14, 1870. The current week's exchanges average about 84 millions a day. The city banks, last week, reported a loss of $1,388,900 of specie, with a gain of $1,486,419 of deposits, and $2,595,370 of legal tender notes. They reduced their loans, $710,334; and increased their circulation, $58,170.

The city bank exchanges on Wednesday were about 72½ millions.

National Bank notes to the amount of $313,610 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $324,582,386, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $25,057 544, leaving, with the existing 1,614 banks, (having an aggregate capital of $427,004,247,) an actual circulation at this date, of $299,474,842. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,299,750; and for the public deposits, $16 284,000—making a total of $358,583,750. The Treasury Department last week redeemed and destroyed $726,763 of worn and mutilated fractional currency, and issued $156,745 of new.

The U. S. Sub-Treasury receipts, week ending with May 28, were $3,218,644 in coin, (including $2,703,000 from customs duties,) and $5,284,574 in currency; payments, $4,096,789 in coin, (including $1,904,780 of coin interest,) and $2,693,532 in currency; balance at the close of the week, $82,937,046 (including $75,765,588, of coin, and $5,971,497 of currency,) against $82,937,839 at the close of the preceding week, showing a decrease of only $793. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $114,034 in coin, (including $107,500 from customs,) and $886,512 in currency; payments, $250,053 in coin, (including $239,848 of coin interest,) and $335,059 in currency. On Tuesday, receipts, $840,289 in coin (including $716,581 from customs), and $525,760 in currency; payments, $369,737 in coin (including $364,757 of coin interest) and $307,193 of currency. The balance at the close of business on Tuesday stood at $84,520,121, (including $6,741,516 of currency, and $76,100,120 of coin,) against $82,990,329 a week previous; and $82,309,463 on May 14, 1870. The aggregate re

ceipts of the office in May were $63,496,248, including $11,985,468 from customs; aggregate payments, $67,207,341 including $16,919,624 of coin interest; balance at the close of the month, $84,520,151, against $88,231,250 at the close of March.

The U. S. Sub-Treasurer issued in May $5,409,500 of coin certificates.

The U. S. Sub Treasurer retired, last week, $2,366,895 of coin certificates, received for customs.

The U. S. Sub-Treasury general balance on Thursday morning was $86,475,738.

Government revenues yielded more liberally, during the past week. The excises, during the week yielded $5,245,613; customs at the port of New York, $2,570,895 and at the outports about $850,000 (in coin) more, making the grand total income for the week equal to about $9,179,590 in currency. The receipts from excises, thus far in the current fiscal year, commencing with July 1, 1869, have been $158,318,618. The receipts of Internal Revenue in May were $21,122,219 13; for the corresponding month in 1869, $20,642,280 or a gain in favor of May, 1870, of $479,939 13. The aggregate receipts for the fiscal year ending June 30, 1870, are now estimated at $178,000,000.

Gold ranged through the week from 114⅛@115⅛, and closed on Wednesday at 114⅝. The speculation has been gaining strength, in view of the enlarged exports of specie, which amounted, last week, to over two millions from this port. The customs demand has been up to a fair average. The week's shipments of specie consisted chiefly of Gold Bars withdrawn from the Treasury, and Gold Certificates and May coupons surrendered by the Bankers who owned the bars in exchange. Nearly two millions May coupons and registered May interest were paid during the week. There remain in the Treasury about $2,150,000 Gold Bars, to be withdrawn this week or by the 7th of June. After these are shipped, the Bankers will have to employ American Gold Coin for shipment, should the state of the Foreign Exchange require it, which they will probably do, for some six weeks or two months, to a moderate amount. On Tuesday, the U. S. Sub Treasurer announced that five millions of Government Gold would be sold in June as follows: on Wednesday, June 1, $1,000,000; Wednesday, June 8, $1,000,000; Wednesday, June 15, $1,000,000; Wednesday, June 22, $1,000,000; Wednesday, June 29, $1,000,000. And that eight millions of Five Twenties would be bought in, as follows: on Thursday, June 2, $2,000,000; Thursday, June 9, $1,000,000; Thursday, June 16, $2,000,000; Thursday, June 23, $1,000,000; Thursday, June 30, $2,000,000. On Wednesday, the million of Government gold was marketed at from 114 29@114 38. The bids reached an aggregate of $3,885,000. The *Russia* for Liverpool carried out $212,000 in specie. According to the public debt statement of June 1st, the coin balance in the Treasury Department on Wednesday was $106,789,732; and the currency reserve, $14,243,817.

The coin balance of the Treasury Department on Monday was $107,549,360, including $36,208,000 on private deposit; currency balance, $13,271,704.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $76,644,987.

The customs demand for Gold last week, averaged $428,482 a day; thus far, this week, it has averaged $426,500 a day, or equal to a weekly aggregate of $2,559,000. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $25,613; and since Jan. 1, 1870, $6,942,245, against $8,657,506 same time in 1869. The total customs revenue of the Government, in coin, at this port, thus far in the current fiscal year, commencing with July 1, 1869, has been $123,497,360 against $115,461,058, in 1868–'69.

The customs revenue of the port on Wednesday was $612,000.

The customs revenue at the port of San Francisco, from Jan. 1 to May 13th, was $2,811,175, against $2,713,946 same time last year.

The exports of specie, from this port, last week, were $2,046,059 against $921,519 same week last year; total, since July 1, 1869, $28,909,536, against $35,052,449 same time preceding fiscal year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $1,904,780, and since July 1, 1869, $84,172,490, against $84,777,231 in 1868–'69.

The specie exports from San Francisco, from Jan. 1 to May 13, were $14,232,729, against $14,591,380 same time last year.

The actual coin interest payments of the Sub-Treasury on Wednesday were $118,853.

Foreign Exchange has been in more demand and quoted stronger. Bankers' prime sixty day bills on London closed on Wednesday at 109¾@110, and on Paris to 5.18¾@5.13¾; sight bills on London to 110⅜@110¾, and on Paris to 5.13¼@5.11¼. The offerings of produce bills have been fair, since our last. The week's exports of domestic produce have been to the currency value of $3,483,804, making the total since July 1, 1869, $183,049,925, against $151,460,148 same time preceding fiscal year.

Government securities have held their own well as to price, through the week, on a moderate offering of bonds, and a fair average investment call for them. The reports of the further considerable reduction of the debt, since the 1st of May, and the announcement of the contemplated purchase on Treasury account of eight millions of Five Twenties in June, together with the increasing yield of the customs and excises, tended to stimulate the demand toward the close. On Thursday, Government bought in two millions of Five Twenties at about equal to the ruling market prices. The Public Debt statement of June 1, shows a further liquidation in May of $14,301,962.

The coin balance in the U. S. Sub Treasury at Boston, May 28th, was $2,760,603.

U. S. sixes of 1881 closed here at 117½@117¾; U. S. Five-twenties of 1862, 112¼@112½; U. S. Five-twenties of 1864 at 111⅜@111⅝; U. S. Five-twenties of 1865 at 111½@111⅝; U.S. Five-twenties of 1865 consolidated, 113⅞@114; U. S. Five-twenties of 1867, 114¼@114⅜; U. S. Five-twenties of 1868, 114@114¼; U. S. Ten-forties at 108¼@108½; U. S. Six per cent. currency bonds, 113@113⅛.

State bonds have been in fair request at the ruling prices.

Railway bonds have been in demand and rather buoyant in price. Central Pacific Sixes closed at 93¼@93½. Union Pacific Sixes at 86⅞@87; and the new Chesapeake and Ohio First Mortgage Thirty year Bonds at 90 per cent. and accrued interest in currency.

Railway and miscellaneous share property has been fairly active, closing with more steadiness as to price.

At Frankfort on Wednesday U. S. Five Twenties closed at 95⅛, and Central Pacific Sixes, at 77¾.

General business has been moderately active, but prices have been variable. Middling upland cotton closed heavily on Wednesday at 22½ cts. per lb. The stock of cotton now here is given at about 50,000 bales. The receipts at the port this week, have averaged about 2,000 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,712,150 bales, against 1,979,850 bales in 1868–'9; exports, same time 1,950,525 bales, against 1,351,075 bales same time in 1868–'9; stock on hand at latest dates, 287,150 bales, against 150,100 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 6,535 pkgs., against 10,066 pkgs., same time in 1869. From Boston, 1,502 pkgs. in 1870, against 3,890 pkgs. same time in 1869.

At the Live Stock markets, this week, Beeves have been in liberal supply and moderate demand at from 13@17½c. per lb.; week's receipts, 6,246. Milch cows have been quiet, at $40@$100 each, receipts, 70. Veal calves have been in less request at from 5@9½c. per lb.; receipts, 4,446. Sheep quiet, at from 5@8½c.; lambs at 11@15c. per lb.; receipts, 13,566. Swine dull at 9c@9½c. per lb., all live weight; receipts, 21,605.

There has been a fair movement in foreign goods at generally uniform prices. Sugars show an advance. Straits Tin is also much higher. The week's imports of foreign dry goods were to the specie value of $1,114,793; and of foreign merchandise, $2,501,710, making a total of $3,616,503, against $6,072,985, same week last year.

Ocean freights have been fairly active, and quoted firmer. For Liverpool we quote flour at 1s. 3d.@1s. 6d. by sail, and 1s. 6d. by steamer, per bbl.; grain at 4½@4¾d. by sail, and 4¾@5d. by steamer, per bushel; cotton at ⅛d.@$\frac{3}{16}$d. by sail and ¼d. by steamer per lb.; and heavy goods 12s. 6d.@25s. by sail, and 15s.@35s. by steamer, per ton. Total number of vessels in port on Wednesday, 438.

The balance in the Sub-Treasury on Wednesday was $86,475,737 51.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending May 24, and since the beginning of the year:

	1869.	1870.
For the week	$3,676,437	$3,483,804
Previously reported	67,917,740	68,460,545
Since Jan. 1	$71,594,177	$71,944,349

The imports for the week ending May 21, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$1,230,236	$1,114,793
Gen. merchandise	4,842,749	2,501,710
Total for the week	$6,072,985	$3,616,503
Previously reported	128,832,789	119,763,079
Since January 1	$134,905,774	$123,379,582

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Toledo, Wabash and Western consol. bonds, 81; Ohio and Mississippi consol. bonds, 90; N. Y. Central sub. bonds, 90; St. Louis and Iron Mt. 1st mort. 89; Chicago and Gt. Eastern Income bonds, 45; Albany and Susq. 2d mort., 94; North Missouri 1st mort., 88⅞; St. Louis, Jacksonville and Chicago 1st mort, 92½; Chicago and North Western Interest bonds, 92; Quincy and Toledo 1st mort., 83¼; Toledo, Peoria and Warsaw 1st mort., W. D., 80; New Jersey R. R., 120; Long Island R. R., 62; New York and New Haven R. R.,155; do., Scrip, 150; Chicago and Alton Scrip, 110½; South Carolina 6s, new, April and Oct., 80⅞; do. Jan. and July, 82⅛; Lonisiana 6s, new, 73½; do., 6s, Levee bonds, 75¾; Alabama 8, 102⅛; do. 5s, 78; Georgia 7s, 95; do. 6s, 88; Brooklyn 6, W. L., 95¾; do. Park Loan, 94; Western Union Telegraph, 32; Brunswick City Land, 8½; Atlantic Mail S. S. Co., 31; Pennsylvania Coal, 225; Consol. Coal Co. of Md., 26; Cumberland Coal and Iron, 42; Adams Exp. Co., 63⅜; U. S. Exp., 45¼; Wells-Fargo Exp., 16; Am. Mer. Union Exp., 43⅜; Black Hawk gold, 0.28; Consol. Gregory gold, 1.60; Central gold, 0.21; Grass Valley gold, 1.60; La Crosse gold, 0.12; Smith and Parmalee gold, 1.05.

Philadelphia.—Warren and Franklin 1st mort. 7s, 86; Oil Creek and Allegheny River R. R., 46⅞; do. bonds, 83¼; Camden and Burlington County bonds, 90; Philadelphia and Reading debt. bonds, 83½; Lehigh Nav. Conv. Loan, 81; West Jersey R. R, 63; do. 6s, 92½; Lehigh Valley old bonds, 100; Junction R. R. bonds, 89; Big Mountain Coal, 7; N. Y. and Middle, 5; Maple Shade oil, ¼; Ocean oil, ¾; Corn Planter oil, 1¼; McElhenny oil, ¼. Southern Pennsylvania Iron and R. R. Co.

We offer for sale at 92, and accrued interest from March 1, 1870, $300,000 First Mortgage Coupon Bonds of the Southern Pennsylvania Iron and Railroad Company—Interest 7 per cent., payable in gold, free from all taxes.

The Bonds are in denominations of $1,000 and $100; dated March 1st, 1870, and maturing in 30 years from date, payable in Gold. The interest is payable March and September at FIRST NATIONAL BANK, Philadelphia.

J. EDGAR THOMSON, Esq., FREDERICK WATT, Esq., } TRUSTEES.

The capital stock of the Company is $1,000,000, nearly all of which has been subscribed and paid for, and the entire bonded debt is $625,000 of these first mortgage bonds, half of which have already been taken by one corporation. Persons desiring to make a safe and well-paying investment, are invited to examine the merits of these securities. Pamphlets furnished and full information given at the Banking House of GLENDINNING, DAVIS & AMORY, No. 17 Wall street, New York, and GLENDINNING, DAVIS & Co., 48 South Third street, Philadelphia, Penn.

☞ The firm of Robinson, Cox & Co., Bankers and Brokers, doing business at No. 31 Wall st., in the City of New York, having been dissolved by the death of Alanson Robinson, a member of said firm, the same business will be hereafter carried on by Kenyon Cox & Co., composed of Kenyon Cox and Horace Manuel, late members of said firm of Robinson, Cox & Co., and Wm. H. Hutchinson, late Cashier of said firm, as general partners, and Daniel Drew of the City of New York special partner, who has contributed three hundred thousand dollars as such special partner to the capital of said partnership.

KENYON COX.
HORACE MANUEL.
WM. H. HUTCHINSON.
DANIEL DREW.
Special Partner.

☞ The undersigned offer for sale the FIRST MORTGAGE EIGHT PER CENT. GOLD BONDS of the ST. JOSEPH AND DENVER CITY R. R. CO. Interest payable February and August. Price 97½ and accrued Interest in Currency. Pamphlets, with Map, &c., furnished on application.

W. P. CONVERSE & CO.,
Commercial Agents, No. 54 Pine-st.
TANNER & CO.,
Fiscal Agents, No. 49 Wall-st.

☞ The attention of Railroad Companies and Car Spring Manufacturers, is called to the advertisement of Messrs. Trent & Bidwell, who have an English Patent for sale, covering several valuable Steel Railway Springs some of which are in successful use in this country. They have also Rights in foreign countries.

☞ We have been requested to state that the proposals just received by the Northern Pacific Railroad Company are so numerous and varied that they cannot be properly canvassed and the result declared this week.

☞ Mr. Sistare, No. 24 Nassau st., offers New York 7s, about 20 years to run, in exchange for U. S. Government 6s, charging no commission to the purchasers.

Journal of Railroad Law.

RAILROAD COMPANIES—RULE OF DAMAGES FOR INJURIES TO FELLOW SERVANT OF COMPANY.

The facts in the late case of Rohback *vs.* The Pacific Railroad, (43 Mo., 187,) are fully and clearly stated in the following opinion by

WAGNER, J.—This was an action brought by the plaintiff to recover damages for injuries received by being disabled by a train on defendant's track. The plaintiff was at work, as a servant or employee of the road, at a place near the foot of Jefferson street, in the City of Jefferson, where the railroad track crosses a traveled public road and street. It is alleged that the engineer and conductor of a train of cars belonging to the defendant, without ringing the locomotive bell or sounding the whistle or in any manner giving notice, carelessly and negligently ran or backed said locomotive and train of cars up to said crossing, and on and over said plaintiff who was at the time at work, with his face from the train and, in consequence of such failure to ring the bell, did not observe its approach in time to escape. The evidence seems to sustain the allegations, and, assuming them to be true, the question is whether the action is maintainable.

Upon a trial in the Circuit Court the plaintiff had judgment, which was reversed in the District Court on appeal. The case has been argued in this court for the plaintiff upon two grounds: First, that the action was authorized at common law. Second, that the statute regulating railroad companies expressly warrents it.

As to the first ground, it may be said that the prior decisions of this court are in direct opposition to it. In McDermott *vs.* Pacific Railroad Company (30 Mo. 115,) the point was sharply presented, and it was held that a servant who was injured by the negligence or misconduct of his fellow servant can maintain no action against the master for such injury, unless the servant by whose negligence the injury is occasioned, is not possessed of ordinary skill and capacity in the business intrusted to him, and the employment of such incompetent servant is attributable to the want of ordinary care on the part of the master. This rule of exemption was first established by Ld, Ch. Baron Abinger, in the Court of Exchequer, in Priestly *vs.* Fowler (3 Mees and W. 1,) decided in 1837. The English authorities are universal and harmonious in its support. Shortly after the case of Priestly *vs.* Fowler, the point was decided in the same way in Murray *vs.* The South Carolina Railway Company (1 McMullen, 385); and in 1842 the question came up in the Supreme Court of Massachusetts, in Farrell *vs.* The Boston and Worcester Railroad corporation (4 Met. 49,) and the doctrine was reasserted and enforced by the late Chief Justice Shaw, in one of the ablest and most powerful opinions ever delivered from the bench. This latter case has ever since been regarded as the leading decision on the subject.

The weight of American authority is overwhelmingly and decisively on the same side. There are a few cases which have held otherwise but they are exceptional. In a late case in the Court of Appeals in Kentucky, the rule was denied and damages were awarded against a corporation. In Ohio, formerly, the principle was repudiated, or, to speak more correctly, greatly qualified; but in the most recent case that we have seen from that State, involving the identical point presented by the case now under consideration, it was held that where one of the track men was injured by the neglect of the fireman on one of the trains, an action would not lie. (Whalen *vs.* M. R. & S. E. R. R. 8 Ohio St. 249.)

Where the question *res nova* I should hesitate long before I would give to the rule an unqualified approbation. In many cases it produces the grossest injustice, and grants an immunity or exemption which shocks the moral feelings. But in view of the law being settled for many years in this State, and the great weight, respectability, and I might add, the uniformity of the authorities in the same way, I consider we are bound to yield an assent, or at least acquiesce in the doctrine, however reluctant we may be to adopt it. The next question to be determined is, can the action be sustained by reason of any statutory provision? The case of Schultz *vs.* Pacific Railroad (36 Mo. 18) is not an authority here. That case was brought, by the widow of a deceased husband, under the second section of the act for the better security of life and property. (R. C. 1855, p. 647; Gen. Stat. 1865, ch. 147, § 2.) There the statute gives the action in plain and unmistakable terms, and abrogates and modifies the common law. If the present be sustainable at all, it must derive its support from the thirty-eight section of the statute in relation to railroad companies. (Gen. Stat. 1865, Ch. 63.) That section makes it incumbent on all railroad companies to have a bell placed on each locomotive engine, to be rung at a distance of at least eighty rods from the place where the railroad shall cross any traveled public road or street, and be kept ringing until it shall have crossed such road or street. The last clause of the section declares: "And said corporation shall also be liable for all damages which shall be sustained by any person by reason of such neglect."

The whole question is, whether servants or employees of the company are to be included within the designation "any person," according to the true sense and meaning of the act.

The section is a transcript of the New York statute, and it is there decided that the omission by a railroad company to give the signals required on the approach of a locomotive within eighty rods of a highway crossing is a breach of duty to the passengers whose safety it imperils; and to the wayfarer, whom it exposes to mutilation and death. (Ernest *vs.* The Hudson River R. R. Co., 35 N. Y. 9.)

After a somewhat careful examination, I have been unable to find any case where it was sought to bring a servant within its provision. It is obvious that the enactment of the law was intended primarily for the protection of the traveling public and passengers. At a public crossing or street, frequented by travelers and persons engaged in business, the danger of collision and accident is constant and recurring, without a signal warning them of the approach of the train.

Not only is danger to be apprehended to those who may happen to be on the track, but the lives of the passengers are also jeopardized. The law, in a previous part of the section, subjects the company to a penalty for omission of duty in ringing the bell; but, lest that might be deemed exclusive, it also makes it responsible in damages at the suit of any person injured. There is a strong and peculiar reason why this precaution of giving a signal should be observed, as regards passengers and the traveling public, but it is not apparent when it comes to be applied to the servants of the road. There is nothing to show that from their business and occupation they are in greater hazard at a public crossing than at a private crossing or anywhere else on the track. That the draftsman of the law used the "person" in the sense that it should apply to the classes above referred to, and without any intention of changing the common law construction, can scarcely be questioned. In this view of the law we are strengthened by the different phraseology used in the second section of the act relating to damages, and on which Schultz's case was based. That section provides that "Whenever any person shall die from any injury resulting from or occasioned by the negligence, unskilfulness or criminal intent of any officer, agent, servant, or employee, whilst running, conducting or managing any locomotive, car, or train of cars, etc., it shall be responsible to the representatives of the deceased." Both acts were passed by the same legislature. They show clearly that the law as it existed was understood by that body; that in one case a modification was intended to be made, and in the other not. If it had been intended that the thirty eighth section should change the law, so as to allow persons to sue who had been previously barred, words of similar import to those used in the damage act would have been employed. I am satisfied that this is a case of great hardship, but sympathy cannot be permitted to unsettle the law.

There was a question made in regard to a change of venue, but, from the disposition that will be made of the cause, it is unnecessary to notice it.

Judgment affirmed.

From the Pittsburg Commercial, May 26.

Miller's Platforms, Buffers and Couplers.—Telescoping of Cars Prevented.

From a gentleman who was there to see, we have the following description of what might, under ordinary circumstances, have brought mourning to many homes. The travelling public will appreciate the narrow escape of those on the train, and the foresight of the officers of the Valley road in providing cars with the best means of preventing the slaughters now so common on the railroads of the country. Our informant says:

The day express train of the Allegheny Valley road, which left Oil City yesterday (Tuesday) morning, met with a threatening accident at a point about four miles this side of Franklin station. The officers of the train knew that there had been a heavy land slide at this point, and that a gang of workmen were employed there to clear the track. Soon after leaving Franklin the engineer met the gang of workmen with shovels "at shoulder" walking toward Franklin. Thereupon assuming that the work of removing the obstructions from the track was completed, the engineer, being behind time, gave his engine full steam, and soon the train was running so rapidly that the passengers remarked it, and experienced railroad men among them called it "forty miles per hour." The point first above mentioned, and at which the accident occurred, is situated on a short bend of the road where it could not be seen by the engineer at a distance of over two hundred and fifty feet. At this point, where but a few moments before the track had been perfectly cleared, and for which the gang of laborers had but just departed, and been met as already stated, another, and a very heavy slide of earth, immense

rocks and large trees, occurred, burying the track to the depth of about ten feet for a distance of nearly three rods. Into this bank of trees and rocks the engine plunged at the terrible speed mentioned. Now, reader think of the accident on the Western Pacific of California on the 14th of November last, in which the cars *telescoped*, killing Judge Baldwin and sixteen others, and maiming for life whole car loads of passengers; and of the recent accident on the Missouri Pacific, in which the car *telescoped*, killing nineteen and maiming twice as many more; and of the accident reported in our issue of yesterday morning, at Seamen Place on the Pennsylvania railroad, on the 24th instant all running at slow speed compared with that of the Allegheny Valley Railroad, which we are describing, and you will be prepared to hear in this case a report of at least twenty or thirty killed and as many more wounded. But we have no bloody results to record. The accident is almost without interest to the reader, because of this fact. Not a child (there were many of them among the passengers in the well filled cars), woman or man, nor even an "employee" on that train was in the least injured; but still there is something interesting to you and to all in this case. It will be remembered by your readers that about six or eight weeks ago the Allegheny Valley Railroad Company took an excursion party over their road, returning next day, and that the train used by them on that occasion was made up of new cars just received from the shops of Messrs. JACKSON & SHARP, of Wilmington, Delaware, and that you gave an extended notice of the strength, beauty and peculiarities of those cars, and that the most important of them was an improvement which *entirely prevented* "TELESCOPING" of cars, even in the severest collision. It was this same train and this peculiar improvement that saved the lives of all on that train! But think of it! The speed of the train is at its highest rate;—the impenetrable obstruction on the track is not seen until so near that no effort can be made to check the momentum of the train, and the advance of that train is stopped *instantly*—not in one hundred feet or fifty feet, but *instantaneously*. Could any severer test than this be given to these improvements? Now what are these improvements? They are what are known among railroad men as "MILLER'S PLATFORMS, BUFFERS AND COUPLERS." I have noticed these improvements in use on railroads for nearly or quite five years; yet they are not universally used on our railroads. Why is this? Is not the saving of lives of passengers and of costly cars, in accidents, a matter of importance and of profit to railroad companies? It certainly is to the public.

Railroads in New Jersey.

Editor Railroad Journal:

Your issue of May 28th has an article with the above caption, making several incorrect statements, which please allow me to correct, by giving a list of the roads now building and in contemplation in the eastern and southern counties.

The New Jersey Southern R. R. Co., a corporation founded on the ruins of the old "Raritan and Delaware Bay," owns also the Long Branch and Sea Shore Railroad. They are extending the latter road northerly on Sandy Hook to a splendid harbor at the "Horse Shoe," where they are constructing wharves with over 20 feet water at low tide. This will be their main northern terminus, and having recently made a permanent contract with the Narragansett Steam Ship Co. (Jas. Fisk, Jr., President), the staunch and elegant sound steamers "Plymouth Rock" and "Empire State" will run between that point and New York. The favorite route for Philadelphia travel in summer will then be over this route, passing through Long Branch, Bricksburg and Manchester to Whitings Mills, which point is 65 miles from New York, thence to Pemberton over a new branch which is now nearly completed, and thence through Mount Holly to Philadelphia over the Camden and Burlington county Railroad. This makes the whole distance to Philadelphia about 100 miles (somewhat longer than the Camden and Amboy), but very attractive, owing to the fact of its running through Long Branch.

The New Jersey Southern R. R. Co. are also putting their road in order south of Whitings to Atco on the Camden and Atlantic Railroad. At Atsion it will connect with the Vineland Railroad, now being pushed rapidly to completion.

At Toms River, which is reached by a spur of 7 miles from the main line at Manchester, the railroad fever is raging, and a branch line is about being started to run to Barnegat, 16 miles.

A road is also projected and the capital mostly raised for a road from Whitings, through Barnegat, to Tuckerton.

The Williamstown Railroad is also being built as a spur of 6 miles to the West Jersey Railroad at Glassboro.

A road is also earnestly talked of from Hightstown to Monmouth Junction on the Camden and Amboy Railroad, and not to Port Monmouth, as your article had it.

Yours truly,

S.

The Connecticut River Bridge at Middletown.

The Directors of the New Haven, Middletown and Willimantic Railroad (Air Line) have requested Gen'l Serrell, Chief Engineer, to report upon the practicability of so raising the grade of their railroad through Middletown and Portland, as to use the top chord of the truss, for the railroad. The object of the proposed modification is to enable the New Haven, Middletown and Willimantic Railroad Company to take their track over the *Connecticut Valley Railroad* instead of crossing it at grade, and to make use of the lower chord of the Bridge for *Highway purposes* between Middletown and Portland, and to increase the depot facilities.

It is understood the modification is admissible and the Board of Engineers appointed under the Act of Congress, will assemble this week, to consider the change proposed. The West abutment, four of the foundations and four of the Caissons have been completed. The Iron Superstructure, now nearly done at Pittsburg, will have to be modified if the alteration of the plan is made.

It is proposed to finish the Bridge during the present season.

Northern (N. H.) Railroad.

At the recent annual meeting of the stockholders of this company, the following resolution, introduced by Mr. Joseph B. Walker of Concord, with appropriate remarks, was unanimously adopted:

"*Resolved*, That we approve of the action of the directors in making the contract of April 29, 1870, in behalf of this corporation with the Concord Railroad corporation, referred to in the annual report of the directors.

The old board of directors was unanimously re-elected as follows:—Onslow Stearns of Concord, John A. Burnham of Boston, George W. Nesmith of Franklin, Josiah Minot of Concord, Joseph W. Clark of Boston, and Otis Daniell of Boston.

Peteler Portable Railroad Co.

We invite attention to the Advertisement of this company in another column. Having purchased the entire control of the Peteler patents for the States of New York, New Jersey, the Dt. of Columbia, and all the southern and western states and territories, with few exceptions, they are now prepared to contract for excavating, grading and filling; for transporting merchandise and materials from one place to another; for leasing and seiling cars and tracks for any of the above purposes; and for the sale of state and territorial rights. With this portable railroad, work can be done cheaper and in a shorter time than without it. It can be constructed rapidly, with comparatively little expense. It is light, strong and durable; and so arranged that it can be operated without requiring particular skill, with little power and expense, and can be used everywhere and in all seasons. Pamphlets, giving a full description of the road, its cost, uses, and practical working in the construction of railroads, common roads, and for parks, cemeteries, promenades, mines, quarries, potteries, brickyards, etc., etc., together with numerous testimonials from reliable parties who have used it for the above purposes, will be sent free by mail on application to the company, No. 42 Broadway, N. Y.

Wharton's Safety Railroad Switch.—It Cannot be Misplaced.

It is by the mercy of Providence that twenty lives were not lost instead of two, by the accident near Leaman Place, on the Pennsylvania Railroad on Tuesday morning. Through the *misplacing of a switch* the Philadelphia Express, coming east, ran into an Emigrant train standing on another track. The brakesman killed (Thomas Swayne, of this city,) was at his post and faithfully doing his duty. Whether the switch was left misplaced by negligence or by design is not clear, but in either case the occurrence affords another illustration of the necessity of using the style of switch that *cannot be misplaced* by either negligence, stupidity or malice, but which, under all circumstances, keeps the *main track unbroken*. It has been demonstrated beyond all doubt that the WHARTON SAFETY SWITCH does this. It is approved by the most experienced railway mechanics. We can imagine no reason why it is not generally adopted, unless it may be on account of some difference about expense—and that ought not to be weighed when the question is safety to human life.—*Phila. Ledger, May* 26.

☞ The ordinance passed by the Baltimore City council to guarantee the bonds of the Lynchburg and Danville railroad to the amount of $750,000, was not ratified by a vote of the citizens of Baltimore.

☞ During the month of April, 30,000 tons of iron ore, were shipped from the Iron Mountain and Pilot Knob to the Mississippi, and but for the scarcity of rolling stock the shipments could have been doubled.

☞ The work on the first section of the Arkansas branch (contracted on the 4th inst.) is being rapidly pushed forward. It is expected the line will be completed, between Cape Girardeau and this road, early next month.

☞ The Northern Pacific Railroad Bill has passed both houses of Congress, and received the signature of the President.

Schuylkill Navigation Co.

A notice has been published by this company calling a special meeting of its stockholders for the 20th of June, to consider the "proposition to lease the works, franchises, and property of the Schuylkill Navigation Company to the Philadelphia and Reading Railroad Company." The terms proposed are said to be as follows: the railroad company to assume the interest on the debt of the canal company, pay 3 per cent. per annum on the preferred stock and 1½ per cent. on the common stock.

☞ The Union Railroad ordinance has passed both branches of the Baltimore City Council. On the completion of this road all the railroads leading to Baltimore will connect with tide water at Canton.

SISTARE,

No. 24 NASSAU STREET,

Offers New York Sevens [7], about 20 Years to Run,

In Exchange for U. S. Government 6s,

Thereby adding ten per cent. (10), to the principal of the party making such Exchange.

3t23

ST. LOUIS, ALTON AND TERRE HAUTE R. R. Co., No. 12 Wall st., N. Y., May 26, 1870.

THIS COMPANY INVITES BIDS UNTIL June 8th, at 12 o'clock noon, for $150,000 of Ten Per Cent. Equipment Bonds of $1,000 each, interest payable 1st of March and the 1st of September; the principal in ten years, secured by lien on the equipment purchased and to be purchased with the proceeds. Bids to be addressed to the President, No. 12 Wall st., (marked "Bids for Bonds,") where circulars may be obtained containing particulars, or will be forwarded on application. The proceeds of these bonds are required to furnish ample equipment for the Belleville Branch, and the new road from Belleville to Duquoin, (56 miles,) which will be finished by October next, and which is to be equipped and operated under lease of this Company.

C. BUTLER, President.

OFFICE CHIEF QUARTERMASTER MILITARY DIVISION OF THE SOUTH, *Louisville, Ky., May* 23d, 1870.

WILL BE SOLD AT PUBLIC AUCTION, under the direction of Brevt. Lieut. Col. E. J. Strong, Asst. Quartermaster United States Army, at the Depot of the Mobile and Ohio Railroad Company, at Mobile, Alabama, on the 8th day of June, 1870, the following Rolling Stock lately run on the Mississippi, Gainesville and Tuscaloosa Railroad, as follows:

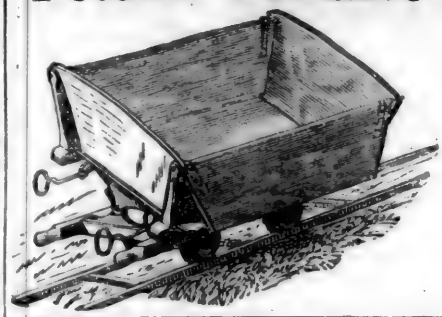
One (1) Locomotive and Tender.
Four (4) Box Cars.
Five (5) Flat Cars.

And a lot of miscellaneous tools, iron, and car wheels and axles.

At the same time and place—

One (1) Locomotive and Tender.
One (1) Flat Car,
now lying at Gainesville, Alabama.

Terms—Cash in Government Funds.



By order of the Quartermaster General,
J. C. McFERRAN,
Brevt. Brig. Gen'l. Dept'y Q. M. Gen'l.
Chief Quartermaster Mil. Div'n of the S nth.

Illustrated Circulars sent free on Application.

CHIEF ENGINEER AND GENERAL SUPT'S OFFICE, MOBILE AND MONTGOMERY RAILROAD, MONTGOMERY, ALA., April 22, 1870.

Notice to Bridge Builders and Railroad Contractors.

On the first day of June next, the Mobile and Montgomery Railroad Company will be prepared to let to contract all the work embraced in extension of their Road from the East side of Mobile Bay into the city of Mobile, a distance of about twenty miles.

There will be embraced in this work about—
3,500 feet First Class Bridging on Iron Piers;
2 Large Draw Bridges;
25,000 feet Pile Trestle Work;
150,000 cubic yards Earth Work;
20 miles Clearing, Cross Ties, and Track laying.

After the fifteenth day of May, the Plans and Specifications will be ready for the inspection of parties desiring to offer proposals for this work. Address—

G. JORDAN,
CHIEF ENGINEER,
Montgomery, Ala.

☞ The above letting has been postponed, from Wednesday, June the 1st, to Wednesday June the 15th. Proposals will be received up to 10 A. M. on that day. Complete specifications will be ready by the 15th inst.

G. JORDAN,
Chief Engineer.

Montgomery, Ala., May 10, 1870.

Proposals for $250,000

of Dock Bonds

OF THE CITY OF NEW YORK.

SEALED PROPOSALS WILL BE RECEIVED at the Comptroller's Office until TUESDAY, JUNE 7, 1870, at 2 o'clock P. M., when the same will be publicly opened, for the whole or any part of the sum of two hundred and fifty thousand dollars of "Dock Bonds of the City of New York," authorized by Sec. 42 of the Act Chap. 383, Laws of 1870, and by a resolution of the Commissioners of the Sinking Fund, passed May 13, 1870.

Said stock will bear interest at seven per cent per annum, payable on the first day of May and November in each year, and the principal will be redeemed on the first of November, 1901.

The proposals will state the amount of Bonds desired, and the price per one hundred dollars thereof; and the persons whose proposals are accepted will thereupon be required to deposit with the Chamberlain the sums awarded to them respectively, together with any premiums thereon.

On presenting to the Comptroller the receipts of the Chamberlain for such deposits, the parties will be entitled to receive certificates for equal amounts of the par value of the sums awarded to them bearing interest from the dates of payment.

Each proposal should be sealed and indorsed "Proposals for Dock Bonds of the City of New York," and inclosed in a second envelope addressed to the Comptroller.

The right is reserved on the part of the Comptroller to reject any or all of the bids if in his judgment the interests of the corporation require it.

RICHARD B. CONNOLLY, Comptroller.

City of New York, Department of Finance, Comptroller's Office, May 26, 1870.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,
IRON AND STEEL MANUFACTURERS,
No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

BRADY'S RAILROAD LANTERNS.

The strongest and best in use; are made principally of Malleable Iron. Here lies the secret of their strength, the frame being capable of supporting a weight of Four or Five Hundred Pounds; and yet they are little heavier than ordinary Lanterns. The guards are rivited through the top and bottom flanges, the rings wound with wire where they cross the guards, and the whole frame tinned, uniting each piece with the other, making it the *strongest* Lantern ever offered to the public. RAILROAD MEN *especially* cannot fail to see that it will be economy to purchase these Lanterns, as there is no part that can be broken with ordinary use, except the Globe, which being adjustable, is easily and cheaply replaced with any color and at a small cost; the greater weight being at the bottom, it cannot readily upset. Now used on the following Railroads: New York and New Haven; Hartford and New Haven; Shore Line, Conn.; Providence and Worcester; Boston and Maine; Conn. and Passumpsic Rivers; Fitchburg; Rensselaer and Saratoga; Troy and Boston; Boston and Providence; Boston, Clinton and Fitchburg; Charlotte, Columbia and Augusta; Connecticut River; European and North American; Hartford, Providence and Fishkill; Mobile and Ohio; Portland and Kennebec; Boston, Hartford and Erie; Worcester and Nashua; Lake Superior and Miss.; Hudson River, and many others.

The trade supplied from our Store, or from the Factory, New Britain, Conn,

Chesapeake and Ohio Canal.

At a meeting of the stockholders of this company at Annapolis, Md., on the 6th inst., the following gentlemen who had been previously nominated by the Board of Public Works, were elected directors for the ensuing year: James C. Clarke, of Baltimore County, President; George S. Brown, of Baltimore city; Gilmor Meredith, of Baltimore city; Jas. G. Berrett, of Washington, D. C.; Isaac Young, of Montgomery county; Wm. S. McPherson, of Frederick county, and William Dodge, of Washington county.

Mr. Merryman offered the following resolution, which was unanimously adopted:

Resolved, That the salary of the President for the year ensuing be fixed at ten thousand dollars, and that a contract be entered into between the Board of Directors of the Canal Company and the Hon. James C. Clarke, the President, by which he shall devote his time exclusively to the interests of the Canal as President and Superintendent.

Governor Bowie said that it was proposed to dispense with the Paymaster, Engineer, and a number of other superfluous officers, whose united salaries greatly exceeded the increased salary of the President.

On motion, the *per diem* of the Directors was abolished, and it was ordered that hereafter the pay of the Directors be limited to their actual expenses incurred in attending to their official duties.

It is understood that Mr. Clarke will reside at Hagerstown, and devote his whole time to the duties of the office.

New Railway Line to Baltimore.

Our readers are aware that, previous to 1861, a large and profitable direct trade had grown up between Chicago and Baltimore. The merchants of Baltimore supplied Virginia and most of the Southern seaboard States and cities with provisions, as well as merchandise, and drew upon our market for large quantities of hams, cut meats and other articles, and it was hoped that she would, ere long, rival New York as a customer for several of our most important staples. The war stopped the intercourse of Baltimore with the South, and broke the connection of that city with the West by rendering transit and travel on the Baltimore and Ohio railway unsafe, and most of the time impossible. For these reasons the commerce of Baltimore was virtually dead during the war. The last few years have given a wonderful stimulus to the commerce and prosperity of Baltimore. She has a regular line of iron steamers, built on the Clyde, to Bremen, which command full cargoes of freight and passengers. She has regular lines of steamers running to all the Southern ports, and several lines of railways, some of them rapidly approaching completion, do now or will very soon give her direct communication with all the most productive and populous districts of the Southern States.

To enable her merchants to supply her customers from the cheapest sources, the Baltimore and Ohio railroad has been securing branch lines to the leading centres of the Ohio and Mississippi Valleys. It now has control of lines to Sandusky, Columbus and Cincinnati, and it is proposed to open a new road direct to Chicago. The shortest line between the two cities—nearly a hundred and fifty miles less than between Chicago and New York—is by the Connellsville and Pittsburg road, soon to be finished to the latter city, and to complete the line the managers of the Baltimore and Ohio railway are now canvassing the project of a new road, with the best grades and the most direct line possible, between here and Pittsburg. Hon. John W. Garrett, President of that road, has been in the city two or three days conferring with our leading citizens on this important subject. At their invitation, he addressed the members of the board of trade on the 26th of May, in an able and highly effective speech. We sincerely trust our citizens will promote this important enterprise by every means in their power. The country west and northwest of Lake Michigan is developing so rapidly that the importance of this new and competing route to the Atlantic seaboard can scarcely be overestimated.—*Chicago Tribune.*

Massawippi Valley Railroad.

The construction of the Massawippi Valley Railroad is approaching completion, and the line will undoubtedly be ready to open on the first day of July, according to contract.

There are some points in connection with this line worthy of mention. This will make a direct and all rail route from New York to Quebec, 70 miles shorter than any other now open. As Quebec is nearer Liverpool by at least a day's sail than New York, it is altogether probable that the travel by the Quebec steamers to and from England will be much increased, the more speedy rate of travel by rail being an additional inducement to those whose time is valuable. It is also probable that a considerable trade may grow up between the ancient capital and the cities of New England and New York.

After the opening of this road, during the season of summer travel, through trains will be run connecting with all the important points in New England, and making only one or two changes of cars from Boston, or Springfield, or New York to Quebec or Montreal. Should first class Pullman cass be run for the summer travel season, this route would doubtless secure the best portion of the English and Canadian travel, additionally induced by the fine scenery of the Eastern Townships and the Connecticut Valley.

The new road (from the Line to Lenoxville), passes through a fine country, rich in scenery. The inland and scarcely known Massawippi Lake is skirted by the road its whole length, and is not inferior in beauty and variety of scenery to any similar body of water in New England or Canada. The road will make an outlet for the lumber region more direct to the best markets than the Grand Trunk. The Brompton and other mills now turning out from twenty to twenty-five millions of feet annually, will reach a part of their customers more directly by this route, and the contemplated line from Lenoxville or Sherbrooke eastward will open up a vast lumber region to the southern markets through this and the Grand Trunk routes.

Should the Stanstead, Shefford and Chambly eventually be extended to a connection, the business of another important section would be diverted to a more direct route to the New England markets.

While this section of the country has been very heavily taxed to obtain this railway connection

we have reason to believe that the interests of the country will be improved and quickened thereby, and the people there be measurably remunerated for their outlay.—*Stanstead Journal.*

New York and New Haven Railroad.

On account of new depots and depot grounds at New Rochelle and Port Chester, and new Housatonic river bridge	21,344 12
	$1,169,439 95

From the foregoing accounts it will be seen that the gross receipts from the transportation business of the company for the past year are about $98,000 in excess of the year preceding, while the net earnings after paying taxes, interest and loss on the Canal Railroad are somewhat less. The increase in the number and mileage of the trains, of about 80,000 miles, the additional amount paid for taxes, the extra interest growing out of the purchase of additional lands in the City of New York, and the large expenditures incurred in running gravel trains during eight months of the year, are the principal causes of the increase in operating expenses. After the close of the present fiscal year, it is reasonable to expect that the company will begin to reap the advantages, which will be gained from the improvements which have been and are being carried on, and which will be exhibited in diminished operating expenses.

The new repair shops at New Haven are now substantially completed and in successful operation. A first-class double track iron bridge has been erected at Cos Cob. About one-half of the road is laid with steel rails, and by mid-summer two-thirds of the entire track will be of steel. The equipment of the road has been considerably increased and the old cars materially improved, and with the facilities we now have, we see no difficulty in keeping up our roadway, cars, and engines, at less expense than heretofore. The item of taxes appears to be gradually but steadily increasing. During the past year the taxes have amounted to nearly 25 per cent. of the net earnings of the company. If the present taxes upon dividends and upon passenger receipts are continued, the probabilities are, that the expenses for taxes will continue to increase. The United States Internal Revenue Law affects this company more unfavorably than others, inasmuch as it levies a tax upon the passenger receipts of railroads, and while the greater part of the receipts of most railroads is derived from the transportation of freight, full four-fifths of the receipts of this company is obtained from passengers. As long as the present tax laws remain in force, the item of taxation may therefore be expected to increase.

On the 1st of July last the leases of the Canal Railroad expired, and that road has since been operated by the New Haven and Northampton Company. Upon delivering up possession of that road and its branches, many unsettled questions, which have been in dispute for many years, and several claims raised by the New Haven and Northampton Company in regard to the condition of the road, bridges and buildings, and which threatened to involve the two companies in vexatious and expensive litigation, were by mutual agreement submitted to Hon. Ginery Twitchell of the Boston and Albany Railroad, Gen'l Stark of the Boston and Lowell Railroad, and George W. Bentley of the New London Northern Railroad, for final decision. Under the award of these arbitrators, this company has paid to the New Haven and Northampton Company the sum of $85,723 92; this, however, includes the sum of $51,500, being the value of a quantity of iron, ties, chairs, and spikes, which were delivered to this company in 1855, and which, by contract, were to be returned in kind on the expiration of the leases of the Canal Railroad.

The contract with the Hartford and New Haven Railroad Company, which had been in force for about twenty years, also expired on the 1st of July last; business connections and joint running arrangements with them are, however, continued under a temporary agreement.

The company have 36 engines—28 in good order, 3 in running condition, and 5 in shop for repairs. During the year 2 old engines have been sold, and 1 new engine purchased of the Rogers Locomotive and Machine Works, Paterson, N. J.

The company have also 80 passenger, 18 mail and baggage and 418 freight cars, besides 74-234ths of 36 passenger, 10 baggage, 4 express freight, and 3 postal cars belonging to the New York and Boston Express Line, and 74-282nds of 4 passenger and 2 baggage cars belonging to the New York and Boston Shore Line. There were also building (to be delivered in May) for the New York and Boston Express Line, via Springfield, 10 passenger (four of which are drawing-room cars) and 2 baggage cars, making the number of passenger cars now in use, including those owned in common with the two lines to Boston, 130, all of which are, and have been, kept in good repair and safe condition during the year.

During the past year, there were placed on the track 56,088 cross-ties, and in the yard at the new shops 2,435 cross-ties. There were laid in main track about 2,750 tons steel rails, which completes the laying of about one-half the track with steel rails, with a heavy iron fish joint, called "Pratt's Patent Compensating Fish Joint." There has not a single rail, steel or iron, broken in the track during the year. Many of the cattle guards have been rebuilt in the most substantial manner. This work will be continued until all cattle guards are rebuilt the entire length of the road. The gravel train has removed from the track a large quantity of material, unfit to remain there, substituting, to the depth of about two feet, good gravel which has tended to much improve the road bed, making it, at present, in fine condition. To place the track, however, in such a condition as heretofore promised, a gravel train will be required for, at least, the two seasons ensuing. This, with the steel rails, already contracted for, and intended to be placed in the track, will make it one of the best in this country. After the repairs above mentioned are completed, the expense of maintaining the track and machinery will be comparatively quite small.

The temporary wooden bridge, about 600 feet in length, which was erected at Cos Cob, in place of that part of the former bridge, burned October 14th, 1865, has during the past winter been removed, and a permanent iron structure of the Post Patent substituted, without the least detention to any train passing over the same, while making this change. All the other bridges are believed to be in a good and safe condition.

Nearly all the depot buildings, &c., on the line of the road, have been painted during the past

year, and are now in a very satisfactory condition. The company commenced to occupy the new shops at New Haven during the month of February last, and are now ready for business there, all tools, machinery, &c., having been taken from the old shops and placed therein.

Number of miles run by passenger trains, 622,222; by freight trains, 174,668; by gravel trains, 31,096—total, 827,986, at a cost of 8 cents per mile for repairs, and 12½ cents per mile for fuel.

Number of passengers carried, 2,045,725; do. carried one mile, 73,185,372. Tons of freight moved, 144,765; do., moved one mile, 6,665,442. Average distance travelled by each passenger, 30.42 miles. Average amount received from each passenger, 77.75 cents; do. for each mile moved, 2.55 cents. Gross earnings of road from passengers per mile, $25,291,77.

There have passed over the road during the past year, 9,500 passenger trains, and 2,393 freight trains, also a gravel train has been run eight months, and during their passage, there has (with but one slight exception) neither locomotive, nor car of any kind, left the track from any cause. The number of passengers transported during the past year is 2,464,259, and during the past fourteen years, ending March 31st, 1870, 21,035,346 passengers have been transported over the New York and New Haven Railroad, without an accident to any train, while on that road, that caused the loss of a single life, or limb, to any passenger, so transported.

Treasurer.—JOHN T. SHELTON.

Secretary.—EDWARD I. SANFORD.

Superintendent.—JAMES H. HOYT.

☞ Work has been commenced on the line of the Sugar River railroad at Newport, Vt. Gov. Stearns has been appointed building agent, and Dexter Richards Treasurer.

Canada Southern Railway.

This railway is singularly interesting to Buffalo. It is to start from Fort Erie and unite with the Michigan Southern at Detroit through the construction of a loop line from Detroit to Jonesville, a station on the latter road. This will make a very short line between Buffalo and Chicago. The Canada Southern also branches off at St. Thomas, near London, and carries a line to the Michigan town of St. Clair on the St. Clair River, where it will unite with a new line from thence to East Saginaw, which line is to cross the Straits of Mackinaw and join the Northern Pacific at Superior City, and this Saginaw line will fetch the iron of the region beyond Mackinaw to Buffalo at a very low rate all the year round. The Canada Southern will also have close connection with the Peninsula Railway of Michigan, connecting at St. Clair and terminating in Chicago. That and the Jonesville routes will always be the two shortest between Buffalo and Chicago through all time. Can there be any doubt of the value, therefore, of the Canada Southern to the City of Buffalo?

That the projected line will be in operation and ready for traffic within two years is practically now, we believe, a matter of certainty. It can hardly be doubted when we state that Mr. William A. Thomson has succeeded in obtaining as his associates in this Canada Southern Company men of the very highest standing in railway influence and personal wealth, such as John F. Tracy, President of the Chicago and Rock Island; Sidney Dillon, of the Union Pacific; W. L. Scott and Milton Courtwright, of the Lake Shore and Erie and Pittsburg; and Daniel Drew, the veteran capitalist of Wall street. This is most excellent news for Buffalo, and should be a most potent incentive to the instant construction of our coal railway.

On Thursday last the provisional directors of the Canada Southern Company met at London and accepted subscriptions of stock amounting to $2,000,000. Ten per cent. in gold was paid thereon and transmitted to the Merchants Bank and the Ontario Bank in Toronto, and placed temporarily to the credit of the Treasurer of the Province in security of the good faith of the subscribers to carry out the construction of the line in its entirety.

On Friday the provisional directors and the subscribers met delegates from the seven counties through which the line is to be constructed, in convention at St. Thomas. The meeting, we learn, was a most enthusiastic one and pledged itself to get from the various municipalities by way of bonds or stock subscriptions about one and a half million of dollars towards the undertaking. In the evening a public dinner was given to the directors, subscribers and delegates in the Town Hall, where thrilling speeches, music and champagne testified the earnestness of the people who are enlisted in the Canada Southern project, and also their high appreciation of Mr. Thomson's success in finally floating the railway into life, particularly with such a powerful individual and railway combination as subscribed for the stock.

The first election of Directors for the Company will take place at the Clifton House, Niagara Falls, on the 16th proximo. Surveyors will set to work this week locating the line.—*Buffalo Express*, May 31.

☞ It is stated that the managers of the Chesapeake and Delaware Canal Company have unanimously decided to pay the semi-annual interest of the company, due on the 1st of July next, in gold, according to law.

☞ At the annual election of the Milwaukee and St. Paul Railway Company, held in Milwaukee June 4, 1870, Messrs. Levi P. Morton, James G. Garner, Isaac Sherman and Frederic De Billier were chosen directors for the three years ensuing.

Illinois Central Railroad.

The statement of this Company for the month of May, 1870, is as follows:

LAND DEPARTMENT.

Acres Construction Lands Sold	2,831.82 for	$26,206 67
Acres Int. Fund Lands sold	134.49 for	1,885 94
Acres Free Lands sold	39.50 for	712 62

Potomac Railroad.

This company was chartered by the Legislature of Virginia to build a railroad from Alexandria to Fredericksburg, connecting there with the lines to Richmond and other points south. At a meeting of the stockholders of this company in Baltimore on the 18th ult., the following named gentlemen were elected directors for the ensuing year: Isaac Hinckley, Henry D. Cooke, Jacob Tome, Wm. S. Huntington, John L. Marye, Jr., John Bull, Hallet Kilbourn, Wm. W. Dungan, George P. Fisher, Geo. A Parker, Sam'l M. Felton, P. V. Daniel, Jr., Enoch Pratt. At a subsequent meeting of the directors, the following officers were chosen, viz: For President, Henry D. Cooke; Vice President, Isaac Hinckley; Secretary, John Bull; Treasurer, Wm. S. Huntington. This organization secures, it is alleged, the immediate commencement and early completion of a road that must be regarded as one of the most important unbuilt links in the country.

☞ The Reading *Eagle* says: "On June 1st the works, franchises and properties of the Schuylkill Navigation Company passed informally into the hands of the Philadelphia and Reading Railroad Company. The boats along the whole line are being transferred, one by one, as rapidly as they can be pointed out to the agent appointed by the railroad company, and the clerks in the different departments are as busy as they possibly can be in putting the papers and books in proper shape to hand over to the new owners or lessees."

☞ The Cumberland *Times* says that the branch road from Somerset, Pa., to connect with the Pittsburg and Connellsville Road at Mineral Point is to be let to contractors at an early day. William Bear, Esq., of Somerset, is the President of the Somerset Branch, and under his supervision the affairs of the road cannot fail of being properly conducted.

☞ The Utica, Chenango and Susquehanna Valley Division of the Delaware, Lackawanna and Western Railroad was opened for business to Richfield Springs on the 30th ult., and trains commenced running between that place and Utica.

Movements of Produce.

The Receipts of certain articles of domestic produce at the port of New York for five months from January 1st, were:

	1869.	1870.

☞ The Railroad Commissioners of the State of Connecticut in their report to the Legislature, give the result of the use for four or five years of steel rails by the New York and New Haven, and the Hartford and New Haven roads, as most striking and satisfactory.

Vicksburg and Meridian Railroad.

OFFICE OF THE V. & M. RAILROAD CO.
VICKSBURG, MAY 2D, 1870.

To the Stockholders of the Vicksburg and Meridian Railroad Company:

GENTLEMEN—The annual communication of the President and Board of Managers giving a statement of the business of the company for the fiscal year ending the 28th February, 1870, together with its financial condition at that period, is respectfully submitted.

The details of the business and operations of the road, will be found in the tabular statements appended to this report, from the Secretary and Treasurer, the General Superintendent, and other officials.

The gross earnings were:

From freight	$254,627 46
" passengers	198,168 78
" mail	40,798 62
" United States for transportation of men and property	15,094 47
" Incidental receipts	5,847 32
	$483,536 65

The gross earnings of the previous year were $390,408 29, showing an increase of $93,408 27, or an advance of 23 11-13 per cent. over the previous year.

EXPENSES.

For conducting transportation	$77,309 37
For motive power	74,462 45
For maintenance of way	110,564 56
For maintenance of cars	17,539 11
For contingent expenses	2,044 84
For general salaries	9,974 92
For taxes	727 10
For new cars	11,520 89
For new rails	12,346 65
For right of way at Jackson	500 00
For Mulberry street railway	1,217 80
For building three station houses	2,850 00
	$321,057 69

If the five last items are deducted, (say $28,435 84 as extraordinary expenses,) it would reduce the amount of working expenses to $289,772 35, or 62 4-7 per cent. of the gross earnings. Showing an increase of working expenses over the previous year of $57,641 97, which is mainly attributable to the advance in the cost of labor—and against that excess, there are materials on hand purchased for the road and shops amounting to $15,721 93, which have been paid for, leaving in reality the amount of $41,920 04 in excess of the previous year's expenses. The principal items of increase in the earnings over the previous year are 13,315 bales of cotton, 482,793 feet lumber, 87,869 barrels flour and meal, 2,041,499 pounds bacon and lard, and increase of tonnage 25,827 tons.

The only item showing a material decrease as compared with the receipts of the previous year, is that of incidentals—showing a reduction of $30,167 25, principally caused by having old rails re-rolled and welded, and placed in the track, instead of selling them, as heretofore, as old iron. (The large amount included the sale of old axles, wheels, etc.) In view of the fact that we have not made any of the anticipated conections, since the date of our last annual report. We regard these indications of improvement as decidedly encouraging.

DEBT OF THE COMPANY.

The following amount of 7 per cent. coupon bonds, secured by the three million mortgage have been issued to date:

1st class, red endorsement	$683,500
2d class, blue endorsed	849,000
3d class, black endorsed	129,000
4th class, unendorsed	1,102,000
Payable 1st January, 1890	$2,763,500

BONDHOLDERS LOAN—(*a debt of honor.*)

The debt of next importance is one in the form of a loan generously made to the company in its time of trouble and gloom, by the Bondholders of the North and Europe, and subsequently increased, until it is now estimated at $250,000. The object of this loan was to aid the company in placing the road in a safe condition, and in the purchase of engines and cars. This debt bears 8 per cent. interest, payable semi annually in January and July. The installments payable in July '69 and January '70 were punctually paid—the time for paying the principal has not as yet been stipulated.

FLOATING DEBT.

The outstanding floating debt of the company, consisting of bills payable and other acknowledged claims, not included in the above statements of the debt of the company, amounted on the 28th of February, 1869, to $199,015 15; amount settled and cancelled in the past year $100,597 80; leaving amount due 1st of March, 1870, $98,417 35. $77,573 66 of the above amount is on account of bills payable, and $20,843 69, is due on miscellaneous accounts.

Until the company can pay the full interest on its mortgage debt, and can pay in full the principal and interest of its Loan debt, which is regarded strictly a debt of honor, it will not be in its power to pay off this floating debt, except upon terms of a reasonable compromise.

The net earnings of the past year amounting to $159,976 47 has been applied to the payment of interest on the 7 per cent. coupon bonds, in compliance with the terms proposed by the company in the latter part of 1868, to apply its entire net earnings to the payment of interest, both on its loan debt, and on the 7 per cent. coupon bonds secured by the three million mortgage, irrespective of class. The full 8 per cent. interest on the loan debt, to be paid in money.

In regard to the interest instalments on the 7 per cent. mortgage bonds, as the net receipts of the road would not justify the full payment of 7 per cent. in money, it was proposed by the company, and very generally agreed to, that the bondholders should receive 4-7 of each interest instalment in money, and 3-7 in preferred stock, with the understanding, that as fast as the increase of business would enable the company to increase the cash, and diminish the preferred stock per centage, it should be done.

Our bondholders, with rare exceptions, have shown a considerate and liberal spirit of forbearance towards the company in accepting this commutative proposition, and we are quite hopeful that their generous treatment will not have to be of long continuance, as with the increase of business and profits, it is our purpose to increase the cash per centage of interest as fast as we are able.

The prospect is now very encouraging for the opening of the line between Vicksburg and Montgomery, Ala., in time for the approaching fall business, affording an all rail route from Vicksburg to Savannah, Charleston and Brunswick. Col. Pollard, the President of the Montgomery and Selma Railroad Co., says in a late letter: "I hope without unprecedented high waters through the summer to give you a connection with the Atlantic by the 1st of September." The success of the company in enlarging its business and revenues principally depends upon completing the extension of its road directly to the bank of the Mississippi river, and there to have suitable structures, with the hoisting apparatus, &c., so that the railroad cars may be brought into close contiguity with steamboats, and loaded without delay, confusion or loss, for all points in the interior. With these inducements, Vicksburg would become the favorite route for the transportation of western produce to many important points east of Meridian. The expenses and difficulties of the old system, the complaints on account of the detention of freights, its unsatisfactory delivery, the injury and loss to which it is liable, leaves the company no alternative but to secure the most advantageous river connection and mode of transfer, that is attainable. We desire this connection that we may be able to give better satisfaction to the merchants of all the cities and towns on the

line of our road, and that by such an improvement, we may also secure our fair proportion of consignments of western produce for various important cities and towns in Alabama. The public interest, no less than the interest of the company demands such an improved transfer at Vicksburg, as we propose making, and so far from its injuring Vicksburg, we believe it will improve its trade, and increase its population. Between the railroad company and its patrons, especially within the State, there are mutual and reciprocal relations and interests, and any clog used to prevent the company from the discharge of its obligations to the public in its efforts to remove the embarrassments, and lessen the expense of the existing transfer arrangements at Vicksburg, should be regarded as a great wrong, alike unjust to the dublic, and the railroad company.

The river connection is of special importance to a full development of our lumber business. That is an article which will not bear the expense of much handling and drayage. With our contemplated river connection, when the lumber can be transferred from the cars to the bank of the river, and thence directly to the steamboats, a new impulse will be given to that trade, in developing its extent and commercial value. On this subject, there should be no antagonism between the authorities of Vicksburg or its citizens, and the railroad company. All should work together for the common good of both the city and the railroad company. The favorable position of Vicksburg, in connection with her great natural advantages, clearly indicate, that she occupies the site of a great and prosperous commercial city, and it will be a grave overnight and fatal error, if the citizens are successful in forcing the railroad company to the alternative of either accepting an impracticable line for the extension of its track to the river, or of not going to the river at all, when the only considerations should be to obtain a route with the easiest grade, at a reasonable cost, and with sufficient room for side-tracks, and for conducting a large lumber, cattle, and miscellaneous through freight business. The company consider the extension to the river by grades suitable for the use of locomotives, to be alike essential to its prosperity and usefulness to the welfare of the country along the line of the road, as well as to the promotion of the true interest of the city of Vicksburg. The line should therefore be adopted in reference to the engineering and financial considerations, and the company should be left untrameled to select the point best suited for its transfer business.

It is a matter of public notoriety that a new Southern Pacific Railroad Company is about being organized under a new charter, to run an independent line from some Southern sea port on the Atlantic coast to a Pacific sea port on the 82 parallel, say San Diego. The crossing point of the Mississippi will be left as an open question, dependent on the policy and interest of the company for its location.

Vicksburg will, no doubt, be the point preferred, unless it is rendered impracticable by the action of its citizens. Under such circumstances, calm deliberation and wisdom, should govern their actions.

The ferry crossing for passengers and freight, in connection with the railroad extension to the river, should not only be as free as possible from objections, but should be both practicable and attractive. This company should not be required to adopt an impracticable line for its river extension and terminus, such for instance as laying the track from the present depot through Mulberry street to the foot of Jackson street, on a grade of 250 feet to the mile, when it is admitted by the most experienced engineers and railroad officers, that no railroad should adopt a grade over one hundred feet to the mile, if it can be possibly avoided. Therefore, the question of allignment and grade should be left exclusively to the railroad company—it is strictly an engineering and financial question in regard to the selection of the route—and of suitability for business, in regard to the location of the terminus, of which the company should be the judge.

In December last the President of the company made a report to the Board of Directors on the subject of the insufficient facilities at Vicksburg for transferring railroad freight from the river to the depot, causing the detention of freight, for days and weeks, on the wharf boat and landing, on account of the mud in the streets, and the inability of the drays to haul to the depot. The accumulated cargoes of four boats were at one time lying at the landing, waiting to be transferred to the depot. These cargoes became mixed and confused, with city freight. Yazoo freight and railroad freight, all piled in promiscuous heaps, causing delay, trouble and expense; the draymen demanding an advance on drayage, and many of them refusing to haul at any price, and there was also an advance demanded by the transfer agents.

That condition of things led to the inquiry of the feasibility of using Mulberry street for a railway track, bnt only as a temporary expedient, for moving that large accumulation of freight, and to provide for present emergencies, until something better could be done. The company was then incurring an enormous risk by the collection and detention of such large quantities of freight on the wharf boat and landing, and the danger of burning or sinking of the wharfboat, or the injury of the perishable articles of freight that were exposed to the weather on the landing. The loss and damage claims against the company might possible involve a serious loss, and we urged the policy of making a track from the depot down Mulberry street to the landing, which the company had acquired the right to do, under a charter held by certain citizens of Vicksburg. The construction of the track was to be of a temporary character, only to meet the existing emergency. It was intended only for the use of light cars, holding two or three tons of freight, and to be drawn to the depot by horse power. The company made no proposition, nor had any intention, of running a locomotive on that track. The cost of the completion of the track to the landing and platform was estimated at about five thousand dollars, and it was considered good policy to incur that expense, if we only used that street railway for six months. But as soon as the company fairly commenced this work of constructing the track it was stopped by an injunction served on the 15th December, 1869.

During the spring of 1869 we had a destructive freshet in Big Black and Pearl rivers, submerging the track, sweeping away small bridges and em bankments, making it necessary to transfer passengers in boats across Big Black river, and causing a suspension of freight transportation for three weeks. The enbankments that were washed away have been substituted by piling, as a foundation for trestles, small bridges and openings, leaving all the spaces open for the happening of future floods. The cost of repairs on that account is estimated at from $7,000 to $8,000.

The track is reported by the General Superintendent to be generally in safe working condition and fair order, but with some few exceptions, where the road passes through the prairie soil, and for the want of suitable ballasting, there is much difficulty in keeping it in proper repair during the winter months, 3 7-10 miles of new rail and 5 1-10 miles of welded rail have been laid during the year, and so far, the welded rail has proved very satisfactory. One hundred tons of the light rail will be taken up and re-rolled without mixture, the same character of rail, previously re-rolled, seems to wear well.

Thirty-seven thousand two hundred and fifteen new ties have been put in the track during the past year, and 4,968 rolled chairs placed under the light rail. A steam pile driver has been procured, which will materially economize the expense of heavy repairs in bad soil. We have a soil on the line of the road called buck-shot soil, and have ballasted nine miles of track with it, and it seems to answer the purpose very well.

Liberal arrangements have been made by this company with the New Orleans, Jackson and Great Northern Railroad for side tracks, and for the location of a freight depot, on the right of way of that company, at Jackson. These improvements will prove mutually beneficial to the two companies in affording facilities for the more convenient and prompt interchange of freight and passengers between the two roads. Our arrangements with all other connecting roads are of the most friendly and agreeable character.

By the rapid extension of the Alabama and Chattanooga Railroad, with a strong probability that the entire line between Chattanooga and Meridian, will be completed early in 1871, we may with reasonable confidence anticipate an increase of business, and net earnings from that source.

The North Louisiana and Texas Railroad starting from the western bank of the Mississippi river, will be in operation as we are informed, as far west as Monroe, La., 74 miles from Vicksburg by the 1st July next, and must prove an advantageous connection to both roads.

We also learn that the Selma, Rome and Dalton Railroad, will be opened from Selma to Cleveland, Tennessee, by the 1st of June next, that will be a short line to the eastern cities, and with good connections, must improve our through travel.

New depot buildings have been erected during the past year at Clinton, Morton, and Newton stations. A suitable passenger house at the Vicksburg depot is very much needed, and it is the intention of the company to have one built as soon as its financial condition will justify the expense.

IMMIGRANTS.

The lands owned by the company should be made available as soon as possible, in the interest of Immigration. General Lieb, of Chicago, who has been actively engaged in promoting German Immigration, and securing for the immigrants homes in the West, has recently made a careful tour of inspection, of the lands lying on the line of the Vicksburg and Meridian Railroad, and regards them as being peculiarly suitable and attractive for that class of immigrants. He considers the advantages of climate, soil, timber and transportation facilities as equal to any lands or location he has seen anywhere, and is willing to enter into liberal arrangements to induce a large number of German immigrants to settle on the lands of the company.

The Board of Managers has authorized the President to consummate the necessary arrangements for the settlement of a limited number of families along the line of the road on the lands belonging to the compay, and a correspondence has been opened with Messrs. Leib & Gallagher on that subject, which may lead to important results.

Reference is made to the Report of the General Superintendent for interesting information and details.

The acknowledgements of the Board are tendered to the officers of the company for their efficient and faithful services.

M. EMANUEL, President.

Shawneetown and Madisonville Railroad.

The Shawneetown (Ills.) and Madisonville (Ky.) R. R. Co., was organized at Providence on the 11th of May by the election of a board of directors with Wm. L. Gordon as President. The Madisonville *Times* says that the distance from Shawneetown to Madisonville, making Claysville, Providence and Nebo points on the line, is forty-two miles, and it has been estimated by skilled engineers that it will cost only $150,000 to grade the road between the two points; the deepest cut on the line will not exceed eight or ten feet. Four hundred and twenty thousand dollars will iron the forty-two miles of the road, and $150,000 more (this estimate is liberal) will place all the necessary rolling stock upon it, making in all $720,000.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, June 11, 1870.

Stock Exchange and Money Market.

Money has been offered freely to responsible borrowers, since our last, at from 3@5, generally 4 per cent. on call, and 6@8 per cent. per annum, in the discount form. The demand for accommodation, though fairly active, has been promptly met by lenders, especially through private channels, at the going rates. The main inquiry has been from street houses, dealing in Gold, Stocks, and Bonds, but it has been, by no means, urgent. The Government firms have had their wants adequately provided for at the minimum figures. The city banks, in their last weekiy exhibit, showed a further decrease of about 1¾ millions in their specie hoard, with a loss of nearly 1⅞ millions of deposits, and $328,866 of the legal tender reserve. They reduced their loan and discount averages, $65,000; and added $35,265 to their circulation. The U. S. Sub-Treasury at this port reported an increase of nearly three millions in its currency balances during the week, making the aggregate at the close $8,917,760, against $5,971,495 the preceding week. Its specie reserve was diminished about half a million. The Treasury Department held under its control on Monday $108,126,523 of gold (including $235,451,300 on deposit on private account), and $20,471,337 of currency.

The specie reserve of the city banks according to the latest return is $30,949,490, against $19,051,133 same time last year. The city bank deposits are now $226,191,797, against $199,124,012 week ending June 5, 1869. The legal tender reserve amounts to $61,290,310, against $53,289,429 same time last year. The circulation now stands at $23,285,083, against $23,982,995 same time last year. The loans are now $279,485,734, against $275,919,609 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged about $85,575,445 a day, against a daily average of $96,104,000 the preceding week, and $104,279,720 the week ending with May 21, 1870. The current week's exchanges average about 109 millions a day. The city banks, last week, reported a loss of $1,778,545 of specie, $1,847,548 of deposits, and $328,366 of legal tender notes. They reduced their loans, $65,009; and increased their circulation, $35,265.

The city bank exchanges on Wednesday were about 72½ millions.

National Bank notes to the amount of $279,010 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $324,811,396, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $25,306,354, leaving, with the existing 1,614 banks, (having an aggregate capital of $427,004,247,) an actual circulation at this date, of $299,505,042. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,227,750; and for the public deposits, $16,284,000—making a total of $358,511,750. The Treasury Department last week redeemed and destroyed $448,800 of worn and mutilated fractional currency, and issued $657,760 of new.

The U. S. Sub-Treasury receipts, week ending with June 4, were $3,053,273 in coin, (including $2,492,000 from customs duties,) and $6,590,526 in currency; payments, $3,490,594 in coin, (including $1,017,898 of coin interest,) and $3,644,263 in currency; balance at the close of the week, $87,634,564 (including $75,328,267, of coin, and $8,917,760 of currency,) against $82,937,046 at the close of the preceding week, showing an increase of $4,697,518. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $654,644 in coin, (including $403,416 from customs,) and $549,072 in currency; payments, $203,497 in coin, (including $173,500 of coin interest,) and $328,943 in currency. On Tuesday, receipts, $565,698 in coin (including $476,058 from customs), and $699,747 in currency; payments, $85,563 in coin (including $79,000 of coin interest) and $250,375 of currency. The balance at the close of business on Tuesday stood at $88,166,814, (including $9,587,262 of currency, and $76,259,548 of coin,) against $84,540,121 a week previous; and $82,990,329 on May 21, 1870. The aggregate receipts of the office in May were $63,496,248,

including $11,985,468 from customs; aggregate payments, $67,207,341 including $16,919,624 of coin interest; balance at the close of the month, $84,520,151, against $88,231,250 at the close of April.

The U. S. Sub-Treasurer issued in May $5,409,500 of coin certificates.

The U. S. Sub Treasurer retired, last week, $2,241,141 of coin certificates, received for customs.

The U. S. Sub-Treasury general balance on Thursday morning was $86,759,126.

Government revenues have been yielding quite satisfactorily since our last. The excises, during the week yielded $4,163,323; customs at the port of New York, $2,417,141 and at the outports about $800,000 (in coin) more, making the grand total income for the week equal to about $7,863,035 in currency. The receipts from excises, thus far in the current fiscal year, commencing with July 1, 1869, have been $164,481,941.

The Gold speculation has shown less spirit and less buoyancy, since our last. The investment demand has been less confident, while the customs and export inquiry has been on a moderate scale. The variable reports received of the prospects of the financial measures before Congress have tended to check speculative dealings. The coin deposit feature of the new funding bill has not met with much favor in financial circles in this city. The range of the price through the week has been from 113⅛@114¾, and the closing quotation on Wednesday was 113⅛. The specie exports, last week, were $1,199,700. On Tuesday of the current week, the shipments were about three eighths of a million. On Wednesday, Government disposed of a million of Gold at from 113 27@113 30. The aggregate of the bids was $3,080,000. No specio was exported on that day.

The coin balance of the Treasury Department on Monday was $108,126,523, including $20,471,337 on private deposit; currency balance, $20,471,337.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $76,527,894.

The customs demand for Gold last week, averaged $402,857 a day; thus far, this week, it has averaged $439,737 a day, or equal to a weekly aggregate of $2,638,422. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $44,845; and since Jan. 1, 1870, $6,987,090, against $8,807,886 same time in 1869. The total customs revenue of the Government, in coin, at this port, thus far in the current fiscal year, commencing with July 1, 1869, has been $126,029,565 against $117,598,205, in 1868-'69.

The customs revenue of the port on Wednesday was $278,000.

The customs revenue at the port of San Francisco, from Jan. 1 to May 13th, was $2,811,175, against $2,713,946 same time last year.

The exports of specie, from this port, last week, were $1,199,700 against $527,242 same week last year; total, since July 1, 1869, $30,109,236, against $35,589,691 same time preceding fiscal year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $1,017,898, and since July 1, 1869, $85,190,388, against $85,819,029 in 1868-'69.

The specie exports from San Francisco, from Jan. 1 to May 13, were $14,232,729, against $14,594,380 same time last year.

The actual coin interest payments of the Sub-Treasury on Wednesday were $27,733.

Foreign Exchange has been in better supply and less firm in price, on a less active market. Bankers' prime sixty day bills on London closed on Wednesday at 109⅝@109¾, and on Paris to 5.18¾@5.13¾; sight bills on London to 110⅛@110⅜, and on Paris to 5.13¼@5.11¼. The offerings of produce bills have been more liberal, since our last. The week's exports of domestic produce have been to the currency value of $4,343,752, making the total since July 1, 1869, $187,393,677, against $155,047,911 same time preceding fiscal year.

Government securities have been offered rather more freely and quoted lower in price, on a moderate demand, mainly on investment account. There has been a very limited inquiry from the street dealers, who usually purchase on speculation. The Washington telegrams, as to the funding bill provisions and prospects, have operated against an active business. At the close, a stronger feeling was noticeable, with a better inquiry for the 1881 sixes, and the later issues of the Five-Twenties, particularly the 1867 coupon bonds, as also for the currency sixes. On Thusday, Government bought in a million of Five-Twenties at about the current market rates.

U. S. sixes of 1881 closed here at 118⅛@118⅜; U. S. Five-twenties of 1862, 112@112¼; U. S. Five-twenties of 1864 at 111⅛@111⅜; U. S. Five-twenties of 1865 at 111¼@111½; U.S. Five-twenties of 1865 consolidated, 113⅝@113¾; U. S. Five-twenties of 1867, 114@114⅛; U. S. Five-twenties of 1868, 113⅞@114; U. S. Ten-forties at 108⅛@108⅜; U. S. Six per cent. currency bonds, 114¾@115.

On Tuesday afternoon the City Comptroller opened proposals for $250,000 7 per cent. Dock Bonds of the City of New York, authorized by the act of 1870, interest payable May and December 1, and the principal to be redeemable November 1, 1901. There were in all 29 bids, amounting in the aggregate to $2,773,500, at prices ranging from 99 to 110. The award was made to Mr. Geo. K. Sistare—$1,000 at 110, $1,000 at 109 $1,000 at 108, $1,000 at 107, $1,000 at 106, and $245,000 at 104.75, being the highest bids.

State bonds have been in more general demand at the ruling prices.

Railway bonds have been in fair demand at stronger prices. Central Pacific Sixes closed at 93⅛@93⅜. Union Pacific Sixes at 87⅜@87⅝; and the new Chesapeake and Ohio First Mortgage Thirty year Bonds at 90 per cent. and accrued interest in currency.

The State Controller at Albany has advertised to reimburse the principal of the State Canal Loan of 1858, due 1st of July, 1870, in gold coin, at the Manhattan Company in this City, on 1st proximo. The amount is $700,000. The July interest on all the other canal 5 per cents and 6 per cents will be paid at the same time and place, in gold.

Railway and miscellaneous share property has been more active, but unsettled in price closing with rather more steadiness.

At Frankfort on Wednesday U. S. Five Twenties closed at 95½, and Central Pacific Sixes, at 77¾

General business has been fairly active in the Breadstuff and Provision lines at firmer rates, but without notable animation in most other kinds of domestic produce. Middling upland cotton closed heavily on Wednesday at 22 cts. per lb. The stock of cotton now here is given at about 50,000 bales. The receipts at the port this week, have averaged about 2,100 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,734,400 bales, against 1,991,500 bales in 1868-'9; exports, same time 1,987,000 bales, against 1,367,150 bales same time in 1868-'9; stock on hand at latest dates, 263,250 bales, against 136,650 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 6,870 pkgs., against 11,481 pkgs., same time in 1869. From Boston, 1,542 pkgs. in 1870, against 4,002 pkgs. same time in 1869.

At the Live Stock markets, this week, Beeves have been in more demand at from 13@17½c. per lb.; week's receipts, 6,123. Milch cows continue quiet, at $40@$100 each, receipts, 73. Veal calves have been in better request at from 6@10c. per lb.; receipts, 3,815. Sheep have been moderately inquired for, at from 5@8½c.; lambs at 12@15c. per lb.; receipts, 14,922. Swine dull at 9½@9⅞c. per lb., all live weight; receipts, 20,745.

A fair call has been reported for the leading kinds of foreign goods at steady rates, as a rule. The week's imports of foreign dry goods were to the specie value of $1,426,375; and of foreign merchandise, $5,596,586, making a total of $7,022,961, against $5,432,230, same week last year.

Ocean freights have been more active, and quoted firmer, in most instances. The main demand has been for Grain, Flour, Cotton, Tobacco, Petroleum, and Naval store room. For Liverpool we quote flour at 1s. 4½d.@1s. 6d. by sail, and 1s. 9d. by steamer, per bbl.; grain at 5@5½d. by sail, and 5¾d. by steamer, per bushel; cotton at ⅛d.@3/16d. by sail and ¼d. by steamer per lb.; and heavy goods 12s. 6d.@25s. by sail, and 17s. 6d. @35s. by steamer, per ton. Total number of vessels in port on Wednesday, 459.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending June 7, and since the beginning of the year:

	1869.	1870.
For the week	$3,587,763	$4,343,752
Previously reported	71,594,177	71,944,349
Since Jan. 1	$75,181,940	$76,288,101

The imports for the week ending June 4, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$1,262,580	$1,426,375
Gen. merchandise	4,169,790	2,596,586
Total for the week	$5,432,230	$7,022,961
Previously reported	134,905,774	123,379,582
Since January 1	$140,338,004	$130,402,543

The balance in the Sub-Treasury on Wednesday was $86,759,126.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—South Carolina 6s, new, Jan. and July, 82⅜; N. Y. State 6s, 1873, 108; Rhode Island 6s, 102½; Alabama 8s, 102; do., 5s, 80; Georgia 7s, 95¼; Ohio 6s, 1886, 105; Louisiana 6s, 76; do., 6s, Levee bonds, 75½; Brooklyn 6s, W. L., 95; N. Y. Alexandria and Fredericksburg Railroad.

A letter to the Baltimore *Sun* dated Richmond, June 4, says: "The Alexandria and Fredericksburg Railroad Company achieved a signal triumph yesterday over the Potomac Railroad Company. Its bill continuing its charter, &c., which had already passed the Senate, was passed almost unanimously by the House. The Alexandria and Fredericksburg Railroad Company was chartered by the Alexandria Legislature during the war, but after some progress in the work, suspended operations. In 1867 the Legislature chartered the Potomac Railroad Company to take the place of the Alexandria and Fredericksburg and build the road. By the bill just passed the Alexandria and Fredericksburg Railroad Company is restored to its rights, and the State's claim to a forfeiture of charter is waived. It is said that the road will now be built.

William Butcher Steel Works.

We direct the attention of the Railroad community, and general consumers of Steel, to the advertisement of the "William Butcher Steel Works," who have recently opened an office in this city at 59 John Street. This company have increased their business so rapidly that it has been found necessary to place their Sales Department under one head. The officer in charge of this department, it will be observed, is Mr. William Toothe, who for many years has been identified with another prominent establishment, and who is so well known to the railroad world. We wish this gentleman, and the powerful company he represents, every success in the important enterprise in which they are engaged.

Arkansas Western Railway.

Articles of incorporation have been filed for the Arkansas Western Railway Company, to construct a railroad from some point on the line of the Little Rock and Fort Smith Railroad, near Van Buren, in a northerly direction, through the counties of "Crawford, Washington and Benton, passing through or near Cane Hill, Fayetteville and Bentonville, and intersecting the northern boundary of the state." As soon as the engineers on the Little Rock and Fort Smith Railroad reach Van Buren, they will proceed at once to survey this road. The directors are W. P. Denckla, C. G. Scott, J. H. Haney, A. P. Robinson, Edward Wheeler.

☞ At the annual meeting of the stockholders of the Illinois Central R. R. Co., held at Chicago on the 25th ult., Wilson G. Hunt, Thomas E. Walker, and Jonathan Sturgis were re-elected directors for terms of three years.

☞ The St. Louis, Vandalia, Terre Haute and Indianapolis railroad has been completed, and regular trains will commence running on the 13th inst.

☞ Stephen Kenrick of Franklin, N. H., has been chosen President, and Wm. M. Leonard, of Belmont, N. H., clerk of the Franklin and Portland R. R. Co.

☞ The directors of the Boston and Maine Railroad Company have decided to build at once a double track from Andover to Haverhill.

☞ John H. Tegmeyer, Esq., has been elected Chief Engineer, and Mr. John T. Rigney General Superintendent of the Western Maryland railroad.

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of May, were:

ENTERED FOR CONSUMPTION.

	1869.	1870.
Manufactures of wool	$1,050,661	$1,162,012
" cotton	982,937	1,095,979
" silk	1,519,664	2,030,264
" flax	766,460	811,672
Miscellaneous dry goods	435,411	720,013
Total entered for consump.	$4,755,133	$5,819,940

WITHDRAWN FROM WAREHOUSE.

	1869.	1870.

The imports of foreign dry goods at New York for eleven months from July 1, were:

1864	$78,433,263
1865	44,411,471
1866	130,280,590
1867	99,161,965
1868	73,072,563
1869	88,131,658
1870	91,855,730

The Public Debt Statement.

The following is a recapitulation of the public debt statement May 31, 1870:

DEBT BEARING COIN INTEREST.

Five per cent. bonds	$221,589,300 00
Six per cent. bonds	1,886,353,900 00
Total	$2,107,943,200 00
Accrued interest	42,001,451 14

DEBT BEARING INTEREST IN LAWFUL MONEY.

Three per cent. certificates	$45,540,000 00
Navy Pension fund 3 per cent.	14,000,000 00
Total	$59,540,000 00
Interest	426,193 71
Debt on which interest has ceased since maturity	$3,721,317 35
Interest	$481,030 68

DEBT BEARING NO INTEREST.

Demand and legal tender notes.	$356,107,221 00
Fractional currency	39,508,057 39
Gold certificates of deposit	35,395,800 00
Total	$431,011,078 39
Total amount outstanding	$2,602,215,595 74
Total interest	42,908,675 53
Total debt, principal and interest, to date, including coupons due, and not presented for payment	$2,645,124,271 27

AMOUNT IN TREASURY.

Coin	$106,789,731 85
Currency	14,243,816 87
Sinking fund in United States coin interest bonds, and accrued interest thereon	35,463,228 50
Other United States coin interest bonds purchased, and accrued interest thereon	82,065,122 27
Total	$238,561,899 49
Debt less amount in Treasury	$2,406,562,371 78
Debt less amount in Treasury May 1, 1870	2,420,864,334 35
Decrease of debt during the past month	$14,301,962 57
Decrease of debt since March 1st, 1869	$118,900,888 23

Bonds issued to the Pacific Railroad Companies, interest 6 per cent. payable in lawful money:

	Amount outstanding.	Accrued interest, not yet paid.
Union Pacific	$27,075,000	$676,875 00
Kansas Pacific, late Union Pacific, Eastern division	6,303,000	157,575 00
Sioux City and Pacific	1,628,320	40,708 00
Central Pacific	25,881,000	641,200 78
Central Branch Union Pacific—assignees of Atchison and Pike's Peak	1,600,000	40,000 00
Western Pacific	1,970,000	48,116 40
Totals	$64,457,320	$1,604,475 18
Interest paid by United States		$6,879,832 51
Interest repaid by transportation of mails, etc.		2,094,783 04
Balance of interest paid by United States		4,785,099 47

☞ George S. Richardson has been elected President, and Thomas D. Purnell Secretary and Treasurer of the Worcester (Md.) Railroad Company.

☞ It is expected that work will be commenced at early day on the Little Rock and Helena Railroad.

Journal of Railroad Law.

RAILROAD COMPANIES—SALE OF LAND—WHEN GROSS INADEQUACY OF CONSIDERATION VITIATES CONTRACT.

The facts in the recent case of the Hannibal and St. Joseph Railroad Company *vs.* Brown and Lander (43 Mo. 294) are fully and clearly stated in the following opinion by

WAGNER, J.—It is deemed unnecessary to notice all the questions that have been raised by counsel, as the determination of one point is decisive of the case. Among other things, the petition alleges that at the October term, 1863, of the Linn County Circuit Court, the defendant Brown recovered judgment against the plaintiff for the sum of $105 for his debt and damages, and $39 15 for his costs; and that the plaintiff here, defendant in said suit, took an appeal from the judgment of the Circuit Court to the Supreme Court; and that the Supreme Court, at the February term thereof, 1866, reversed said judgment and declared the same null and void; that the defendant Brown employed and retained defendant Lander as his attorney and counsellor to aid and assist him in the conduct and management of the said cause, and the issuing of execution on said judgment; that on the 14th day of February, 1865, the defendant Lander, in his capacity of attorney and counseller for the defendant Brown, had an execution issued on said judgment by the clerk of the Circuit Court of Linn County, returnable to the April term, 1865, of the Circuit Court; that the execution was on the same day delivered to the Sheriff, and that, on the same day the Sheriff, under the authority and by direction of Lander, pretended to levy execution on eleven thousand four hundred and eighty acres of land belonging to plaintiff, lying in the said county of Linn, which land was of the value of $114,800, and had the same advertised and sold on the 10th day of April, 1865, at which sale Lander became the purchaser of all of said lands for the sum of $35 60, and received a sheriff's deed therefor.

The petition avers a readiness on the part of the plaintiff to pay Lander all the money he expended for said lands, together with costs, and asks that the deed may be set aside and for naught held and esteemed.

There was a general demurrer to the petition, which was sustained in the Circuit Court, and this action was approved in the District Court.

It will not be necessary to decide, in this case, whether the gross inadequacy exhibited by the facts set forth in the petition would, if disconnected and alone, be sufficient to entitle the plaintiff to relief. It may be stated, as a general proposition, that inadequacy of consideration is not of itself a distinct principle of relief in equity. Nevertheless, where the transaction discloses such unconscionableness as shocks the moral sense and outrages the conscience, courts will interfere to promote the ends of justice and defeat the machinations of fraud.

The very fact that upwards of eleven thousand acres of valuable land in one of the best counties in the State was levied on to satisfy an execution of less than one hundred and fifty dollars, is suggestive of the most flagrant abuse of legal process.

But when the judgment in the case of Brown *vs.* The Hannibal and St. Joseph R. R. Co. (37

Mo. 298) was reversed in this Court, all of the proceedings had in pursuance of that judgment were vacated, and the defendant was entitled to be restored to the condition in which it stood previous to the judgment, and to restitution of everything that it had lost and which remained in the hands of the adverse party, his agents, attorneys, or privies. (Gott *vs.* Powell, 41 Mo. 416) Lander was the attorney who gave direction to the whole matter; he was cognizant of all the facts, and is therefore chargeable in the same manner as Brown himself.

The judgment must therefore be reversed and the cause remanded.

ORDINANCES OF THE CENTRAL PARK.

The Board of the Department of Public Parks do ordain as follows:

All persons are forbidden

SECTION 1. To enter or leave the Park except by the gateways.

SEC. 2. To climb or walk upon the wall.

SEC. 3. To turn cattle, horses, goats or swine into the Park.

SEC. 4. To carry firearms, or to throw stones or other missiles within it.

SEC. 5. To cut, break or in any way injure or deface the trees, shrubs, plants, turf or any of the buildings, fences, bridges or other constructions upon the Park.

SEC. 6. Or to converse with, or in any way hinder these engaged in its construction.

SEC. 7. Two pounds are hereby established within the Central Park, for the impounding of horses, cattle, sheep, goats, dogs, swine and geese, and other animals found trespassing upon said Park. All such animals found at large upon the Park may be taken by any person or persons, and driven or carried to one of the said pounds, and may be kept inclosed therein during five days, at the end of which time, if not previously claimed, they may be sold at public auction; provided that two days' previous notice of the sale thereof shall have been conspicuously posted at the pound.

The owner of any animal so impounded by virtue of the ordinances of the Central Park, may redeem the same before the day of sale, by the payment to the Treasurer of the Board as follows:

For each animal other than goats and geese, two dollars, and the expense of keeping.

For each goat, four dollars, and the expense of keeping.

For geese, twenty-five cents each, and the expense of keeping.

The expense of keeping shall be reckoned as follows:

For each horse, dog or head of neat stock, fifty cents per day.

For each goat, swine or sheep, twenty cents per day.

For each goose, five cents per day.

If, within one month after the sale of any impounded animal, their former owner shall appear and claim the same, the Treasurer shall, after deducting the full amount of the charges provided for, pay over to him the proceeds of their sale.

SEC. 8. No animal shall travel on any part of the Central Park, except upon the "ride," or equestrian road, at a rate exceeding seven miles per hour. Persons on horseback shall not travel on the "ride," or equestrian road, at a rate exceeding ten miles per hour.

SEC. 9. No vehicle shall be permitted on the "ride," or equestrian road, the same being devoted exclusively to equestrians; nor shall any vehicle, horse or animal of burden go upon any part of the Central Park except upon the "drive" and other carriage and transverse roads, and upon such places as are appropriated for carriages at rest.

SEC. 10. No animal or vehicle shall be permitted to stand upon the "drive" or carriage roads of the Central Park, or any part thereof, to the obstruction of the way, or to the inconvenience of travel, nor shall any person upon the Central Park solicit or invite passengers.

SEC. 11. No hackney-coach, carriage or other vehicle for hire shall stand upon any part of the Central Park for the purpose of taking in any other passengers or persons than those carried to the Park by said coach, carriage or vehicle.

SEC. 12. No person shall expose any article or thing for sale upon the Central Park, except previously licensed by the Board of the Department of Public Parks, nor shall any hawking or peddling be allowed on the Central Park.

SEC. 13. No omnibus or express wagon, with or without passengers, or any cart, dray, wagon, truck or other vehicle carrying goods, merchandise, manure, soil, or other article, or solely used for the carriage of goods, merchandise, manure, or other articles, shall be allowed to enter any part of the Central Park except upon the transverse roads.

SEC. 14. No threatening, abusive, insulting or indecent language, shall be allowed on the Central Park, whereby a breach of the peace may be occasioned.

SEC. 15. No person shall be allowed to tell fortunes or play at any game of chance at or with any table or instrument of gaming, nor to do any obscene or indecent act whatever on the Central Park.

SEC. 16. In case of an emergency, where life or property are endangered, all persons, if required so to do by the Superintendent or any of his assistants, shall remove from the portion of the Central Park specified by the Superintendent or his assistants, and remain off the same till permission is given to return.

SEC. 17. The Central Park shall be open daily to the public during the months of December, January and February, from 7 o'clock in the morning until 8 o'clock in the evening; during the months of March, April, May, October and November, from 6 o'clock in the morning until 9 o'clock in the evening; and during the months of June, July, August and September, from 5 o'clock in the morning until 11 o'clock in the evening.

SEC. 18. The Superintendent may direct that any of the entrances to the Park be closed at any time, and may, on special occasions, also direct that the Park, or any portion thereof, remain open at other times than those above specified.

SEC. 19. No person other than employes of the Board of the Department of the Public Parks shall enter or remain in the Central Park, except when it is open as above provided.

SEC. 20. No dog shall be allowed upon any portion of the Central Park, unless led by a chain or proper dog-string, not exceeding five feet in length, nor shall any person be allowed to lead any quadruped (except dogs) in the Central Park.

SEC. 21. No person, except in the employ of the Board of the Department of Public Works, shall bring upon the Central Park any tree, shrub, plant or flower, nor any newly plucked branch, or portion of a tree, shrub, plant or flower.

SEC. 22. No person shall bathe, or fish in, or go, or send any animal into any of the waters of the Park, nor disturb any of the fish, water-fowl, or other birds in the Park, nor throw, or place any article or thing in said waters.

SEC. 23. No person shall fire, discharge or set off in the Central Park, any rocket, cracker, torpedo, squib, balloon, snake, chaser, or double header, nor any fire-works or thing under any other name composed of the same or similar material, or of the same or similar character, as the fire-works above specified.

SEC. 24. No person shall place or propel any invalid-chairs or perambulators up any portion of the Central Park, except upon the walks.

SEC. 25. No person shall post or otherwise affix any bill, notice, or other paper, upon any structure or thing within the Central Park, nor upon any of the gates or inclosures thereof.

SEC. 26. No person shall, without the consent of the President of the Board of the Department of Public Parks, play upon any musical instrument within the Central Park, nor shall any person take into or carry or display in the Central Park, any flag, banner, target or transparency.

SEC. 27. No military or target company, or civic or other procession shall be permitted to parade, drill, or perform upon the Central Park, any military or other evolutions or movements.

SEC. 28. No fire-engine, hook and-ladder, cart, hose, truck or other machine on wheels, commonly used for the extinguishing of fire, shall be allowed on any part of the Central Park, except the transverse roads, without the previous consent of the President of the Board of the Department of Public Parks.

SEC. 29. No funeral procession or hearse, or other vehicle or person carrying the body of a deceased person, shall be allowed on any part of the Central Park except upon the transverse roads.

SEC. 30. No person, except in the employ of the Board of the Department of Public Parks, shall light, make, or use any fire upon the Central Park.

SEC. 31. No person on foot shall go upon the grass, lawn, or turf of the Central Park, except when and where the word "common" is posted, indicating that persons are at liberty at that time and place to go on the grass.

SEC. 32. No person arrested in the Central Park for violating any ordinance or any regulation of the Board of the Department of Public Parks shall be conveyed before any Magistrate, nor shall any complaint be entered against any person until they shall have been brought before the Captain of the Central Park Police, or the chief officer in charge, and his approval of making such complaint first obtained by the officer making the arrest.

By order of the Department of Public Parks.

PETER B. SWEENY,
President of the Department of Public Parks.

Dated NEW YORK, May 26, 1870.

Contractor's Notice.

WESTERN MARYLAND RAILROAD CO.,
NO. 160 NORTH CALVERT STREET,
Baltimore, Maryland.

SEALED PROPOSALS, addressed to the President, will be received at this office on or before 12 o'clock M. the 21st day of June, 1870, at which time they will be opened in the presence of the Board of Directors and such persons who may desire to attend.

1st. For the Grading, Bridging, Masonry, &c., on that part of the road between the city of Baltimore and Owings's Mills, ten miles long, for each section separately.

2d. For the Grading, Bridging, Masonry, &c., on that part of the road between Hagerstown and Williamsport, seven miles long, for each section separately.

3d. For the Graduation, Masonry and Bridges, Superstructure of Bridges, Iron Rails, Spikes, Fastenings, Cross-Ties and Tracklaying to fully complete the road and track on each of the above divisions.

4th. For the Graduation, Masonry and Bridges, Superstructure of Bridges, Iron Rails, Spikes, Fastenings, Cross Ties and Tracklaying to fully complete the road and track between Double Pipe Creek and Hagerstown.

5th. For all the work, including Iron Rails, Tracklaying, Cross Ties, &c., required to fully complete the entire line from Baltimore to Williamsport as embraced in the three foregoing divisions.

6th. For Iron Rails per ton of 56 pounds per yard, and Spikes per pound delivered in Baltimore.

The Company reserve the right to reject or accept any or all of the bids, but propose to allot the work to the lowest responsible bidder in accordance with provisions of ordinance No. 11, approved January 26th, 1870.

GEORGE M. BOKEE, President
Western Maryland Railroad Company.

N. B.—Profiles, specifications, quantities, &c., may be seen at the office of the Engineer after Saturday, June 11th.

☞ At the second annual meeting of the Ridgefield and New York Railway Company, at Ridgefield on the 7th inst., it was announced that there had been subscribed $537,000, and 3¼ miles of the road had been graded. E. Burdsall, of Port Chester, was re elected President, and Peter P. Coonen, of Ridgefield, Treasurer. The company have applied to the Legislature for authority to extend the road to Danbury and for an increase of their capital.

☞ General James Tilton, late of Wilmington, Del., has been appointed Chief Engineer of the Queen Annie's and Kent railroad. The board have decided to recommence immediately, and prosecute with vigor the work to its southern terminus at Centreville, Maryland. The company hope to have the road opened for business from Massey's Cross Roads to Sudlersville, a distance of nine miles, during the present month.

☞ The laying of the iron on the Belfast and Moosehead Lake railroad was commenced at Belfast on the 4th inst. It is expected that the road will be completed in three months.

PUBLIC NOTICE IS HEREBY GIVEN BY THE Commissioners of the Sinking Fund of the City of New York that, pursuant to the provisions of the act entitled "An act to authorize the construction of a railroad in One Hundred and Twenty-fifth-street, and in certain other streets and avenues in the City of New York," passed April 28, 1870, they will sell at public auction, in the "Governor's Room" of the City Hall, in said City, on MONDAY, July 18, 1870, at 12 M., to the highest bidder for the same, the right, privilege and franchise to construct, operate by animal power, and use a railroad with a single or double track as hereinafter provided, and to convey passengers thereon for compensation, through, upon and along the following streets or avenues, route or routes, in the City of New York, viz: Commencing on the North or Hudson River, at the foot of One Hundred and Thirtieth-street; thence through and along One Hundred and Thirtieth-street, with a double track, to Manhattan-street; thence through and along Manhattan-street, with a double track, to One Hundred and Twenty-fifth street; thence through and along One Hundred and Twenty-fifth street, with a double track, to the East or Harlem River; also, from One Hundred and Twenty-fifth street, thence through and along the Third-avenue, with a double track to the Harlem Bridge; also, from the Third-avenue, thence through and along One Hundred and Thirtieth-street, with a double track, to the Harlem River; also, from One Hundred and Twenty-fifth street at its intersection with Tenth-avenue; thence northerly, through and along the Tenth-avenue, with a double track to the terminus of said Tenth-avenue, together with the necessary connections, turnouts and switches, for the proper working and accommodation of the said railroad, on the said streets or avenues, route or routes, said road to be completed within two years from the passage of said act, except upon and along Tenth-avenue, and upon and along said avenue as fast as the same shall be opened, graded and paved, from One Hundred and Twenty-fifth street. Such sale will be conducted in the ordinary manner of sales at auction, and the person or corporation who shall offer to pay into the City Treasury the largest sum of money for such right, privilege, or franchise, shall receive from said Commissioners a certificate that he or they is or are entitled to such grant, and are authorized to construct, operate and use the same in accordance with the provisions of the said act; such certificate to be issued on the payment, within ten days, into the City Treasury of the amount of the bid and of the execution of a bond to the Mayor, Aldermen and Commonalty of the City of New York, in the sum of two hundred and fifty thousand dollars, in two good and sufficient sureties, to be approved by the Controller of said City, conditioned that the person or corporation receiving such certificate shall, within two years, finish and complete said road and equip the same with the requisite number of cars and horses, except along Tenth-avenue, as aforesaid; but should he, or they, be restrained or prevented by any legal proceedings from completing and constructing the same, the time for which they are so restrained shall not be deemed or taken to be part of the time within which the same is to be completed. But the Commissioners of the Sinking Fund are authorized and reserve the right to reject any bid, if in their judgment, it is for the interest of the City that they should do so, and offer the franchise for sale again. A copy of the Act of the Legislature under which this sale is to be made, can be procured at the Finance Department.—Dated, New York, June 1, 1870.

A. OAKEY HALL, Mayor.
RICHARD B. CONNOLLY, Controller.
JOHN A. BRADLEY, Chamberlain.
JOHN K. HACKETT, Recorder.
JOHN MOORE, Chairman Finance Committee, Board of Aldermen.
NICHOLAS HAUGHTON, Chairman Finance Committee, Board of Assistant Aldermen,
Commissioners of the Sinking Fund.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

BRADY'S RAILROAD LANTERNS.

The strongest and best in use; are made principally of Malleable Iron. Here lies the secret of their strength, the frame being capable of supporting a weight of Four or Five Hundred Pounds; and yet they are little heavier than ordinary Lanterns. The guards are rivited through the top and bottom flanges, the rings wound with wire where they cross the guards, and the whole frame tinned, uniting each piece with the other, making it the *strongest* Lantern ever offered to the public. RAILROAD MEN *especially* cannot fail to see that it will be economy to purchase these Lanterns, as there is no part that can be broken with ordinary use, except the Globe, which being adjustable, is easily and cheaply replaced with any color and at a small cost; the greater weight being at the bottom, it cannot readily upset. Now used on the following Railroads: New York and New Haven; Hartford and New Haven; Shore Line, Conn.; Providence and Worcester; Boston and Maine; Conn. and Passumpsic Rivers; Fitchburg; Rensselaer and Saratoga; Troy and Boston; Boston and Providence; Boston, Clinton and Fitchburg; Charlotte, Columbia and Augusta; Connecticut River; European and North American; Hartford, Providence and Fishkill; Mobile and Ohio; Portland and Kennebec; Boston, Hartford and Erie; Worcester and Nashua; Lake Superior and Miss.; Hudson River, and many others.

The trade supplied from our Store, or from the Factory, New Britain, Conn,

Car Builders Convention.

The fourth annual convention of Master Car Builders of the United States, was held last week in this city at the St. Nicholas Hotel. The object of the convention was the promotion of the particular branch of industry with which its members are identified, by discussion and the interchange of opinions, and was attended by very satisfactory results. Delegates were present from all sections of the country, representing some seventy or eighty railroads. The convention was organized on Wednesday, 8th inst., by appointing F. D. Adams of the Boston and Albany Railroad, President, Hugh Grey, of the Chicago and Northwestern Railway, Vice-President, Aaron Steinbach, of the Philadelphia and Reading Railroad, Treasurer, and Leander Garey, of the New York and Harlem Railroad, Secretary.

On Wednesday evening the members of the convention availed themselves of the invitation of Col. James Fisk, Jr., who with his characteristic liberality, had provided them with tickets of admission to his Grand Opera House to witness the play of the "Twelve Temptations."

At 2 o'clock on Thursday afternoon the convention adjourned to accept the invitation of Messrs. L. G. TILLOTSON & Co., for an excursion on the bay and river in the steamer "James Fisk Jr." The trip proved a very agreeable one, every thing being provided by their entertainers in the way of refreshments calculated to nourish the inner man. A band of music was also on board, and contributed to the pleasure of the occasion. Salutes were fired by the monitor *Miantanomah* and the North German and French frigates now lying in the river.

Returning from the excursion, the members of the convention were entertained in the evening at the St. Nicholas Hotel, by a complimentary banquet given by a number of manufacturers and railway supply dealers of this city. The arrangements were in all respects as complete as could be desired, and reflected credit upon all who were instrumental in getting it up. The table was bountifully furnished with every luxury the palate could crave, and the decorations were exceedingly tasteful and appropriate to the occasion. Nearly three hundred guests were in attendance. MR. L. G. TILLOTSON, chairman of the Banquet Committee presided. The evening was passed in the lively interchange of social amenities in which all participated with a heartiness and zest which testified to the enjoyment of all present, and the mutual appreciation of both guests and entertainers. Speeches succeeded each other in rapid succession, lively, sententious, and apropos to a convivial occasion which brought together such a large number from points so wide asunder, and identified with a branch of industry so important to the great railway system of the country.

On Friday morning, the convention having accepted the invitation of Messrs. VOSE, DINSMORE & Co., the well known manufacturers of car springs, for an excursion to Central Park and Manhattanville, took carriages at the St. Nicholas Hotel and proceeded to those places. After passing through the Park and enjoying its manifold attractions, which at this season of the year are unrivaled in picturesqueness and beauty, the excursionists soon reached the manufactory of Messrs. VOSE, DINSMORE & Co., called the "*National Spring Works*," centrally located in the suburb of Manhattanville, some eight miles from the City Hall, near the banks of the Hudson. Alighting from their carriages, the party, numbering over a hundred, were conducted through the various departments of the Factory and witnessed the processes of manufacturing the rubber and steel springs. Many of these were exceedingly interesting and complicated; the machinery being in operation, MR. VOSE explained to his guests whatever seemed to require explanation, particularly the manipulations the crude india rubber had to undergo before being transformed into a car spring.

After a satisfactory survey of the works, the party assembled in one of the work shops, where a bountiful collation was provided, and to which ample justice was done. Hilarity, good cheer, song, sentiment and mutual civilities ruled the hour. The party then returned by way of the Park to the St. Nicholas, highly gratified with the trip, notwithstanding the unfavorable weather abated somewhat from its enjoyment.

In all respects the meeting of the convention in this city proved a decided success in regard both to the numbers in attendance and the spirit and feeling which characterized it.

Settlement of the Steel Difficulty.

Since the 16th of May, Judge John T. Hogeboom, United States General Appraiser, assisted by Mr. Abram S. Hewitt, of the firm of Cooper, Hewitt & Co., the merchant appraiser appointed by Collector Grinnell, has been engaged in investigating the appeals of the Sheffield steel importers against the advance of their invoice prices by the United States local appraisers, and the result is that the judges have this day (Wednesday) given a decision sustaining the importers in their prices. Mr. W. B. Farwell was counsel for the Government, Messrs. Sanderson, Bros. & Co. were represented by Mr. Grosvenor P. Lowrey; Messrs. J. and Riley Carr, and William Jessop & Sons, by Mr. Fay; and Messrs. Francis Hobson & Son, by Mr. Ethan Allen. We understand that the action of this court is final, and suppose that this may be taken as the settlement of this vexed question, and an exculpation of our importers from the charge of fraud. The character of Mr. Hewitt, who, by the way, is interested in the manufacture of both steel and iron in this country, ought to be a sufficient guarantee of the fairness of the verdict.—*Iron Age.*

Canton Company.

The annual meeting of the stockholders of this company was held in Baltimore on the 2d inst. The President, Charles J. Baker, Esq., submitted his annual report. After speaking in appropriate terms of the late William Harrison, who for the past thirty years had mainly managed the property of the company, lying mostly in the eastern extremity of the city, he refers to the improvements at Canton and its vicinity. The property of the company has greatly increased in value, and the prospects are flattering for a still further increase. The character of the company's property for building and manufacturing purposes and the advantages of its water front for shipping are referred to. There is a depth of water sufficient for the largest vessels, and extending more than one-half the length of the whole harbor, which, it is surmised in the report, will, in the course of a few years, lead to improvements greater and more extensive than any heretofore contemplated in Baltimore.

The cost of the improvements which have been steadily going on during the past year was paid entirely out of the resources of the company, and the increased value of the property, it is believed, will more than compensate for the non-payment of dividends. Under authority of law the company has bought and cancelled 5,700 shares of its stock, and the number outstanding at the present time is 44,300. The capital stock remains the same, $812,500.

This capital stock is represented by wharf property, water front, building lots, lands, &c. From Washington street, within the city, to the foot of Eighth avenue, there are 5,000 feet of valuable water front, and many large and substantially built wharves, the water lots binding on Boston and Clinton streets, and vary in depth from 200 to 700 feet to the port warden's line, where the water is from 18 to 21 feet deep. Then there are some 10,500 feet of water front east of Eighth avenue, on the Patapsco river, including the water front on Colgate's creek. In addition, the company owns some 300 feet of water front on Harris's creek, near the Abbott Iron Company's works, making in all nearly 16,000 feet, or over three miles of water front.

The company now owns in round numbers 12,500 building lots, laid out 20 by 100 feet, and many of them binding on streets graded and paved, with water and gas convenient, part within the city limits and part in Baltimore county, on shelled roads or paved streets. The company also own 1,034 acres of improved and unimproved land, much of it binding on the Philadelphia, Wilmington and Baltimore railroad. There are also belonging to the company 46 dwellings and 4 warehouses, valued at $90,000, and annuities amounting to $308,945 87. Many of the leases of the water fronts are for short terms (three to ten years), and at their expiration the property, it is supposed, will have enhanced in value.

The report refers to the fact that for several years past it has been evident that a railroad terminus at tide-water is needed on the eastern side of the harbor, at a point having ample wharf room for coal, iron and other products of this State, Pennsylvania and the great West, and adds: "Canton, it is conceded by all, having the water front of over one-half the length of the harbor, and being situated at the head of deep tide-water, is the point at which this terminus must be made." The Union railroad, chartered in 1866, was intended to meet the necessities of the increased trade in coal, iron, &c.; and to promote this object, and hasten the completion of the road, the Canton Company subscribed for five hundred shares of the stock. [The difficulties attending the work, and its temporary abandonment, are fully referred to, with which the reader is familiar.] After considerable delay the charter of the Union Railroad Company was amended at the recent session of the Legislature of Maryland, and an ordinance in accordance therewith passed the city council, by which the Union Railroad Company will be enabled to resume work and complete a road that will meet the wants of the different railroads and advance the interests of the City of Baltimore, and at the same time develop and greatly enhance the property of the Canton Company.

The Union railroad as now proposed, will make a circuit of the northern and eastern part of the city, touching Canton at its extreme northern boundary and running over two miles through the middle of the property of the company. By reason of the two tunnels this route will cost about two millions of dollars, but the almost certainty (says the report) that the road will pay from the time of its completion will enable the company to raise the amount without serious difficulty. This road, while promoting its own, will at the same time serve the interests of the Western Maryland and Northern Central and all the western connections of the Pennsylvania railroad, and also protect the interests of the city. It will afford to the Baltimore and Ohio Railroad the only steam connection with the Philadelphia, Wilmington and Baltimore railroad, and with the New York roads, and the completion of the Potomac railroad, with its northern and southern connections, will, it is thought, make the Union railroad through the city indispensable.

In view of the building of the Union railroad to Canton, the President and directors are of opinion that the policy of the company would be to cut a ship canal from Gorsuch creek to the northwest branch of the harbor. A canal of from 60 to 80 feet wide can be made at a cost of $30,000, and would give the Canton Company entire control of 2,300 or more feet of valuable additional water front. It would offer a free and easy passage to vessels of 300 tons and less to and from the wharves which could be built on Gorsuch creek. "In view of these improvements," the report adds, "negotiations have already been proposed looking to a steamship line from this port to Liverpool and Havre, three fourths of the cost of either line being proffered on the other side."

During the past year fourteen dwellings were erected on the grounds of the company, at a cost of about $12,848 47. A new wharf, costing $2,200, has also been erected at the foot of Eighth avenue, the wharf being 75 feet front by 175 feet. New ground rents, yielding $1,405 per annum, have been created within the year, equal to $28,425, making the total value of annuities owned by the company $308,945 87. The report was adopted.

The following board of directors was elected to serve during the ensuing year: Charles J. Baker, George S. Brown, Charles E. Waters, Chas. Weber and Wm. Kimmel, of Baltimore, and Abm. B. Baylis, James H. Banker, Walter R. Cutting and John Steward, of New York.

A Railroad Decision.

The Supreme Court of Wisconsin has made the following decision:

Sauerherring *vs.* Maysville and Iron Ridge R. R. Co. *et. al.*

1. A tax payer of a town that has issued its bonds for the stock of a railroad company, cannot have them declared void, or their delivery to *de facto* officers of the company restrained, on the ground that such officers were not legally elected.

2. Where a statute requires notice of a town meeting to be posted in "three of the most public places in the town," if they were posted in three public places, the officers charged with the duty acting fairly according to his best judgment, the court will not inquire whether the places selected were in fact the most public.

3. An averment, therefore, that the notice "was not posted at three of the most public places, but only at one of such places," is insufficient.

4. Equity will not cancel the bonds of a town, at the instance of a tax payer, for a mere technical irregularity in calling the town meeting which directed their issue; but will leave the parties to their legal rights.

Housatonic Railroad.

The receipts from operations of this road for the years ending December 31, 1868 and 1869, were as follows:

	1868.	1869.
From freight	$349,568 56	$420,053 14

Paid United States tax 5 per cent.	2,484 21	
		49,684 21
Surplus of 1869		$51,295 66
Add surplus, December 31, 1868.		101,961 77
Total amount at credit of profit and loss, Dec. 31, 1869		$153,257 43

The company have 18 engines, 1 twelve-wheel, 11 eight-wheel and 3 four wheel passenger cars, 6 baggage, 94 box, 164 flat, and 9 cattle cars. The report says:

It will be seen that the receipts are largely in excess of last, or any former year, notwithstanding the reduction in rates on the first of July.

In the receipts item $50,996, $50,800 was on stock of the Bridgeport Steamboat Company, $40,000 being in bonds, $31,000 of which have been transferred to the sinking fund, the balance being three cash dividends of three per cent. each on same stock, and $196 on the preferred stock of this company. And by reference to the table of comparative revenue, it will appear that excluding the amount of bonds received and including the cash dividends (from which source there was

no revenue last year), that our receipts are $121,824 79 in excess of those of 1868.

The operating expenses are not heavier in proportion, than the increased business and receipts of the road, when we deduct the extraordinary expenses which are enumerated, as nearly as possible, in the annexed Schedule, embracing cost of building five new bridges, and the rebuilding of three others, the additional rolling stock, &c., &c., and amount paid for damages chargeable to former years.

The item $28,906 18, charged to profit and loss, embraces a variety of accounts, heretofore considered as assets, but not available, some of twenty years standing.

It is hardly necessary to inform you that two dividends of $4 per share each, on the preferred stock of this company, have been declared out of the earnings of the past year, one of which was paid July 1st, 1869, the other will become due and payable January 3d, 1870. There is no reason why they should not be continued and the road improved, should there be no falling off of the business.

None of the bonds authorized and issued August 1, 1869, of $100,000, have been availed of, and will not be unless it should be deemed actually necessary.

The sum of $8,033 33 has been paid for additional depot land in the city of Bridgeport, since last report, and charged to real estate.

Superintendent.—H. W. FRANKLIN.

☞ The Central Ohio Railroad Company (as reorganized) has declared a dividend of three per cent. on the preferred stock of the company, reserving Government tax on the same; also, a dividend of one per cent. upon the common stock, free of Government tax—all payable at the Western National Bank of Baltimore on and after 20th June, 1870.

North Pennsylvania Railroad.

The earnings of this road in the fiscal years ending October 31, 1868 and 1869, were:

	1868.	1869.
From passengers	$369,972 64	$389,879 53
" coal	228,136 51	137,258 42
" pig iron	35,248 71	51,637 95
" through lumber	21,695 86	27,981 33
" local freight	238,939 84	261,410 70
" through freight	110,771 42	141,779 21
" mails	3,215 00	4,800 00
" rents	7,414 81	8,484 00
Totals	$1,015,394 29	$1,132,731 14
Expenses, viz:		
Maintenance of way	$160,606 95	$194,009 66
Motive power	155,081 25	169,564 30
Maintenance of cars	74,892 82	69,687 37
Conducting transp	157,566 10	178,151 52
General expenses	29,315 76	33,849 46
	$577,462 88	$640,262 31
Net earnings	$437,931 41	$492,468 83
Interest, taxes, etc.	255,138 71	275,769 76
Balance	$182,792 70	$216,699 07

Compared with the previous year, the gross earnings of 1869 show an increase of $17,336 85; with an increase in expenses of $62,799 43—making the increase in net earnings, $54,537 42.

There has been expended within the year on permanent account: for construction, $163,346 40; and for equipment, $166,755 16—total, $330,101 56. The report says;

Out of the profits of the past year, a scrip dividend of five per cent. (convertible into seven per cent. bonds of the Company) has been declared, and will be credited to the stockholders as they shall stand registered on the books of the Company, on the 15th inst.

The real estate account has been increased $214,779 60, by the purchase of additional property required to better accommodate the business of the road.

The construction account has been increased $165,943 24.

The double track was completed between Philadelphia and Abington, and put into use on the first of June, when the summer time-table took effect; additional accommodation trains were then put on the lower end of the road, which greatly facilitated the through travel by relieving the through trains from the very frequent stoppages at the way stations near the city, thus giving increased accommodation to both through and local travel.

The equipment account has been increased $166,755 16, by the addition to the rolling stock, of five first-class locomotive engines, four first class passenger cars, and one hundred and ten freight cars.

The Pennsylvania and New York Canal and Railroad Company opened their road between Wilkesbarre and Waverly, for passenger travel, on the sixth of September, since which time passengers have been ticketed and carried through between Philadelphia and Waverly without change of cars, via the Lehigh Valley Railroad; a freight line has also been established between the same points.

Passengers and freight are also carried in connection with the Lehigh and Susquehanna Railroad, between Philadelphia and all points with which the road connects.

The Philadelphia, Germantown and Norristown Railroad Company are now constructing a road between Conshohocken and the road of this Company, connecting south of Sandy Run, which they expect to have completed and put in use the early part of the coming summer.

The Company have 29 locomotives. Miles run with passenger trains, 263,527; with freight trains, 196,616—total, 460,143. Number of passengers carried, 771,984; do. carried one mile, 18,942,282, equal to 258,189 through passengers Rate per mile per passenger, 2.80 cents. Tons of freight moved one mile, 20,252,516, producing per ton per mile, 3.72 cents.

Atlantic and Great Western Railway.

The following scheme for the reorganization of this company was issued by the London Agency on the 20th of May. A London telegram, dated June 11th, informs us that the plan has been assented to by the stockholders, votes representing more than one-half the stock having been cast in favor of the measure:

Foreclosure, under the consolidated mortgage, to be prosecuted, and decrees for sale obtained, and the railway, with its rolling stock, leases, franchises, &c., sold; and to be bought by General George B. McClellan, William Butler Duncan, Esq. (Messrs. Duncan, Sherman, and Co.), and the Hon. Allen G. Thurman (United States senator from Ohio), as trustees and agents for the purchase of the property on behalf of the creditors, and for its reorganization under the scheme herewith. The trustees to organize a new company, under the title of "The Atlantic and Great Western Railroad Company." During the time required to complete the reorganization the trustees may appoint managers to conduct the affairs of the railroad, and appoint a provisional board of directors until the board of the new company is regularly elected. The trustees to cause to be executed new mortgages, as hereinafter mentioned, to a trust company in America, and to have all the new securities prepared and forwarded to their agents in London for issue, in accordance with this scheme and agreement. All existing bonds, coupons, certificates of debenture and indebtedness, shares, and other securities, to be lodged, if required, with the agents of the trustees in England, who are to give certificates acknowledging the receipt of the securities, to be held for the purposes of this scheme. Application will be made to the Stock Exchange to recognize these certificates, to be dealt in as representing the original documents, pending their exchange into the new securities when ready for issue,

Holders of divisional bonds who may prefer to retain them until the new bonds are ready for issue, may do so, but all overdue coupons up to and including 1st July, 1870, should be deposited with the bankers on signing the contract, and assent, and the bonds stamped to that effect. Scrip for the new securities will be issued in exchange for the bankers' receipts as soon as the necessary legal formalities will permit. The trustees to take such legal or other measures as may be found necessary to carry out this scheme. A form of contract and assent to be prepared for signature.

The new securities are to be issued in the following order:

1. First general mortgage bonds for $10,500,000, or such amount as may be required for the purposes hereinafter mentioned, secured by a first mortgage of the whole line of road, franchises, rolling stock, and property of whatsoever nature or kind. These bonds are to be sterling bonds, bearing interest at the rate of seven per cent. per annum, payable in gold, half yearly, for a term of thirty years, with the option reserved to pay them off at any time after ten years; but a default in payment of two consecutive half-years' coupons shall render the whole of the bond and interest due and payable, and in such an event thirty per cent. of the whole issue of these bonds shall have the absolute power of foreclosure. These bonds are to be exchanged for the present first divisional bonds and overdue coupons thereon. And also for twenty-five per cent. of the certificates of debenture of 1864.

2. Second general mortgage bonds for $7,000,000, or such amount as may be required for the purposes hereinafter mentioned, secured by a second mortgage of the whole line of road, franchises, rolling stock, and property of whatsoever nature or kind. These bonds are to be sterling bonds, bearing interest at the rate of seven per cent. per annum, payable in gold half-yearly, for a term of thirty years, with the same conditions as to the payment of interest and principal and power of foreclosure as are to appertain to the first mortgage bonds. These bonds are to be exchanged for the second divisional bonds and overdue coupons thereon, for twenty-five per cent. further of the certificates of debenture of 1864; and for all coupons due prior to January 17, 1867, heretofore not duly paid.

3. Third general mortgage bonds for $22,500,000, or such amount as may be required for the purposes hereinafter mentioned, secured by a third mortgage on the whole line of road, franchises, rolling stock, and property of whatsoever nature or kind. These bonds are to be sterling bonds, bearing interest at the rate of 7 per cent. per annum, in gold, payable half-yearly, for a term of 30 years, provided such interest, or any part thereof, be earned during the year, but not to be accumulative. These bonds are to be exchanged for the consolidated bonds, for 25 per cent. of the certificates of debenture of 1864, and for 25 per cent. of the certificates of debenture of 1868.

4. Five per cent. preference shares to be given for the overdue coupons of the consolidated bonds, matured since 17th January, 1867, and for 25 per cent. of the certificates of debenture of 1868.

5. Ordinary shares to be given for 25 per cent. of the certificates of debenture of 1864, and for 50 per cent. of the certificates of debenture of 1868.

The securities of the Atlantic and Great Western railway, after conversion, will be cancelled by the trustees, and the numbers, amounts, and description published at stated periods, but the certificates of debenture of 1864 will be cancelled only when the proportionate amount of collaterals are duly withdrawn from the trust, when both will be cancelled.

The expenses of carrying out this scheme, and of sustaining the organization of the present company, to be provided by the new company, the trustees being authorized to issue and use for these purposes, by hypothecation or otherwise, a *pro rata* amount of each description of bonds.

Synopsis of Arrangement.

1. Under the proposed arrangement the holders of the various first divisional bonds will receive in exchange therefore first mortgage bonds of the new company, secured on the whole line, franchises, and property of the company, for the amount of principal and interest due to them.

2. The second divisional bondholders will receive in like manner second mortgage bonds, secured on the whole line, franchises, and property of the company, for the amount of principal and interest due to them.

3. The holders of certificates of debenture of 1864 will receive in exchange, therefor—

1. Twenty-five per cent. on the nominal amount of the debentures in the first mortgage bonds of the new company.

2. Twenty-five per cent. in second mortgage bonds of the new company. These two amounts being about the amount of divisional bonds and overdue coupons now held in the debenture trust as collateral security.

3. Twenty-five per cent. in the third mortgage bonds of the new company.

4. Twenty-five per cent. in the ordinary shares of the new company.

They will also be entitled to receive a further payment in cash, in the course of the current year, of about 3½ per cent., in addition to 1½ per cent. already paid on account of other securities deposited in trust for them.

4. The consolidated bondholders will receive:

1. Third mortgage bonds of the new company for the amount of principal.

2. Five per cent. preference shares for the overdue coupons.

5. The holders of certificates of debenture of 1868 will receive:

1. Twenty-five per cent. in third mortgage bonds of the new company.

2. Twenty-five per cent. in five per cent. preference shares of the new company.

3. Fifty per cent. in ordinary shares.

All coupons from 17th January, 1867, to 1st July, 1870, to be capitalized, and the interest accruing between the latter date and the issue of the new securities to be paid in cash out of the earnings after the reorganization of the line, according to the provisions contained in this scheme.

The future management of the company in the United States to be vested in not more than nine directors, of whom Gen. George B. McClellan is to be President, and to retain office for three years certain. One-third of the board to retire annually, but to be eligible for re-election. Three trustees, with proper remuneration, to be appointed by the shareholders, who shall exercise the voting power in respect of the shares, under the instruction of the third mortgage bondholders given personally, or by proxy, at a public meeting, to be convened annually in November, until a dividend of not less than five per cent. has been paid on the shares for two years in succession, when the trust will be dissolved and the voting power revert unconditionally to the shareholders. These trustees are also to form a committee to aid in and supervise the proposed conversion of securities, and to give general protection to the interests of all classes of creditors.

Present Indebtedness.

First divisional bonds	$5,700,500	
Overdue coupons say.....	1,197,105	
		$6,897,605
Second divisional bonds...	1,469,300	
Overdue coupons say.....	308,553	
		1,777,853
Consolidated mort. bonds.	*17,593,600	
Overdue coupons say.....	3,694,656	
		21,288,256
Coupons due prior to Jan. 17, 1867...		1,409,196
Total bonds and overdue coupons..		$31,372910
Certificates of debenture of 1864.....		14,000,000
Certificates of debenture of 1868, say..		13,000,000
Total indebtedness.....		$58,372,910

Proposed Capital of New Company:

First general mortgage bonds	$10,500,000
Second " "	7,000,000
	$17,500,000
Total of first and second general mortgage bonds, with coupons for 7 per cent. interest per annum. Requiring a net revenue of $1,225,000.	
Third general mortgage bonds.....	24,843,600
With interest at 7 per cent. in gold, payable if earned within the year, or as much as may be earned within the year.	
Five per cent. preference shares.....	$6,944,656
With interest at 5 per cent. if earned within the year; but should a fourth mortgage be hereafter created, the preference shares are to be included therein.	
Ordinary shares.....	16,211,744
Total proposed capital.....	$65,000,000

* This amount may be increased by 878,400 dollars, in which case it is believed the divisional bonds will be decreased by the same amount.

Pennsylvania Railroad Company.

The aggregate receipts of this company from the operations of its works, including the Philadelphia and Erie Railroad, for the years 1868 and 1869, have been as follows:

	1868.	1869.
Pennsylvania R. R.	$17,238,497 31	$17,250,811 73
Philadelphia & Erie R. R.....	2,804,250 36	3,262,705 29
Pittsb'g, Ft. Wayne & Chicago Railway for six m'ths	.....	4,146,882 22
Total gross earnings.....	$20,087,747 67	$24,660,399 24
Deduct expendit's.	14,748,408 89	19,637,573 64
Net earnings.....	$5,289,338 78	$5,022,825 60

The following exhibits the earnings and expenditures of the Pennsylvania Railroad and branches for the same years:

Earnings:	1868.	1869.
From first class passengers	$3,531,903 94	$3,500,071 06
From emigrant passengers.....	78,244 29	131,065 93
From U. S. mail,..	99,981 25	118,961 91
From express	291,881 21	802,654 54
From freight.....	12,882,165 30	12,932,656 88
Rent of property..	349,321 32	62,226 83
Miscellaneous.....		208,174 58
Gross earnings....	$17,233,497 81	$17,250,811 73
Expenditures for—		
Conducting transp..	$3,609,233 18	$3,503,792 57
Motive power.....	3,361,694 72	3,679,195 15
Maintenance of road	3,268,896 44	3,341,568 10
Maintenance of cars	1,442,785 90	1,464,859 22
General expenses...	178,423 92	218,852 56
Total expenses....	$11,860,983 88	$12,203,267 60
Earnings less exp.	$5,372,513 43	$5,047,544 13

The number of miles of single track in use on the road and branches, including sidings and second tracks at the close of each year was as follows:

	1868.	1869.
Main Line, including sidings	875.57	881.70
Branches owned	52.00	64.50
" leased	204.49	226.50
Private sidings and branches	47.12	42.50
Total length in miles..	1,279.48	1,205 20

The single track on the Main line is now limited to the following sections, viz: At Susquehanna Bridge, Rockville, 1 mile 559 feet; at Manayunk Bridge, 1,184 feet; at Mount Union Bridge, 1,222 feet—total, 1 mile 2,965 feet.

The number of locomotives on the road at the commencement of the years 1868 and 1869, was..... 415 434
And at its termination..... 434 477

The mileage of engines in each year, was as follows:

	1868.	1869.
Passenger engine mileage	2,051,625	2,302,968
Freight "	6,355,865	6,904,888
Distributing "	285,838	366,776
Total mileage	8,693,328	9,574,632

The number of cars on the road at the end of each year was as follows:

	1868.	1869.
Passenger, baggage and express	325	346
Freight and coal,	6,208	7,011
Other cars (in maintenance department)	677	750
Individual cars	2,811	2,798
Total	10,021	11,905

The number and mileage of passengers carried was as follows:

	1868.	1869.
Passengers	3,747,178	4,229,863
Miles traveled	133,174,706	144,728,652

The tons of freight and the miles each ton was carried, was follows:

	1868.	1869.
Merchandise	2,362,885	2,662,667
Coal	2,065,049	2,329,358
Fuel and material	294,181	410,966
Total (tons)	4,722,015	4,402,991
Total tonnage moved one mile	675,775,560	752,711,312

The shipments of oil during the year amounted to 627,473 bbls., against 756,169 bbls. in 1868—a decrease of 128,696 bbls., or 17 per cent.

PHILADELPHIA AND ERIE RAILROAD.

The earnings of the Philadelphia and Erie Railroad for the years 1868 and 1869, compare as follows:

	1868.	1869.
From passengers	$631,437 59	$672,964 46
" freight	2,101,613 98	2,507,082 93
" express matter	30,954 33	31,327 51
" mails	21,518 04	24,616 67
" miscel. sources	18,726 42	26,713 72
Total earnings	$2,804,250 36	$3,262,705 29

The operating expenses for the same years were:

Transportation	$610,774 32	$671,606 07
Motive power	677,028 49	749,641 82
Maintenance of way	600,284 40	733,415 17
" cars	178,913 85	213,546 07
Total operating exp.	$2,067,001 06	$2,368,209 13
To which add thirty per cent. due on lease to meet interest on bonds, etc	820,423 95	956,009 12
	$2,887,425 01	$3,324,218 25
Loss on operation	$83,174 65	$61,512 96

PITTSBURG FT. WAYNE AND CHICAGO RAILWAY.

The earnings of the Pittsburg, Fort Wayne and Chicago Railway under its lease to this company, for the six months ending December 31st, 1869, were..... $4,146,882 22
And the expenses during the same period were..... 2,826,095 92
Balance..... $1,320,786 30
The semi-annual rent, with the interest on the bonds of the company, expenses of maintaining the organization, contribution to sinking fund, &c., &c., amounted to..... 1,283,991 87
Showing a profit in the operation under the lease of..... $36,794 43

GENERAL ACCOUNT.

The General Account, showing the financial condition of the company December, 1868 and 1869, presents the following balances:

	1868.	1869.
Capital stock	$27,040,762 50	$33,493,112 50
Funded debt, viz:		
1st mort. 6 per ct. due in 1880	4,972,000 00	4,972,000 00
2d mort. 6 per cent. due in 1875	4,877,840 00	4,866,840 00
General mort. 6 per ct. due in 1910	1,545,000 00	6,826,500 00
Bonds due State 5 per cent	6,232,754 93	6,082,538 14
Mortgages and ground rents	117,809 32	102,809 32
Short bonds, 6 per ct. due in 1871	3,520,728 00	1,114,224 00
Total capital and debt	$48,306,894 75	$57,458,028 96
Bills and accounts payable	3,361,367 50	5,573,323 10
Contingent fund	1,606,250 00	1,000,000 00
Balance	869,232 62	998,955 46
Total debit side	$54,143,744 87	$65,030,302 52
Cost of road and appurtenances	$13,568,629 75	$14,087,741 13
Philadelphia and Columbia R. R.	5,375,733 43	5,375,733 43
Equipment	4,476,849 98	6,182,448 17
Real estate and telegraph line	3,978,657 98	4,271,506 88
Extension of road to the Monongahela & Delaware Rivers	3,366,561 51	2,475,437 10
Total	$29,761,582 65	$32,392,866 71
Harrisburg & Lancaster Railroad stock	732,950 00	768,250 00
Connecting Railway stock	1,277,350 00	1,277,350 00
Pennsylvania canal stock	1,101,155 00	1,101,156 00
Stock and bonds upon the line of railway between Pittsburg & Columbus	5,633,450 00	7,676,695 31
Philadelphia & Erie R. R. stock	779,637 26	779,637 26
Other bonds and stocks of municipal and railroad companies	1,283,433 34	6,019,221 01
Bills and accounts receivable	6,613,527 20	8,086,147 79
Bonds and stocks in sinking fund	2,301,429 99	2,433,432 85
Fuel and materials on hand	1,409,829 86	1,899,428 49
Advanced to Philadphia & Erie R.R.	790,721 72	946,191 50
Balance in hands of agents and treasurer	2,458,728 66	1,650,926 10
Total credit side	$54,143,744 87	$65,030,302 52

The following summary exhibits the condition of the capital account for the past fifteen years embracing the whole period since the completion of the line:

	Share Capital.	Bonds and Mortgages.	Total Amount.	Cost of Property.
	$	$	$	$
1855.	12,355,525	7,519,096	19,874,621	18,483,489
1856.	12,646,625	8,516,841	21,163,466	19,048,968
1857.	13,206,625	14,929,940	28,136,565	27,266,981
1858.	13,240,225	16,094,451	29.334,676	27,670,672
1859.	13,349,125	16,469,159	29,818,284	28,484,321
1860.	13,261,960	16,680,804	29,942,764	28,846,442
1861.	13,264,100	16,936,764	30,200,864	29,587,678
1862.	13,274,100	15,696,764	29,970,864	29.888,552
1863.	13,480,250	16,949,124	30,379,374	30,592,298
1864.	19,896,060	16,802,124	36,698,184	31,024,891
1865.	20,000 000	16,750,124	36,750,124	31,809,334
1866.	20,000,000	18,209,040	38,209,040	29,013,854

1866.	16,583,883	12,790,909	3,792,974	9
1867.	16,340,156	12,080,299	4,259,857	6
1868.	17,238,497	11,860,984	5,372,513	8
1869.	17,250,812	12,203,268	5,047,544	10

Stock dividends, May, 1864, 30 per ct.; May, 1867, 5 per ct.; and May 1868, 5 per ct.

The company entered on possession of the Philadelphia and Erie Railroad on the 1st of February, 1862, since which date the earnings and expenses thereof has been as follows:

	Gross Earnings.	Operating and Repairs.	Earnings less Expenses.	30 per ct. of Gross Earn'gs.†
1862*.	$425,687	$226,647	$199,040	$122,697
1863.	725,670	336,596	389,074	218,301
1864.	1,131,148	838,594	292,554	335,709
1865.	2,074,140	1,746,052	328,088	598,708
1866.	2,541,052	2,086,975	454,077	732,789
1867.	2,333,760	2,010,873	322,887	677,239
1868.	2,804,250	2,067,001	737,249	820,424
1869.	3,262,705	2,368,209	894,496	956,009

* 11 months.

† This amount (after all drawbacks) is set apart under the lease to pay interest on the bonds of the Philadelphia and Erie Railroad Company.

☞ The Ogdensburg and Lake Champlain Railroad has declared a dividend of 3½ per cent. The contract with the other roads is 6 per cent. for three years, 7 per cent. for three years and 8 per cent. for fourteen years. The extra 1 per cent. is made from the surplus, wich is sufficient to enable them to pay the extra 1 per cent. for three years, making it a 7 per cent. stock for the six first years.

☞ The Michigan Lake Shore Railroad have their iron laid to within four miles of Holland and expect to reach Grand Haven by the fourth of July.

☞ The White Mountains Railroad was opened to the village of Whitefield on the 1st inst.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, June 18, 1870.

Stock Exchange and Money Market.

The Money market has been quite easy for responsible borrowers all through the week at from 3@5 per cent. on call, and 5@7½ per cent. per annum in the discount line. The offerings of money, particularly on private account, have been largely in excess of the demand, which, though fairly active, has not been urgent at the ruling figures. The city banks, in their last weekly statement, showed a loss of 5½ millions of deposits, 2½ millions of specie, and about 1⅛ millions of legal tender notes. The loan and discount averages were reduced some three millions. The currency balance of the U. S. Sub Treasury at this port was increased over two millions, and the specie reserve was also slightly augmented.

The specie reserve of the city banks according to the latest return is $28,523,819, against $19,053,580 same time last year. The city bank deposits are now $220,699,290, against $193,886,905 week ending June 12, 1869. The legal tender reserve amounts to $60,159,170, against $50,859,258 same time last year. The circulation now stands at $33,142,188, against $24,144,790 same time last year. The loans are now $276,419,576, against $271,983,735 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged about $95,355,343 a day, against a daily average of $85,575,445 the preceding week, and $96,104,000 the week ending with May 28, 1870. The current weeks' exchanges average about 97¼ millions a day. The city banks, last week, reported a loss of $2,425,671 of specie, $5,492,507 of deposits, and $1,131,140 of legal tender notes. They reduced their loans, $3,066,158; and their circulation, $142,895.

The city bank exchanges on Wednesday were about 81 millions.

National Bank notes to the amount of $281,770 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $325,093,166, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $25,489,104, leaving, with the existing 1,614 banks, (having an aggregate capital of $427,004,247,) an actual circulation at this date, of $299,504,062. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,224,550; and for the public deposits, $16,334,000—making a total of $358,558,550. The Treasury Department last week redeemed and destroyed $585,900 of worn and mutilated fractional currency, and issued $378,755 of new.

The U. S. Sub-Treasury receipts, week ending with June 11, were $3,026,581 in coin, (including $2,432,000 from customs duties,) and $5,020,104 in currency; payments, $2,831,333 in coin, (including $481,029 of coin interest,) and $2,927,220 in currency; balance at the close of the week, $87,923,661 (including $75,523,514, of coin, and $11,010,645 of currency,) against $87,634,564 at the close of the preceding week, showing an increase of $289,097. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $558,768 in coin, (including $385,419 from customs,) and $1,042,752 in currency; payments, $89,024 in coin, (including $81,000 of coin interest,) and $303,623 in currency. On Tuesday, receipts, $460,054 in coin (including $372,439 from customs), and $620,224 in currency; payments, $61,858 in coin (including $58,000 of coin interest) and $2,250,345 of currency. The balance at the close of business on Tuesday stood at $87,747,582, (including $10,119,650 of currency, and $76,391,455 of coin,) against $88,166,814 a week previous; and $84,540,121 on May 28, 1870. The aggregate receipts of the office in May were $63,496,243, including $11,985,468 from customs; aggregate payments, $67,207,341 including $16,919,624 of coin interest; balance at the close of the month, $84,520,151, against $88,231,250 at the close of April.

The U. S. Sub-Treasurer issued in May $5,409,500 of coin certificates.

The U. S. Sub Treasurer retired, last week, $2,113,291 of coin certificates, received for customs.

The U. S. Sub-Treasury general balance on Thursday morning was $87,570,287.

Government revenues yielded quite liberally, particularly in the excise form, during the week,

The excises, during the week yielded $5,620,085; customs at the port of New York, $2,318,291, and at the outports about $750,000 (in coin) more, making the grand totali ncome for the week equal to about $9,071,912 in currency. The receipts from excises, thus far in the current fiscal year, commencing with July 1, 1869, have been $170,-102,027.

Gold has been in less active request, even on speculative account, at from 113¾ down to 112⅝. The available supply has been more liberal, while the demand has been less confident. The export drain has been on a reduced scale. The specie shipments last week were only $843,824. On Wednesday of the current week, there were $159,-000 exported. Government marketed a million of Gold on Wednesday at 112 90. The bids reached an aggregate of $2,650,000. The award was made to a single firm at the rate named. Subsequently in the open market, the dealings showed some increase of activity and firmness, the price advancing to 113¼@113⅜, closing at 113¼.

The coin balance of the Treasury Department on Monday was $108,284,421, including $34,671,-000 on private deposit; currency balance, $20,-713,994.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $77,010,997.

The customs demand for Gold last week, averaged $405,334 a day; thus far, this week, it has averaged $378,929 a day, or equal to a weekly aggregate of $2,273,574. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $1,417; and since Jan. 1, 1870, $6,988,507, against $8,862,650 same time in 1869. The total customs revenue of the Government, in coin, at this port, thus far in the current fiscal year, commencing with July 1, 1869, has been $128,463,797 against $119,731,817, in 1868–'69.

The customs revenue of the port on Wednesday was $452,000.

The customs revenue at the port of San Francisco, from Jan. 1 to June 5th, was $3,107,000, against $2,931,000 same time last year.

The exports of specie, from this port, last week, were $843,824 against $403,024 same week last year; total, since July 1, 1869, $30,952,660, against $35,992,751 same time preceding fiscal year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $481,029, and since July 1, 1869, $85,671,417 against $86,731,172 in 1868–'69.

The specie exports from San Francisco, from Jan. 1 to June 5, were $15,371,000, against $15,-115,000 same time last year.

The actual coin interest payments of the Sub-Treasury on Wednesday were $32,785.

Foreign Exchange has been in fairly active request, closing strong strong and buoyant. Cotton bills have been less plenty. Grain bills have been in better supply, as the result of the recent unusually heavy export purchases of wheat, chiefly for the French market. Bankers' sixty day bills on London closed on Wednesday at 109⅝@109⅞, and on Paris to 5.20c.@5.15; sight bills on London to 110⅛@110⅜, and on Paris to 5.14½c.@5.12½. The offerings of produce bills have been fair since our last. The week's exports of domestic produce have been to the currency value of $3,827,-468, making the total since July 1, 1869, $191,221,-145, against $159,401,393 same time preceding fiscal year.

Government securities have been offered rather moderately at the going rates, which show a slight decline leading to a fair trade in the favorite six per cents. Toward the close, the Washington telegrams were of a more assuring tenor, as to the prospects of the financial projects pending in Congress. Hence, the demand for the public funds, as well as for Gold, became somewhat brisker, the market closing rather bouyantly, on a slight improvement in current values.

U. S. sixes of 1881 closed here at 118⅛@118⅜; U. S. Five-twenties of 1862, 112⅛@112¼; U. S. Five-twenties of 1864 at 111⅜@111½; U. S. Five-twenties of 1865 at 111⅜@111⅝; U.S. Five-twenties of 1865 consolidated, 113¾@113⅞; U. S. Five-twenties of 1867, 113⅞@114; U. S. Five-twenties of 1868, 113⅞@114; U. S. Ten-forties at 108⅜@108½; U. S. Six per cent. currency bonds, 114¼@114½.

State bonds have been in quite active demand at the advanced ruling prices.

Railway bonds have been in more request, including Central Pacific Sixes, which closed at 93@93¼. Union Pacific Sixes at 87@87½.

Railway and miscellaneous share property has been quite moderately dealt in, but quoted, in the main firm.

At Frankfort on Wednesday U. S. Five Twenties closed at 96⅛.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	May 26.	June 8.	June 15.

* Ex dividend.

An unusually active business has been reported in Breadstuffs at advanced prices for Flour and Wheat, which have been most sought after, largely for shipment to Havre. Cotton has been dull and lower. Provisions quiet, but held with firmness. Petroleum has been in fair demand at about steady rates. Middling upland cotton closed heavily on Wednesday at 21¾ cts. per lb. The stock of cotton now here is given at about 47,-500 bales. The receipts at the port this week, have averaged about 1,900 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,751,752 bales, against 2,001,671 bales in 1868–'9; exports, same time 2,010,023 bales, against 1,393,261 bales same time in 1868–'9; stock on hand at latest dates, 244,600 bales, against 112,650 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 6,974 pkgs., against 12,937 pkgs., same time in 1869. From Boston, 1,555 pkgs. in 1870, against 4,056 pkgs. same time in 1869.

At the Live Stock markets, this week, Beeves have been in fair demand at from 13@17½c. per lb.; week's receipts, 6,444. Milch cows have been very quiet, at $40@$100 each, receipts, 66. Veal calves have been moderately active at from 6@10½c. per lb.; receipts, 3,298. Sheep have been in less request at from 4@8c.; lambs at 8@13c. per lb.; receipts, 21,603. Swine dull at 9½@10c. per lb., all live weight; receipts, 13,816.

Foreign goods have been in moderate request at generally fairly supported rates.

The ocean freight market has shown much more animation in the line of Breadstuff and Petroleum engagements, mainly for French and German ports, at firmer rates. For Liverpool we we quote flour at 1s. 6d. by sail, and 1s. 9d. by steamer, per bbl.; grain at 5@5¼d. by sail, and 5¼@5½d. by steamer, per bushel; cotton at ⅛d.@$\frac{3}{16}$d. by sail and ¼d. by steamer per lb.; and heavy goods 12s. 6d.@25s. by sail, and 17s. 6d. @35s. by steamer, per ton. For Havre, flour at 65@70c., gold, per bbl.; and wheat, 7½@8½ d. per bushel. Total number of vessels in port on Wednesday, 467.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending June 14, and since the beginning of the year:

	1869.	1870.
For the week	$4,353,482	$3,827,468
Previously reported	75,181,940	76,288,101
Since Jan. 1	$79,535,422	$80,115,569

The imports for the week ending June 11, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$1,146,426	$1,368,466
Gen. merchandise	4,479,424	3,417,005
Total for the week	$5,625,850	$4,785,471
Previously reported	140,338,004	130,402,543
Since January 1	$145,963,854	$135,188,014

The balance in the Sub-Treasury on Wednesday was $87,570,287 29.

Franklin Forge.

The owners and proprietors of the long established and well-known FRANKLIN FORGE, having concluded to retire from business, offer for sale the entire establishment on the corner of First-ave. and East Twenty-fifth st., N. Y. There are 6 LOTS fronting on the avenue and three on Twenty-fifth st., running through to Twenty-sixth st., making together one of the largest available pieces of property now in that section of the city. The tools embrace everything necessary to carry on the business of Forging and Finishing in all its branches, and capable of making and finishing Shafts, Cranks, etc., of the largest size, as they have done for the last 20 years. This being the only Forge in the city, offers superior inducements to any one wishing to engage in that business. The property will be sold entire or in separate parcels.

For particulars apply to the office of the FRANKLIN FORGE, corner First-ave. and East Twenty-fifth st.

TUGNOT, THOMPSON & CO.

☞ The attention of Railroad Companies and Car Builders is called to the advertisement of Messrs. GEO. W. READE & Co. This old established firm is prepared to supply all kinds of veneers for Railroad Companies and Car Builders.

☞ The completion of the Cherry Valley, Sharon and Albany railroad was celebrated by an excursion and barbacue on the 15th inst.

The New Railroad Bridge over the Connecticut River.

The new bridge constructed by the "New York and Boston Shore Line," over the Connecticut River at Lyme, was formally opened on the 11th inst. The entire length of the bridge is 1,130 feet. The substructure consists of fourteen column piers to support the stationary spans, besides the abutments at the shore ends, and eleven column piers to support the turn-table and draw, or swing span. Each column pier is formed by driving a number of piles in close proximity, covering in the aggregate an area of five feet square. The piles are firmly bolted together; iron cylinders, some seven or eight feet in diameter, are then let down in sections over the piles so as to completely surround them, and the space between the cylinder and piles is filled up with concrete. This portion of the work was done under the patent of S. B. Cushing, the engineer in charge of the substructure, assisted by Col. J. A. Monroe.

The stationary spans of the bridge are constructed upon the truss principle, of wood and iron, according to Howe's patent. The draw or swing span is constructed entirely of wrought iron, except the flooring, which is of wood. The draw turns upon a table of Seller's patent. It is 280 feet long, leaving ample room when open for the passage of the largest sized vessels. It is built on the old Pratt style, with some peculiarity in arrangement of the gallows-frame and cords, designed by the contractor, Mr. J. R. Smith, of Springfield. The draw is provided with friction rollers under the center and ends to facilitate the operation of turning it, which can easily be done by two men.

The anticipated strain upon the bridge is estimated at 2,500 pounds to the running foot, while the breaking weight is set down at five times the figures given. The cost of the bridge has been about $225,000.

Baltimore, Pittsburg and Western Railway.

The Toledo *Commercial* says that the certificate of incorporation of the Baltimore, Pittsburg and Western Railway Company has been filed at the Secretary of State's Office. The proposed road is to extend from the eastern line of Ohio, in Unity township, Columbiana county, to the western line of the State in Harrison township, Paulding county, passing through the counties of Columbiana, Mahoning, Portage, Summit, Medina, Lorain, Huron, Seneca, Hancock, Putnam and Paulding, via Salem and Akron. The capital stock is $3,000,000, in shares of $50. The corporators are Lewis Miller, Charles Brown, David L. King, Zadoc Street, Thos. C. Boone, Amos Rank, Samuel H. Bradley, Harrison G. Blake.

☞ The Superintendent of the New York and New Haven Railroad, in his Report to the Directors for the year ending March 31, 1870, says: "There were laid in main track about 2,750 tons steel rails, which completes the laying of about one-half the track with steel rails, with a heavy iron fish joint, called '*Pratt's Patent Compensating Fish Joint.*' There has not a single rail, steel or iron, broken in the track during the year." These Joints are manufactured by Messrs. VERREE & MITCHELL, No. 939 North Delaware Avenue, Philadelphia, Pa. See Advertisement.

☞ The Westchester *Record* says: "Mr. Wilson, with a corps of engineers, was engaged last week in surveying a railroad route from Westchester, to connect with the Reading and Wilmington road at Brandywine Creek. It was under the direction of the Westchester Railroad Company."

Journal of Railroad Law.

COMMON CARRIERS—LIABILITY OF LOSSES CAUSED BY COLD—WHEN CARRIERS RESPONSIBLE FOR LOSSES CAUSED BY ACT OF GOD—BURDEN OF PROOF—DEGREE OF CARE DETERMINED BY CHARACTER OF GOODS.

The facts of the recent case of Wolf *vs.* The American Express Company, (43 Mo., 421,) are clearly and fully stated in the following opinion by

WAGNER, J.—This was an action commenced by the plaintiff to recover damages sustained by reason of the freezing of his wine while in the charge and custody of the defendant. The facts are shortly these: The plaintiff delivered at New York, to defendent, a common carrier, a quantity of wine in casks and cases, to be transported and delivered to him at St. Louis. The wine arrived at East St. Louis on Saturday, the 31st day of December, 1863. At the time of its arrival the weather was severely cold, and on account of the ice floating in the river, it could not be ferried across and delivered to the plaintiff. Defendant had it taken from the cars and stored on a platform, where it was exposed to all the severity and inclemency of the weather from Saturday evening till the next Monday or Tuesday, and while it was lying in this situation it was badly frozen and greatly damaged in value. It is in evidence that wine properly stored or protected was not frozen or injured during the cold weather at that time. The only ground requiring any attention relied on to exonerate the defendant is that the cold weather which caused the freezing was the act of God, and therefore no liability resulted.

The liability of a common carrier has been often discussed and clearly defined. He is held to a very stringent responsibility. He is not only responsible for any loss or injury to the goods he carries which is caused by his negligence, but the law raises an absolute and conclusive presumption of negligence whenever the loss occurs from any other cause than "the act of God or the public enemy." Where no restriction is stipulated for, he is held liable as an insurer, and is responsible in that high degree of diligence commensurate with the duties he assumes. And his liabilities will extend to agencies which the violence of nature causes in consequence of his negligence or defective means. (Levering *et al. vs.* Union Transportation and Insurance Co.; 42 Mo., 88.) Prof. Parsons, in his work on contracts, says: "We take the true definition of the 'Act of God' to be a cause which operates without any aid or interference from man. For if the cause of loss was wholly human, or became destructive by human agency and co-operation, then the loss is to be ascribed to man, and not to God, and to the carrier's negligence; because it would be dangerous to the community to permit him to make a defence which might so frequently be false and fraudulent." (2 Pars. Cont. 159, 5th ed,)

The act of God which excuses the carrier must not only be the proximate cause of the loss, but the better opinion is that it must be the sole cause. And where the loss is caused by the act of God, if the negligence of the carrier mingles with it as an active and co-operative cause, he is still responsible. (Amies *vs.* Stevens, 1 Stra. 128; Williams *vs.* Branson, 1 Mur. 417.)

After the damages to the goods have been established, the burden lies upon the carrier to show that they were occasioned by the act or peril which the law recognizes as constituting an exemption, and then it is still competent for the owner to show that the injury might have been avoided by the exercise of reasonable skill and attention on the part of the persons employed in the conveyance of the goods. For then it is not to be deemed to be, in the sense of the law, such a loss as will exempt the carrier from liability, but rather as a loss occasioned by his negligence and inattention to duty. Therefore, although the loss occurs by the act of God or the public enimies, yet if it might have been avoided by skill and diligence at the time the carrier is liable. It is true that storms, thunder, lightning, and extreme cold, are all the acts of God, but when these occur, and they directly act upon the goods in course of conveyance, it will be no justification to the carrier if loss or injury happen through his carelessness, neglect, or failure to exert reasonable diligence for their safety and preservation. The cold weather was not the sole nor entirely the proximate cause of the injury which happened to the wine by means of freezing. Had not the negligence and inattention of the defendant co-operated with the cold, the loss would not have taken place, nor the damage occurred. The carrier must not only exercise diligence, but he must use that degree of attention and care which the occasion and subject committed to his trust demand. What would be sufficient care in case of ponderous articles, not liable to be deteriorated by exposure, might be the most palpable neglect in case of costly and perishable goods. His acts and exertions must be commensurate with his duties. If in consequence of his negligence or defective means, a loss occurs, springing out of the agencies which the violence of nature causes, he will not be excused.

I see nothing objectionable in the action of the Court in giving or refusing instructions. The question of negligence was fairly submitted to the jury, and, they having found for the plaintiff the judgment will be affirmed.

South Shore Railroad.

At an adjourned meeting of the stockholders of this company held in Boston on the 11th inst., the committee appointed at a previous meeting submitted their report, which gave a thorough statement of the condition and a calculation of the prospects of the road under independent management, and closed by recommending that the road be put into the hands of the Old Colony Railroad Company. The report was accepted, and by it stockholders can dispose of their stock at $11 per share to the Old Colony and Newport Company, with the privilege of taking half of their pay in stock of that company. The meeting also unanimously ratified the action of the directors in subscribing for $125,000 worth of stock in the Duxbury and Cohasset Railroad, and then dissolved.

☞ The contract for building two sections of the Midland Railroad, near Newark, N. J., and a bridge over the Passaic, at Woodside, have been awarded to Messrs. Backus, Sanford & Sandford, and Overton & Lewis, for $250,000.

☞ Peter Zinn has been elected President of the Covington and Lexington Railroad Company.

Northern Pacific Railroad.

The following is an official copy of Public Resolution No. 44, authorizing the Northern Pacific Railroad Company to issue its bonds for the construction of its road and to secure the same by mortgage, and for other purposes:

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Northern Pacific Railroad Company be, and hereby is, authorized to issue its bonds to aid in the construction and equipment of its road, and to secure the same by mortgage on its property and rights of property of all kinds and descriptions, real, personal, and mixed, including its franchise as a corporation; and, as proof and notice of its legal execution and effectual delivery, said mortgage shall be filed and recorded in the office of the Secretary of the Interior; and also to locate and construct, under the provisions and with the privileges, grants and duties provided for in its act of incorporation, its main road to some point in Puget Sound, via the Valley of the Columbia River, with the right to locate and construct its branch from some convenient point on its main trunk line across the Cascade Mountains to Puget Sound; and in the event of there not being in any State or Territory in which said main line or branch may be located, at the time of the final location thereof, the amount of lands per mile granted by Congress to said company, within the limits prescribed by its charter, then said company shall be entitled, under the direction of the Secretary of the Interior, to receive so many sections of land belonging to the United States, and designated by odd numbers, in such State or Territory, within ten miles on each side of said road beyond the limits prescribed in said charter, as will make up such deficiency, on said main line or branch, except mineral and other lands as excepted in the charter of said company of eighteen hundred and sixty-four, to the amount of the lands that have been granted, sold, reserved, occupied by homestead settlers, pre-empted, or otherwise disposed of subsequent to the passage of the Act of July two, eighteen hundred and sixty-four. And that twenty-five miles of said main line between its western terminus and the City of Portland, State of Oregon, shall be completed by the first day of January, Anno Domini eighteen hundred and seventy-two, and forty miles of the remaining portion thereof each year thereafter, until the whole shall be completed between said points: *Provided*, That all lands hereby granted to said company which shall not be sold or disposed of or remain subject to the mortgage by this act authorized, at the expiration of five years after the completion of the entire road, shall be subject to settlement and pre-emption like other lands at a price to be paid to said company not exceeding two dollars and fifty cents per acre; and if the mortgage hereby authorized shall at any time be enforced by foreclosure or other legal proceeding, or the mortgaged lands hereby granted, or any of them, be sold by the trustees to whom such mortgage may be executed, either at its maturity or for any failure or default of said company under the terms thereof, such lands shall be sold at public sale, at places within the States and Territories in which they shall be situated, after not less than sixty days' previous notice, in single sections or subdivisions thereof, to the highest and best bidder: *Provided further*, That in the construction of the said railroad, American iron or steel only shall be used, the same to be manufactured from American ores exclusively.

Section 2. *And be it further resolved*, That Congress may at any time alter or amend this joint resolution, having due regard to the rights of said company, and any other parties.

Approved May 31, 1870.

☞ E. Norton of Paducah, Ky., has been elected President of the Mississippi River railroad. He is also President of the Paducah and Gulf railroad.

Intercolonial Railway.

The Privy Council have confirmed the report of the Intercolonial Railway Commissioners on the following sections, and they are let as follows:—No. 3, T. H. Berlinquet & Co., Quebec, $462,444; No. 6, T. H. Berlinquet & Co., Quebec, $456,946; No. 4, Smith & Pefflado, Amherst, $438,325; No. 7, J. Simpson & Co., Londonderry, $557,750; No. 5, A. McDonnell, Hamilton, $533,000. New sections—No. 13, W. E. McDonald, Glencoe, $934,-933; No. 14, Nelson & McGaw, Belleville, $245,-475; No. 16, King & Gough, St. John, $206,000; No. 17, P. P. Tuck, St. John, $440,000; No. 18, R. H. McGreevy, Ottawa, $648,600; No. 19, P. P. Tuck, St. John, $395,733.

ORDINANCES OF THE CENTRAL PARK.

The Board of the Department of Public Parks do ordain as follows:

All persons are forbidden

Section 1. To enter or leave the Park except by the gateways.

Sec. 2. To climb or walk upon the wall.

Sec. 3. To turn cattle, horses, goats or swine into the Park.

Sec. 4. To carry firearms, or to throw stones or other missiles within it.

Sec. 5. To cut, break or in any way injure or deface the trees, shrubs, plants, turf or any of the buildings, fences, bridges or other constructions upon the Park.

Sec. 6. Or to converse with, or in any way hinder these engaged in its construction.

Sec. 7. Two pounds are hereby established within the Central Park, for the impounding of horses, cattle, sheep, goats, dogs, swine and geese, and other animals found trespassing upon said Park. All such animals found at large upon the Park may be taken by any person or persons, and driven or carried to one of the said pounds, and may be kept inclosed therein during five days, at the end of which time, if not previously claimed, they may be sold at public auction; provided that two days' previous notice of the sale thereof shall have been conspicuously posted at the pound.

The owner of any animal so impounded by virtue of the ordinances of the Central Park, may redeem the same before the day of sale, by the payment to the Treasurer of the Board as follows:

For each animal other than goats and geese, two dollars, and the expense of keeping.

For each goat, four dollars, and the expense of keeping.

For geese, twenty-five cents each, and the expense of keeping.

The expense of keeping shall be reckoned as follows:

For each horse, dog or head of neat stock, fifty cents per day.

For each goat, swine or sheep, twenty cents per day.

For each goose, five cents per day.

If, within one month after the sale of any impounded animal, their former owner shall appear and claim the same, the Treasurer shall, after deducting the full amount of the charges provided for, pay over to him the proceeds of their sale.

Sec. 8. No animal shall travel on any part of the Central Park, except upon the "ride," or equestrian road, at a rate exceeding seven miles per hour. Persons on horseback shall not travel on the "ride," or equestrian road, at a rate exceeding ten miles per hour.

Sec. 9. No vehicle shall be permitted on the "ride," or equestrian road, the same being devoted exclusively to equestrians; nor shall any vehicle, horse or animal of burden go upon any part of the Central Park except upon the "drive" and other carriage and transverse roads, and upon such places as are appropriated for carriages at rest.

Sec. 10. No animal or vehicle shall be permitted to stand upon the "drive" or carriage roads of the Central Park, or any part thereof, to the obstruction of the way, or to the inconvenience of travel, nor shall any person upon the Central Park solicit or invite passengers.

Sec. 11. No hackney-coach, carriage or other vehicle for hire shall stand upon any part of the Central Park for the purpose of taking in any other passengers or persons than those carried to the Park by said coach, carriage or vehicle.

Sec. 12. No person shall expose any article or thing for sale upon the Central Park, except previously licensed by the Board of the Department of Public Parks, nor shall any hawking or peddling be allowed on the Central Park.

Sec. 13. No omnibus or express wagon, with or without passengers, or any cart, dray, wagon, truck or other vehicle carrying goods, merchandise, manure, soil, or other article, or solely used for the carriage of goods, merchandise, manure, or other articles, shall be allowed to enter any part of the Central Park except upon the transverse roads.

Sec. 14. No threatening, abusive, insulting or indecent language, shall be allowed on the Central Park, whereby a breach of the peace may be occasioned.

Sec. 15. No person shall be allowed to tell fortunes or play at any game of chance at or with any table or instrument of gaming, nor to do any obscene or indecent act whatever on the Central Park.

Sec. 16. In case of an emergency, where life or property are endangered, all persons, if required so to do by the Superintendent or any of his assistants, shall remove from the portion of the Central Park specified by the Superintendent or his assistants, and remain off the same till permission is given to return.

Sec. 17. The Central Park shall be open daily to the public during the months of December, January and February, from 7 o'clock in the morning until 8 o'clock in the evening; during the months of March, April, May, October and November, from 6 o'clock in the morning until 9 o'clock in the evening; and during the months of June, July, August and September, from 5 o'clock in the morning until 11 o'clock in the evening.

Sec. 18. The Superintendent may direct that any of the entrances to the Park be closed at any time, and may, on special occasions, also direct that the Park, or any portion thereof, remain open at other times than those above specified.

Sec. 19. No person other than employes of the Board of the Department of the Public Parks shall enter or remain in the Central Park, except when it is open as above provided.

Sec. 20. No dog shall be allowed upon any portion of the Central Park, unless led by a chain or proper dog-string, not exceeding five feet in length, nor shall any person be allowed to lead any quadruped (except dogs) in the Central Park.

Sec. 21. No person, except in the employ of the Board of the Department of Public Works, shall bring upon the Central Park any tree, shrub, plant or flower, nor any newly plucked branch, or portion of a tree, shrub, plant or flower.

Sec. 22. No person shall bathe, or fish in, or go, or send any animal into any of the waters of the Park, nor disturb any of the fish, water-fowl, or other birds in the Park, nor throw, or place any article or thing in said waters.

Sec. 23. No person shall fire, discharge or set off in the Central Park, any rocket, cracker, torpedo, squib, balloon, snake, chaser, or double-header, nor any fire-works or thing under any other name composed of the same or similar material, or of the same or similar character, as the fire-works above specified.

Sec. 24. No person shall place or propel any invalid-chairs or perambulators up any portion of the Central Park, except upon the walks.

Sec. 25. No person shall post or otherwise affix any bill, notice, or other paper, upon any structure or thing within the Central Park, nor upon any of the gates or inclosures thereof.

Sec. 26. No person shall, without the consent of the President of the Board of the Department of Public Parks, play upon any musical instrument within the Central Park, nor shall any person take into or carry or display in the Central Park, any flag, banner, target or transparency.

Sec. 27. No military or target company, or civic or other procession shall be permitted to parade, drill, or perform upon the Central Park, any military or other evolutions or movements.

Sec. 28. No fire-engine, hook and-ladder, cart, hose, truck or other machine on wheels, commonly used for the extinguishing of fire, shall be allowed on any part of the Central Park, except the transverse roads, without the previous consent of the President of the Board of the Department of Public Parks.

Sec. 29. No funeral procession or hearse, or other vehicle or person carrying the body of a deceased person, shall be allowed on any part of the Central Park except upon the transverse roads.

Sec. 30. No person, except in the employ of the Board of the Department of Public Parks, shall light, make, or use any fire upon the Central Park.

Sec. 31. No person on foot shall go upon the grass, lawn, or turf of the Central Park, except when and where the word "common" is posted, indicating that persons are at liberty at that time and place to go on the grass.

Sec. 32. No person arrested in the Central Park for violating any ordinance or any regulation of the Board of the Department of Public Parks shall be conveyed before any Magistrate, nor shall any complaint be entered against any person until they shall have been brought before the Captain of the Central Park Police, or the chief officer in charge, and his approval of making such complaint first obtained by the officer making the arrest.

By order of the Department of Public Parks.

PETER B. SWEENY,
President of the Department of Public Parks.

Dated New York, May 26, 1870.

Flint and Pere Marquette Railroad.

The directors of the Flint and Pere Marquette railroad on the eastern shore, are pushing their work rapidly. The board have voted to put under contract another section of twenty miles, reaching to Hersey on the Muskegon river, at the crossing of the Grand Rapids and Indiana road, with a view to having it ready for iron in the summer of 1871. This will complete 120 miles from Flint or 137 miles from Holly. They also directed the Executive Committee to put under contract 20 miles of road from Ludington, on the Pere Marquette river, eastward, as soon as depot grounds shall be secured. Capt. E. B. Ward, of Detroit, is President of the company, and W. B. Sears Chief Engineer. The general office of the company is at East Saginaw, Mich.

Des Moines and McGregor Railroad.

At the annual meeting of the stockholders of this company on the 1st inst., a new board of directors was elected, and the following officers chosen: President, J. M. Woodbury, Marshalltown; Vice President, Wm. Larrabee, of Fayette county; Treasurer, G. W. Couch, of Blackhawk; Secretary, F. M. Mills, Des Moines. The Executive Committee were authorized after the conference with the directory of the Milwaukee and St. Paul railway, to make arrangements for commencing work on the northern portion of the line, anywhere on the route sufficient tax will be voted to authorize them to break the ground.

☞ The Green Bay *Advocate* says the surveying party under Chief Engineer Rice, have completed the preliminary survey for the G. B. and L. P. R'y, as far as New London, and find the route a very favorable one. The locating party will commence operations at once.

Northern Pacific Railroad.

The executive committee of the Northern Pacific Railroad Company have awarded the contract for the construction of the Minnesota Division of the road (230 miles in length, extending from the Dalles of the St. Louis River westward to the Red River of the North,) to a combination of the old Canadian firm of Ross, Payson & Co., with the Minnesota firm of Brackett, Morrison & Co. The entire work is to be completed by July 1, 1871. The committee have also contracted for 20,000 tons of rails with the iron appendages necessary, and the engines, cars, &c., required for the work.

☞ The Westchester, Penn., *Republican* says: "We are in possession of a rumor that the directors of the Pennsylvania Railroad Company are making efforts to get possession of the Westchester Railroad, and that indirect heavy purchases of stock and bonds have recently been made for them. It is said that the main trunk of the Pennsylvania road has become too much crowded near the city, and they desire the West chester road as a relief, and to that end it will be extended as far as Downingtown."

☞ A survey of an important railroad link connecting the towns of Peterboro' and Hillsboro,' N. H., is now being made. This connects the Hillsboro' road from Concord with the Peterboro' and Monadnock, and with the Fitchburg road at Winchendon, Mass., making the distance from Concord to New York some twenty-eight miles shorter than the existing routes. President Jonas Livingston, of the Monadnock road, says that the road will be put under contract within three months.

☞ The contract for the iron superstructure of the new Hudson River Bridge, at Albany, has been awarded to Kellogg, Clark & Co., Bridge Builders, of Phœnixville, Pa. The whole work will be completed during the season of 1871. Messrs. Brainard, Fenner & Ketchum, of Albany, have been awarded the contract for dredging for the new bridge, and Stephen Miles, of Greenbush, has the contract for driving the spiles.

☞ The Chicago and Northwestern Railroad Company have declared a dividend of 2 per cent. on the preferred stock, making, with the 5 per cent. in December last, 7 per cent. out the profits of the fiscal year of the company, ending 31st May ult. There will be no Summer dividend on the common stock.

☞ The Arkansas Western Railroad will run from Van Buren or Fort Smith, to the Missouri border, connecting with the Southwest Branch of the Pacific Railroad, now completed to Pierce City in Missouri, 27 miles from Springfield. By the 1st of July passenger trains will run from St. Louis to Pierce City.

☞ By a contract between the President of the Delaware and Hudson Canal Company and the President of the New York and Oswego Midland Railroad Company, the latter company transports from Sidney Plains, Delaware county, to the Lakes, and to Central and Northern New York, the coal of the former company.

☞ The preliminary survey of the railway from Woodstock, Vt., to River du Loup has been completed as far as Edmondstone. The report shows an easy route with few engineering difficulties.

Northern Pacific Railroad.

The grading, bridges, engine and station houses, &c., on the portion of this road in Minnesota between the Lake Superior and Mississippi Railroad and the Red River, the western boundary of Minnesota, a distance of 233 miles, has been let to a company of contractors mostly residents of Minnesota.

The iron rails and fixtures for this portion have also been contracted for, mostly with Pennsylvania manufacturers, and the work is to be commenced immediately and prosecuted to an early completion.

Upon the entire line just under contract but little rock is to be found, and timber of the best quality is abundant and convenient. The prices for the work are very reasonable, such as to bring the cost within the estimate of the Engineer.

☞ A meeting was recently held at New Holland, Lancaster county, Pa., to make arrangements for having a preliminary survey for extending the East Brandywine and Waynesburg Railroad from its present terminus at Waynesburg to New Holland. Books were opened and liberal subscription made. A competent engineer is to be engaged and a survey made immediately after harvest. New Holland is located in Lancaster county, about twelve miles from Waynesburg. The road would pass through a very fertile agricultural district.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

BRADY'S RAILROAD LANTERNS.

The strongest and best in use; are made principally of Malleable Iron. Here lies the secret of their strength, the frame being capable of supporting a weight of Four or Five Hundred Pounds; and yet they are little heavier than ordinary Lanterns. The guards are rivited through the top and bottom flanges, the rings wound with wire where they cross the guards, and the whole frame tinned, uniting each piece with the other, making it the *strongest* Lantern ever offered to the public. RAILROAD MEN *especially* cannot fail to see that it will be economy to purchase these Lanterns, as there is no part that can be broken with ordinary use, except the Globe, which being adjustable, is easily and cheaply replaced with any color and at a small cost; the greater weight being at the bottom, it cannot readily upset. Now used on the following Railroads: New York and New Haven; Hartford and New Haven; Shore Line, Conn.; Providence and Worcester; Boston and Maine; Conn. and Passumpsic Rivers; Fitchburg; Rensselaer and Saratoga; Troy and Boston; Boston and Providence; Boston, Clinton and Fitchburg; Charlotte, Columbia and Augusta; Connecticut River; European and North American; Hartford, Providence and Fishkill; Mobile and Ohio; Portland and Kennebec; Boston, Hartford and Erie; Worcester and Nashua; Lake Superior and Miss.; Hudson River, and many others.

The trade supplied from our Store, or from the Factory, New Britain, Conn,

$125 to $170.	**$60.**

according to location of berth.

These rates include berths, board and all necessaries for the trip.

Steamers of the above line leave Pier No. 42 North River, foot of Canal street, at 12 o'clock noon,

ON 5TH AND 21ST OF EACH MONTH,

except when those days fall on Sunday, then the day previous.

One hundred pounds baggage free to each adult. Medicine and attendance free.

June 21, HENRY CHAUNCEY, CAPT. MARUY, connecting with the COLORADO, CAPT. FARNSWORTH.

Steamer JAPAN, will leave San Francisco July 1, 1870, for China and Japan.

All freight for San Francisco will go as fast, and be received until 4 P. M. MONDAY, June 20. Freight for Central American and South Pacific ports will be received until 4 P. M. SATURDAY, June 18, only.

All the usual facilities afforded shippers in collecting inland charges, &c.

For freight or passage tickets and all further information apply at the Company's ticket office on the wharf, foot of Canal street. F. R. BABY, Agent.

ENVELOPES.

SAMUEL RAYNOR & CO.,
115 & 117 William street,
New York.

Manufacture every style of envelope, from the smallest drug size to the largest official; and any size, pattern, shape, or quality wanted for railroad companies, express and insurance companies, banks, bankers and brokers. All well made and gummed. Samples given when requested.

STAINED GLASS.
HENRY E. SHARP,
GLASS STAINER, EMBOSSER AND ENAMELER FOR
Car Builders and Railroad Companies,
147 & 149 E. 22d St., N. Y.

EDWARD W. SERRELL,
CIVIL ENGINEER,
64 & 66 BROADWAY,
NEW YORK CITY.
Railroads, Bridges, Explorations.

Particular attention given to the Examination of Public Works for Capitalists seeking Investments.

$18 IMPROVED WALTHAM WATCHES.

GET THE BEST, AND BUY WHERE YOU CAN BUY THE CHEAPEST.

Engineers, Railroad Men, Master Mechanics and Machinists, if you wish to obtain a genuine Waltham Watch, with all the late improvements, and run no risk whatever of not obtaining a reliable timekeeper, send for Descriptive **PRICE LIST**, giving full particulars of Watches, style and quality of cases, or call and examine. In Coin Silver Cases, **$18.** In 18k Gold Cases, **$80.** Ladies' Size, **$70.** Every Watch thoroughly examined and regulated, and if any one should prove imperfect, return it at once and we will correct or exchange it for one that is perfect, FREE OF CHARGE. H. O. FORD & CO.

Eight years with American Watch Company, 84 Tremont street, opposite Tremont House.

Watches sent to any address, and by selecting from Price List you can get as good a Watch as if selecting in person.

New York Saturday, June 25, 1870.

Little Rock, Pine Bluff and New Orleans Railroad.

This road, which is now in course of construction, runs through the prolific cotton region of the State of Arkansas, and will become one of the most important and profitable roads in the southwest. Penetrating a section of country thus favored, and primarily an outlet speedier and more certain than any other for the immense products of the valley of the Arkansas, this road is something more. Built as a levee, it will protect whole districts of country from inundation; at the same time, the continuous line of ditches, which are necessary to its construction, will serve to effectually drain and reclaim thousands of acres of the most valuable cotton lands—lands capable of producing a bale to the acre—thereby fitting them for settlement, by making them at once tillable and healthful. And further: intrenched behind the substantial barrier presented by a railroad embankment, the position of which is chosen in entire disregard of all petty local interests or preferences, and with a view to permanency alone—rendered doubly secure by a guaranty of constant watchfulness on the part of the Railroad Company—sentineled day and night by its employees—with the telegraph to warn of danger, and with every possible facility to instantly command and concentrate labor at the threatened point—so guarded and protected *in perpetuity*, the vast and fertile region above referred to, embraced within the richest counties must by reason of its more inviting soil and readier accessibility, largely out grow in population all other sections of the State; and with this growth of population, who can estimate the business which this great alluvial basin may send over the road?

Changeable Gauge Cars.

The Erie Railway Company, having a road of six feet gauge, have long suffered from the inconvenience of transhipping their freight to and from the Western railroads connecting with them, which have gauges varying from four feet eight inches to five feet and a half. This annoyance will soon be obviated by the recent invention of a car with shifting wheels, which can accommodate itself to roads of any of the five gauges existing in the United States A steel feather, one and a half inches in width, is inserted in a lateral groove in the axle, five-eights of an inch deep. This strengthens it, instead of weakening it. Notches are cut in this feather, in order that the wheels may be spread apart or moved nearer together.

In order to test the experiment, a car constructed in this manner was sent, a fortnight ago, over the various gauges between this city and San Francisco with perfect success. The construction of 1,000 freight cars of this description, and several passenger cars, has therefore been ordered.

The change in the position of the wheels of these cars will be created by running the cars for a short distance over a gradually contracting track at the station where the changes of gauge occur.—*N. Y. Standard.*

Portland, Saco and Portsmouth Railroad.

At the annual meeting of the stockholders of this company at Portsmouth, N. H., on the 6th inst., the following gentlemen were elected directors for the ensuing year; Ichabod Goodwin, Portsmouth; Charles E. Barrett, Portland; Stephen H. Bullard, Boston; John B. Brown, Portland; Nathaniel Hooper, Boston; S. Lothrop Thorndike, Boston; Asahel Huntington, Salem. It was voted by a large majority of the stockholders that the present contract with the Boston and Maine and Eastern Railroads, and Portland, Saco and Portsmouth road, be annulled, and the matter was left in the hands of the Directors to carry out the provisions of the vote.

Portland and Ogdensburg Railroad.

A letter to the Boston *Journal*, dated Portland, June 13th, says the contractors are fast pushing ahead the work of construction on this road. Two miles of track have been laid from Cumberland Mills toward Portland, and so straight is it that, standing on the western promenade in this city, the track can be seen distinctly for five miles without interruption. The Portland and Kennebec depot here will be used by the Portland and Ogdensburg until the new Union depot is built in the course of a few years. The bridges between here and Cumberland Mill are in a forward state of construction. Mr. John E. Donnell, one of the directors, who is in Europe, has purchased 2,000 tons of rails in South Staffordshire, which will be shipped at once. The Portland Rolling Mills are also busy at work on rails for this and other roads. A contract has been made with Osgood Bradley of Worcester for two first-class passenger cars, and they are now being built. The Portland Company here are building two first-class locomotives, forty platform and twenty box cars.

The improved Whitman sleeper is being laid on the Portland and Ogdensburg road, the improvement being in the insertion of a hard wood block in the soft wood tie, where the rail rests, thereby equalizing the wear of the whole sleeper, equal to 100 per cent. longer use, at a small cost.

The Otter Pond filling near Lake Sebago has been successfully accomplished, many more difficult places being met with on other roads in Maine, as in other States. The managers of the Portland and Ogdensburg are experienced men, and the work is therefore being well done.

☞ The St. Francis and Megantic International Railway Company was organized at Cookshire on the 26th May, with J. H. Pope, Esq., President, J. S. Sanborn, Vice President, and R. W. Heneker, Esq., Secretary and Treasurer. This proposed line will connect the Massawippi Valley and Grand Trunk roads with a line passing through Maine to the Lower Provinces, making the most direct route between Montreal and the West and Halifax, St. John and other Eastern points.

☞ Advices from the surveying expedition on the Isthmus of Darien to the 30th of May report no material progress in the work.

☞ The route of the Newark and Hudson Railroad which was chartered by the legislature New Jersey last winter is from the foot of Gouverneur street, Newark, directly to the Erie tunnel, and thence up the Hudson toward Hoboken. The corporators named in the act are: G. N. Abeel and Nehemiah Perry, of Newark; G. Delir and H. Holmes, of Belleville, and Job Hopper, of Paterson The corporators will soon meet to effect an organization and take measures for the construction of the road.

Chicago, Rock Island and Pacific Railroad.

The gross receipts of this company for the years ending March 31, 1869 and 1870, were as follows:

	1869.	1870.
From passengers	$1,292,604 84	$1,786,956 73
" freight	3,575,915 56	3,587,002 20

	2,066,951 57	
Leaving a balance of		$471,523 39
Add balance of income accou't March 31, 1869		1,597,244 02
Total, as in Balance Sheet		$2,068,767 41

There has been expended during the year an account of construction and equipment, as follows:

Land and land damages	$102,603 18
Equipments	835,075 31
Engineering and contingent expenses	11,377 61
Grading	478,267 82
Superstructure and bridging	299,787 57
Fencing	72,669 07
Station buildings, shop and fixtures	179,525 20
New shops, Chicago, including machinery and tools	78,534 40
Construction repairs	538,823 68
Total	$2,581,663 84

The leading items of expenditure for renewals of Track during the year, are as follows:

190,116 Ties	$103,876 84
2,924 Tons new iron rails	247,868 14
4,021 " rails re-rolled	141,073 77
1,419 " new steel rails	188,313 95
387,350 Lbs. spike	19,367 50
6,000 " screw spike	543 56
54,395 " steel fish bars	3,145 40
369,461 " iron fish bars	13,974 68
129,975 " bolts for fish bars	8,847 85
3,000 Pratt's Compensating fish joints	5,250 00

During the year 31.64 miles of track were relaid with new iron rails; 42.85 miles with re-rolled rails; and 15.72 miles with steel rails. Total steel rail now in use, 29.9 miles. The number of rails repaired at company's shops was 26,470, costing $17,987 59—an average of 67.96 cents for each rail repaired.

The Superintendent, in his report, says that "nothing has occurred since the date of the last annual report to change the opinion therein expressed of the economy and expediency of using Steel Rails, and contracts have been made for the delivery of 3,000 tons of English Bessemer Steel Rails and 100 tons of Booth's Steel Capped Rail, the coming season. This, with the worn out iron rails re rolled, it is anticipated will be sufficient to maintain the track in its present good condition, and fully meet the requirements arising from wear and depreciation." The average cost per ton in currency for steel rails has been $132 70; for new iron rails, $84 75; and for re-rolling iron rails, $35 07. The President, in his report, says:

Since the date of the last annual report your railroad was opened for business to the Missouri River at Council Bluffs, on the 7th day of June, 1869, as promised therein, and has been constantly operated since that time with a fair degree of success. The extreme wet summer and fall of 1869 has increased the expenses of keeping up the track on the new part of the road above what may be expected in the future.

The new bridge across the Mississippi River, the building of which is in charge of the United States, has progressed slowly, but it is expected that it will be completed within a year from this time. The company have not been required to expend any money in connection with it except for the purchase of property for right of way, (about $80,000), which has been charged to construction account.

The bonds of the Railroad Bridge Company, the payment of which were guaranteed by the Chicago and Rock Island Railroad Company, and by the Mississippi and Missouri Railroad Company, became due on the 10th of January last, and have been provided for entirely by this company.

By the terms of agreement between the two companies, the Miss. and Mo. R. R. Co. should have paid one-half the amount, and it is supposed that this company have a legal claim for that amount against the M. & M. R. R. Co., and if so, under the ruling of the Circuit Court of the United States in a case where that company was a party, it is believed that it may eventually be collected.

It will be seen by reference to the report of the General Superintendent, that there has been expended for construction and equipment during the year the sum of $2,581,663 84, the details of which are fully set out therein. It should be observed, however, that considerable of this sum is for work done and materials supplied prior to April 1st, 1869, which had not then been estimated and paid for. It will be perceived that a large increase of motive power and rolling stock has been made, both by purchase and construction in the company's shops, but still more is required, and the necessity for an increase will be constant with the increase of business. The company now operate 598¾ miles of road, and the tonnage is and will continue to be largely increasing from year to year.

The Superintendent states that the general condition of the motive power is materially improved, and the rolling stock fully maintained.

Ninety miles of track have been relaid during the past year. The company have about thirty miles of track laid with steel rails, and it is the intion to continue to add thereto. The opinion of the Superintendent in relation to the use of steel rails is fully endorsed by the Board of Directors from past experience.

LAND GRANT.

The Land Grant made by the United States and by the State of Iowa to the Mississippi and Missouri Railroad Company and to this company, has been all adjusted, except in one Land District in Iowa, of such lands as were acquired by Act of Congress of June, 1864, (estimated at 15,000 acres,) and it is expected by the Land Commissioner that this will be disposed of at the General Land Office very soon. That done (and there being the amount so estimated), the company will have obtined under the grants and purchase 552,649 acres to which the title is deemed clear from any difficulty. There is also about 50,000 acres known as "Rejected Swamp Selections," which have been certified by the United States, but there is a question as to whether the company can hold it. Most of the lands belonging to the company are in the counties west of Des Moines, and are generally of good quality. The completion of the road to Council Bluffs has made the lands accessible for settlement, and sales have been commenced. The policy of the company thus far has been to sell only to those who desired actually to settle upon and cultivate them. To such, inducements are offered by fair prices and liberal terms. There have been disposed of up to April 1st, 1870, about 14,600 acres, and sales since that time have been increasing.

CHICAGO AND SOUTHWESTERN RAILWAY.

Some two years since a project was started to build a railroad from Leavenworth, Kansas, in a northeast direction, to connect with the railroad of this Company at such point as might be deemed most desirable. A company was organized in Missouri, under the laws of that State, and one subsequently in Iowa, under its laws, which two companies were afterwards consolidated, in accordance with the laws of the two States. Work was commenced at the west end, and had progressed to a considerable extent before the consolidation. Application was then made to this Company to guarantee the bonds of the consolidated company to the extent of $20,000 per mile, and not to exceed $5,000,000, the proceeds of which it was alleged, with the stock subscriptions that would be obtained, would build a first class railroad and complete every part of it ready for the rolling stock. In June last several of the directors visited Leavenworth and made an examination into the matter, and subsequently the Chief Engineer of this Company made an examination of the country through which the line would pass. From those examinations and other information obtained, it was believed that there was no doubt that when the road was built and in operation it would certainly earn enough net to pay the interest upon the bonds as well as a fair sur-

plus, and that it would prove a valuable feeder to the road of this Company. It was finally decided to connect the road with that of this Company at Washington, the present terminus of the branch from Muscatine, making the line from Leavenworth to Washington about two hundred and fifty miles in length. Negotiations commenced and were continued until it was agreed that this Company would guarantee the bonds to the extent heretofore stated. At about the same time a contract was made by that Company, with responsible parties, for the construction of the entire line on such terms that no doubt existed of the ability of the Company to comply with its conditions, if the bonds could be sold and the money realized therefrom. The bonds were prepared, secured by a first mortgage upon all the property of the Company present and prospective, and were guaranteed by this Company. It is understood that nearly all the bonds are sold, and that there is no doubt of the Company's ability to comply with its contract for construction. From Leavenworth to Cameron, about fifty miles, the road is nearly completed. The remainder of the road is to be built from the east end. The grading to Fairfield, a distance of twenty-eight miles, is nearly completed, and work is going on west of Fairfield. It is expected that track-laying will immediately commence, and be pushed forward vigorously. The contract requires the completion of the entire line by November 1st, 1871, and it is the intention of the contractors to finish it before that time. All proper safeguards are inserted in the contract between the two companies to insure the application of the proceeds of the bonds so that the money shall be applied *pro rata* to each section of the entire line.

The bonds and proceeds thereof, are held by this Company, and only paid over upon the order of its President, upon satisfactory estimates of the work done and the location thereof. A sufficient amount is set aside to pay for the superstructure of the whole line. It is expected that this Company will equip and operate the road upon such terms as are just and equitable, to be agreed upon hereafter. There are proper clauses in the contract to ensure a running arrangement, by which the business of that line going east of Washington, shall pass over the line of this Company, whether or not it is operated by it. Other clauses there are and acts done by which for several years at least, this Company can easily insure itself that the contract shall be fully complied with. On the whole, it is believed by all the directors, that its construction and operation will add very largely to the earnings of your line, and no principle is better settled than that when a railroad will likely prove self-sustaining and be a valuable feeder to another railroad company, that company is perfectly justified in taking the risks of the guaranty to insure its construction.

ASSETS OF THE COMPANY WHICH DO NOT APPEAR IN THE TABLES ATTACHED TO THE REPORT.

Several years since, as a matter of policy, the Company purchased certain stocks and bonds of the Sterling and Rock Island and Warsaw and Rockford Railroad Companies, at a cost of about $170,000, which was paid from the earnings of this Company, and after a time, was charged to profit and loss account. This Property is worth now all its cost and probably more, and from present appearances will likely soon be disposed of.

There is also on the debit side of the balance sheet, "Securities in the hands of the Treasurer as Trustee, &c," $50,845 25, out of which are to be paid $14,000 income bonds, and "Sundry Balances," $7,122 82, and the balance, about $30,000, will go to profit and loss account.

There are also certain securities held by the Company, arising from items heretofore charged off to profit and loss, which are now valued at about $350,000; a portion of which are in Mississippi River Bridge bonds, bonds of this Company, and bonds and stock of the Peoria, Pekin and Jacksonville Railroad Company.

In addition to these items there is as before stated, about 552,000 acres of land. Taking these items together, it is believed that the Company has assets over and above what is shown by the tables attached hereto, from which will be realized at least four millions of dollars.

The Company has 133 locomotives—125 coal burners, and 8 wood burners. Twenty-four locomotives have been added by purchase, and two by construction in the company's shops; 56 have been overhauled and thoroughly repaired; 25 have had new boilers and fire boxes; 14, new steel tyres; 9, new tenders; 23, new tender-frames; 30, cabs; 83, smoke stacks; 11, driving axles; and 2, steel fire boxes; 110 pairs truck wheels and axles, 126 pairs tender wheels and axles, and 7 new cylinders have been fitted up and applied; 42 have been repainted and varnished, and 43 supplied with Patent Safety Valves.

The company own 10 sleeping and 52 day coaches; 3 railway post office, 23 baggage, mail and express, 260 stock, 1,695 box, 745 platform, 54 caboose, 2 pile driving, 1 wrecking, 1 pay, 40 gravel, 117 hand, and 152 truck cars. 252 freight cars have been purchased, and 7 sleeping coaches, 7 day coaches, 5 baggage and mail, and 108 freight cars built in company's shops; 55 trucks, 13 freight car bodies, and 81 car roofs have been rebuilt; 36 coaches and 15 freight cars have been repainted; 13 coaches new upholstered; 55 hand and 28 rubble cars for track repairs in addition to the new cars heretofore enumerated and the general car repairs.

The number of miles run by locomotives with passenger trains was 1,990,265; with construction trains, 365,231—total miles run, 3,227,404, at an average cost per mile run for repairs, oil, waste, fuel, and wages of engineers, firemen and wipers of 26 cents. Earnings per mile run by passenger trains, $2.21; by freight trains, $1.80. Expenses per mile run by all trains, $1.07.

The number of passengers transported during the year was 631,336, of which, 616,718 were first-class, and 14,618 second-class. Of the total number, 68,968 were through and 562,368 way; 303,161 going east, and 328,175 west. Number of passengers carried one mile, 44,017,275; equivalent to carrying each passenger 69.72 miles. Av. rate per passenger per mile, 4,059 cents.

The amount of freight transported during the year was 1,713,335,409 lbs.—an increase over the previous year of 99,759,793 lbs., or 49,879½ tons. Freight carried one mile, 130,683,871 tons; equivalent to moving each ton 152 miles. Av. earnings per ton per mile, 2.74 cents.

The number of pounds of freight transported over the Mississippi Bridge during the year was 572,947,774—an increase over the previous year of 35,206,927. The number of loaded cars passed over the bridge was 40,618. Number of foot passengers, 110,929. The number of steamers, barges and rafts passing the draw was 2,244.

There are now in use 11½ miles of second track, viz.: from Seneca to Marseilles, 4¾ miles; from De Pue to Bureau, 4¼; miles; and from Moline to Rock Island, 2½ miles. In addition to which, about 12 miles is mostly graded, and can be made ready for the superstructure at small expense.

The company own—from Chicago to Missouri River (Main Line) 498 miles; from Milton to Washington (Washington Branch) 50⅛ miles—total, 548⅛ miles; and lease Peoria and Bureau Valley Railroad, 46½ miles—making the total number of miles operated, 590. To which add 98 miles of side track; making of main line and sidings, 688 miles.

Canada Southern Railway.

At a meeting of the shareholders of this company at Niagara Falls, Canada, on the 17th inst., the following gentlemen were unanimously elected directors for the ensuing year: John F. Tracy, President of the Chicago, Rock Island and Pacific railroad; Wm. L. Scott, President of the Erie and Pittsburg Railroad Company; Sidney Dillon, contractor and director of the Union Pacific Company; Milton Courtright, director of Lake Shore, Rock Island and Union Pacific Railroad Companies; Daniel Drew, of New York; Wm. A. Thomson, President of the Erie and Niagara Railroad Company; Oliver S. Chapman, of New York; Benjamin F. Hall, of New Jersey, and Jerome W. Wetmore, of Erie, Pa.

☞ The Plover (Wis.) *Times* says that the road from Berlin to Plover is to be surveyed and located immediately. The engineers will be on the route next week, and the road will be completed at an early day. This road will form a junction at this place with the Green Bay and Lake Pepin Railroad.

☞ Mr. Edwin Stratton of Shelburne Falls has been appointed acting chief engineer of the the Boston, Barre and Gardner Railroad.

Lake Superior Copper Mines.

The Portage Lake *Mining Gazette* says that the closing of the copper mines of Lake Superior still continues. The Cliff, one of the oldest, finest, and most successful of the mines in the mineral range, suspends operations on July 1st., and the same step will soon be taken by such leading mines of its district as the Franklin, Pewabic, South Pewabic, Huron and Schoolcraft. The *Gazette* concedes that this course is the most judicious, and thus reviews "the situation":—

The production of copper, stimulated by the excessive demand during our protracted war, became too great for the consumption of the country in the time of peace. Government, instead of being a purchaser, not only withdrew from the market, but came into direct competition with the mines by disposing of old war materials, accoutrements, and old vessels broken up, which threw upon the market some 5000 tons of copper, in addition to the regular production of the mines. The result of this was the creation of a large surplus stock, which had the effect to depress prices and to limit the sale of copper to the actual consumption, which, by careful investigation, has been computed to be about 20,000 pounds per annum. It is estimated that the stock on hand in the market at this date is about 6,000,000 pounds, from which has been exported 3,500,000 pounds surplus against 10,000 pounds the year previous. The product of our mines last year was 23,483,-079 pounds ingot copper; the mines closed during the year, and those which will close by July 1, will make a production of about one-half of the amount they sent to market last year, say 2,771,000 pounds, while the Hecla and Calumet will produce 2,000,000 pounds more. From these data it may be fairly estimated that the whole product from our mines sent to market this year will not exceed 23,000,000 pounds; from Vermont, Tennessee and Baltimore smelt works, 6,000,000 pounds, which, with the surplus on hand, makes 31,500,000 pounds; government has no longer any old stock to throw upon the market; general business, after its long depression, may be expected to revive after Congress rises, and with its resumption an impetus to all manufacturing business, creating a more active demand for our staple, and with a product so near the actual consumption, it is difficult to conceive why the price should remain so much below the cost of importation, which, at the present low price abroad, and rate for gold, is about 24 cents. Nor can we understand why manufacturers are able to sustain a price of 31 to 33 cents per lb. for manufactured copper which costs them but 19½ cents per pound in the ingot, while the difference in England is put three cents per lb. Certainly the producers are entitled to a small proportion of these profits, and with the stoppage of so large a number of the leading mines, we trust the few who now control the copper market will have the will, as they have the power, to advance the price to an approximation to the cost of importation, and instead of allowing the manufacturer to make a profit of 64 per cent. let him be content with 33 per cent., at which rate our mines, with *strict economy*, could manage to live.

Cartersville and Van Wert Railroad.

The report of the President of this road, Hon. Mark A. Cooper, to the stockholders, shows that the enterprise is now in excellent condition, and the work progressing as rapidly as could be desired.

The track is laid from Cartersville to the Etowah river, four miles, and a construction train furnished by the State road runs to the latter point. The abutments of the bridges are in process of construction, and the frame work will be ready as soon as the abutments are completed.

The grading of the road has been nearly completed to the slate quarries at Van Wert, and depots selected at suitable points along the line. The right of way has been secured over the entire line with very slight exceptions, and the prospects of the road are brightening daily. New discoveries of slate and iron have been made along the line of the road, and the transportation of these will give a new impetus to the whole work.—*Augusta Chronicle.*

Pittsburg and Connellsville Railroad.

The earnings of this road for the fiscal years ending October 31, 1868 and 1869, were as follows:

	1868.	1869.
From passengers	$163,456 48	$166,675 75
" freights	337,621 19	430,016 88
" mail	3,650 00	3,650 00
" miscellaneous	3,898 25	8,576 06
	$508,625 92	$608,918 69
Expenses, viz.:		
Conducting transp	$80,113 16	$94,819 76
Rep'rs of motive power	104,950 34	116,708 03
Maintenance of cars	26,363 75	36,011 79
Maintenance of road	100,275 01	137,165 36
General expenses	16,858 29	16,860 03
	$327,560 55	$401,564 97
Leaving net earnings	$181,065 37	$207,353 72

Compared with the previous year, the gross earnings of 1869 show an increase of $100,292 77, with an increase in cost of maintenance and working the road of $74,404 42. The net earnings are about 34 per cent.; in 1868 they were 35.50; and in 1867, 34.73. The gross earnings are sub-divided as follows:

	1868.	1869.
That part between Pittsburg and Port Perry, 6.6 miles long	$128,909 48	$142,985 63
Between Port Perry and Connellsville, 47.8 miles long	350,784 17	434,824 69
The Fayette County Br., about 12 miles long	28,932 27	31,607 37
Total, as above	$508,625 92	$608,918 69

The net earnings have been appropriated approximately as follows:

On account new work on extension to Cumberland, not drawn from funds credited by sale of bonds	$16,384 33
Interest on real estate bonds, and improvements at Pittsburg upon Monongahela wharf property	8,502 58
Repairs and improvements of depot grounds and buildings, including new cattle yards at Uniontown, but exclusive of Pittsburg	11,222 43
Locomotive engines	29,252 68
Passenger and baggage cars	11,537 24
Freight and repair cars	14,673 41
Graduation—filling trestles	19,680 15
Masonry at Four Mile Run, Nine Mile Run, and Port Perry	13,035 17
Addition to machine shops	466 30
Shop machinery	2,988 34
New iron turntable, etc., at Connellsville	2,166 10
Insurance	1,532 48
Taxes to the U. S. Government	4,271 00
Taxes to State of Pennsylvania on tonnage and gross receipts, for two years, in part	14,643 38
Taxes to county, city and township	4,435 70
Rent of Fayette County road	9,000 00
Payments made during the year upon rolling mill property	15,000 00
Land at Uniontown for cattle yards	3,388 81
Other items and balances in hands of agents	25,173 62
	$207,353 72

The transportation of coal and coke has increased nearly 22 per cent. In flour, bacon, &c., a considerable increase; grain and grass seeds have about doubled. Manufactured iron, including steel and nails, has increased 25 per cent. Iron ore, pigs and blooms, 10 per cent. Groceries, 20 per cent. Live stock, over 12 per cent. Machinery, over 33 per cent. The increase in sand for glass manufacturing, building-stone and fire-clay is somewhat remarkable, being about 100 per cent., or about forty-five million pounds. This is in some measure due to the portion of new line opened above Connellsville, from which also is derived part of the increase in bark and lumber.

It has been the object of your Board to commence the task of putting the line between Pittsburg and Connellsville in such condition, that by the time the road shall have been completed to Cumberland, competition with opposing roads in speed and comfort may be fully and safely maintained.

In pursuing this object during the past year, the revenue of your road has been applied with strictest economy, and it is hoped, that by the 1st of January, 1871, the task will have been fully performed by the removal of all trestling, and substitution of earth embankments, and the rebuilding of such bridges as may be required.

LITIGATION.

The only suit of importance against the company, is that being pressed by the County of Alleghany, and which has lately been argued in the Supreme Court of this State. It is but just that a short history of this case be presented.

The County subscribed for $750,000 of your stock and paid therefor in its bonds, bearing interest. The company was also to pay interest upon its stock, and become endorser or guarantor for the County to the holder of these bonds.

In 1857, at a critical moment in our history, when a great financial panic prevailed, the County repudiated its bonds, injured its own credit, involved us in the disaster, and, putting a stop to our progress, prevented, by its own act, the possibility of our complying with the agreement. The holders of the bonds sued for interest, and obtained from the court confirmation of their claim. To satisfy this debt, by order of U. S. Court, the stock of the County was sold at Marshal's sale, and, upon mandate, transfer was made to the purchaser.

The County repudiated, also, the ownership of this stock, and denied the legality of its issue. Interest-bearing certificates are held by the purchasers.

For damages for non-compliance with this contract, you are sued by the County.

If the case has been clearly presented you may see that the County first prevents the fulfilment of our contract, and then sues for damages for its non-performance.

It is sought, also, to involve the company in a double liability for the interest upon the same debt; that is, upon the stock, to its holders, and, to the County, upon the bonds, which were paid for the stock. Other circumstances relative to this case can best be elsewhere presented, and may hereafter prove both necessary and interesting.

CONSTRUCTION.

The line is well manned, and construction is proceeding vigorously. Considerable difficulty was experienced in the earlier part of the year, from the inability of some of the contractors to proceed with their work. We have, however, replaced those who have to ally failed, and have assisted others in procuring laborers. The first two sections east of Connellsville have been completed, and revenue is being derived from their use.

The total number of bonds delivered has been 691, which at 90 per cent. amounts to	$621,900 00
Add amount received for interest	27,605 49
Making total	$649,505 49
Amount expended has been	363,581 81
Leaving a balance of	$285,923 68

in the hands of Baltimore and Ohio Railroad, for which we are receiving 6 per cent. interest.

In aid of the work the citizens of Baltimore have been most liberal. Thus far Pittsburg has done but little, although the recipient of all the benefits which have resulted from the road so far as completed. These benefits are neither few nor small. A glance at our analysis of the table of products brought into this city, and note of their character, will show that it is really more valuable to Pittsburg than any other of its roads.

That the citizens fully understand its value has been manifested by their hearty denunciations of the policy of a rival, which endeavored to prevent the building of this line. It is manifested daily by inquiries as to progress, and impatience at any appearance of delay. Yet of all the vast wealth of Pittsburg, a comparatively small amount has been invested in our bonds.

The security is admitted to be perfect, and the rate of interest entirely satisfactory.

There is perhaps no other city which would be thus apparently indifferent to an enterprise so vitally necessary to its welfare, and should there be any delay in completion from lack of funds, it may be attributed entirely to citizens of Pittsburg.

Your board desires now to establish the fact of this responsibility. The effort is again being made to obtain aid here, and it is hoped that better results will follow. The investment is not only safe, but remunerative, as we are for the present placing our first mortgage 7 per cent. bonds at 90 cents on a dollar.

It is but little to ask of those concerned, safely and profitably to aid in immediately and directly promoting their own interests. Next year will see the road built to Cumberland.

CONNECTIONS AND BRANCHES.

We are constantly asked if our plans and arrangements are perfected for connections north and west of Pittsburg. Favorable progress is being made, and will certainly produce satisfactory results, but negotiations are not sufficiently advanced to permit their being formally presented for your action. The enormous power and influence of the Baltimore and Ohio road is being silently but steadily exerted in this behalf.

In the language of President Garrett, it would be as effective to endeavor to stop the flow of Niagara as to hinder our making the connections desired at the proper time. The grades and terminal advantages of our line insure our being sought eagerly by western roads desiring the nearest and best access to the seaboard. The interests of vast and fertile regions, and of great and opulent cities, demand and will require the use of this most economically advantageous route.

We have located a line from the Monongahela to the Allegheny river.

The line called Baltimore, Pittsburg and Lake Erie Railway, has also been located by our engineers.

From Beaver through to Toledo and Chicago, the Baltimore, Pittsburg and Chicago line is now being examined, and the location will soon be made. This company has been organized, and has elected an efficient board, with Judge Welker at its head as President.

We have also made progress upon the Somerset Branch.

The line from Uniontown to Fairmont, upon the Baltimore and Ohio road, is also receiving attention.

That from Bridgeport to Bedford will be located during the winter or early spring.

The labors of the year have been arduous, and conducted amid much anxiety, but we can fairly offer and claim congratulations upon the favorable results which have followed.

The company have 15 locomotives, 15 passenger, 6 baggage, 37 house, 52 gondola and 26 dumping cars. Total number of miles run by trains, 425,841. Number of passengers carried, 462,124. Av. distance each passenger was carried, 10.6 miles; equivalent to 68,229 over the whole road, or 4,912,503 carried one mile. Number carried eastward, 282,698; do. westward, 179,426. Tons of freight carried, 518,879. Av. distance freight was carried, 31.57 miles, equivalent to 226,199 tons carried over the whole road, or 16,286,331 tons carried one mile. Tons carried eastward, 44,831; do. westward, 471,048.

Sec. and Treas.—JOHN H. PAGE, JR.

Chief Engineer.—BENJ. H. LATROBE.

Associate Engineer.—C. P. MANNING.

Wilmington and Reading R. R.

The formal opening of this road, connecting the cities above named by rail, took place on the 18th inst. As usual, upon such occasions, the event was celebrated by the officers of the road, city authorities and others, passing over the route on a tour of inspection and extending congratulations. The following facts in reference to the road are from the Pottsville *Miner's Journal*:

The Wilmington and Reading railroad, besides its important connections with Philadelphia and Reading at Birdsboro, and the Pennsylvania at Coatesville, connects also with the Baltimore Central at Chadd's Ford, on the Brandywine, and with the Philadelphia, Wilmington and Baltimore railroad at Wilmington. Its whole length from Wilmington to Birdsboro is sixty-three miles. It is substantially built and well ballasted. The grade from Birdsboro to Wilmington is a gradual descent all the way, with the exception of two places, where it was found necessary to ascend for a short distance. Extra locomotives will be kept at these places to assist down trains.

The total cost of the road thus far has been about $2,000,000. Stock to the extent of $800,000 has already been paid in, all by parties along the road. The whole bonded debt is $1,500,000. Most of this is on first mortgage, was all taken some time ago, and is now selling at 93 cents. The second mortgage bonds are bringing 82½. A sinking fund of $15,500 per annum has been provided for, which, with the interest accumulating, will be sufficient to extinguish all the first mortgage bonds, amounting to $1,250,000, by the time of their maturity in thirty years. The road has been open from Wilmington to Coatesville since January, and on this half of the whole route the receipts have been $10,000 per month. The Schuylkill coal trade must, of course, vastly swell the aggregate of receipts hereafter. The company estimate their earnings for the coming year as follows:

From anthracite coal	$198,428 00
" bituminous coal	23,500 00
" iron, crude and manufactured	43,450 00
" iron ore	45,000 00
" lumber and petroleum	33,512 50
" lime	35 258 60
" rolling mill and glass sand	6,650 00
" passengers	110,620 00
	$496,419 10

They allow sixty per cent. of the above sum to pay working expenses, which leaves a net revenue of $194,567 54. This sum, if realized, will be more than sufficient to pay the interest upon the bonds, and establish the sinking fund, and leave over ten per cent. to apply to a dividend on the stock.

The connections are all at grade except that at Coatesville, where the new road passes on a level seventy feet under the splendid viaduct of the Pennsylvania Railroad Company.

We can only glance at the history of the enterprise which involves a record of struggles and abortive efforts for more than twenty years past. Several different charters were obtained at various times, some of which have been amended, and in 1865 all were consolidated under the present name. Among the representative men of the enterprise, Edward Brooke, of Birdsboro; Hugh E. Steele, of Coatesville; Hon. Hiester Clymer, of Reading; Joshua T. Heald, Joseph Tatnall, Francis Barry, William S. Hilles, James Bradford and Edward Betts, of Wilmington, deserve prominent mention. Foremost among these, by common consent, has been Hugh E. Steele, now President of the Company. It is frankly admitted on all sides that but for his indomitable resolution and admirable tact, the road would never have been built. The following are the other officers of the company:

Directors.—George Brooke, Hiester Clymer, Charles Huston, C. E. Pennock, J. L. Pennock, S. B. Worth, Edward Betts, Joseph Tatnall, Irene DuPont, Victor DuPont, E. C. Stotsenburg, Charles Warner.

Secretary and *Treasurer.*—WILLIAM S. HILLES.

Chief Engineer.—J. DUTTON STEELE.

Superintendent.—J. CLEMSON SAARPLESS.

☞ George D. Roberts, of Pennsylvania, has been elected President of the Washington and Fredericksburg R. R. Co. "This manœuver," says the Baltimore *American*, "gives the Pennsylvania R. R. Co. the controlling interest in the two lines of road from Richmond to Baltimore, having already the supremacy in the Baltimore and Potomac road, thus affording them a southward outlet at the terminus of their great Western line.

☞ At the annual meeting of the New Hampshire Central R. R. Co., at Centre Harbor on the 31st ult., a board of directors was elected with Hon. O. F. Fowler as President, S. K. Mason clerk, and Cyrus Taylor Treasurer. This road is designed to run from the S tate line in Effingham to Danbury, making a through line to the West from Portland by way of Rutland.

☞ The work of grading the railroad between Williamstown, in Camden county, N. J., and Glassboro, has been commenced.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterisk* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, June 25, 1870.

Stock Exchange and Money Market.

The week's business in most lines has been comparatively moderate, and the demand for Money has been on a restricted scale, on the basis of 3@6 per cent. on call, and 5@7 per cent. per annum in the discount form. The offerings of capital have been unusually liberal, especially on private account. The city banks, in their last weekly statement, exhibited a further reduction of over two millions in their legal tender reserve, partly due to remittances to the interior, chiefly to move breadstuffs, with a loss of $766,438 of deposits, and $372,152 of specie. They added about $270,000 to their loan and discount average; and diminished their circulation $69,545. The U. S. Sub-Treasury reduced its currency balance, last week, about 1¼ millions, while adding nearly half a million to its specie hoard. The coin balances under the control of the Treasury Department on Monday were $109,767,595; and the currency reserves, $21,556,988. The banks, insurance companies, institutions for savings, trust and railroad companies are now making liberal interest and dividend announcements, payable in July.

The specie reserve of the city banks according to the latest return is $28,895,971, against $19,025,444 same time last year. The city bank deposits are now $219,932,852, against $186,144,110 week ending June 19, 1869. The legal tender reserve amounts to $58,120,211, against $49,612,488 same time last year. The circulation now stands at $33,072 643, against $24,198,829 same time last year. The loans are now $276,689,004, against $265,341,996 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged about $83,145,447 a day, against a daily average of $95,355,343 the preceding week, and $85 575,445 the week ending with June 4, 1870. The current weeks' exchanges average about 98½ millions a day. The city banks, last week, reported a loss of $372,152 of specie, $766,438 of deposits, and $2,038,959 of legal tender notes. They increased their loans, $269,428; and reduced their circulation, $69,545.

The city bank exchanges on Wednesday were about 80 millions.

National Bank notes to the amount of $244,158 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $325,337,324, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $26,034 342, leaving, with the existing 1,614 banks, (having an aggregate capital of $427,004,247,) an actual circulation at this date, of $299,302,982. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,273,050; and for the public deposits, $16,434,000—making a total of $358,707,050. The Treasury Department last week redeemed and destroyed $605,200 of worn and mutilated fractional currency, and issued $952,891 of new.

The U. S. Sub-Treasury receipts, week ending with June 18, were $3,213,414 in coin, (including $2,376,000 from customs duties,) and $5,820,201 in currency; payments, $2,806,839 in coin, (including $402,155 of coin interest,) and $7,079,225 in currency; balance at the close of the week, $88,287,680 (including $75,930,089, of coin, and $9,751,621 of currency,) against $87,923,661 at the close of the preceding week, showing an increase of $363,919. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $331,711 in coin, (including $294,224 from customs,) and $645,303 in currency; payments, $70,092 in coin, (including $44,268 of coin interest,) and $238,322 in currency. On Tuesday, receipts, $2,004,425 in coin (including $258,502 from customs), and $562,819 in currency; payments, $136,105 in coin (including $111,831 of coin interest) and $259,055 of currency. The balance at the close of business on Tuesday stood at $90,971,585, (including $10,462 367 of currency, and $78,160,029 of coin,) against $87,747,582 a week previous; and $88,166,814 on June 7, 1870. The aggregate receipts of the office in May were $63,496,243, including $11,985,468 from customs; aggregate payments, $67,207,341 including $16,919,624 of coin interest; balance at the close of the month, $84,520,151, against $88,231,250 at the close of April.

The U. S. Sub-Treasurer issued in May $5,409,500 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $2,023,949 of coin certificates, received for customs.

The U. S. Sub-Treasury general balance on Thursday morning was $89,911,941.

Government revenues have been yielding liberally, n the line of excises, though less satisfactorily in the customs form. The excises, during the week yielded $5,541,856; customs at the port of New York, $2,250,949, and at the outports about $765,000 (in coin) more, making the grand total income for the week equal to about $8,935,000 in currency. The receipts from excises, thus far in the current fiscal year, commencing with July 1, 1869, have been $175,643,883.

There has been but little spirit in the Gold speculation, and the range of the price has been from 112⅛@113⅜ leaving off on Wednesday at 112¼. The customs call has been light. The export drain, last week, was considerably under a million dollars. On Tuesday of the current week, the *Cimbria* took out $74,000 in specie. On Wednesday, the *Scotia* carried off for Liverpool, $211,000 in specie. On the same day, Government marketed a million of Gold at from 112 60@112 67. The bids reached an aggregate of about 2¾ millions. It was announced at the close that on Monday next, Government would commence disbursing the July coin interest on the public debt. This announcement tended to depress the price, and the market wound up quite heavily.

The coin balance of the Treasury Department on Monday was $109,767,595, including $34,094,000 on private deposit; currency balance, $21,556,988.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $76,751,814.

The customs demand for Gold last week, averaged $396,000 a day; thus far, this week, it has averaged $276,363 a day, or equal to a weekly aggregate of $1,658,178. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $27,713; and since Jan. 1, 1870, $7,016,220, against $8,904,140 same time in 1869. The total customs revenue of the Government, in coin, at this port, thus far in the current fiscal year, commencing with July 1, 1869, has been $130,840,303 against $121,768,418, in 1868–'69.

The customs revenue of the port on Wednesday was $360,000.

The customs revenue at the port of San Francisco, from Jan. 1 to June 12th, was $3,410,000, against $3,011,000 same time last year.

The exports of specie, from this port, last week, were $886,448 against $101,102 same week last year; total, since July 1, 1869, $31,839,108, against $35,093,853 same time preceding fiscal year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $402,155, and since July 1, 1869, $86,073,572 against $86,973,586 in 1868–'69.

The specie exports from San Francisco, from Jan. 1 to June 12th, were $15,916,000, against $15,608,000 same time last year.

The actual coin interest payments of the Sub-Treasury on Wednesday were $55,914.

Foreign Exchange has been quite moderately dealt in, and has shown less buoy ... as to rates. Bankers' sixty day bills on London closed on Wednesday at 109⅛@109¾, and on Paris to 5.20c. @5.15; sight bills on London to 110@110¼, and on Paris to 5.14½c.@5.12½. The offerings of produce bills have been moderate since our last. The week's exports of domestic produce have been to the currency value of $3,870,111, making the total since July 1, 1869, $194,591,256, against $163,828,934 same time preceding fiscal year.

Government securities have been generally well supported in price, on very light offerings, but the dealings have reached an unusually small daily average, and the market closed tamely, pending definite action on the funding and currency bills now before Congress. At the close, there was rather more demand noted for the Sixes 1881; the later 5-20s, and the currency Sixes, at the ruling figures,

U. S. sixes of 1881 closed here at 118⅛@118⅜; U. S. Five-twenties of 1862, 112@112⅛; U. S. Five-twenties of 1864 at 111¼@111⅛; U. S. Five-twenties of 1865 at 111⅜@111½; U.S. Five-twenties of 1865 consolidated, 113¾@113⅞; U. S. Five-twenties of 1867, 113⅞@114; U. S. Five-twenties of 1868, 113⅞@114; U. S. Ten-forties at 108¼@108½; U. S. Six per cent. currency bonds, 114¼@114½.

State bonds have been in fairly active demand at decidedly buoyant prices.

Railway bonds have been in fair request, including Central Pacific Sixes, which closed at 93⅛@93⅜. Union Pacific Sixes at 87⅜@87⅝.

Railway and miscellaneous share property has been moderately active but quoted, unsettled in price. The later dealings showed a depressed and yielding market.

At Frankfort on Wednesday U. S. Five Twenties closed at 96¼; and Central Pacific First Mortgage Bonds at 77½.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	June 8.	June 15.	June 22.
Consols	92¾	94⅞92⅞@92½	
U. S. 5-20's of 1862	89⅛	90¼	90
U. S. 5-20s, 1865	88⅞	88⅜	89⅜
" 1867	91	91⅛	88¾
" 10-40s	86½	87¼	87¾
Erie	18½	18¼	19½
Ill. Central	111½	114	113¼
At. and Gt. West	30	28	28½

There has been less animation in the line of domestic produce, and less buoyancy has been noted in values. The breadstuff movement has been less extensive. Middling upland cotton closed tamely on Wednesday at 21⅜ cts. per lb. The stock of cotton now here is given at about 45,000 bales. The receipts at the port this week, have averaged about 1,750 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,767,100 bales, against 2,012,375 bales in 1868–'9; exports, same time 2,050,300 bales, against 1,400,950 bales same time in 1868–'9; stock on hand at latest dates, 213,550 bales, against 88,500 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 7,551 pkgs., against 14,468 pkgs., same time in 1869. From Boston, 1,790 pkgs. in 1870, against 4,218 pkgs. same time in 1869.

At the Live Stock markets, this week, Beeves have been in less demand at from 10@16½c. per lb.; week's receipts, 8,185. Milch cows continue very quiet, at $40@$100 each, receipts, 103. Veal calves have been less active at from 6@11c. per lb.; receipts, 4,241. Sheep have been in limited request at from 4@7½c.; lambs at 8@13c. per lb.; receipts, 16,608. Swine dull at 9¼@9¾c. per lb., all live weight; receipts, 20,838.

Foreign goods have been in less general request at, however, about previous rates.

Ocean freight have been less active, and less firm. For Liverpool we we quote flour at 1s. by sail, and 1s. 3d.@1s. 6d. by steamer, per bbl.; grain at 4½d. by sail, and 4¾@5d. by steamer, per bushel; cotton at ⅛d.@$\frac{3}{16}$d. by sail and ¼d. by steamer per lb.; and heavy goods 12s. 6d.@25s. by sail, and 17s. 6d.@35s. by steamer, per ton. For Havre, flour at 65c., gold, per bbl.; and wheat, 8@8½d. per bushel. Total number of vessels in port on Wednesday, 451.
